Hello Steve:

While looking at my control console (my S-Meter) it be humming in here brother. Ten-4.

Radio/Computer check loud and clear.

Jay in the Great Mojave Desert, thats what the real estate guy said any way. He was supposed to be given me free tickets to the fair, still waitin. The Monster Truck show was a blast tho!

Kreediantials:
Not 2 many
Nwe Cobra 29 AM only radio, modified receiver to reduce bleed over, works ok.

There are no 'roos on Timor. There are however a significant number of
beautiful, willing, 18/19yr old Timorese rent-wives to be had for about $10
a month each.

Recall -- Firm Press Release
FDA posts press releases and other notices of recalls and market withdrawals from the firms involved as a service to consumers, the media, and other interested parties. FDA does not endorse either the product or the company.

Harry and David Issues Nationwide Allergy Alert on Undeclared Milk in Harry and David Chocolate Covered Select Blend Espresso Beans
Contact:
Mr. Bill Ihle
541 864-2145 (Media Calls Only)

FOR IMMEDIATE RELEASE -- April 4, 2008 -- Harry and David, of Medford, Oregon, is voluntarily recalling approximately 66,500 8 oz. bags of Harry and David Chocolate Covered Select Blend Espresso Beans because they may contain milk not declared on the ingredient statement. People who have an allergy or severe sensitivity to milk run the risk of serious or life-threatening allergic reaction if they consume this product.

The product was made by Sanders Candy Factory, Inc., Baldwin Park, CA. It was distributed throughout the United States under the Harry and David brand only in Harry and David stores.

Harry and David is recalling 8 oz. bags of Chocolate Covered Select Blend Espresso Beans with "Best if used by" dates after 8/28/05, sold prior to April 5th, 2008. The "Best if used by" date is located in the lower right hand corner of the nutrition label on the back of the bag. Bags subject to this recall do NOT have a "Contains milk, soy" statement on the nutrition label. These products are packaged in 8 oz. clear plastic bags, tied at the top with a tan ribbon.

There have been no illnesses or injuries reported to date. Anyone concerned about an illness/injury should contact a physician immediately.

This problem, which was discovered on April 3, 2008, occurred because the ingredient statement of the bulk product delivered to Harry and David by the manufacturer did not list milk as an ingredient.

Consumers with product may return it to any Harry and David retail store for a full refund. Consumers with questions about the recalled product may phone the Harry and David Customer Service division at 800-233-1101, 24 hours a day.

Hello Steve:

The old F250 4X4 Truck is still alive and well! "Keep on Trucking" I was told by my dear ol Dad. Meaning to not let anyone keep you down and one must keep on going no matter how rough it gets.

No the old Ford F250 still has 400 HP and doesn't mind having 70 dollars to fill er up. Its neat to have all the Horse Power but ya have to be careful as the drive train will be super expenso to fix.

I was just out putting in a 10/11 meter radio, a Magnum S9 in the truck as there seems to be a bunch of stations collecting on 28.385 USB locally here.

Since the FCC may not renew Woger's (AB8MQ) Ham license, he is taking bids
on his Ham Radio station.
If his application, under administrative review for six months now, is not
renewed, Woger plans to purchase FRS, MURS and CB radios with the proceeds.

Cash only. No trades.

Why? Because Woger is a law-abiding and good citizen, is why.
Far be it from Woger to EVER violate any law, especially the laws set forth
by the FCC.

If his license is not renewed, then it is probable that Woger will do the
honorable and honest thing. He will sell his equipment and cease his forays
into the licensed Amateur Radio bands.

I have a programmable shortwave radio that gets 11 meters (the CB Band).

I notice the CB band is pretty quiet these days.

What channel would you suggest I program in to pick up the most activity?

Years ago 10 & 16 (or was it 19?) were the busiest as they were trucker channels.

What channels are typically busiest?

Thanks!

Hello Radio Ron:

I am sure different locations have there own channels they talk on. CH
19 usually has truckers on it.

CH 38 and or 36 LSB has side branders on it usually.

Many CB'ers have Ham licenses and have phone privileges on 10 meters,
28.300 to 28.500 USB and have started to use these frequencies. As the
CB antennas will work somewhat on these 10 meter frequencies (they can
be easily modified to work on 10 meters) you will hear a lot of
activity when the skip is in.

Hope this helps, keep tuning in you will catch a few stations yep yapping.

Hello Steve:

Yeah I heard skip on the bands the other day but was too busy to tune around. I got a sneaking hunch that the skip will roll up and be here real heavy very soon. So keep the SSB radio tuned up, and your ears on.

That amp is a boomer 400 with power supply, so it has 4 x SD1446
transistors. Since those are designed for low-band VHF service, you're
probably 'safe' down to 20 meters. The main problem with frequencies
lower than 10 meters being increasing gain with decreasing frequency;
this often leads to oscillation.
Your biggest problem is that amp is not 'legal' for ham use on any
band, as it is suplied. It completely lacks any form of output
filtering, is carrier-keyed, and unless the base version differs from
the mobile is suitable for FM and CW use only as it is a class-c
circuit(notice that the bias voltage is shorted thru vk200 chokes to
ground at the bases of the '1446's. no dc bias equals class-c
operation. Uncle Charlie regards class-c operation of amps to be a
major sin when used with ssb/am signals).
As a side-note, the reason for band-switches on type-accepted solid-
state amps (the reasons for them in tube-type amps is similar, but
more complex) is to insure that the correct output filter for the band
in use is in-line. It may coincidentally adjust input sensitivity, but
drive-level adjustments are usually left in the hands of the operator
rather than using lossy and mismatch inducing 'pads'.

Next to nothing. Band is basically dead.

Have to go check the water level in the new inground pool. Nice...

He has not been convicted of any wrongdoing and thus must be considered
innocent of any and all allegations put forth by you and other Amateurs who
have a personal and vengeaful agenda.

Hi Jay,
Hey, if I get the new motor in the Bronco on time, I'll be heading down
to Fabulous Ford Forever at Knott's berry farm in 2 weeks. If you want
to see some awesome Ford product, that's the place to go, everything from
model T's to hot rods.

Most cheap SW radios don't have the sensitivity of any CB radio,
so you won't hear as well as a CB. Also, your antenna may not be
optimum for 11 meter receive. You can use anything to listen but
better results are obtained from a system resonant on your band
of interest. SWR is not important so listen. Resonance is.
If you want to hear locals, put your antenna up high.

It appears to be a two way duplex radio system that utilizes cell phone type transcievers. Basically, you have a repeater hub that you set up in a remote location and communicate using the handheld units, much like hams do on two meters, looks like a neat idea if it actually works.

However, the reason you have not seen these devices before is because they are not legal for use in the USA, especially on 450 mhz. The FCC is pretty good at detecting these kind of systems, and IMO if you put this device in use, you would get busted pretty quickly.

I would not waste my money unless you are going to take it for use outside of the US.

thanks, this could be good for the world traveler adventure type if you're going on an arctic expedition or african safari in a remote area. i wonder if this can be taken through customs at the airport without any problems. also i wonder where i could find out what countries this is ok to use.

Since the ebay auction indicates the county of origin was in the
middle east, I would have to guess that it may have been legal for use
in that part of the world. However, most if not every country has
their own telecommuniation authority like the FCC, so even though the
system was purchased in and may be legal in Kuwait, it may not be
legal for use in other countries such as Saudi Arabi. Iraq, ect. If
you plan to purchase the device it is best for you to determine where
you are going to use it, and contact the authorative body in charge of
communication matters in that country for information.

Usually, electronic devices must be declared and inspected when they
are brought in from another country and it depends on how savy the
inspector is, whether the device is confiscated for being illegal.

I suspect a returning U.S. solder from the middle east may have
smuggled this device in via a military transport and thus was not
inspected.

IMO, it is probably not worth the headache to deal with this thing
because if you have to take it out of the country, you may have to
explain to customs or a Homeland Security Inspector of how it got in
the U.S. in the first place, and may get confiscated anyway.

# 2006. DO I HAVE THIS STRAIGHT?

What is it about the following that approximately half the US population not understand?

DO I HAVE THIS STRAIGHT?

HIS FATHER WAS A KENYAN, MOSLEM, BLACK- WE HAVE SEEN PICTURES OF HIS AFRICAN "FAMILY"

HIS MOTHER IS A KANSAN, ATHEIST, WHITE- WHERE ARE THE PICTURES OF HIS KANSAN, WHITE MOTHER AND HIS WHITE GRANDPARENTS WHO RAISED HIM?

HIS FATHER DESERTED HIS MOTHER AND HIM WHEN HE WAS VERY YOUNG AND WENT BACK TO HIS FAMILY IN KENYA.

HIS MOTHER MARRIED AN INDONESIAN MOSLEM AND TOOK HIM TO JAKARTA WHERE HE WAS SCHOOLED IN A MOSLEM SCHOOL.

HIS MOTHER RETURNED TO HAWAII AND HE WAS RAISED BY HIS WHITE KANSAN GRANDPARENTS, HE LATER WENT TO THE BEST HIGH DOLLAR SCHOOLS, HOW?

HE LIVES IN A $1.4 MILLION DOLLAR HOUSE THAT HE ACQUIRED THROUGH A DEAL WITH A WEALTHY FUND RAISER. HOW?

HE "WORKED" AS A CIVIL RIGHTS ACTIVIST IN CHICAGO- HAS NEVER HELD A PRODUCTIVE JOB-NEVER RECEIVED A PAYCHECK FROM A BUSINESS WHICH WAS NOT GOVERNMENT FUNDED AND/OR TAXPAYER SUPPORTED. (THE PRESIDENCY IS NOT A CIVIL RIGHTS POST NOR IS IT SUBJECT TO AFFIRMATIVE ACTION SET ASIDES. ON-THE-JOB TRAINING WON'T CUT IT.)

HE ENTERED POLITICS AT THE STATE LEVEL AND THEN THE NATIONAL LEVEL WHERE HE HAS MINIMAL EXPERIENCE.

HE IS PROUD OF HIS "AFRICAN HERITAGE" BUT IT SEEMS THAT HIS ONLY AFRICAN CONNECTION WAS THAT HIS AFRICAN FATHER GOT A WHITE GIRL PREGNANT AND DESERTED HER. I DIDN'T KNOW THAT SPERM CARRIED A "CULTURAL" GENE. WHERE IS THE PRIDE IN HIS WHITE CULTURE?

HE GOES TO A "AFROCENTRIC" CHURCH THAT HATES WHITES, HATES JEWS, AND BLAMES AMERICA FOR ALL THE WORLD'S PERCEIVED FAULTS, INCLUDING "CREATING" AIDS TO INFLICT ON AFRICANS. HE THEN REPEATEDLY WHITEWASHES THE PASTOR, HIS CHURCH, AND THE MEMBERS WHO CHEERED AFTER HEARING THE PASTOR'S VITRIOLIC PULPIT TIRADES.

HE COULD NOT CONFRONT HIS PASTOR BUT HE WANTS US TO BELIEVE THAT HE CAN CONFRONT NORTH KOREA AND IRAN--RIGHT!!!

IN HIS BRIEF TIME IN THE SENATE HE HAS MANAGED TO AMASS THE NUMBER ONE ULTRA-LIBERAL VOTING RECORD OF THE HUNDRED MEMBERS, VOTING CONSISTENTLY FOR

BIGGER GOVERNMENT, HIGHER TAXES, BIG ENTITLEMENTS AND LEGISLATION WHICH WOULD SEVERELY CURTAIL AMERICA'S ABILITY TO FIGHT TERRORISM, PROTECT OUR BORDERS AND OUR NATIONAL INTERESTS AROUND THE WORLD.

BUT HE IS A GOOD ORATOR.

YEAH, I THINK I SEE HOW WELL HE COULD BE A UNITER AND BRING US TOGETHER. I THINK THE HOPE IS THAT HE HOPES NO ONE WILL PUT THE PIECES TOGETHER.

LADIES AND GENTLEMEN, LET ME INTRODUCE OUR NEW CHIEF PILOT. HE DOESN'T HAVE A PILOTS' LICENSE. HE'S NEVER FLOWN AN AIRPLANE. IN FACT HE'S NEVER EVEN SAT IN A COCKPIT, BUT HE'S RIDDEN ON THEM. WE'RE SURE HE WILL GUIDE US SAFELY THROUGH THE STORMS WE ARE ABOUT TO ENCOUNTER ON THIS FLIGHT.

I BOUGH AN 23 CHANNEL REALISTIC NAVAJO VINTAGE CB RADIO FROM THE THRIFT STORE. I HOOKEDYED UP TO THE ANTENNAE (THE KIND THAT YOU MOUNT ON YOU CAR, I THINK), AND IT SEEMS TO WORK OKAY, ALTHOUGH I CAN HEAR PEOPLE TALKING, NOBODY HAS ANSWER ME BACK YET.

UMMMMMMM THE SQUELCH BUTTON DOESN'T SEEM TO DO NOTHING BUT TURN THE CHANNEL "OFF"!

IT SEEM'S THAT TO HEAR ANYTHING I HALF TO HAVE THE SQUELCH TURNED ALL THE WAY DOWN ALL THE TIMES.

THANKS.

Are you sure they're cbers? ;)

Maybe someone tried converting it to a 10 meter ham radio.

As I understand it, that's the way most hams got on 10 meters back in
those days.

But don't try it now since it's illegal now.

Although some hams will try to tell you "it's legal because ham radios
don't need to be certified".

Oh yeah? Read the fcc rules. And some other hams said you can lose
your ham ticket for even having one let alone using it.

Since I'm not rich, I myself wanted to try converting a 11 meter cb
radio to 10 meter ham radio, but the fcc rules clearly show that's not
allowed anymore.

The reasons the FCC gave is that it's not a ham radio since it is
channelized and can easily be converted to use on 11 meters.
easily b
If you convert a 11 meter cb to 10 meter ham, what you now have is a
channelized 10 meter radio that can easily be converted to use on 11
meters, exactly what
the FCC says is NOT legal because it's NOT a ham radio (according to
the FCC) and therefore, not allowed to be used on the ham bands.
(according to the
FCC)

which proves that yes, ham radios do need to be certified to be used
on the ham bands in the U.S.

If they didn't need to be certified, then using a converted 11 meter
cb as aa ham radio on the ham bands with the appropriate ham ticket
would be legal, which it isn;t
according to the FCC rules.

# 2021. Do call "cq" on 2 meter repeaters

According to the hams at the arrl, proper ham procedure is to call cq
on 2 meter repeaters if you're using
irlp, echolink, or similar.

According to other hams, you should never ever call cq on 2 meter
repeaters no matter what, not even if you're
going through irlp or echolink because calling cq on 2 meter repeaters
is not proper ham procedure.

It's only for shortwave frequencies below 30 mhz.

Here is my experience:

Today, I decided to try out echolink from my computer at home.

I do not live in New York state. I decided to connect to a repeater in
New York City. I listened to the latter
advice above, and announced my call and "listening" instead of cq.

Then after listening for a while, I announced my call and "clear" as I
intended to disconnect.

Right before I disconnected, but after I already announced "clear", I
heard one of the hams say that was improper i.d. and that I should
have i.d.'ed by using "/portable" after my callsign.

The trouble with that is that I was NOT portable. I was stationary at
my home computer.

Hoowever, since I didn't call cq on the two meter repeater, he
mistakenly thought that I was physically in
New York city away from my home and id'ing improperly.

which I wasn't

Some of you might be thinking"that's what you get for using a computer
instead of a real radio"

However, I realized that this same problem can happen with a real
radio. Even if you're using IRLP (which
requires a real radio at both ends).

And yes I do have a real radio.

So I'm going to have to agree with the ARRL onn this particular
subject that proper procedure is to
call cq on 2 meter repeaters when going through irlp or echolink.

Cracker Barrel Issues Allergy Alert on Mislabeled Chocolate-Covered Peanuts and Almonds
Contact:
Julie Davis
615-443-9266

FOR IMMEDIATE RELEASE --Lebanon, TN -- April 9, 2008 --- Cracker Barrel Old Country Store, Inc. is recalling 5-ounce bags of chocolate-covered almonds and 5-ounce bags of chocolate double-dipped peanuts because the packaging is labeled incorrectly. The product labeled as containing chocolate-covered almonds may contain chocolate double-dipped peanuts and the product labeled as containing chocolate double-dipped peanuts may contain chocolate covered almonds. People who have an allergy or a severe sensitivity to peanuts or almonds run the risk of serious or life-threatening allergic reaction if they consume these products.

Products were available at all Cracker Barrel Old Country Store locations in 41 states. Products were packaged in a clear 5-ounce polybag with a red and white diamond pattern on the label.

No illnesses or allergic reactions have been reported to date. No other candies or packaged food items are a part of this recall, and there is no health risk for consumers who are not allergic to peanuts or almonds.

The recall was initiated after the issue was reported by Cracker Barrel store management upon receipt of the product. Subsequent investigation indicates the problem was caused by a temporary breakdown in the supplier's labeling and packaging processes. This labeling error was limited in scope and no other food products were involved.

Consumers who purchased these products are urged to return them to any Cracker Barrel location for a full refund. Consumers with questions about the recall should call Cracker Barrel at 800-333-9566.

TI have it on good authorioty that another dick head named Freddie
Wallace in the rocketry group was also shit out by his momma. Poor old

bitch died and Freddie Boi had a tought time dealing with losing the only real love he ever had besides his own right hand. Mom used to fuck and suck him allthe time, and when she died he continued to fuck that rotting corpse until it was just a grease stain on his living room floor. I hear he is finally getting aorund to "breaking in" that left hand now and he can switch hands almost as good as the other rocket group members.

Using CQ is ok when using voice or cw simplex on VHF/UHF, but on a repeater, it usually depends on where you live and the proceedures normally used in that area. Where I live, I have never heard anyone use CQ on a repeater system, and doing so here is considered a poor operating practice. Most folks just drop in their call and add "listening". The folks I hear using irlp or echolink, usually drop in their call and identify that they are using either "irlp or echolink" and state where they are located. Personally, I prefer not to use either or communicate with anyone coming in via the net, because IMO it is not ham radio. If you are using the net to facilitate the QSO, it just takes all the "ham" out of it, like shooting fish in a barrel. You might as well get on the telephone.

I had a conversation with a neighbor a few years back and we were discussing ham radio. He asked "why should I bother getting a ham license, I can get on the net and talk to people all over the world without a radio? My response to him was, "if you think that is all there is to ham radio, your are right, you should not get a ham license. He agreed and said his only interest would be in just talking to other people and "could care less about any of the technical stuff or why it works". I tend to think that for most of us being a ham (or for those who are into the CB) is not just about the QSO, it is the combination of experimentation and building our stations, what we can accomplish with a radio and a piece of wire, or a simple homebuilt antenna. The fact that we can send a full color high quality photos thousands of miles away with just a piece of wire, a computer, and a

transceiver. It is about the fun that we have with folks with the same interest that turn into new friends, most you would never meet if it was not for ham radio (or CB). But most important, let's not forget the pure magic of it, the mystique of it all. I still think it is pretty cool after 30 plus years of tinkering with radio.

Hello,

To answer your questions, some repeaters that have echolink, do
ask for people connecting to call CQ. For example, in japan there are
a number of repeaters tht ask echolink users to call CQ, there some
even here in the United States that ask for echolink users to call CQ,
my repeater being one of them. Now as for the portable thing, I would
of informed that individual that you were not portable and was coming
through the echolink. But calling CQ depends on what repeater you
connect to, some do want you to call CQ while others don't.

The only time I've ever heard someone call "CQ" on a local repeater was when that person was doing so to be humorous. It is simply NOT done, though not by any written rule that I know of.
Even when UHF/VHF band openings occur and when we can sometimes get into distant repeaters, even then I prefer to simply state my call and my location.
Echolink is another horse. Not to say that I am the end-all on this but when I access a repeater via Echolink I give my call, city of origin and mention "via Echolink".

I have, on occasion, heard Hams call CQ when using 2 meter sx on sideband during band openings and this seems to be more than acceptable.

Know what irks me most? When some newbie, usually a no-coder on a handi-talkie, chats on a local repeater and tells his buddy, "You're full-quieting here." Oh, DUH!

LOL. It seems that most of those "lack of experience and knowledge"
who say that are some of the ones who have been into it the longest.

Not everone who's been in it the longest, but some of them.

I even saw one poster comment that FM isn't real ham radio.

I guess that's probably from the days when ham radio was only cw and
am on shortwave.below 30 mhz.

It is not "would of", but "would have", Todd.

I have not the time to sort out which repeaters ask users to call CQ. That
cannot be seen when using Echolink. I don't care about your repeater.

I will STILL do this in the manner that I see as correct for everybody
listening. I will give my call, my city of origin and let the listeners know
that I am visiting their repeaters via Echolink.
This leaves no doubt to any who may be monitoring the repeater(s).
And, yes, I HAVE accessed a few repeaters in Japan and do it in the manner
described above. To date I have NEVER had anybody inform me that I am not
using proper portocol.

I've heard your childish rants, foul rants on 20 Meters, Todd, so for you to
posit what are and what are not good good operating procedural methods on
any Ham band is WAY out of your league.

Most posts I have seen made by hams agree with you that it's poor
operating practice. What I don't understand is why the organization
that
"represents most amateurs in the U.S." promotes as proper operating
procedure and good operating practicr that most amateurs in the U.S.
consider poor
operating practice.

After all, they seem to be claiming that they are representing what
most U.S. amateurs want.

I've also noticed several other discrepancies between what most
amateurs posts say and what the ARRL says, such as using "break" or
"break break".

Most posts I seen say not to use that on ham adio since on ham radio,
it means it's an emergency and is to only be used in emergencies.

However, according to the arrl study books, saying that is the proper
way to break into ham conversations when it's not an emergency,

It's standard proper operating procedure on ham radio according to the
arrl study books.

I personally think that some other things in the arrl study books
even contradicts their own selves!!!

 Most folks just drop in their call and add
> "listening".

The arrl study book agrees with that for local repeater chatter that's
not through irlp or echolink.

 The folks I hear using irlp or echolink, usually drop in
> their call and identify that they are using either "irlp or echolink"
> and state where they are located.

That seems good to me, although I suspect some people will think it's
too lengthy when cq would be much shorter.

The way I understood it was that the cq was to let the people on the distant repeater know that you're not currently physically in their location.

Which is why I think they suggested calling cq through irlp and echolink, and saying your callsign and "listening" if you're not going through those.

w
 Personally, I prefer not to use

I'll agree it's not real ham radio, but the same thing can be said about the fm repeaters linked by landline.

I just wanted to test it out plus it's the only way I can currently get on from inside my house until I can save up enough money for a handheld.

Since I decided to install my radio in my car instead of using it as a base.

He probably has a point. there's restrictions on ham radio where there isn't on the net.

He can't legally sing over ham radio, but can in chat rooms. Although I have personally heard some hams singing over the ham radio in the past (on my scanner).

He can't legally pass third party traffic to certain countries via ham radio, but can via chat rooms on the net.

So he doesn't have to worry about that restriction either.

and more.

Of course, if the power goes out.....

.
 I tend to think that for most of us being a ham (or

yes. I've basically always been interested in tv and radio and how
they work.

The fact that we can send a full color high quality photos
> thousands of miles away with just a piece of wire, a computer, and a
> transceiver.

That's one of the reasons I got into it. I'm interested in slow scan
tv and fast scan tv besides just fm voice.

And besides just using repeaters, I also want to do dx on simplex,

although I've already seen some hams say "if your signal is that weak,
then no one wants to hear your signal anyways" and suggesting to not
transmit if that's
what you're going to do!!!

I thought doing simplex dx was one of the maint things ham radio is
about.

At least all the magazines I read about it in the 70's and 80's
suggested that was one of the main things it was about.

Although I It is about the fun that we have with folks with the

I agree. I agree. And I do plan on using my radio more. The computer
just isn't quite the same, although I think there's a place for it
also.

Besides, I like to see how far I can reach with my radio.

I do like that irlp and echolink are now available. Although it
brings up a bunch of new questions,about proper operating procedures,
or at least new to me.

Although I might be wrong, it's my unserstanding that it's either

Actually, it's would've. Would've as an abbreviation for "would have"
is where the misinterpretation comes from since would've is pronounced
"would of"

And yes, I know I might have misspelled misinterpretation.

The message I wanted to reply to seems to have disappeared, so I'll
reply to it in this one. I would have told him I was using the
repeater echolink

except I had already announced clear and pushed the disconnect button.

Windows Vista on a laptop seems to take a while.

Another most comical thing I remember:

When a bunch of hams wanted to turn the guy who is constantly saying "alarm zone 1",, "alarm zone 2", "alarm zone 3" and "alarm zone four" on the Murs
channels into the FCC so that he would get fined and/or put in jail and/or get his radio equipment taken away from him for doing so since he was illegally
transmitting one way communications not directed to anyone which those particular hams considered intentional jamming of the freqquency even though no
one else was transmitting on frequency at the time nor even trying to.

the hams tried tracking him for months since the guy was doing it for months, but never could find him. The poor hams couldn't figure it out.

What they didn't know is the "guy" doing that wasn't a guy at all. It is an automatic announcement built into the MURS radios by a certain manufacturer.

And is completely legal since that is using MURS for one of it's intended purposes.

It's the tracking/security alarm Murs device that whenever a burglar or animal or someone walks by, starts saying "alarm zone one" or whatever number.

Absolutely hilarious. imo.

Telling someone, anybody, that they are "full quieting" on a local repeater who's antenna is 300 feet in the air with 300 watts out is plain stupid. Of course it is "full quieting".
I care not a whit what the ARRL "study book" says...I maintain that common sense should rule instead.
Good operating procedures go a long way...but you go ahead and read that "study book" and do what you will. Have you colored all the pictures yet?
I don't often use area repeaters, but the next time some Newbie on an HT tells me that I am "full quieting" into his HT via a 300 watt output repeater...well, I am not going to justify his comment with a response.
Again, it is, in my opinion, poor operating procecure to call CQ on a repeater, ANY repeater. Go ahead...do it if you wish. I think you will find that the folks who listen to that repeater will quickly brand you as an inexperienced Newbie and you will most likely get no response. Unless, of course, there is, like you, another inexperienced rookie listening.

that's what I thought also and was my idea also.

But then some hams argued that when operating echolink from your computer, you're not using a radio in your country, and that the other country's laws then
apply even though you are in your own country.

Other hams argues the opposite. That the rules in your home country still apply and not the other country's since you're still physically in your home country.

Both groups had good points. Which is why the issue is so confusing.

I had to think about it for a while, and there are still some confusing points left even after that, but after thinking about it,

If I'm using my home computer to transmit from a repeater in the UK and not transmitting any radio frequency in or from the U.S., how do FCC amateur radio rules apply
since there's not any radio transmitters transmitting from the U.S. in that case?

The FCC doesn't have any authority over UK repeaters. Which would be the only place I would be transmitting radio frequency from in that case.

Even though I would still be physically located in the U.S. at that time in that case.

So which country's rules apply? The U.S. or U.K.?

After all,, since I'm still physically in the U.S., the U.S. rules would seem to apply.

After all, all of the years I spent in school, I learned that the rules and laws of the country that you are currently physically located in are the ones that apply.

Some people say that's what happens when you allow access from a computer instead of keeping it strictly radio.

Agreed. At least IRLP requires a radio at both ends, but even that seems to have some confusing I.D. procedures.

Unless I misunderstood the I.D. procedures.

That's strange. I learned in school that there is such a word..

The teachers and textbooks said there is. And when learning about
contractions, we had to answer it was in order to get the answer
marked as correct.
Answering that it wasn't would get your answer marked as correct.".

And of course, the correct answers to "ain't" were the opposite of
"would've"

Since "ain't" isn't a proper contraction since "ain't" isn't a word.
Or so we were told in school.

So imagine my surprise when visiting out of state once and I saw
textbooks saying that "ain't" is a proper word!!!!

And saying ain't is a proper contraction!!!

And the English textbooks used there were even published by the same
publisher that published the English textbooks used in my schools!!!!!

So why the difference in what they said?

I have an idea of why now, but back then I was totally confused since
I was taught "ain't ain't a word"

Although you do now have me wanting to look in the dictionaries around
here to see if any of them list would've or not.

Look again. There is no "would've" in any common dictionary this side of
your parents' basement.
Had you any working knowledge of the proper use of the written word, you
"would have" known how to to present a proper spelling.
Despite how you pronounce it, "would of, could of, should of" is not getting
it.

Try "would have", "should have", or "could have".

Secret CB Channel ï¿½Xï¿½!: .... Code Name: ï¿½Straw Dispenserï¿½

A short story about CB antics, and such!

A few years back in the middle 1970ï¿½s when the CB Craze was in its peak, I lived in a small community, called Sunland & Tujunga, East of the San Fernando Valley, in Southern Ca. There were 4 to 5 different CB operator groups around. Everyone used the home channel (CH 15), but other channels were used as to not tie up the home channel. This worked out most of the time. But some of the CB groups wanted a channel that was Secret for them to exchange Secret CB Tactics, Secret CB Technical Stuff, Secret CB Technology, and Secret CB Gossip and such. So the first channels used were channel 22A and then 22B. A mistake. Everybody could at least receive channels 22A & 22B, or just hear the bleed over from channel 22 or 23.

So one day a tape recorded Secret CB radio conversation from channel 22A or 22B was played over the home channel. Interesting I thought. Then I herd a voice come over the radio speaker ï¿½OH YEAH, WEï¿½LL GO TO ANOTHER SECRET CB CHANNEL, THAT YOU GUYS WILL NEVER FIND!ï¿½.

The next day my good old Hallicrafters SX-25 all band HF, all tube, receiver is placed into service. I use 22 gauge enamel wire, (that is hard to see even when your close to it) to string up a bodacious wire, antenna. I put the small wire antenna up, on a Moonless night, as not to attract attention, with out my flashlight. The wife says I am acting like a child. Feed with small RG 174 coax. This antenna attracts no attention, from the other CB groups, who do a drive by, antenna site audit. I am ready for any Secret CB channel business.

So the these CB groups go down stairs (below channel 1) to 26.800 Mhz, which was do-able by swapping channel 23 transmit and receive crystals, in there sockets in a crystal controlled radio. Radio Shack had a clip board just behind the counter, that had all the special orders written on it, and we could easily see who ordered channel 23 crystals. We keep a note of whoï¿½s who. We ordered our channel 23 crystals from a Radio Shack out of town, to avoid detection from the other groups knowing that we could listen in on 26.800 also. And some of the guys in our group ordered custom made crystals for 26.800 Mhz from Jan Crystals, mail order.

The new synthesized crystal radios that were coming out, had to have the crystal soldered in and a switch installed on the radio to make 26.800 Mhz work. We were a slick group, or at least we thought so. Our group did not have a Secret CB Channel, because most of us had tunable general coverage HF receivers that could easily tune in all of

the competitions Secret CB Channels. So if we had this capability, so would the competition soon discover it, and the effort to have a Secret CB Channel would be in vain. Besides having a Secret CB Channel would rob us from having our groups Secret CB meetings at the local donut place. And the wives couldnï¿½t deny our ï¿½Secret CB Donut Meetingsï¿½. So our group held Secret CB Meetings at the local Donut Place, this location was not all that secret, but there were only five tables in the place so we could easily keep the place under close watch. We checked underneath the tables for recording devices. Then when we were satisfied that the coast was clear, Secret CB Tactics, and such were shared. When I would discover a new Secret CB Frequency or other tactical stuff, that the competition used for Secret CB Conversations, I only briefed internal people in our group who could use such information in a way to further our efforts, or guys I owed money to.

Then one day while our group of CB radio operators were in conference, having a donut and cup of coffee, at the local donut place. A gentlemen of the street comes in and starts talking to the Straw Dispenser. We are trying to figure out, what Secret CB Frequency if any we could use, to be able to communicate Secret CB Communications about Secret CB Tactics, Technology, and Gossip. Hmmmmmm..... what to do?????

Itï¿½s hard to concentrate with that guy talking to the Straw Dispenser all the time. I asked my fellow distinguished CB colleagues ï¿½ are you sure that guy ainï¿½t one of the other CB groups just posing as someone else?ï¿½ Hmmmm my answer is whispered ï¿½hard to tell with those guysï¿½. We are in deep thought, maybe the FM mode can be used in-between channel 3 and 4 and use low power so that we would not bleed over on a near by opposition CB group stations. Hmmmmm ... Naaah that wonï¿½t work. The gentlemen that was talking to the Straw Dispenser, is now raising his voice to the Straw Dispenser, maybe the Straw Dispenser said something wrong. Then it hits us like a high voltage arc arcing over and shocking ya, from a Big OL Linear. YEAH a channel or frequency that doesnï¿½t exist, a spoof, a none existent, channel or frequency, Yeah one we know for sure that no one has or can go to. The competition will half to admit defeat in not being able to receive us. Or if they say they received Secret CB Channel ï¿½Xï¿½ we KNOW that they are lying. Itï¿½s shear Guinness. What great tacticianï¿½s we are, we all have large Schchier Cat grins..... We buy the gentlemen of the street a cup of coffee and a couple of donuts, this saves the Straw Dispenser.

The Secret CB Channel X had to have a special aura to it, a mesquite, a sense of unattainable and out of reach fruit. This means we had to trick the competition into believing that Secret CB Channel ï¿½Xï¿½ really did exist, so that when they couldnï¿½t find it, they felt even more left out and helpless. What a great group we are. So the Secret CB Operation ï¿½Straw Dispenserï¿½ is initiated. Special antennas are installed on cars of the key members of our CB groups cars. During base to base CB communications between our group, a recording of a radio conversation is being played in the background of both stations. Itï¿½s a tape recording of a identical radio conversation, being played at the same time to give

the impression that both stations are monitoring the same frequency, from another radio in their radio shacks. This is done in a matter of one minute, so that the competition CB groups donï¿½t have enough time to verify the recordings herd in the background were faked radio traffic. Then to fuel the fire more, even more miss information is used, a couple of old Army tank radios are bought from the TRW swap meet. These things have 27 knobs, 13 levers, 9 push buttons, and 6 lights. There about a foot square and real heavy, anyone not familiar with these radios would think you could talk to submarines with them, but they were junk. Couldnï¿½t use any of the parts to make a linear. Our Secret CB field reconnaissance people verify that the competitions Secret CB field reconnaissance people where looking at the vehicles with the old W.W.II tank radioï¿½s in them.

We hear the other CB groups on their Secret frequency 26.800 Mhz talk about our group having a Secret CB frequency, and be on the look out for it. They also say that no matter what frequency we chose, they will able to monitor. Right they are, we have a voice operated tape recorder, that records all the days activities on Secret frequency 26.800 Mhz activity. So we can listen to all the goings on after work. Project Straw Dispenser Part I is now a success. We make the tactical decision ï¿½The Bait Has Been Takenï¿½. Time to initiate Straw Dispenser Part II, ....ï¿½Go to Channel X....ï¿½

Like a great orchestrated military attack, Secret CB Channel X is put into play. But first a Secret CB meeting is had at the local Donut place. I ordered a Strawberry Jelly Donut, and a cup of coffee. The enthusiasm is high, every one is cooperative, and not just arguing over who going to pay for all the donuts and coffee. Three members are designated as monitors, their job will to be scan and tune the frequencies for interception of the other CB groups off the normal CB channels, when Channel X is initiated. Another member of our group is designated to just tape record the other CB groups Secret frequency at 26.800 Mhz. Two others, will be the actual Secret Channel ï¿½Xï¿½ users. Watches are synchronized, game plans are reviewed and memorized. Just as a football team slaps each others hands in a victory celebration, we leave the donut place, one at a time, without any visible hoo-ra. Zero hour for Secret CB Channel ï¿½Xï¿½.......

We chose 6:30 PM to initiate Secret CB Channel ï¿½Xï¿½, this gives everybody time to get home from work, have dinner, and fire up the their CB radio. The local channel is moderately busy, a couple of truckers are herd in the back ground, then a few locals make a call, but quickly leave the channel. Then our two boys come on the local channel..... ï¿½This is Aaron mobiling out here in the valley calling the Hill, hello Daveï¿½ ..... Nothing herd. Again Aaron calls again. ï¿½ Hello Dave this is Aaron callingï¿½ .....ï¿½Hello Aaron got you weak and almost readable, go aheadï¿½..... ï¿½Okay Daveï¿½ The signal is weak and a little bleed over is now herd on the local channel. ï¿½Aaron if you can hear me ....GO TO CHANNEL X .....ï¿½ The local channel goes quiet, nothing is herd from Aaron or Dave. We know all the other CB groups are spinning their tuning

dials, and flipping switches, looking for the illusive Secret CB Channel ï¿½Xï¿½. But as we all know they wonï¿½t find it. After about 5 minuets Dave transmits on the local channel, and says ï¿½Okay Aaron head you loud and clear on Channel ï¿½Xï¿½. Aaron replies. ï¿½Ten-four Dave, channel ï¿½Xï¿½ is real quietï¿½ .... The local channel stays quiet for a few hours.
The next Saturday at the donut place channel ï¿½Xï¿½ activities are discussed.....

The activity on 26.800 Mhz is moderate. One CBï¿½er said he didnï¿½t hear anything. But weï¿½ll get them next time. Another station replies, ï¿½yeah weï¿½ll get them, Channel X indeedï¿½. On 27.875 Mhz, a station is herd saying ï¿½They must have been using Single Sidebandï¿½ On 26.875Mhz a station is herd saying ï¿½Iï¿½ll give you a land line, they must be higher than I can go.....Yeah 10-4 they must have a newer radioï¿½ So Secret Channel ï¿½Xï¿½ is a success. The tactic of spoof, ï¿½Secret Channel Xï¿½ is used only a couple of times over the years. Some CBï¿½ers figure it out, but most donï¿½t.

After a few days, other stations are herd saying their going to buy ham radio with a VFO on it.

After 35 plus years, I still get asked what frequency Secret CB Channel ï¿½Xï¿½ was on. I reply, ï¿½Secret CB Channel ï¿½Xï¿½ was a spoof, there was no frequencyï¿½. And some guys never believe the truth, they knew there was a illusive frequency somewhere that they couldnï¿½t get to.
Most of all us old time CBï¿½ers have ham licenseï¿½s now. We have a 2 meter simplex frequency that is made up of us old time CBï¿½ers, itï¿½s a blast. When someone is giving someone else a hard time, just in fun, they say they are going to Channel X. Some of the hams donï¿½t know what where talking about.

The moral of this story is: If ya canï¿½t always tune em in, no big deal.
73ï¿½s and good luck 2 ya.

Call signs and such have been omitted to protect the guilty,... the (SSSS) Seven Six Secret Service lives.....

interesting. Some nearly final points.

1. I agree with the person who said U.S. laws while in the U.S. Until this year that is what I have always heard and have always been taught from every source;
that the rules and laws which apply to you are the country that you are currently physically located in whenever the action takes place.

For example, making a landline telephone call from the U.S. to someone in Canada and saying something that's illegal to say in Canada, the U.S. rules apply
since you are physically in the U.S. instead of Canada at the time you make the telephone call.

So I would tthink that it would be the same using a radio to call from the U.S. to Canada, that U.S. rules apply.

Although some hams disagree with the above.

And of course, we dont want to offend the Canadians or any other country over the radio since one of the purposes of ham radio is to promote international
goodwill.

However, there's even places entirely withing the U.S. where what is a perfectly innocent and unoffensive in one area of the U.S. is cosidered very offensive in
another area ofthe U.S. And can even get you permanently locked up for life for comitting a very very serious crime that you never ever committed.

Just because the words mean different things in different areas of the U.S. than they do in other areas of the U.S.

Knowing that, I now try to go with the flow. Which means my my old English teachers are probably having hissy fits. ;)

2. When I was in school, the dictionaries we used didn't list any contracted words at all since they were contractions of two or more words instead of the
actual words theirselves.

According to the two dictionaries we have here, one didn't list "would've" at all, and also didnt list any other contraction, which is exactly what I expected to happen.

And the other English dictionary didn't even list "would" as a word!!!

According to that dictinary, even "would" itself is not a word!!!

3. What I have learned:

That I should have just memorized thr questions and answers at the back of the book instead of studying the whole book for the ham radio test. ;) Studying the whole
book was a big mistake since most ham radio operators disagree with a bunch of what the study books say are and are'nt proper operating procedures.

At least most posts I've seen everywhere on the internet seem to disagree with them.

In actual operating practice, I'll listen to see how other people around here do it , and try to follow accordingly when operating around here.

I agree with the person who basically said it's impossible to know the operating practices of the thousands of different repeaters around the world.

I have already gotten complaints from my neighbors about me following the instructions that came with my "mobile amateur radio", although the complaints
aren't about radio frequency interference.

I haven't even talked to anyone on it yet.

The insstructions that came with my mobile amateur radio said to not use it while mobile, only when stationary such as when parked in your driveway.

So I haven't talked on it while mobile yet, even though I've never had problems with any accidents while talking on a cb while mobile.

The instructions also said to not use it while the car is turned off. The instructions said to only use it while the engine is running.

So I obeyed and listened and used it parked in my driveway with the car engine running just like the radio's instructions said was the only proper way
to use it.

the neighbors complained about my car engine running.

However, they didn't complain to me about it. They complained to my parents and sister and brother-in-law about me doing that.

And I heard about it from them.

In order to be a good neighbor, I now disobey the radio's instruction book rules and make sure my car is turned off and not running while using the radio

Unless Im mobile.

Both exactly what the radio's instruction book says NOT to ever do.

In my opinion, the neighbors had a good reason for complaining about the car engine noise.

No, my car's not a lemon. It runs perfectly fine and doesn't make any more noise than any other car.

4. I'm looking forward to talking to people in different states and countries on the radio. That was the main purpose of ham radio when I was growing up or at least
was what ham radio promoted as it's main purpose when I was growing up.

While promoting electronics experimentation as it's secondary purpose.

I'm interested in both, anyways.

I'm not quite sure how it got twisted around today to 'emergency servvicers" as being it's only primary purpose with anyone who uses it to talk about technical radio things being lids who arent using it for it's intended purpose of keeping all frequencieds constantly quiet unless you have an emergency.

yes, the rules were always that you had to give any emergency communication priority. but as I remember, that was never listed as the primary purpose of ham
radio in the past. Even on CB, you have to give priority to any emergency communications. Does that make cb's primary purpose only for emergency communications and nothing else?

As I remember it, from the radio magazines I used to read, the reason the "recognition" of the emergency services on amateur radio was added by hams who
wanted the FCC to recognize that they provide emergency services. Which was and is a good idea.

But it seems to have somehow got twisted around over the years from referring to what the FCC must do to meaning what hams must do.

Unless all of those radio magazines were wrong, very unlikely imo.

In legal circles, even the words "libel" and "slander" somehow got twisted around from meaning "any negative statement that isnt true" to meaning "any negative
statement period".

In the past, I always learned from all sourcers that if a negative statement was true, then it is not libel and not slander.

I don't know how it got twisted around to it is. Given what I noticed recently, I suspect the big companies and corporations were somehow behind getting it's
meaning legally twisted around.

Of course priority should always be given to emergency communications,
and I will if any come up, but since ham radio presented itself as
primary purposes
being social, dx, and radio experimentation when I was growing up,
thats what it will always be to me.

And no it wasn't from growing up hearing these newcomers promote the
wrong things of social, dx, and radio eperimentation instead of the
proper way of keeping
all channels constantly quiet unless its an emergency communication.

I grew up at a time when most of the hams writing the articles
promoting ham radio as primarily first and foremost social,dx, and
radio experimentaion were the original hams or people who
were at least elmered by the original hams, depending on the person's
age and how long he was a ham.

Yes, I know some things change over the years, but twisting things
around completely is a different story altogether.

If that had been done in the past, we probably wouldnt even know today
that the shortwave frequencies are good for long distance
communications.

Everyone would still think the frequencies are useless.

Well, there is at least one Canadian who is anti-RH, although I
wouldn't call him anti-American.

Even though he does seem to have the impression that the U.S. is
violating the amateur radio requirement to "promote international
goodwill" by just having
RH as head of the FCC.

Im not sure how many other foreigners do and dont feel the same way as
that particular Canadian.

Or even how many Americans do and sont feel the same way as that
particular Canadian.

I'm not agreeing or disagreeing.

It's probably not that. Until last year or this year, for decades 2
meters has been very active around here. Now I hear almost nothing.

Either most of them went all digital (very unlikely imo. I don't even
hear digital noise)

or they all died off at the exact same time last year or this year.

Seriously, for whatever reason, 2 meter ham radio seems to be just
about dead here now, which is near a major city.

So he could cause more trouble for more people by buying frs, murs,
and cb than by transmitting illegally on 2 meters.

I'm not saying he is or isn't that kind of person or would or wouldn't
do such a thing since I don't know him and haven't seen his posts yet.

vhf/uhf ham radio being almost dead here now (but not quite buried
yet) is one reason that I think currently having irlp and echolink and
such is a good idea.

Even if echolink isn't quite "real radio".

One of the requirements of amateur radio is to advance the art of
radio.

I've noticed that separate technologies seem to naturally merge
together over time.

So now that I think about it, it was only natural that ham radio and the internet might eventually merge together in some way.

There used to be a couple of cb repair shops in the Patchogue area but I didn't see any listing for them in the yellow pages. If you find one please post it here. Otherwise Radio Shack still sells rigs.

The ARRL somtimes tries to be everything to everybody and fails. The

Most folks will know that anyway, as most local ops who have an
interest in irlp and echolink know which machines are connected to the
net, and those who have no interest in irlp and echolink will usually
avoid those machines.

The point was he is not "ham" material, he was just looking for
another medium to talk through. Like some guy who has his whole
family get their tech tickets just because they are too cheap to buy
cell service. Usually those folks don't last too long and after ten
years the licenses get cancelled.

I would not worry about siganl strength unless your are talking about

Well you can ony do that with your radio and an antenna, repeaters and

IF what people say about him on this newsgroup is true, then the FCC
should have gave him the call letters KB9QRZ

instead of KB9RQZ

Oh wait, maybe they did and just made a typo. ;)

When was the last time the FCC popped someone for exceeding 150 miles on 11 meters? They haven't done it in N Central Ohio that I can ever recall, and ham radio still exists here too.

true, but from what I read, that was the reason the ARRL was opposed
to the elimination of the distance rule for cb.

They thought that no one would get into ham radio if the distance rule
for cb was eliminated. Since they could then do on cb the exact same
thing they would
otherwise be doing on ham radio.

Other countries dont even have that distanced rule for their cb
service and some people in those countries still get into ham tadio.

I personally think the ARRL was completely wrong on that.

Even if the cb distance rule is eliminated, which I think it should
be, there's still plenty of things left you can do on ham radio that
you can't legally do on cb.

They knew better than that, the propagation alone would rule that out until
10 meters opened up again. I believe most of those old tired dogs have
either died or got over that by now. If they haven't yet, they should.

www.nimbusters.org

The Nim board is a rather free-wheeling board where folks go to leave comments and verbally attack one another. In Roger and Mark's cases, the two of them flame the board with silly one-liners. It is a hoot. Mark can't spell for diddly, and Roger can't write anything more creative than his usual sophomoric filth. Both hang out in the Ham Radio section, which was made especially for Hams by the administrator of the board. And like everything else those two touch, they quickly turned the board into a sewer. Since Mark has been banned from posting in the QRZ forums and others, the Nim board was his last bastion. The administrator of the board took it down a few days ago, but it seems that he put it back up again. Check it out. You can easily pick Mark's posts out...they are the one-liners with poor spelling. Dittos for Roger's posts...they are the filthiest ones on the board and poor Roger is still fixated on Lloyd Davies.

No it was directed to "Radio Guy"

Try to follow the conversation once and a while.

Now you are seeing why Mark is so unpopular. He feels that each and every
post is directed at him and he has a strange compulsion to respond to all.
Then, when all else fails, he wrongfully accuses the commentor of "staking"
(Mark's spelling) or Libel or whatever other goofy accusation he can come up
with.
It is because of these strangely odd characteristics that Mr. Heil likened
Mark to a Myna bird, a rather appropriate description if ever there was one.

And you and Mark think you are collectively going to "take this group

You two freaks????

Fat chance of that ever happening.

By the way, Toddie. I have a very nice recording of you losing it on 20
meters. Aside from your cussing, your shrill, effeminate voice only served
to affirm that you are what you are. An immature psycho throwing a childish
temper tantrum.
Tell us, Todd. Were you thrashing about on the floor, kicking your little
footsies up and down and banging your teensy head on the carpet while you
wailed at the 20 Meter bullies for ignoring you?
You sounded like a ten year old girl.

UH stupid!! it's not kiddy porn, according to the courts and the
law....by you are SOOOOOO stupid.....you can't get that through your
pea brain....what a fucking moron HAHAHAHAHAHAHAHAHAHHAHAHA

TODD N9OGL
.....
No matter how you color the picture, legal or not, kiddie porn is still
kiddie porn, you sick punk.

I see you had no answer for your sillly hissy fit on 20 meters. But of
course you were wrong, as usual.

Now go back to watching your sick little kiddie porn cartoons. Be sure to wipe your sticky little fingers clean before using your keyboard, Todd. I see that your DNA encrusted keyboard types in caps only...

Funny. Just HOW do you propose to "sue" your town? With what money? Your parents?

You will have to obtain the services of an attorney first, and it is unlikely that your part-time job as a floor sweeper at Wal-Mart will suffice.

But, hey. Stranger things have happened. Maybe you can find one of those "Pro Boner" lawyers who also likes kiddie porn and who will take your case in exchange for some of your kiddie porn collections.

But then, Todd, the "little town" lawyers will probably point out that you are stealing Wi-Fi and have a severe mental problem. Ergo your lawsuit will go nowhere but the trash can.

I actually feel sorry for you, Todd. You could better serve your purposes by staying off this newsgroup. You are only making a further fool of yourself and, in the process, are providing the rest of us with proof positive that you are highly unstable. But, what the heck. We all need someone to laugh at...

YOU NEED TO STOP BEING MARK'S LITTLE CUNT
BWAHAHAHAHAHAHAHAHHAHAHAHAHAHAHAHAHHAHA FUCKING LOSER!!

TODD N9OGL

.....

Whereas you need to stop being a little cunt altogether.

I can understand your anger, Todd. That little male member you were born with must be an ongoing embarassment to you. But of course no woman has seen that little thing since your mom bathed you last month.

I think I might suggest to Roger that he send snail mail to your neighbors and see if they are aware that you are stealing their Wi-Fi. You claim that they have OK'd it, but that is your spin. My guess is that you are stealing their bandwidth at night when they are asleep and they are not aware of your theft of service.

I see that your keyboard is still stuck on Cap letters only. I would kindly suggest that you clean some of your DNA goo from under the keys. Or get a new keyboard to "sticky up".

Nope...this is not from Todd. This is from Roger. Typical lack of
originality and rife with Roger filth.

Heck, I fell for it for a minute or two...then Roger injected his usual
stupidity...

## 2115. Slow Night For Roger

It must be a slow night for Roger. His blowup dolls must have been all used up and deflated.
It is too late for him to go to Ohio for some tire patches, so he will have to take his sexual frustrations out on Usenet.

Take heart, Roger. Spring Break will be over in a few days and your area playground will soon be once again filled with new prospects.

Synopsis:
Hercules Tire is recalling 2,005 Load Range E tires, size LT265/75R16, produced between December 2, 2007 and January 12, 2008. These tires fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 139, "New Pneumatic Radial Tires for Light Vehicles." After testing, a bulge can occur in the lower sidewall on the white sidewall side which indicates the existence of a separation between two lower sidewall components. This condition could result in a vehicle crash. Hercules Tire is working with Cooper Tire to notify owners. The affected tires will be replaced free of charge. The recall is expected to begin during April 2008. Owners may contact Cooper Tire Customer Relations toll-free at 800-854-6288 or Hercules Tire's Consumer Relations Department at 800-677-9535.

FDA News
FOR IMMEDIATE RELEASE
April 12, 2008
Media Inquiries:
Michael Herndon, 301-827-6242
Consumer Inquiries:
888-INFO-FDA

Salmonella Illnesses in Multiple States may be Linked to Recently Recalled Cereal
The Food and Drug Administration (FDA) today announced that at least 23 people in 14 states have been diagnosed with salmonellosis that was caused by the same strain of Salmonella that was found in the recently recalled unsweetened Puffed Rice and unsweetened Puffed Wheat Cereals produced by Malt-O-Meal.

The recalled products were distributed nationally under the Malt-O-Meal brand name as well as under private label brands including Acme, America's Choice, Food Club, Giant, Hannaford, Jewel, Laura Lynn, Pathmark, Shaw's, ShopRite, Tops and Weis Quality. The cereals have "Best If Used By" dates from April 8, 2008 (coded as "APR0808") through March 18, 2009 (coded as "MAR1809").

Consumers should throw out any product in their homes from these recalled lots. Grocery stores and other retailers should promptly remove the cereals from their shelves.

Salmonella is a type of bacteria that can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Symptoms of foodborne Salmonella infection include nausea, vomiting, fever, diarrhea, and abdominal cramps. In persons with poor health or weakened immune systems, Salmonella can invade the bloodstream and cause life-threatening infections.

Individuals who believe they may have experienced an illness consistent with the symptoms described above after consuming a puffed wheat or puffed rice cereal made by Malt-O-Meal should contact their health care practitioner immediately and report the illness to their state or local health authorities.

On April 5, 2008, Malt-O-Meal voluntarily recalled the cereals because the company's routine testing found Salmonella in a product produced on March 24, 2008.

The FDA is working with Malt-O-Meal to determine the cause of the contamination and with the states and the Centers for Disease Control and Prevention to identify and prevent additional illnesses.

A full list of recalled products can be found at www.malt-o-meal.com/recallinfo.

you used th e word "Putz
you are guilty of sexual harrassment"

You are correct for once - I did use the word "PUTZ" but it has 2
definations:
1. Slang A fool; an idiot.
2. Vulgar Slang A penis.

Is this sexual harrassement - not really - BUTT you can take it either way -
because both of the defination fit you and your constant whinning like a
3yr old whose mommy just took away the candy from him!

I did not confess to anything - you need to either get new glasses or get
your present pair cleaned!

You need to read what I said "Is this sexual harassment - not really -
BUTT, you can take it either way - because both of the definitions fit you
and your constant whining like a 3yr old whose mommy just took away the
candy from him!"

I think that everyone else (not you of course) in this group will agree with
me!

Why don't you do everybody in this NG a big favor - go dig yourself a big hole and jump in & take all of your play toys including your computer with you - I wouldn't think of doing it myself, because just everybody here appreciates my postings and not yours!

# 2174. classic tv shows you can't mention on ham radio but can on cb

I've recently been watching episodes of the original "Lost In Space"
tv series.

So that's what I would naturaallys mention if I got on the radio since
it's my recent activities.

Except FCC amateur rules say nothing offensive is allowed to be said
over amateur radio.

Now, I myself don't find anything at all offensive about the original
"Lost in Space" tv show, which by
the way was a family tv show aimed at family audiences.

However, certain ham radio operators who were offended that the call
letters W5TIT were said over ham radio
because the last 3 letters are tit would also be offended by the
phrase"bubble-headed booby" being said over
ham radio
.
Or "blithering booby"

or even "the boob tube" which is what several people I personally know
always called tv sets back then.

;)

so by the FCC's reasoning, the FCC-apprved CB transciever Radioshack
is selling here is an illegal uncertified CB not allowed to be
operated on CB frequecies.

It sounds to me like the FCC has their head screwed on backwards.

The reasoning I read in the official FCC statement is because it's
channelized and is easily user-acessible to be operated on non-cb
frequencies.

Exactly the same thing the FCC-appoved CB Radio Shack is selling can
do. And just as easily user acessible to operate on non-cb freuencies.

Actually, much easier than clipping diodes.

Just switch the transmit and recieve crystals around, and voila!!!
Your FCC-certified CB transmitter is now operrating on non-CB
frequencies.

And it's not even a modification either, since the FCC-approved radio
is designed for the crystals to be user acessible.

So that you can put in whatever legal CB channel you want to.

However, according to the FCC rules, that FCC-cerified FCC-approved
radio that Radio Shack is selling is illegal even though the FCC
approved it as legal.

That's "entrapment" which is illegal for the government or an agency
of the federal governmentto do.

I guess Marqueer must really really like the original Lost in Space tv show , especially when Dr. Smith tells Will Robinson "Just call me Daddy Zach"

No, I'm not. It's just that other peoples' posts purposely confused me
and other people.

I saw something somewhere ( I forget where) claiming that KB9QRZ wrote
them.

And contained a bunch of sicko things in the messages. along with that
callsign.

But they weren't from your user name in this newsgroup.

I don't recall ever seeing any sicko things in posts labeled from "an
old frend".

I've asked this before and you had no answer, let see if you have one
now. Where have I libeled you...provide a proof of your accusation of
libel...but once again as I suspect you will not have on ounce of
proof of anything except your continued whine. Fatty.

Well lets see, I have seen your photo and you look like you are
fat...therefore calling you fatty is not libel, it is my opinion that
you are in fact deserve the title "fatty" it is not libel, second you
post a lot of moronic shit, so I will also call you a fucking moron.

> you are also using MY email ady in your post thatis harasment

No I am not using your email address, it may appear to be similar to
an email address that you use during your little fits, BUT IT IS NOT
THE SAME you fucking idiot. Maybe if you did not have so much fat
around your fucking brain you could learn to read and stop making
false claims that someone is using your email address. Mark, going

through life fat and stuipid is a disgrace.

> you are jkust stalking me

Responding to your foolishness is not stalking, it is responding to a fool at the most, and a lying fool, no one is using your email address...fucking Bluto.

.............

I have the common sense AND intellect to NOT give my name or other
information. That is being intelligent. You, OTOH, have not been so astute
and you are paying the price for your lack of brain matter.

Sorry, Morkins, but your once-again childish taunt to display my personal
information will, as usual, go unanswered.
If you want to drag your toe across the dirt in the playground and draw a
line and dare, double dare or double-dog dare me to cross over your silly
line and fess up my name and call, it ain't gonna happen.
I don't dance to your tune, Mork. You, OTOH, seem to be 'dancing' to my tune
and that of many others.

It is rather easy to manipulate you...

I rest my case. Were I to be as stupid as you, I have no doubt that either
you or Roger would be stupid enough to send anonymous letters to my
neighbors.
You already know how that works, don't you?

All the more reason to keep my info private, since you have just now made a
veiled threat to contact my neighbors. I will keep your above proposed
stalking comment on record for future reference.

I am not harrassing you, if would stop posting some much assinie shit,
and making false accusations I would have no reason to ridicule you.
Responding to your bullshit is not stalking...if you don't like me
responding to your crap, then you know what to do..Stop posting your
garbage...very simple solution.

Everyone better be careful while building those shortwave radios, ham radios, or cb radios. I found this posted on the web. LOL ;)

Then there's the guy who traveled back in time by accident. Although he does not identify himself, the author of this Reverse Time Travel Anecdote is part of the Emanon Inventor's Association. According to the story, this guy was trying to build a short-wave radio and - shazam! - was transported back in time!

Excerpt: "About five minutes to four in the morning, and still taking voltage checks, my friend received a rather pronounced static discharge from the radio. He noticed that, just above the coils, was a very peculiar glowing electrical field just above the center of the coils. This glowing field lasted about six - seven seconds and, then, abruptly disappeared. The most amazing thing, though, was the fact that after this field disappeared, ALL THE CLOCKS IN HIS APARTMENT HAD MOVED FROM 3:55 A.M. TO TEN P.M.!! (...time went backwards...)" After this incident, the experimenter unplugged his radio, got drunk and went to bed. There's no indication of whether or not there was an effort to duplicate the experiment or document the findings. Oh well... another profound loss for science.

If you really want a real joke, check out everything "solution 2" says
about ham radio at this website.

Read the entire "solution 2".

Ham radio is a dying hobby composed of mostly tightwad old
protestant or jewish white men who's usually can be found
getting sauced on cheap beer at the local VFW or Am Legion
Hall taproom during the daytime and raising crap on 40 or 75
meters when they get home. The average ham is 67 years old
so it will be about 10 years at the most before 75% of them are
taking a well-deserved dirt nap at the local cemetary. Just be sure
to check the obituary listings to see when these old bastards drop
from cancer due to excess smoking or liver disease due to excess
boozing. They you can clean out their ham radio gear for dirt cheap
from their widows who are glad to finally see their deceased hubby's
radio crap go out the door for often next to nothing. Listening to 40
meters during the daytime is like visiting the local senior care rest
home and 75 meters at night is like a huge on the air KKK meeting.
20 meters during the day is full of rich jews with boats on the
Intercostal
Waterway looking for free phone calls from sorry saps who offer them
phone patches. In a word, pathetic! Ham radio. Truly a throwback
hobby if there ever was one that needs to die off faster than
slower.

TWENTY FIVE BILLION

Menendez-Crocker-Billions.wmv
http://www.crooksandliars.com/Media/Download/28114/1/Menendez-Crocker-Billions.wmv

Mr. Krocker, what did happen to the twenty five billion of
American tax dollars? 43% of Iraqi people live in absolute
poverty. 28% children suffering from clinic malnourishment,
30% children attend school, 70% lack regular access to clean
water. Only 50 of the 140 US funded public health care
centers are open to the public. 50 of a 140? Criminal.
Let's not forget the 19 billion Bremer stole early on with
Greenspan not accounted for there either. Oh yeah, and the
still dying silent Americans cashing in over the continuing
sacrifices.

Taliban fighters are guilty of nothing but standing in defense
of the innocent victims of 911. Bushite antichrist forces are
the worst of religious fundamentalists. They refuse to arrest
"judges" who order the bushite dumfuk to murder those who
speak for women's rights through the Quran. They refuse to
arrest "judges" who order bushite dumfuk to murder Christians
guilty of nothing but respecting Mohammed.

I DEMAND OUR VOICE FOR AMERICA

I DEMAND nazi America respond to my Public calls on the fact there is no defense for the criminal war act of attacking Iraq. It is only through censorship, that bushite enemy of Life confuse the viewer. A so named "American" believes falsely as an idiot, Johnny Wizard's position must be challengeable with words, but it is not. Murdering People in Iraq does nothing to serve Justice, but is a criminal act against God and Man. We, The Free World forces had 100 percent access to go wherever we wished, without dropping a bomb, or shooting a child prior to the indiscriminate carnage that started the Iraqi war crimes. To murder in Iraq, in violation of America's War Crimes Law, UN Charter, and the Bible, LOWERS ANY, ANY, bullshit excuse for why American GIs cowardly sacrifice their lives today for the neocon zionist liars. It is only to thieve, rape, and murder an innocent other the bushite ENEMY chants "whore yah" over the willful indiscriminate bombings of our communities as the once civilized. Corporate America pirates "Freedom" by smiling in silence over bushite beating to death innocent children for pleasures. TV bushite hate the Blacks as leaving Katrina victims undefended with demands US whites think like they do absent any real care or love for life and God. Why? Because THEY'RE ugly rich. Like the Hedge Funders who still are paying themselves salaries with an obscene take of in around 1.5 billion a year in such "failures" of national management skills. They take from ALL disenfranchised being Talentlessly criminal as truly, the despicably evil. All TV nazi pundits at FOXNEWS and elsewhere will be publicly tried for war crimes. Taliban fighters are guilty of nothing but standing in defense of the innocent victims of 911. Today, in Afghanistan, bushite bomb and torture indiscriminately while oppressing women, Christians, and children, push heroin, and steal everybody's donated cash. Real Christians will bill enemy liar bushite for GOD and man until these undisputed truths are openly discussed with the facts in Our names. Let honorable Soldiers know, who are the enemies that get them KILLED for demon lies. CBC, the BBC and CNN is the terrorist enemy by forbidding US, The People, from seeing the meaning of iron flowing like water from the towers, prior to the imminent collapse for the neocon traitors. As planned - boogahboogah. Just because they hang on the fact they are here to mislead ourselves for needless wars to die YOU for, doesn't make the criminal intent they publicly express unchallenged against Humanity, any less horrific in it's dupliciting of war crimes by smiling ~ 'unknowingly'. To go silent, is to except freedom to live denied.

Real Jews don't murder innocent people to steal their rights to Life for money.

Again, demonic zionists are ENEMIES of the Jewish faith. They lie to cheat at murder for money. Money paid for by American tax payers to murder innocent Christians, Jews, and Arabs. The pictures of zionist offspring, signing their nazi family name to cluster dud land mines, were FIRST used against Jewish northern communities in Lebanon! Way truth.|. yahduhyahduh.. Checkcheck. Johnny calling America! we have lift off with receivers, i think I got a connection.. Listen:

Freedom for America

/ / Just FIVE major U.S. banks control 97% of all the bank-held derivatives in the United States, a concentration of power and risk unsurpassed in the history of finance. \ \

/ / JPMorgan will take over Bear Stearns' $13.4 trillion contracts \ \

Understand this: JPMorgan received 13 TRILLION in derivatives by excepting the American tax payer gift of three hundred million, to take a billion dollar public building off our hands as 'the losers'. Then this: of all the billions in free tax monies given to the EXTREMELY wealthy [some are actual trillionaires] of the FIVE private banking industrialists, done to "bail out" America of this mortgage meltdown, none of that TAX money goes to the scammed home owners, who's costs have directly increased due to the transgressions of hedgers who privately take the real money

for themselves escaping into the Cayman Islands, and leave US, the bogus credits to default on by disappearing public pensions, stock, ect... Example: where is the 13 TRILLION that JPMorgan inherited at the cost of more than 200 million American taxer played? How could a multi-millionaire stock holder of Bear Stearns lose all their money, if the company is still holding 77 trillion for Public leveraging? What kind of bankruptcy of Enron book keeping is that where our loot is unfounded? "lost" to market forces? But JPMorgan inherits 13 trillion? Try FRAUD. Like did you know, Mr. Trillion Aires isn't even on the hook for covering the initial mortgaged loans of mortgaged loans? Or that, the Royal Bank of Canada popularly paid out .02% interest on Canadian savings accounts just for spite? 'Knowing' you don't even have the strength of conviction to raise your phone demanding fairness for our forsaken Worlds, because, for starters, CBC, CNN, with the BBC an George Norry ain't going to take our calls for free communications, for, the neocon zionists committed 911 with Bush's business partner General Ahmad to rob you all - and die our sons and daughters are, dying our sons and daughters are. Does George Norry really care?, do Americans even care?

/ / Hallburton subsidiary KBR told employees at a water injection plant in Iraq a sand-like substance scattered around the plant was just a "mild irritant," workers recall.

It turns out to be sodium dichromate -- a highly toxic chemical which can [as will] lead to cancer even with limited exposure. \ \

See? Bushite will kill bushite for a stolen nickel. Did these employees know their company robs from soldiers by charging themselves a $100.00 for a single bag of laundry?, or keep slaves to serve the nazi grunt dumdums? Or poison water supplies?, stealing oil revenues?, over billing America while Championing unchallenged by CNN Bush whores more needless wars to profit US further dying as innocent victims on? If the sacrifice of soldiers lives is going to mean anything, it going to mean how long it took, Americans to care for themselves as really worth saving.

Who's Jesus?

ABCNEWS.com : FBI Called off Terror Investigations
http://abcnews.go.com/Primetime/Story?id=131907&page=1

Now think American: Why do you suppose this is anything else but treason involving the escape of the 911 terrorists? Obstruction of Justice is seriously criminal. Understand: CNN, CBC, and the BBC news producers know the neocon bushite committed 911, [I've told them myself] but refuse open debate through dialog to continue murdering ourselves. They are all

of Humanity's true enemies by forbidding the knowledge to defend ourselves judicially. In Iraq, American tax payers pay the salaries of lawless mercenary goons who gun down our families at random for entertainment, and all they report is McCain unchallenged, that openly supporting lawlessness, torture and theft of Iraq, is the only way to war "al-Qaida". Not to arrest the guy who financed the 911 operation, General Ahmad, no, but to murder our innocent families by those at Guantanamo, who practice Satanic ceremonies to the demon Moloch. Maj. Gen. Geoffrey D. Miller. You can't make this up. Where is CNN celebs concern for soldiers who beat children to death for pleasure escaping unaccosted? CNN Heroes?, like those who murdered more than 200,000 innocent People in Fallujah for traitor Sattler? Fight back for Christ

'47,500 lbs. of bombs were dropped by bushite on innocent people'

Bushite who war Humanity for Bush are enemies of God as Love, attempting to escape those who actually committed 911, like General Ahmad. When a bushite bomber of the air forces die, all Creation celebrates the victory over lawless tyranny. A good bushite, is a dead bushite halted as a thief from murdering more of our innocent selves indiscriminately.

Where is Christ in Canada when CTV reports there is no evidence that mercury causes Autism?.. Not reported is that vaccines cause brain damage 100 percent of the time, because they contain mercury to poison YOUR child. Type 'mercury vaccine' in Google, and ask yourself, how can some paid hundreds of thousands of dollars in salary as a zionist "expert" miss such findings, along with thousands of corrective emails, as an openly confessed enemy of Love in Christ, as Justice for Life? Do you believe those of Israel's military, who purposefully targeted Jewish communities in Lebanon are anything but, enemies to Life as Love for God's Son the Messiah? Where is a love for Jews in Israel, where this issue of Zionists murdering Jews for money in Lebanon isn't on their front pages demanding Justice for Jews in Any Town, Universally? Better Right: Who are the actual Jews Here? - and what about this "God" business.. I mean, really..

The Probable Cause to Charge Dick Cheney With Mass Murder, Terrorism, and High Treason

/ / The fact is that it shoots at figures it considers suspicious, with full knowledge - according to its own contention - that they are liable to be children. \ \

Condoleezza Rice "This barbarous act has no place among civilized peoples and shocks the conscience of all peace loving nations. There is no cause that could ever justify this action." This from the zionist demon witch who okayed the dropping of seven million land mines to murder children in Lebanon for generations!

Bushite still kidnapping innocent people to be tortured to death

/ / The planes, operated by Centurion Aviation Services, a shelf company for the CIA \ \

Study finds 98% of child drug trials lack safety checks

These personal Usenet accounts closed by Google I've had for years. No debate was offered, no opportunity for me to even ask formally what the ungodly enemy of Life complained about, Why? Because the truth would have prevailed, and bush whore zionist enemies of God can't have free thoughts expressed by Man, for they would be understood in the streets by the Jews and Christians, arrested, tried, as prosecuted for lowly treason as enemies to Justice. For example: Condi, the zionist demon witch, dropped seven million land mines on more than 170 towns and villages in Lebanon to MASS MURDER our children indiscriminately for decades. Example two: Google has done nothing over zionist pirates who vandalize, every day of the year, page after page of alt.religion.islam, soc.culture.israel, and soc.culture.palestine from Earth's free speakers. EVERY DAY. A zionist enemy of CHRIST screams in joy over such crimes, as the silencing of the crying families going further unaddressed by CNN and CBC, who smile such denials, of my simple public demands to have the truth set US free naturally. FACT: Nazi Israel STEALS our Homes as the innocent forsaken by corporate news americans. Now, those war criminals in Israel wish to steal my name also, further, as my, Johnny Wizard King of Earth thang - not so fast pilgrim.. I don't know who you think you are but, I am a good man, not a thief of Peoples lives. As Son to God Creator of the Heavens and Hell, my will has intent to defend life, as I am a fighter for Justice in all my Love resides Holy and Righteous.

YOU as my "American" listener, will be expected likewise as CNN and CBC has broadcasted You, to do nothing to defend your own child from their refusals to report the fact that mercury is a highly toxic heavy metal that harms all of God's children. and YOU, like FOXNEWS TRAITOR LIARS, will kill your own offspring before acknowledging our great strengths of character as unparalleled in wisdom, for the Ages We Are. Instead, "The Experts" of FOXNEWS and CNN, will tell US as deeply ignorant on subjects you know little of nothing about, they will tell US silently not to bother bushite CRIMINAL enemy of Humanity personally to defend our innocent selves, but instead, evil thought "Socialized Medicine"'ers, being total losers to Life and wiser folk by simply doing the math as ourselves. [Americans pay twice as much and get near half the coverage that Canadians do - !no middle men!.] It's all about talentless corporate multi-millionaire mercenary pirates, seeking our freedoms in America to die profitably, as they stand on the growing pile of rotting bodies, telling US all, we was right all along to do nothing for ourselves - like speak openly for Rights granted All in a Free Universe of Possibilities. Pick up your phone cowardly dying American, and demand Justice for 911, for, they could be You again. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. And... murder is illegal in all States. As just because the victim was an Iraqi child, casts their lives no less than any other of Humanity's Greatest.

Again, I, as the Son of Man born to GOD will remind ALL Americans, bushite have murdered more than a MILLION innocent people indiscriminately in Iraq, to thieve for the traitor neocon liars. Thousands of videos document those in the air force who target the murder of helpless children for example while chanting "whore yeh" in praise of the lawlessness to continue carnage against our better wills. Worth a death sentence by trial then firing squad, as blatant war criming traitors. Pick a Side: An innocent family?, or a UNARRESTED bush whore nazi rapist, a torturer and thief who believes some how Men of Earth do not exist to hunt them down with the Law of the Land for it. Not in Johnny World I'll tell you my friend, not in my world. Bushite are antichrist forces of evil who war GOD with supporting torture as our INNOCENT families of Humanity, all for the escape of the zionist neocons personally responsible for the demonic crimes of 911 going unadressed. Canadians will know, General Hillier has publicly pronounced Canadian Soldiers will not defend innocent people from being tortured to death under his criminal authority as enemy. Treason against Canada of the lowest order is what Hillier has spoken for himself cowardly. It's official: I am now in Command.

TOP ISSUES

The DEA has openly acknowledged that bushite in Afghanistan are pushing heroin into our streets. Innocent people are still being kidnapped by KNOWN bushite to be tortured as the Innocent to death. The 911 perpetrators such as Bush, Cheney, Condi, Myers with Rumsfeld and Ahmad, have still gone unarrested. Support my demands for national radio hosts like George Norry and Art Bell to allow US open discussion on these subjects, with open line callers to work ourselves through this struggle against lawless tyranny defeated with reason to be somebody worth the effort, or don't. George Norry has told US he's into killing kids, and going ballistic against any soldier who would refuse a criminal order given by neocon. A "great patriot" fighting the NWO?, or a traitor that to this day, happily watches Humanity be poisoned deliberately, and can't find the care to empower ourselves by simply allowing open line calls from real people who demand a halt to such extreme evil criminality passed off as foolish 'non-stop' newsertainment?

TV NEWS CENSORS ARE OUR MORTAL ENEMIES

Did you hear! The Khadr team found a bushite manufacturing evidence in the military commissions trial. Death sentence for the bushite enemy, or will we instead silently except more crimes against ourselves as the innocent victims? Clearly, bushite are enemies of Freedom in America. We decide. Why must all Humanity die for TV America's contempt for Justice?, to not even fight for OUR dying rights, as if, My rights were theirs to steal. Support my demands for a real Public debate or die unworthy to the neocon's treachery.

HOCUS POCUS
* Only in America you Win 287 million where it really means 96 err.. 95.6 *

These TV experts on America, who refuse to defend American People from poisons in our foods, water, and vaccines, who just nazi lie and broadcast without challenge their top standings among themselves as sell-out corporate Bush whores, are the enemies of every living person who cares about counting votes to determine our real winners. Take a stand, be a man, dial the phone, your not dying alone. Help me.

We can not be defeated, for we never have been even challenged on what is globally, well documented as indisputable. Support my continuing demands for open communications to benefit any as Justice for all. All war profiteers will be sought for prosecution as the worst of criminality. AEGIS, CACI, and Blackwater will pay with their worthless lives through public trials for first degree murdering our families never forsaken in my living forever name. Death to the bushite, death to the enemies of Christ in America.

A New Life

A new life was brought into our world, and a bushite pondered that Heart, and threw it off a cliff for entertaining laughs. Laughs in knowing such action could make every child of Earth cry, that such action could make many American men feel helpless in knowing, such an enemy to Life, would dare steal the image of America as Once Great, risking itself continuing on with no more of a death threat than a small fine if anything. However. If we publicly demand the puppy killers be tried quickly for a tossing off a cliff for fairer sentencing, then the torturers and rapists might soon fear, they're never gonna get away from US either. Death to the bushite, death to the enemies of God as our great Love for Liberty.

We shall Start with public demands for the formal arrest without bail of traitors Bush, Cheney, Condi, Rumsfeld and Myers for the crimes of 911.

As for our British Loves, call for the immediate public arrest of the con man Peter Power, as the probable cause for the 'al-Qaida' crimes of 7/7. Along with Ian and Tony Blair with their phony cop who was caught guilty for lying as our media over and over again, to then finally confess, he gunned down an innocent man for no 'known' good reason as an escaping MURDERER. And to never forget why the bushite will continue to die rightly: All for, The Queen's Best soldiers, who kidnapped barefooted children from Iraq to be beaten to death on prized video for their godless pleasure of hate for Justice

NEW GAME TO PRACTICE UP WITH

Turning Point: Fall of Liberty
http://www.gametrailers.com/game/5117.html

Boy, this new game is something, not just another, 'questions are stupid. lets just kill whomever-shoot-us-uppers', a computer game of life maybe worth the buy, if for only the reality concept..

New York City is over run by thieving bushite nazi savages, so you, as one of the few proud and brave of a, left to die leaderless, Corporated into lawlessness, America, give the bushite nazis, the real welcome they deserve with fire works. (As freedom killing terrorist liars, the blind to reason bushite always are. [unless seeking forgiveness for such cowardice]) Like it or not. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. And... murder is illegal.. So, DIE BUSHITE DIE by trial and jury we WILL stand for God and Country to defeat evil Nazi tyranny, guaranteed. It's written in the stars. Your paying for some crime. What are YOU good for? The Man says, Evidence is

Everything. ..and a person accused of a criminal offense without any public evidence to surmise, is still innocent to anyone. Justice Will Rule when we know what true freedom is gained, by enforcing anti-torture in all cases, then actively hunting down, as Reagan's War Law States, the bushite personally responsible for crimes against Humanity in our stolen Names. We have the demon repuglicons who are voting on the support of torture as something other than TREASONOUS that excuses a murder of an innocent other, as godlessly sadistic. [For even the True Satanist, or True Atheist, would bill these grunting bushite torturers without even sweating about what's right or wrong. thinking.] Those censors like Rush Limbaugh or Shaun Hannity that refuse our wiser minds, do so because Freedom defeats them in seconds - to be the disturbing groveller to self destruction that they confess to be, hiding from nobody. However: In Johnny's America, they's not down burning in the fiery pits of hell symbolically to teach US all a valuable lesson, Theys got millions from us for "our" continual wanting of yet more mass murders as worst than any fictions since dreamt, and I, the Wisest Godman on Earth, instead of having Coast to Coast public interest, have mostly zionist crazed insults from extreme sexual dysfunctionals, offering to whore to a hundred and 50 something countries - just to fuk you up as lost again to the cause of Liberty. SEE? My critics can't criticize me on my facts, because we are truly dying here forsaking ourselves, truly dying as victims, because of the corporate media refusing to HONESTLY take our continuing challenges to report on. Look, CNN and FOXNEWS hosts have multi-million dollar salaries to cover nothing as important enough to honestly gauge US on, while I, I got hunger pangs feeding my growing costs. Support giving generously to me as my fledgling company, and soon, god willing, I'll be able to leastly afford myself a bus ticket with a tape recorder to get myself down to Washington DC, where I should be giving answers to the People whose questions have not as of yet, arrived from departure. Even with the speed of the Internet and everything, we are still putting harmful chemicals in our vaccines, foods and waters, that do nothing but kill us quicker. Stupid proved a million times over, or, no.. master genius of a new world order, whatever, it must stop, and it must stop now. But, not according to CNN, CBC, BBC, FOXNEWS, and newspaper editors who are much more into money taking by blindly supporting in print, the killing of innocent Peoples in Our Name through Israel, for the stolen cash kickbacks, by just claiming they don't hear US really screaming.. Ever? Never?

Sad, but without your generous dollar donation to the cause, (meaning more than being near less than nothing you people'll please give me in return,) i may yet go short again, so our

bankers can take even greater monies by investing in our denied "failures". How about supporting my rise to demand public debate on Justice actually Ruling: by Publicly arresting for Public Trial by TV Jury, Mr. Bush and Cheney immediately, for the crimes of high treason as a major misdemeanor. 1. They closed down investigations following the 911 crime scene leads, designed by the lawMakers of the Land to capture the actual terrorist bad guy leaders of true evil - you know, the Crooks. (Obstruction is serious!) NOBODY disagrees?, publicly? ! SEE? CNN CBC AND FOXNEWS ain't really taking our calls for listening then are they for Justice? It could be dreamed that we are only refused for to be, not valid as fairly recognized. Like, how absurd! that Obama's preacher suggests supporting WAR crimes AGAINST HUMANITY, is a crime against God too? See, corporate America couldn't give a dying soldier a clean glass of water to save his forsaken life, because hey!, who cares? CNN, CBC, and FOXNEWS certainly don't care about escaping the bushite enemy responsible for the lives lost through the crimes of 911, and so on.... but my friend... do you??

So,

Send this post to your favorite talk host, newspaper, or bar message board if sparing me a few dollars from Japan seems rather obscure. All for the sake of knowing a brother's down on his luck to find some love for Liberty in America.

King Johnny Wizard

P.S. I seriously need to eat.
Please help me, by supporting our cause to not starve to death. If you appreciate my words in defense of the once great Human race, donate a few dollars to this cause. Justice and Freedom for all, especially God as Just, and worthy our praise for Peace. Donate me leastly five dollars for Canadian 2% milk, and yummy multi-grain bread please.

How They Voted: Torture Bill
http://www.cbsnews.com/stories/2008/03/11/ap/congress/main3927680.shtml

These be criminals of the worst order. In America, today, the standing Reagan Law, demands that these bushite enemies of God serve a minimum of 25 years, for knowingly supporting the war crimes actions of torturing innocent Peoples to Death. As President, with the Armed Forces in tow, we will arrest, try, and convict all these demon enemies of freedom for Americans.

Look, we have to realize: everyone knows a bushite cop killer thief is a cowardly enemy of America, who wars God and Humanity as OUR ENEMIES for the criminal escape of the neocon Zionists responsible personally for 911.

Proud bushite enemies of God and Man state:

http://www.forum.militaryltd.com/tun-tavern/m10997-zarqawi-had-close-call-marines.htm

"Heaven Won't Take Marines and Hell Is Afraid They'll Take Over."

See? A bushite is an enemy of the Family, who rapes and murders for the demon antichrist thieves. Dishonorable to the core of what it means to be a free man, they die in cowardice, too afraid to defend what's right as true. A liar, a thief, a murderer, that is what a bush whore nazi grunt who states life must die for as lawlessness. They war Humanity as bush whore slaves for the escape of the neocon liars of 911. (General Ahmad funded Atta) They support torture by silence, they support raping women by silence, they support robbing The Peoples by silence, and they support killing themselves for FOXNEWS to continue LYING to America about what it costs to be a bush bitch who chants routinely, "whore yeah, whore yeah" Death to the bushite, death to the enemies of freedom in Johnny's America to talk openly with the FACTS absent Coast to Coast hosts Demonic censorship of American voices as True Liberty we shall proclaim. I wrote that.

A Zionist liars website:
www.Jews-Did-911.com

I didn't do 911?, least not responsible for closing outstanding criminal investigations on who personally was responsible: Bush and Cheney, Zionists. Not Jews. Zionists believe Israel should not be defended from war criminals who bomb Jewish communities indiscriminately to murder children with millions of landmines. Condi, zionist witch, ordered the dropping of near seven million land mines on Lebanon, with the first strike targets to be JEWS pin pointed by the anti-Israeli racist nazis. Jews, who are so, no matter where

we eek out a significance. CBC, CNN, and FOXNEWS with George
Norry refuse to take my challenge for public accountability as
Zionist enemies to Life. Nazi Israelis steal innocent peoples
homes, period. Who's in charge here Kangaroo?? Eh?

Conspiracy of Conspiracies

March 7th, 2008, George Norry
'Why is it that we can never find the big foot?'

Ask the more good than bad Alex Jones why he refused to ask
Lou Dobbs why he hasn't reported that General Ahmad funded
Ahmad? I know why.. Because Alex Jones once again, with
Dobbs, whored for the demon antichrist's escape for the
treasonous acts of 911 committed in his name.. Justice as
Freedom?, or more go nowhere NWO shadow government bullshit to
escape the ungodly zionist neocons personally responsible for
the crimes of 911. I demand a Presidential debate with America
where We can't hang up on US, while claiming to ourselves as the
audience, that the truth tellers hung up myself, honest John.
Alex Jones suggested yesterday that ALL those who criticize
himself on anything, without naming names, are just jealous.
Again, Mr. Look! it's a Prison Planet is not qualified to
lead a Peoples towards freedom through Justice wanting.
(Qualified to lead the news however, granted, one of the best,
IF NOT THEE. (Except for Zionism, Health Care, Immigration,
feminine Rights, Banking Issues, and a.. Trade Law))

Mr. George walker Bush is the primary CAUSE for almost all
the criminal transgressions against God in America and abroad,
since the demon stole the initial election back in 2000.
Alex's contention that Mr. Bush and Cheney isn't worth
attacking personally with our Laws on treason for defense,
(all because theys not responsible for nuting, as his NWO
"Puppets",) IS Tyranny of the worst order. Ask anyone,
including Alex if he could get his chumped "ego" out of
the way. Truly, "Socialized medicine" can also mean paying
half as much, with double the coverage. Middle men are our
answer givers when it comes to Americans questioning the
system of injustices inflicted. Did you know: Private

Insurance Companies can clear 70 percent of money
invested? NOW... wHy wOuLd wE Do tHaT? If we had the free
choice to decide for ourselves I mean, "I" am asking "You"??

Justice is what ALL want for 911. The State of Vermont just
ordered all State troopers to not stop Bush on arrestion for High
Treasons there as a broad. Newsworthy in corporate America?
YOU decide, or don't. Mexican troops, funded by American tax
payers, are selling dope in America for Bush and Co. openly
now.. Who are you going to call?

Who IS running this bushite nazi liar show, where they, our
elite corporate media masters, kill our stupid kids with their
flagrant naked monster lies, while refusing all calls for
clarity, Johnny America really wants to know. Like
immediately. Help us out here some man, don't be evil.

Petraeus Threatens to Murder More Innocent Peoples!

/ / Gen. David Petraeus said. "We can feel it and see it,
and what we're trying to do is rip out any roots before they
can get deeply into the ground." \ \

As the President, I will demand Petraeus explain himself. If
he refuses, I will order the military to arrest him on sight
for lowly treason. We know already, that every bomb that goes
off to murder indiscriminately, that isn't credited by bushite
THIEVING enemies, is blamed on bin Laden, without the least of
any investigation, according to Petraeus' own staff, as so
reported on PBS. He, Petraeus is an enemy of AMerican GIs, by
refusing to order them all to hunt to kill the neocon
terrorists responsible for 911. TREASON is anyone's book.
Death to the bushite, death to the enemies of God in America.

THIS IS TREASON

Bogus Iran story was product of Pentagon spokesman
http://rawstory.com/news/2007/Bogus_Iran_story_was_product_of_0116.html

/ / Starr added that one American boat had been given the
order to fire, and the Iranians had moved away just in time.

Porter identifies Bryan Whitman, the Pentagon's top spokesman,
as the culprit for the spurious [TREASONOUS] account.

Fifth Fleet commander Vice Admiral Kevin Cosgriff denied that
his ships had been close to firing on the Iranians. So did
destroyer commander Jeffery James. \ \

Remember, these bushite are trying to con leaderless America
into a another needless conflict, where we die for their
growing riches as war mongering privateers of this, our
'popular will' contesting as defeated already.. Johnny
America for Presidential Election Questions! Or, go back to

dying needlessly then as dunfukked "Bushite", you losered.

-

Bushite "Hero" makes eight year old run five miles to save the life of his loving mother, to only after the run, be laughed at with a refusal to grant the emergency water the soldier dumps elsewhere. [Remember: demonic bushite enemies of GOD blew up the water treatment plants to "help" Iraqis.]

President Clinton Speaks on US as Dying Idiots

http://groups.msn.com/PeoplesPolitics/general.msnw?action=get_message&mview=0&ID_Message=360506&LastModified=4675658822492294908

President Clinton - "We look like [DYING] idiots, folks, denying that the people who murdered our fellow citizens [GENERAL AHMAD and Co.] didn't when they are continuing [AS THE 'ESCAPED"] to murder people all around the world," to thieve further for the neocon traitors, from a left undefended "America" silenced by censorship practiced by the demon enemy George Norry, making lawless and godless, synonymous with good will and charity. Where's the reason for George Norry to be happy about godless tyranny destroying GOD'S undefended America I ask YOU? George Norry is what is referred to in the bible as a Demon.

Fight back for Freedom, Fight back for God, or rightly die a cowardly victim to eternal life's desperate struggle against the bushite's tyrannical barbarity where indiscriminate bombings with torture and rape is not worth getting anyone publicly arrested over, and courts with lawyers are banned to

practice by the war criminals left in charge without questions given or answered, while YOU continue to pay dying in silence. Pick up YOUR phone, and make the call to talk radio to-day. Demand Justice for America, demand Justice for God.

Demon Livney "The world should respect ANY ACTION taken by [ungodly zionist evil] Israel in order to defend it's citizens."

So, UNGODLY nazi Israel can put millions of innocent people in concentration camps, because hey, it's to protect the enemies of Mankind who routinely steal innocent peoples homes, while murdering our children indiscriminately with land mines for Satan. According to the Jewish/Christian Bible anyway.

Catholic Bishop: 9-11 was inside job

U.S. Army Sergeant Logan Laituri - "The problem that we face in Iraq [AND ZIONIST AMERICA] is that policymakers in leadership have set a precedent of lawlessness where we don't abide by the rule of law, we don't respect international treaties, so when that atmosphere exists it lends itself to criminal activity," ..by rapists and torturers who OPENLY practice a hatred for G-D unprecedented in world history. The Nazis of WWII have nothing on bushite enemies who sing and cheer on video available at YouTube for the murders of innocent god loving children. (Just like REAL DEMON censor George Norry advocates publicly by the way without contention) Death to the bushite, death to the enemies of a liberating Mankind. So says the Man of men as Son to God always.

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite TRAITOR and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children practically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? Did you know: American tax payers openly pay the salaries of death squad goons who murder defenseless innocent families in Iraq TODAY as The Enemy?

Support my call for open communications to demand Justice for any, as freedom for all.

George Walker Bush, "The Puppet" is GUILTY of TREASON a thousand and one times over already. We all love Alex Jones, but this nwo bullshit doesn't apply to the lawless demon enemies who inflict harm on our humanity because they confusingly tell US, they enjoy it. Murder, rape and pillage for the sake of murdering, raping, and pillaging. Look, I'm sure we'd be able to easily work out our differences, if George Norry's amerka would take our calls for clarity, on Justice ruling our ways to a fool's paradise where those accused of a crime without any evidence would be US, as the INNOCENT forsaken in God's good name.

http://www.whitehouse.gov/news/releases/2007/11/20071107-5.html

Look, November 7th, the demon antichrist stated he and the neocons ordered the murder of more than a million innocent Iraqis indiscriminately because, he was simply enforcing UN resolution 1441. HE LIED. [how else could the UN officially declare bushites as war criminal? NO CAUSE!!] And multi-million dollar salaried, "American" reporters, who full time, claim to represent American interests while you slog double full-time for corrupt private bankers, refused to call him on it to defend ourselves from his easily provable demonic tirades against God as the innocent. On the scene, and still today... YOU, as American are TRULY dying for George Walker Bush's continuing LIES. Johnny Wizard is Forever King of this moment being. If you can't believe it is important for you to raise your cries for justice likewise, we're all going to be done for lost to indifference. Defeating the neocon is serious business my brothers, serious business.

You and I

Our Demon Enemy Lying Leader Mr. Bush speaking recently, "You and I believe in accountability", "People should be responsible for their actions", "My number one priority is to protect you" "All human life is precious and deserves to be protected." Just words from the demon in HIS nation that drops 47,500 lbs. of bombs to indiscriminately murder Iraqis while paying [whoknowswhere] salaries to 80,000 al-qaeda in a nation the antrichrist forces occupy, all the while, holding George

Norry a great host for supporting the war crimes of bushite thieves who target innocent children to steal further from our undefended Graces. As George Norry happily sends CONNED or cowardly America to their treasonous doom, for the zionist neocons personally responsible for the terror crimes of 911. The George Norry is an enemy to God and Humanity by conning Americans into not allowing open line communications on any relevant human interest story involving the criminal sacrifice of Justice for America. No, instead, more bullshit on AREA51. AREA 51 where toxic waste is illegally burned for cash profit at the loss of REAL American lives paid for in CENSORED collateral. You die as An American for the treasonous con of Coast to Coast hosts who forbid open dialog on the reasons for why YOUR nation wars innocent others to thieve from.
Remember, the REAL DEMON George Norry gives an endless stream of bushite dumfuk who endlessly praise George for supporting the neocon murders of more than a million INNOCENT PEOPLE by forbidding truth to be sought concerning our circumstances.
And YOU, yes YOU, are meant to feel alone in your concerns on the fact that the neocons are trying to escape their rightful arrest for the crimes of mass murder. Al-Qaida = General Mahmoud Ahmad. George Norry is a DEMON traitor who's con is on just playing happy as a polite demonic sadist, who silents on for the murder of soldiers - who are as dumb as we come.
George Norry deserves to be TRUTHFULLY exposed for what he denies as America's privilege, freedom and justice for all.

To save the lives of innocent families is the result of killing a 'lawless' bushite that has no care to defend America in war time. They war for the antichrist enemy of Humanity, to torture and thieve, as enemies to Justice is as freedom to be. Be a man, take a stand.

Just like an ungodly bushite does, when it murders for blind obedience to the unelected zionist neocons who truly committed 911.

The Corporate Bush Whores

The Corporate Bush whores, who lie to die our naive sons and daughters for stolen profits given to those personally who committed 911 must pay with public trials for their contempt of the value of our forsaken lives. Those in the air force responsible for indiscriminate bombings to murder our innocent families, and those that torture innocent people to death, must be tracked down by every living Man, and executed through public trial for a love as God that will never die. Death to the bushite liars, death to the enemies of Justice for any. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. Evidence is Everything. Everyday, bushite nazi grunts indiscriminately murder our loved family members for lawless mercenary forces to further

rape America, and TV news crews couldn't care less for our forsaken lives if they tried. Fight back for life, fight back for God. We want Bush and Cheney arrested immediately without bail for closing criminal investigations on 911 immediately after the terrorist event of no questions occurring. Be a man.

Or, CNN will smile while watching innocent people executed for The crimes of 911, solely on the fact that you were un-mercilessly tortured By Cofer Black. Accept CNN's refusal to provide evidence to form America's Criminal conclusions, and you will be done for through self contempt. Be a man, hunt to bill a bushite betrayer to God and America. Support My demands for the facts to be presented through our media circles.

GLORY OF THE CORPS - A Real Man Speaks for Freedom

Coast to Coast hosts wont take our calls, but they did take several demons on Wednesday, one in particular who figured he could be a "god" too, by supporting the indiscriminate murder of Iraqis to defend the evil zionist neocons in hiding. But, what did GOD in Iraq have to do with the bushite responsible for the DEATHS of 911?, or the DEATHS of all Arabs in around the naive age of 15? George Norry didn't ask.. Another demon witch allowed on our air said at great lengths, she appreciated that the demon antichrist Bush lies continuously to dying soldiers because that's the only way to blindly defeat terrorists.. (evil = good) George speaks nothing but happy silences in trusting warmly with dying US all for ignorance as belligerent criminal negligence. Again, the demon enemy of God refuses US to open communications on any relevant subject involving the sacrifice of American lives. Staying happy, he figures that's all it will ever take to defeat Americans lost in doubt on his contempt for all Peoples lives, is to simply forbid knowledge from escaping his charade. He told US previously, he'd go ballistic against any soldier who refused a criminal order. So, when marines are asked, as reported, if they'd murder their own parents without reason for the glory of the Corps., would George Norry shoot "them" as traitors for asking simply now why would WE do that? See something here my friends behind these great words of wonder? Demand open communications regarding our demands for the arrest of those

truly responsible for the crimes of mass murder in America on
911 back in New York city.

American tax payers to murder innocent Christians, Jews, and
Arabs. The pictures of zionist offspring, signing their nazi
family name to cluster dud land mines, were FIRST used

capital false accuser, who immediately closed outstanding
criminal investigations on 911 while claiming to be a
Christian, and all those who appose with independent thought,
evil terrorists] is actually the guy who states he's of GOD!
Where demons? I, The son of Man, CREATOR, demand America
prove their great love for Freedom, a "truth" they promote as
practiced, to continue hiding the lies committed by treasonous
neocons responsible for 911, and so on... Remember: Coast to
Coast hosts don't mention no specific individuals responsible
for the terrorist acts of 911 learned from official
investigations done by the honorable in the FBI, and a great
many others, no, why? Their chauvinistically contemptible egos.

Coast to Coast "Hosts" will go happying, instead of US, the innocent forsaken they leave forbidden open communications. Americans are understood by the entire human species, to be painfully ignorant as Chauvinistic know nothings, who rape and murder from our Humanity to benefit themselves dying from censorship, and look at where it's gotten everyone.. Bombing Our very own innocent families who dream of a better life for all though freedom, that only comes by the ways of Justice understood as measured. I'm willing to Challenge America to a Presidential Debate on successes we've achieved as the governed for enlightenment. A person accused of a criminal offense without any evidence is innocent. And worth MY protection. NewsCorped America is not qualified to lead any group committed to understanding why we have laws to serve ALL people equitably for freedom. Certainly, we all could easily learn this though, through lively trial and error by public debate, if we had an open mike policy on a national level to talk directly with these trying times at the best of our capabilities of listening. I demand my calls for open debate against all neocon zionist enemies world wide be taken up seriously for the betterment of all peoples lives.

Well, a criminal willed the murder of another, and now it

Hell hath no fury like that held against the bushite enemy, a savage zionist criminal waging war against Life as our shared Universe, 'escaping' those who personally carried out 911. Bush, Cheney, Rumsfeld, Condi, and Myers as topped suspects. Other 911ers will tell you no no no, it's impossible to apprehend them all, for the arrows can go on for never. Bush personally closed criminal investigations on 911 immediately after the terrorist event of no questions occurring. The Bush administration were well aware of their PERSONAL dealings with the Taliban prior to the "Pearl Harbor" event conveniently occurring. And they were all most certainly aware of the plans in place to: within weeks, invade Afghanistan for Enron to stave off criminal proceedings. Walla! Johnny G wills every able bodied man, woman, and child to defend ourselves against bushite that indiscriminately murder ourselves for cash profit. Stolen profit. Ours. The part where pro-bush "American" soldiers drive over children to kill them for fun, all because they say our Humanity let's those responsible escape retribution for being Satanically evil as enemies to Christ, left me angered beyond words. I'd like to see Americans enforce the law of the land, and advocate the public execution of those responsible for torture. Again, the TV celebs pretend there is actually some possible meritable argument to support these truly demonic actions as criminal. Bushite have admittingly kidnapped innocent people, then tortured them to death for the pleasures of doing so, 'knowing' also, that they couldn't be held accountable to US, the human species. All for hating us so as loved by Life. They say, we're too weak to stand for freedom's defense against naked tyranny - While Johnny says otherwise: Death to those who advocate torture in war time, for there is no legitimate argument, but for the practice of censorship to understand why the Laws against torture have never failed for defense, but, for the treasonous actions of a Bill O'Really, who recently reported internationally that the majority of Americans support torture, because it means.... blahblahblah -- Bill Bill. For, it warrants the death sentence in America. Still. Bushite are the enemies of US all my friends, enemies of US all.

/ / "as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.] \ \

Instead, we as humanity suffer with yet to be hunted demons who sing in joy while laughing and cheering over the murder of our innocent children. God, I beg you to only listen to these naked demons on video, then join me in calling for Justice as Life Wills. The company Aegis has been found killing innocent people for money from America, and Americans speak near nothing for our defenses as their very own sons and daughters die in total contempt.

-

I AM AMERICA

Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected traitor neocon. I AM AMERICA.

America MUST demand war crime trials for the propaganda CNN broadcast "Anvil of God" regarding the demonic actions of Bravo company. They forgot to tell America importantly, nazi forces forbade the population from leaving, gunning originally for everyone between 15 to 55, but sided instead to murder infants and the elderly too, when beginning the Zarqawi campaign by bombing hospitals as first strike targets. As such, the bushite murdered many good doctors and nurses - so all to send bushite snipers on hospital near rooftops gunning for every seriously injured woman and child who tried to get help from the Humans. While driving down residential streets, grenading every home of humans being. Remember that when you hear these dishonorable bushite thieves die rightly for god and country.

[Sideline: It's been thought the reason why rescue efforts in New Orleans were provably sabotaged by Rove, was an attempt to make the blue state, commi red.]

See?.. women and children, who the enemy bushite forbade to leave the city with their innocent families, who, as were all living in the entire city of mosques conveniently found labeled therefore by bushite, "Insurgents" (or did leave earlier, and had our innocent families reportedly indiscriminately murdered two miles or so down the road by the most evil war crime act of recorded history.)

Importantly, there was no evidence made awared of, that legitimately offered PUBLICLY, from the UN or the U.S. to indicate a refugee camp anywhere, but for maybe a small group photographed - then some belligerent bushite bogus pocus - all headed up by a blatant traitor to America named Sattler. Reminder: after the indiscriminate carnage, they couldn't find near anyone for weeks who would take money offered to any citizen freely who survived for their satanic benefactor. So insanely disturbing as ungodly evil doing, war criminal Sattler called a halt to giving out charitable considerations from Americans to the unseen surviving victims - all in an 'escape' attempt to make it look better for US, the paying audience. So, where did our stolen values go to then eh? (Sattler's pocket no doubt.)

911 Leaders Saying They Are Jesus
http://rss.nfowars.net/20070802_Thu_Alex.mp3

911 financier Ahmad = al Qaida, and we have molten iron on video flowing like water. Demon Bush Jr. gave US zero, while closing criminal investigations immediately after the terrorist offense of no questions!, no questions! Case closed. But no, the American media rarely if never mention these facts, while insisting Bush's deathly war criminalling is as only a puppet, look away! look away!, leaving without challenge on the, teen like naivety of wearechange.org's consistence that "we", who demand justice for 911, who might also hold the opinion that zionist behavior does not blindly equal being Jewish, should not be allowed to speak Justly for our public challenge, because bushite Amerika has no defense for censorship against ANY of our judicial wanting, as documented positions on behalf of the suffering to death victimized public. Why? Because we are Just. Well, I try to be anyway. (I've spoken as written for YEARS, with NO ONE WORLD WIDE countering in the public realm, but for the strangely odd insult. Bushite do exist, don't get god wrong, but dumb evil bushite brood in darkness with censorship like all zionists do, selling to be 'godly' honorable men, when in truth, they'd murder anyone of US for a stolen nickel given to a neocon. I, as open line talk radio producer, win every

time, always, forever, never fail. [er.. yet..] Why? Because I treat YOU fairly. America should do the same. We are all in this together. Zionists like robbing then killing defenseless innocent Christians, and Jews, while just lying that they don't without scened factual TV perception. Demon 911 WITCH, zionist Condi 'okayed' the dropping of more than SEVEN MILLION land-mines on Lebanon, purposefully done to indiscriminately murder ourselves for generations. Jason might foolishly call you an "anti-Semite" in fear for speaking such not understood truths. And importantly, not because they can publicly disagree so in open debate, so sides to not allow US to rise in acknowledgement to bring about Justice as demanded, for ALL as ANY. (Gee, who's the neocon now eh? (we're all sinners.))

If Americans really want 911 Justice:

Help US out by putting the video of molten iron flowing like water out there in the minds of any who have doubts, tell them hypno mugger Bush, gave US zero to substantiate his public falsehoods, and tell US about Ahmad as more than a passing fact that means little of nothing, then, WE, The People, will believe this has more to do with Justice for Humanity, than the American suffering movie goer ego being, "leading the free world", by voicing no public concerns on the criminality of the bushmob shysters. Left happying in the George Norry, as a TRAITOR to a dying America not hearing. An enemy of Liberty to the, tried to be free soldier, who is led TO DIE still un-wittingly by lie for the misfortuned neocon bounty of global tyranny through coast to coast story lining. Look, the peenackers will tell you freakishly, that they work to lie to us all, to take advantage of a plain to view weakness. I swear. The neocon wants to con your kid to die for a war lied into with as our stolen goods. We lose as crime victims, while they win free accountability because, (well... I'll just let you finish that one liner sucker punch..)

Again, evil bushite THIEVES claim they are justified when indiscriminately bombing populated cities to MURDER US People.

General Johnny would teach MY soldiers to immediately arrest to kill for such criminality. In fact, I'd likely even throw in some bonus cash, an a Freedom medal from all lovers of Liberty. Did you know, many bushite sing a song about killing innocent young girls for pleasure? Did you know that also, an "American" radio host likes playing that same song as recorded on "American" airwaves? Fight back for God, or die from self contempt my friends, fight back for life and love.

/ / Why did the Army, within three hours, return to tell neighbors that this was the work of "insurgents" apparently without any investigation? \ \

See? in Johnny's world, that "the Army" person would have been the FIRST questioned, then likely arrested. But look, it hasn't even been acknowledged as evil doing in progress. (Every time you read, "The Army says..", become aware.)

It should be noted, ungodly bushite enemy commanders call every car bomb in Iraq, al-Qaida, without even pretending to do freedom operations for YOUR protections, as just another dead body in the rubble. (Likely caused by Aegis for cash profit.) So then, look my friends, Amerka refuses to demand justice to save the lives of their very own sons and daughters. And when, WE, Humanity, beg them to answer our calls for accountability, they refuse but for to LIE, stating publicly, "God" would grant robbing from innocent others, to enrich their great unholy tyrannical demon liar. They know easily that the bushmob did 911, and they like it. No, they crave it. The chance of murdering their own "loves" to enslave the human race for the antichrist, sounds great, just as long as they can get themselves in on the take.

Look Condi, the demon 911 nazi witch PERSONALLY assisted in dropping more than seven million land-mines on Lebanon indiscriminately in Your terrorized dying names. Hate Life and God as yourself do You?

Don't anyone be deceived that the neocon enemies minimally assisted these crimes by refusing to allow US pursue the evil doers by following the actual crime scene leads, but we lack REAL leadership skills that are naturally required to see molten Iron flowing like water from the 911 towers on YouTube.

They, as America's Coast to Coast voices, would rather richly die YOU sacrificed for CRIMINAL zionist Israel, (Israel, where the government leaves actual Jews to die in the streets starving as garbage dumps, to make it look good for MORE giving American charitable donations to disappear elsewhere) before saving the lives of THEIR VERY OWN. AMERICAN

Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters

suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. / / Timothy Griffin, Karl Rove's assistant, the President's pick as US Attorney for the Eastern District of Arkansas. Griffin, according to BBC Television, was the hidden hand behind a scheme to wipe out the voting rights of 70,000 citizens prior to the 2004 election. \ \ Timothy needs to be arrested for high treason, for fixing an election, or instead, what? we'll make him a State US Attorney in bushville?

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911.

/ / As a result, the Defense Department put up a Web site in 2005 designed to clarify [to the dumfuk bushite demon liars] that sexual assault is illegal [...] \ \

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

done by the understanding of fact. Not faith. With George W.
Bush making real decisions in faith, expecting us to believe
as corporately broadcasted unabashedly unbiased, that he

why we are innocent until proven otherwise?, is really
something we all need to scream about to save our dying lives.

However, the real Laden, on video taped confession, claimed he
played no part whatsoever in 911, then later, offered himself

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification.

Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People like in Fallujah or Somalia with land mines and mini nukes

I post the truth, because you post crap that is idiot, therefore you
are an idiot, and you post a photo of yourself showing that your are
fat, therefore you are a fatty.

Mr. Krocker, what did happen to the twenty five billion of
American tax dollars? 43% of Iraqi people live in absolute
poverty. 28% children suffering from clinical malnourishment,
30% children attend school, 70% lack regular access to clean
water. Only 50 of the 140 US funded public health care
centers are open to the public. 50 of a 140? Criminal.

sacrifices by the nazi evil dumfuk enemy.

I DEMAND OUR VOICE FOR AMERICA

I DEMAND nazi America respond to my Public calls on the fact there is no defense for the criminal war act of attacking Iraq. It is only through censorship, that bushite enemy of Life confuse the viewer. A so named "American" believes falsely as an idiot, Johnny Wizard's position must be challengeable with words, but it is not. Murdering People in Iraq does nothing to serve Justice, but is a criminal act against God and Man. We, The Free World forces had 100 percent access to go wherever we wished, without dropping a bomb, or shooting a child prior to the indiscriminate carnage that started the Iraqi war crimes. To murder in Iraq, in violation of America's War Crimes Law, UN Charter, and the Bible, LOWERS ANY, ANY, bullshit excuse for why American GIs cowardly sacrifice their lives today for the neocon zionist liars. It is only to thieve, rape, and murder an innocent other the bushite ENEMY chants "whore yah" over the willful indiscriminate bombings of our communities as the once

civilized. Corporate America pirates "Freedom" by smiling in
silence over bushite beating to death innocent children for
pleasures. TV bushite hate the Blacks as leaving Katrina

paying themselves salaries with an obscene take of in around
1.5 billion a year in such "failures" of national management
skills. They take from ALL disenfranchised being Talentlessly
criminal as truly, the despicably evil. All TV nazi pundits

/ / [innocent] Prisoners [of godless bushite enemy] had to supply their own food or starve. \ \

To kill a lawless bushite nazi savage, is to love God as the innocent of Humanity.

CNN, and CBC are enemies of Civilization, to forbid US in knowing, the neocon traitors did the crimes of 911 with General Ahmad to con our kids to die for tyranny as.

"Taliban fighters are guilty of nothing but standing in defense of the innocent victims of 911."

Canada's Mission in Afghanistan - March, 2008

John Manley - Former Canadian Deputy Prime Minister and Finance Minister
- Chair, Independent Panel on Canada's Future Role in Afghanistan

"The Taliban may have been a lot of things, but they weren't corrupt"

- speaking on bushite nazi forces abusing women and children, oppression Christians, stealing humanitarian aid, pushing heroin, and denying our children an education on who is TRULY good or evil. All the while, bombing our families indiscriminately as the demon antichrist forces responsible for the crimes of 911 in New York City. Bushite of the nazi air forces are enemies of Freedom for Americans. See the bushite, bill the bushite for We, the People, is the truth, the light, the way. A bushite nazi soldier who refuses to phone Coast to Coast talk radio to demand Americans support the public arrest of General Ahmad who financed the terror attacks of 911, is an enemy worth billing to defend our dying freedoms held in contempt by censorship. You can not find a single soldier on Earth to publicly support George W. Bush without immediately being recognized a traitor, a liar, an enemy of freedom for Democracy.

/ / KBR's Tiger Team stayed at the five-star Kuwait Kempinski Hotel, where its members ran up a bill of more than $1 million. This outraged the army, whose troops were sleeping in tents at a cost of $1.39 a day. The army asked the Tiger Team to move into tents. It refused. \ \

See? KBR is now privately running hospital care for the dum-uk grunts, so, what would you expect but rat infestations? Oh, you never truly thought... what being a "Liberal" or

"Conservative" victim of illiteracy to the blame game is. Are
you pro Liberty, or pro tyranny is the question riddled
really. Example: Murder is Illegal.

Let honorable Soldiers know, who are the enemies that get them
KILLED for demon lies. CBC, the BBC and CNN is the terrorist
enemy by forbidding US, The People, from seeing the meaning of
iron flowing like water from the towers, prior to the imminent
collapse for the neocon traitors. As planned - boogahboogah.
Just because they hang on the fact they are here to mislead
ourselves for needless wars to die YOU for, doesn't make the
criminal intent they publicly express unchallenged against

Humanity, any less horrific in it's dupliciting of war crimes by smiling ~ 'unknowingly'. To go silent, is to except freedom to live denied.

Real Jews don't murder innocent people to steal their rights to Life for money.

Again, demonic zionists are ENEMIES of the Jewish faith. They lie to cheat at murder for money. Money paid for by American tax payers to murder innocent Christians, Jews, and Arabs. The pictures of zionist offspring, signing their nazi family name to cluster dud land mines, were FIRST used against Jewish northern communities in Lebanon! Way truth.|. yahduhyahduh.. Checkcheck. Johnny calling America! we have lift off with receivers, i think I got a connection.. Listen:

Freedom for America

/ / Just FIVE major U.S. banks control 97% of all the bank-held derivatives in the United States, a concentration of power and risk unsurpassed in the history of finance. \ \

/ / JPMorgan will take over Bear Stearns' $13.4 trillion contracts \ \

Understand this: JPMorgan received 13 TRILLION in derivatives by excepting the American tax payer gift of three hundred million, to take a billion dollar public building off our hands as 'the losers'. Then this: of all the billions in free tax monies given to the EXTREMELY wealthy [some are actual trillionaires] of the FIVE private banking industrialists, done to "bail out" America of this mortgage meltdown, none of that TAX money goes to the scammed home owners, who's costs have directly increased due to the transgressions of hedgers who privately take the real money for themselves escaping into the Cayman Islands, and leave US, the bogus credits to default on by disappearing public pensions, stock, ect... Example: where is the 13 TRILLION that JPMorgan inherited at the cost of more than 200 million American taxer played? How could a multi-millionaire stock holder of Bear Stearns lose all their money, if the company is still holding 77 trillion for Public leveraging? What kind of bankruptcy of Enron book keeping is that where our loot is unfounded? "lost" to market forces? But JPMorgan inherits 13 trillion? Try FRAUD. Like did you know, Mr. Trillion Aires isn't even on the hook for covering the initial mortgaged loans of mortgaged loans? Or that, the Royal Bank of Canada popularly paid out .02% interest on Canadian savings accounts just for spite? 'Knowing' you don't even have the strength of conviction to raise your phone demanding fairness for our forsaken Worlds, because, for starters, CBC, CNN, with the BBC an George Norry ain't going to take our calls for free

communications, for, the neocon zionists committed 911 with Bush's business partner General Ahmad to rob you all - and die our sons and daughters are, dying our sons and daughters are. Does George Norry really care?, do Americans even care?

/ / Hallburton subsidiary KBR told employees at a water injection plant in Iraq a sand-like substance scattered around the plant was just a "mild irritant," workers recall.

It turns out to be sodium dichromate -- a highly toxic chemical which can [as will] lead to cancer even with limited exposure. \ \

See? Bushite will kill bushite for a stolen nickel. Did these employees know their company robs from soldiers by charging themselves a $100.00 for a single bag of laundry?, or keep slaves to serve the nazi grunt dumdums? Or poison water supplies?, stealing oil revenues?, over billing America while Championing unchallenged by CNN Bush whores more needless wars to profit US further dying as innocent victims on? If the sacrifice of soldiers lives is going to mean anything, it going to mean how long it took, Americans to care for themselves as really worth saving.

Who's Jesus?

ABCNEWS.com : FBI Called off Terror Investigations
http://abcnews.go.com/Primetime/Story?id=131907&page=1

Now think American: Why do you suppose this is anything else but treason involving the escape of the 911 terrorists? Obstruction of Justice is seriously criminal. Understand: CNN, CBC, and the BBC news producers know the neocon bushite committed 911, [I've told them myself] but refuse open debate through dialog to continue murdering ourselves. They are all of Humanity's true enemies by forbidding the knowledge to defend ourselves judicially. In Iraq, American tax payers pay the salaries of lawless mercenary goons who gun down our families at random for entertainment, and all they report is McCain unchallenged, that openly supporting lawlessness, torture and theft of Iraq, is the only way to war "al-Qaida". Not to arrest the guy who financed the 911 operation, General Ahmad, no, but to murder our innocent families by those at Guantanamo, who practice Satanic ceremonies to the demon Moloch. Maj. Gen. Geoffrey D. Miller. You can't make this up. Where is CNN celebs concern for soldiers who beat children to death for pleasure escaping unaccosted? CNN Heroes?, like those who murdered more than 200,000 innocent People in Fallujah for traitor Sattler? Fight back for Christ

'47,500 lbs. of bombs were dropped by bushite on innocent people'

Bushite who war Humanity for Bush are enemies of God as Love, attempting to escape those who actually committed 911, like General Ahmad. When a bushite bomber of the air forces die, all Creation celebrates the victory over lawless tyranny. A good bushite, is a dead bushite halted as a thief from murdering more of our innocent selves indiscriminately.

Where is Christ in Canada when CTV reports there is no evidence that mercury causes Autism?.. Not reported is that vaccines cause brain damage 100 percent of the time, because they contain mercury to poison YOUR child. Type 'mercury vaccine' in Google, and ask yourself, how can some paid hundreds of thousands of dollars in salary as a zionist "expert" miss such findings, along with thousands of corrective emails, as an openly confessed enemy of Love in Christ, as Justice for Life? Do you believe those of Israel's military, who purposefully targeted Jewish communities in Lebanon are anything but, enemies to Life as Love for God's Son the Messiah? Where is a love for Jews in Israel, where this issue of Zionists murdering Jews for money in Lebanon isn't on their front pages demanding Justice for Jews in Any Town, Universally? Better Right: Who are the actual Jews Here? - and what about this "God" business.. I mean, really..

The Probable Cause to Charge Dick Cheney With Mass Murder, Terrorism, and High Treason

/ / The fact is that it shoots at figures it considers suspicious, with full knowledge - according to its own contention - that they are liable to be children. \ \

Condoleezza Rice "This barbarous act has no place among civilized peoples and shocks the conscience of all peace loving nations. There is no cause that could ever justify this action." This from the zionist demon witch who okayed the dropping of seven million land mines to murder children in Lebanon for generations!

Bushite still kidnapping innocent people to be tortured to death

/ / The planes, operated by Centurion Aviation Services, a shelf company for the CIA \ \

Study finds 98% of child drug trials lack safety checks

/ / In 11% of the trials there were deaths, \ \

These personal Usenet accounts closed by Google I've had for years. No debate was offered, no opportunity for me to even ask formally what the ungodly enemy of Life complained about, Why? Because the truth would have prevailed, and bush whore zionist enemies of God can't have free thoughts expressed by Man, for they would be understood in the streets by the Jews and Christians, arrested, tried, as prosecuted for lowly treason as enemies to Justice. For example: Condi, the zionist demon witch, dropped seven million land mines on more than 170 towns and villages in Lebanon to MASS MURDER our children indiscriminately for decades. Example two: Google has done nothing over zionist pirates who vandalize, every day of the year, page after page of alt.religion.islam, soc.culture.israel, and soc.culture.palestine from Earth's free speakers. EVERY DAY. A zionist enemy of CHRIST screams in joy over such crimes, as the silencing of the crying families going further unaddressed by CNN and CBC, who smile such denials, of my simple public demands to have the truth set US free naturally. FACT: Nazi Israel STEALS our Homes as the innocent forsaken by corporate news americans. Now, those war criminals in Israel wish to steal my name also, further, as my, Johnny Wizard King of Earth thang - not so fast pilgrim.. I don't know who you think you are but, I am a good man, not a thief of Peoples lives. As Son to God Creator of the Heavens and Hell, my will has intent to defend life, as I am a fighter for Justice in all my Love resides Holy and Righteous.

YOU as my "American" listener, will be expected likewise as CNN and CBC has broadcasted You, to do nothing to defend your own child from their refusals to report the fact that mercury is a highly toxic heavy metal that harms all of God's children. and YOU, like FOXNEWS TRAITOR LIARS, will kill your own offspring before acknowledging our great strengths of character as unparalleled in wisdom, for the Ages We Are. Instead, "The Experts" of FOXNEWS and CNN, will tell US as deeply ignorant on subjects you know little of nothing about, they will tell US silently not to bother bushite CRIMINAL enemy of Humanity personally to defend our innocent selves, but instead, evil thought "Socialized Medicine"'ers, being total losers to Life and wiser folk by simply doing the math as ourselves. [Americans pay twice as much and get near half the coverage that Canadians do - !no middle men!.] It's all about talentless corporate multi-millionaire mercenary pirates, seeking our freedoms in America to die profitably, as

they stand on the growing pile of rotting bodies, telling US all, we was right all along to do nothing for ourselves - like speak openly for Rights granted All in a Free Universe of Possibilities. Pick up your phone cowardly dying American, and demand Justice for 911, for, they could be You again. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. And... murder is illegal in all States. As just because the victim was an Iraqi child, casts their lives no less than any other of Humanity's Greatest.

Again, I, as the Son of Man born to GOD will remind ALL Americans, bushite have murdered more than a MILLION innocent people indiscriminately in Iraq, to thieve for the traitor neocon liars. Thousands of videos document those in the air force who target the murder of helpless children for example while chanting "whore yeh" in praise of the lawlessness to continue carnage against our better wills. Worth a death sentence by trial then firing squad, as blatant war criming traitors. Pick a Side: An innocent family?, or a UNARRESTED bush whore nazi rapist, a torturer and thief who believes some how Men of Earth do not exist to hunt them down with the Law of the Land for it. Not in Johnny World I'll tell you my friend, not in my world. Bushite are antichrist forces of evil who war GOD with supporting torture as our INNOCENT families of Humanity, all for the escape of the zionist neocons personally responsible for the demonic crimes of 911 going unadressed. Canadians will know, General Hillier has publicly pronounced Canadian Soldiers will not defend innocent people from being tortured to death under his criminal authority as enemy. Treason against Canada of the lowest order is what Hillier has spoken for himself cowardly. It's official: I am now in Command.

TOP ISSUES

The DEA has openly acknowledged that bushite in Afghanistan are pushing heroin into our streets. Innocent people are still being kidnapped by KNOWN bushite to be tortured as the Innocent to death. The 911 perpetrators such as Bush, Cheney, Condi, Myers with Rumsfeld and Ahmad, have still gone unarrested. Support my demands for national radio hosts like George Norry and Art Bell to allow US open discussion on these subjects, with open line callers to work ourselves through this struggle against lawless tyranny defeated with reason to be somebody worth the effort, or don't. George Norry has told US he's into killing kids, and going ballistic against any soldier who would refuse a criminal order given by neocon. A "great patriot" fighting the NWO?, or a traitor that to this day, happily watches Humanity be poisoned deliberately, and can't find the care to empower ourselves by simply allowing

open line calls from real people who demand a halt to such extreme evil criminality passed off as foolish 'non-stop' newsertainment?

TV NEWS CENSORS ARE OUR MORTAL ENEMIES

Did you hear! The Khadr team found a bushite manufacturing evidence in the military commissions trial. Death sentence for the bushite enemy, or will we instead silently except more crimes against ourselves as the innocent victims? Clearly, bushite are enemies of Freedom in America. We decide. Why must all Humanity die for TV America's contempt for Justice?, to not even fight for OUR dying rights, as if, My rights were theirs to steal. Support my demands for a real Public debate or die unworthy to the neocon's treachery.

HOCUS POCUS
* Only in America you Win 287 million where it really means 96 err.. 95.6 *

These TV experts on America, who refuse to defend American People from poisons in our foods, water, and vaccines, who just nazi lie and broadcast without challenge their top standings among themselves as sell-out corporate Bush whores, are the enemies of every living person who cares about counting votes to determine our real winners. Take a stand, be a man, dial the phone, your not dying alone. Help me.

We can not be defeated, for we never have been even challenged on what is globally, well documented as indisputable. Support my continuing demands for open communications to benefit any as Justice for all. All war profiteers will be sought for prosecution as the worst of criminality. AEGIS, CACI, and Blackwater will pay with their worthless lives through public trials for first degree murdering our families never forsaken in my living forever name. Death to the bushite, death to the enemies of Christ in America.

A New Life

A new life was brought into our world, and a bushite pondered that Heart, and threw it off a cliff for entertaining laughs. Laughs in knowing such action could make every child of Earth cry, that such action could make many American men feel helpless in knowing, such an enemy to Life, would dare steal the image of America as Once Great, risking itself continuing on with no more of a death threat than a small fine if anything. However. If we publicly demand the puppy killers be tried quickly for a tossing off a cliff for fairer sentencing, then the torturers and rapists might soon fear, they're never gonna get away from US either. Death to the bushite, death to the enemies of God as our great Love for

Liberty.

We shall Start with public demands for the formal arrest without bail of traitors Bush, Cheney, Condi, Rumsfeld and Myers for the crimes of 911.

As for our British Loves, call for the immediate public arrest of the con man Peter Power, as the probable cause for the 'al-Qaida' crimes of 7/7. Along with Ian and Tony Blair with their phony cop who was caught guilty for lying as our media over and over again, to then finally confess, he gunned down an innocent man for no 'known' good reason as an escaping MURDERER. And to never forget why the bushite will continue to die rightly: All for, The Queen's Best soldiers, who kidnapped barefooted children from Iraq to be beaten to death on prized video for their godless pleasure of hate for Justice

NEW GAME TO PRACTICE UP WITH

Turning Point: Fall of Liberty
http://www.gametrailers.com/game/5117.html

Boy, this new game is something, not just another, 'questions are stupid. lets just kill whomever-shoot-us-uppers', a computer game of life maybe worth the buy, if for only the reality concept..

New York City is over run by thieving bushite nazi savages, so you, as one of the few proud and brave of a, left to die leaderless, Corporated into lawlessness, America, give the bushite nazis, the real welcome they deserve with fire works. (As freedom killing terrorist liars, the blind to reason bushite always are. [unless seeking forgiveness for such cowardice]) Like it or not. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. And... murder is illegal.. So, DIE BUSHITE DIE by trial and jury we WILL stand for God and Country to defeat evil Nazi tyranny, guaranteed. It's written in the stars. Your paying for some crime. What are YOU good for? The Man says, Evidence is Everything. ..and a person accused of a criminal offense without any public evidence to surmise, is still innocent to anyone. Justice Will Rule when we know what true freedom is gained, by enforcing anti-torture in all cases, then actively hunting down, as Reagan's War Law States, the bushite personally responsible for crimes against Humanity in our stolen Names. We have the demon repuglicons who are voting on the support of torture as something other than TREASONOUS that excuses a murder of an innocent other, as godlessly sadistic. [For even the True Satanist, or True Atheist, would bill these grunting bushite torturers without even sweating about what's right or wrong. thinking.] Those censors like Rush Limbaugh or Shaun Hannity that refuse our wiser minds, do so because

Freedom defeats them in seconds - to be the disturbing groveller to self destruction that they confess to be, hiding from nobody. However: In Johnny's America, they's not down burning in the fiery pits of hell symbolically to teach US all a valuable lesson, Theys got millions from us for "our" continual wanting of yet more mass murders as worst than any fictions since dreamt, and I, the Wisest Godman on Earth, instead of having Coast to Coast public interest, have mostly zionist crazed insults from extreme sexual dysfunctionals, offering to whore to a hundred and 50 something countries - just to fuk you up as lost again to the cause of Liberty. SEE? My critics can't criticize me on my facts, because we are truly dying here forsaking ourselves, truly dying as victims, because of the corporate media refusing to HONESTLY take our continuing challenges to report on. Look, CNN and FOXNEWS hosts have multi-million dollar salaries to cover nothing as important enough to honestly gauge US on, while I, I got hunger pangs feeding my growing costs. Support giving generously to me as my fledgling company, and soon, god willing, I'll be able to leastly afford myself a bus ticket with a tape recorder to get myself down to Washington DC, where I should be giving answers to the People whose questions have not as of yet, arrived from departure. Even with the speed of the Internet and everything, we are still putting harmful chemicals in our vaccines, foods and waters, that do nothing but kill us quicker. Stupid proved a million times over, or, no.. master genius of a new world order, whatever, it must stop, and it must stop now. But, not according to CNN, CBC, BBC, FOXNEWS, and newspaper editors who are much more into money taking by blindly supporting in print, the killing of innocent Peoples in Our Name through Israel, for the stolen cash kickbacks, by just claiming they don't hear US really screaming.. Ever? Never?

Sad, but without your generous dollar donation to the cause, (meaning more than being near less than nothing you people'll please give me in return,) i may yet go short again, so our bankers can take even greater monies by investing in our denied "failures". How about supporting my rise to demand public debate on Justice actually Ruling: by Publicly arresting for Public Trial by TV Jury, Mr. Bush and Cheney immediately, for the crimes of high treason as a major misdemeanor. 1. They closed down investigations following the 911 crime scene leads, designed by the lawMakers of the Land to capture the actual terrorist bad guy leaders of true evil - you know, the Crooks. (Obstruction is serious!) NOBODY disagrees?, publicly? ! SEE? CNN CBC AND FOXNEWS ain't really taking our calls for listening then are they for Justice? It could be dreamed that we are only refused for to be, not valid as fairly recognized. Like, how absurd! that

Obama's preacher suggests supporting WAR crimes AGAINST HUMANITY, is a crime against God too? See, corporate America couldn't give a dying soldier a clean glass of water to save his forsaken life, because hey!, who cares? CNN, CBC, and FOXNEWS certainly don't care about escaping the bushite enemy responsible for the lives lost through the crimes of 911, and so on.... but my friend... do you??

So,

Send this post to your favorite talk host, newspaper, or bar message board if sparing me a few dollars from Japan seems rather obscure. All for the sake of knowing a brother's down on his luck to find some love for Liberty in America.

King Johnny Wizard

P.S. I seriously need to eat.
Please help me, by supporting our cause to not starve to death. If you appreciate my words in defense of the once great Human race, donate a few dollars to this cause. Justice and Freedom for all, especially God as Just, and worthy our praise for Peace. Donate me leastly five dollars for Canadian 2% milk, and yummy multi-grain bread please.

How They Voted: Torture Bill
http://www.cbsnews.com/stories/2008/03/11/ap/congress/main3927680.shtml

These be criminals of the worst order. In America, today, the standing Reagan Law, demands that these bushite enemies of God serve a minimum of 25 years, for knowingly supporting the war crimes actions of torturing innocent Peoples to Death. As President, with the Armed Forces in tow, we will arrest, try, and convict all these demon enemies of freedom for Americans.

Look, we have to realize: everyone knows a bushite cop killer thief is a cowardly enemy of America, who wars God and Humanity as OUR ENEMIES for the criminal escape of the neocon Zionists responsible personally for 911.

Proud bushite enemies of God and Man state:

http://www.forum.militaryltd.com/tun-tavern/m10997-zarqawi-had-close-call-marines.htm

"Heaven Won't Take Marines and Hell Is Afraid They'll Take Over."

See? A bushite is an enemy of the Family, who rapes and murders for the demon antichrist thieves. Dishonorable to the core of what it means to be a free man, they die in cowardice, too afraid to defend what's right as true. A liar, a thief, a murderer, that is what a bush whore nazi grunt who states life must die for as lawlessness. They war Humanity as bush whore slaves for the escape of the neocon liars of 911. (General Ahmad funded Atta) They support torture by silence, they support raping women by silence, they support robbing The Peoples by silence, and they support killing themselves for FOXNEWS to continue LYING to America about what it costs to be a bush bitch who chants routinely, "whore yeah, whore yeah" Death to the bushite, death to the enemies of freedom in Johnny's America to talk openly with the FACTS absent Coast to Coast hosts Demonic censorship of American voices as True Liberty we shall proclaim. I wrote that.

A Zionist liars website:
www.Jews-Did-911.com

I didn't do 911?, least not responsible for closing outstanding criminal investigations on who personally was responsible: Bush and Cheney, Zionists. Not Jews. Zionists believe Israel should not be defended from war criminals who bomb Jewish communities indiscriminately to murder children with millions of landmines. Condi, zionist witch, ordered the dropping of near seven million land mines on Lebanon, with the first strike targets to be JEWS pin pointed by the anti-Israeli racist nazis. Jews, who are so, no matter where we eek out a significance. CBC, CNN, and FOXNEWS with George Norry refuse to take my challenge for public accountability as Zionist enemies to Life. Nazi Israelis steal innocent peoples homes, period. Who's in charge here Kangaroo?? Eh?

Conspiracy of Conspiracies

March 7th, 2008, George Norry
'Why is it that we can never find the big foot?'

Ask the more good than bad Alex Jones why he refused to ask Lou Dobbs why he hasn't reported that General Ahmad funded Ahmad? I know why.. Because Alex Jones once again, with Dobbs, whored for the demon antichrist's escape for the treasonous acts of 911 committed in his name.. Justice as Freedom?, or more go nowhere NWO shadow government bullshit to escape the ungodly zionist neocons personally responsible for the crimes of 911. I demand a Presidential debate with America where We can't hang up on US, while claiming to ourselves as the audience, that the truth tellers hung up myself, honest John. Alex Jones suggested yesterday that ALL those who criticize himself on anything, without naming names, are just jealous. Again, Mr. Look! it's a Prison Planet is not qualified to lead a Peoples towards freedom through Justice wanting. (Qualified to lead the news however, granted, one of the best, IF NOT THEE. (Except for Zionism, Health Care, Immigration, feminine Rights, Banking Issues, and a.. Trade Law))

Mr. George walker Bush is the primary CAUSE for almost all the criminal transgressions against God in America and abroad, since the demon stole the initial election back in 2000. Alex's contention that Mr. Bush and Cheney isn't worth attacking personally with our Laws on treason for defense, (all because theys not responsible for nuting, as his NWO "Puppets",) IS Tyranny of the worst order. Ask anyone, including Alex if he could get his chumped "ego" out of the way. Truly, "Socialized medicine" can also mean paying half as much, with double the coverage. Middle men are our answer givers when it comes to Americans questioning the system of injustices inflicted. Did you know: Private Insurance Companies can clear 70 percent of money invested? NOW... wHy wOuLd wE Do tHaT? If we had the free choice to decide for ourselves I mean, "I" am asking "You"??

Justice is what ALL want for 911. The State of Vermont just ordered all State troopers to not stop Bush on arrestion for High Treasons there as a broad. Newsworthy in corporate America? YOU decide, or don't. Mexican troops, funded by American tax payers, are selling dope in America for Bush and Co. openly now.. Who are you going to call?

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their

flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Petraeus Threatens to Murder More Innocent Peoples!

/ / Gen. David Petraeus said. "We can feel it and see it, and what we're trying to do is rip out any roots before they can get deeply into the ground." \ \

As the President, I will demand Petraeus explain himself. If he refuses, I will order the military to arrest him on sight for lowly treason. We know already, that every bomb that goes off to murder indiscriminately, that isn't credited by bushite THIEVING enemies, is blamed on bin Laden, without the least of any investigation, according to Petraeus' own staff, as so reported on PBS. He, Petraeus is an enemy of AMerican GIs, by refusing to order them all to hunt to kill the neocon terrorists responsible for 911. TREASON is anyone's book. Death to the bushite, death to the enemies of God in America.

THIS IS TREASON

Bogus Iran story was product of Pentagon spokesman
http://rawstory.com/news/2007/Bogus_Iran_story_was_product_of_0116.html

/ / Starr added that one American boat had been given the order to fire, and the Iranians had moved away just in time.

Porter identifies Bryan Whitman, the Pentagon's top spokesman, as the culprit for the spurious [TREASONOUS] account.

Fifth Fleet commander Vice Admiral Kevin Cosgriff denied that his ships had been close to firing on the Iranians. So did destroyer commander Jeffery James. \ \

Remember, these bushite are trying to con leaderless America into a another needless conflict, where we die for their growing riches as war mongering privateers of this, our 'popular will' contesting as defeated already.. Johnny America for Presidential Election Questions! Or, go back to dying needlessly then as dunfukked "Bushite", you losered.

-

Bushite "Hero" makes eight year old run five miles to save the life of his loving mother, to only after the run, be laughed at with a refusal to grant the emergency water the soldier dumps elsewhere. [Remember: demonic bushite enemies of GOD blew up the water treatment plants to "help" Iraqis.]

U.S. "surge" policy of arming all sides
http://www.rollingstone.com/politics/story/18722376/the_myth_of_the_surge

Look, the bushite has no mind to support these indiscriminate bombings of our friends and family. To kill a bushite, is to save the lives of innocent god loving peoples. A bushite is a lying traitor to civilized humanity, who wars Life to escape the neocons for 911.

President Clinton Speaks on US as Dying Idiots

http://groups.msn.com/PeoplesPolitics/general.msnw?action=get_message&mview=0&ID_Message=360506&LastModified=4675658822492294908

President Clinton - "We look like [DYING] idiots, folks, denying that the people who murdered our fellow citizens [GENERAL AHMAD and Co.] didn't when they are continuing [AS THE 'ESCAPED"] to murder people all around the world," to thieve further for the neocon traitors, from a left undefended "America" silenced by censorship practiced by the demon enemy George Norry, making lawless and godless, synonymous with good will and charity. Where's the reason for George Norry to be happy about godless tyranny destroying GOD'S undefended America I ask YOU? George Norry is what is referred to in the bible as a Demon.

Fight back for Freedom, Fight back for God, or rightly die a cowardly victim to eternal life's desperate struggle against the bushite's tyrannical barbarity where indiscriminate bombings with torture and rape is not worth getting anyone publicly arrested over, and courts with lawyers are banned to practice by the war criminals left in charge without questions given or answered, while YOU continue to pay dying in silence. Pick up YOUR phone, and make the call to talk radio to-day. Demand Justice for America, demand Justice for God.

Demon Livney "The world should respect ANY ACTION taken by [ungodly zionist evil] Israel in order to defend it's citizens."

So, UNGODLY nazi Israel can put millions of innocent people in concentration camps, because hey, it's to protect the enemies of Mankind who routinely steal innocent peoples homes, while murdering our children indiscriminately with land mines for Satan. According to the Jewish/Christian Bible anyway.

Catholic Bishop: 9-11 was inside job
http://thetruthseeker.co.uk/article.asp?ID=7580

/ / They [the zionist demon antichrist forces of evil] may
well be plotting another 9-11." \ \

-

U.S. Army Sergeant Logan Laituri - "The problem that we face
in Iraq [AND ZIONIST AMERICA] is that policymakers in
leadership have set a precedent of lawlessness where we don't
abide by the rule of law, we don't respect international
treaties, so when that atmosphere exists it lends itself to
criminal activity," ..by rapists and torturers who OPENLY
practice a hatred for G-D unprecedented in world history. The
Nazis of WWII have nothing on bushite enemies who sing and
cheer on video available at YouTube for the murders of
innocent god loving children. (Just like REAL DEMON censor
George Norry advocates publicly by the way without contention)
Death to the bushite, death to the enemies of a liberating
Mankind. So says the Man of men as Son to God always.

Accountability is what ALL PEOPLE WANT.

Phone Coast to Coast and ask the demons how it figures the NWO plays more a significant role on 911, than "The Puppet" false accuser, Mr. George Walker Bush, enemy of GOD and Man?

/ / "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite TRAITOR and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children practically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis savages, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones.

Support our calls for open debate on our international channels of state. CBC, CNN, BBC and FOXNEWS specialists, are warring our lives by forbidding US speaking for freedom's stake. "A free man shall not be imprisoned" is not ideology, it is the freedom to be freely communicated. To except CNN and FOXNEWS is unbiased when it comes to kidnapping and torture, war criming and poisonings, is to except corporate news interests do not serve the interests of defending US, the dying forsaken public. The waves are ours. Let Johnny speak for public challenge on Coast to Coast.

Bushite are Traitors

British Soldiers Torture innocent Iraqis to Death for fun as Satanic

SEE? Soldiers who Hunt to kill a bushite, hunt to kill the enemy of every living person. They are enemies of truth, as enemies of Justice for Life. It, as a zionist KNOWS, is an enemy to freedom and God in Britain by supporting indiscriminate warfare, such as torture by suggesting we have no power to demand evidence to form OUR conclusions on who is good or evil.

Heaven Won't Take Marines

Did you know: American tax payers openly pay the salaries of death squad goons who murder defenseless innocent families in Iraq TODAY as The Enemy?

Support my call for open communications to demand Justice for any, as freedom for all.

George Walker Bush, "The Puppet" is GUILTY of TREASON a thousand and one times over already. We all love Alex Jones, but this nwo bullshit doesn't apply to the lawless demon enemies who inflict harm on our humanity because they confusingly tell US, they enjoy it. Murder, rape and pillage for the sake of murdering, raping, and pillaging. Look, I'm

sure we'd be able to easily work out our differences, if George Norry's amerka would take our calls for clarity, on Justice ruling our ways to a fool's paradise where those accused of a crime without any evidence would be US, as the INNOCENT forsaken in God's good name.

http://www.whitehouse.gov/news/releases/2007/11/20071107-5.html

Look, November 7th, the demon antichrist stated he and the neocons ordered the murder of more than a million innocent Iraqis indiscriminately because, he was simply enforcing UN resolution 1441. HE LIED. [how else could the UN officially declare bushites as war criminal? NO CAUSE!!] And multi-million dollar salaried, "American" reporters, who full time, claim to represent American interests while you slog double full-time for corrupt private bankers, refused to call him on it to defend ourselves from his easily provable demonic tirades against God as the innocent. On the scene, and still today... YOU, as American are TRULY dying for George Walker Bush's continuing LIES. Johnny Wizard is Forever King of this moment being. If you can't believe it is important for you to raise your cries for justice likewise, we're all going to be done for lost to indifference. Defeating the neocon is serious business my brothers, serious business.

You and I

Our Demon Enemy Lying Leader Mr. Bush speaking recently, "You and I believe in accountability", "People should be responsible for their actions", "My number one priority is to protect you" "All human life is precious and deserves to be protected." Just words from the demon in HIS nation that drops 47,500 lbs. of bombs to indiscriminately murder Iraqis while paying [whoknowswhere] salaries to 80,000 al-qaeda in a nation the antrichrist forces occupy, all the while, holding George Norry a great host for supporting the war crimes of bushite thieves who target innocent children to steal further from our undefended Graces. As George Norry happily sends CONNED or cowardly America to their treasonous doom, for the zionist neocons personally responsible for the terror crimes of 911. The George Norry is an enemy to God and Humanity by conning Americans into not allowing open line communications on any relevant human interest story involving the criminal sacrifice of Justice for America. No, instead, more bullshit on AREA51. AREA 51 where toxic waste is illegally burned for cash profit at the loss of REAL American lives paid for in CENSORED collateral. You die as An American for the treasonous con of Coast to Coast hosts who forbid open dialog on the reasons for why YOUR nation wars innocent others to thieve from. Remember, the REAL DEMON George Norry gives an endless stream of bushite dumfuk who endlessly praise George for supporting

the neocon murders of more than a million INNOCENT PEOPLE by forbidding truth to be sought concerning our circumstances. And YOU, yes YOU, are meant to feel alone in your concerns on the fact that the neocons are trying to escape their rightful arrest for the crimes of mass murder. Al-Qaida = General Mahmoud Ahmad. George Norry is a DEMON traitor who's con is on just playing happy as a polite demonic sadist, who silents on for the murder of soldiers - who are as dumb as we come. George Norry deserves to be TRUTHFULLY exposed for what he denies as America's privilege, freedom and justice for all.

GLORY OF THE CORPS - A Real Man Speaks for Freedom

Coast to Coast hosts wont take our calls, but they did take several demons on Wednesday, one in particular who figured he could be a "god" too, by supporting the indiscriminate murder of Iraqis to defend the evil zionist neocons in hiding. But, what did GOD in Iraq have to do with the bushite responsible for the DEATHS of 911?, or the DEATHS of all Arabs in around the naive age of 15? George Norry didn't ask.. Another demon witch allowed on our air said at great lengths, she appreciated that the demon antichrist Bush lies continuously to dying soldiers because that's the only way to blindly defeat terrorists.. (evil = good) George speaks nothing but happy silences in trusting warmly with dying US all for ignorance as belligerent criminal negligence. Again, the demon enemy of God refuses US to open communications on any relevant subject involving the sacrifice of American lives. Staying happy, he figures that's all it will ever take to defeat Americans lost in doubt on his contempt for all Peoples lives, is to simply forbid knowledge from escaping his charade. He told US previously, he'd go ballistic against any soldier who refused a criminal order. So, when marines are asked, as reported, if they'd murder their own parents without reason for the glory of the Corps., would George Norry shoot "them" as traitors for asking simply now why would WE do that? See something here my friends behind these great words of wonder? Demand open communications regarding our demands for the arrest of those truly responsible for the crimes of mass murder in America on 911 back in New York city.

Will you willingly go to die as crime victim for the still happying as wealthly, George Norry?, or will you speak in defense of your own world left denied falling to die?

Again, realize: George Norry, the indisputable pro-child killer, forbids Americans to understand: General Ahmad funded Atta. And that iron flowing like water on video tape exists. The demon states the antichrist ["not Bush", the demon lying capital false accuser, who immediately closed outstanding criminal investigations on 911 while claiming to be a Christian, and all those who appose with independent thought, evil terrorists] is actually the guy who states he's of GOD! Where demons? I, The son of Man, CREATOR, demand America prove their great love for Freedom, a "truth" they promote as practiced, to continue hiding the lies committed by treasonous neocons responsible for 911, and so on... Remember: Coast to Coast hosts don't mention no specific individuals responsible for the terrorist acts of 911 learned from official investigations done by the honorable in the FBI, and a great many others, no, why? Their chauvinistically contemptible egos. For example: we're hugely more wise on health care, and they'd rather DIE AMERICA, before allowing us to speak in challenge to their irrationalisms, that truly cost everyone more money by staying dumb on the issues. See? I support open debate, while national bushite broadcasters boast of happy times to see US suffer for more pled ignorance hiding sadists, like the coast to coast radio host, George Norry, who's into murdering innocent people in war for no better good, or reason understood. You Better Watch Out

God is coming to town for bushite nasties on his sled of make
believe. A halted bushite, is a mercy on our souls, in
defense of ourselves the innocent. The innocent that a
'lawless' bushite holds for ransom in pain dying. Hell hath

no fury like that held against the bushite enemy, a savage zionist criminal waging war against Life as our shared Universe, 'escaping' those who personally carried out 911. Bush, Cheney, Rumsfeld, Condi, and Myers as topped suspects. Other 911ers will tell you no no no, it's impossible to apprehend them all, for the arrows can go on for never. Bush personally closed criminal investigations on 911 immediately after the terrorist event of no questions occurring. The Bush administration were well aware of their PERSONAL dealings with the Taliban prior to the "Pearl Harbor" event conveniently occurring. And they were all most certainly aware of the plans in place to: within weeks, invade Afghanistan for Enron to stave off criminal proceedings. Walla! Johnny G wills every able bodied man, woman, and child to defend ourselves against bushite that indiscriminately murder ourselves for cash profit. Stolen profit. Ours. By the Will of US alrighty, we shall recognize...

The King Has Arrived

Look, let's "say" Peter Power didn't do the crime he did, and told us so for our own benefit, it would still SUIT Peter Power for him to be arrested immediately for the crimes of 7/7. For it is Peter that alleged HE was running terror drills at the same time and locations of those that murdered many good people from London. London England. Privately, with his bud at Scotland Yard he's saying. I'm sorry, all Bobbies do not want to kill indiscriminately so Peter Power will score a few extra BILLION dollars to hypno mug us to say we can't find'em no matter how hard we look.[*ILLUM I NATII*]. Americans are just poorly being spoken for, by those who lack the skills to win justice denied from the average Joe who knows so.

A Dying God

Look, these soldiers who war for enemy Bush are not warring for freedom as Justice for Ourselves.

Evidence is Everything

there is more than enough supporting impeachment of washington insiders, but the news media refuses to say so to defend our dying interests.

Let's demand CNN, BBC and CBC respect our interests by publicly advocating accountability in respect to the terrorist acts of 911. Their position of neutrality is unwarranted in respect for our victimized selves due to indiscriminate warfare. The Iraq war has no legitimate cause, for they are warring to bring about an end to what they started/starting. Nazi fascist Cowards, as enemies to every man woman and child

speaking.

Bush Threatens To Veto Bill That Bans Torture
http://www.huffingtonpost.com/2007/12/13/bush-threatens-to-veto-bi_n_76770.html

See how these DEMONS play? Torturing innocent people to death for the pleasures of a bushite liar, already warrants the death sentence in America. It's like lawless bushite nazi savages spying on innocent Justice loving Americans, "Just" to see what your doing, IS illegal, now.. well.. YOU decide as the 'made' uniformed. Make a phone call for freedom you lazy amerkan fuks. Ian Punnet says the towers fell naturally, and George Norry reports we got to get bin Laden.. blahblahblah. They know America is dying and couldn't care much less with all the laughing and cheering at YOUR expense.

Oath to God

The bushite took an Oath to God and country to defend America from war criminals, and instead, as cowardly neocon bush bitches, commit war crimes of theft and mass murder against the great Iraqi People. A soldier in the air force, is a dishonorable nazi savage, worthy the death sentence for assisting in bombing Humanity indiscriminately as zionist enemies of Christ, attempting to destroy Johnny's America with their provable DEMONIC LIES. Death to the bushite enemies of Life, who lawlessly war Creation with torture and slavery to 'escape' the neocons for 911. Your magic TV exec excuses don't mean squat when the facts are so readily available. But a bushite don't read, or write, or think freedom. Zionist enemies of ALL Our humanity, murder to believe US won't ever hunt them down by Law to defend ourselves over. Hammurabi LAWS to bill the false capital accusers first, and everything else will fall into place. [note: Hammurabi founded Civilization.]

Christ Begs America

If there is ever a reason Christ begs Americans to joyously, with pride, bill a bushite terrorist enemy of God, it is with the actions General Sattler took in murdering more than 200,000 defenseless innocent people in Fallujah. At youtube you can see and hear these grunts cheering "whore yeah" in praises to the demon antichrist, while committing horrendous war crimes Nazi Germany would have been proud to see the bushite die for. They walk through the city, killing every woman and child they find hidden. No Joke: first strike targets - Health Care Clinics. I am serious.

Demonic U.S. Soldiers Torment Iraqi Kids With a Water Bottle

Can not even an American scream mercy for ourselves as "The People"? Bill a bushite demon enemy for the love of children everywhere. While demanding emergency water, food, and medicines be trucked in by the plane load. Do it or truly die American, do it or die. Christ grows angry with Americans who refuse to even pick up their phones to express outrage, it's as if, Americans, er.. I guess amerikans, couldn't care less for our dying Humanity. Support our rise for debate worldwide my friends, worldwide. America sucks.

Exit strategy: Outlaw lawlessness. Murder, rape, and the thieving of billions from America as STILL wrong.

I'd like to see Americans enforce the law of the land, and advocate the public execution of those responsible for torture. Again, the TV celebs pretend there is actually some possible meritable argument to support these truly demonic actions as criminal. Bushite have admittingly kidnapped innocent people, then tortured them to death for the pleasures of doing so, 'knowing' also, that they couldn't be held accountable to US, the human species. All for hating us so as loved by Life. They say, we're too weak to stand for freedom's defense against naked tyranny - While Johnny says

otherwise: Death to those who advocate torture in war time,
for there is no legitimate argument, but for the practice of
censorship to understand why the Laws against torture have
never failed for defense, but, for the treasonous actions of a
Bill O'Really, who recently reported internationally that the
majority of Americans support torture, because it means....

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous

bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

I AM AMERICA

Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected traitor neocon. I AM AMERICA.

America MUST demand war crime trials for the propaganda CNN broadcast "Anvil of God" regarding the demonic actions of Bravo company. They forgot to tell America importantly, nazi forces forbade the population from leaving, gunning originally for everyone between 15 to 55, but sided instead to murder infants and the elderly too, when beginning the Zarqawi campaign by bombing hospitals as first strike targets. As such, the bushite murdered many good doctors and nurses - so all to send bushite snipers on hospital near rooftops gunning for every seriously injured woman and child who tried to get help from the Humans. While driving down residential streets, grenading every home of humans being. Remember that when you hear these dishonorable bushite thieves die rightly for god and country.

[Sideline: It's been thought the reason why rescue efforts in New Orleans were provably sabotaged by Rove, was an attempt to make the blue state, commi red.]

See?.. women and children, who the enemy bushite forbade to leave the city with their innocent families, who, as were all living in the entire city of mosques conveniently found labeled therefore by bushite, "Insurgents" (or did leave earlier, and had our innocent families reportedly indiscriminately murdered two miles or so down the road by the most evil war crime act of recorded history.)

Importantly, there was no evidence made awared of, that legitimately offered PUBLICLY, from the UN or the U.S. to indicate a refugee camp anywhere, but for maybe a small group photographed - then some belligerent bushite bogus pocus - all headed up by a blatant traitor to America named Sattler. Reminder: after the indiscriminate carnage, they couldn't find near anyone for weeks who would take money offered to any citizen freely who survived for their satanic benefactor. So insanely disturbing as ungodly evil doing, war criminal Sattler called a halt to giving out charitable considerations from Americans to the unseen surviving victims - all in an 'escape' attempt to make it look better for US, the paying

audience. So, where did our stolen values go to then eh?

911 Leaders Saying They Are Jesus
http://rss.nfowars.net/20070802_Thu_Alex.mp3

911 financier Ahmad = al Qaida, and we have molten iron on video flowing like water. Demon Bush Jr. gave US zero, while closing criminal investigations immediately after the terrorist offense of no questions!, no questions! Case closed. But no, the American media rarely if never mention these facts, while insisting Bush's deathly war criminalling is as only a puppet, look away! look away!, leaving without challenge on the, teen like naivety of wearechange.org's consistence that "we", who demand justice for 911, who might also hold the opinion that zionist behavior does not blindly equal being Jewish, should not be allowed to speak Justly for our public challenge, because bushite Amerika has no defense for censorship against ANY of our judicial wanting, as documented positions on behalf of the suffering to death victimized public. Why? Because we are Just. Well, I try to be anyway. (I've spoken as written for YEARS, with NO ONE WORLD WIDE countering in the public realm, but for the strangely odd insult. Bushite do exist, don't get god wrong, but dumb evil bushite brood in darkness with censorship like all zionists do, selling to be 'godly' honorable men, when in truth, they'd murder anyone of US for a stolen nickel given to a neocon. I, as open line talk radio producer, win every time, always, forever, never fail. [er.. yet..] Why? Because I treat YOU fairly. America should do the same. We are all in this together. Zionists like robbing then killing defenseless innocent Christians, and Jews, while just lying that they don't without scened factual TV perception. Demon 911 WITCH, zionist Condi 'okayed' the dropping of more than SEVEN MILLION land-mines on Lebanon, purposefully done to indiscriminately murder ourselves for generations. Jason might foolishly call you an "anti-Semite" in fear for speaking such not understood truths. And importantly, not because they can publicly disagree so in open debate, so sides to not allow US to rise in acknowledgement to bring about Justice as

demanded, for ALL as ANY. (Gee, who's the neocon now eh?
(we're all sinners.))

If Americans really want 911 Justice:

Help US out by putting the video of molten iron flowing like
water out there in the minds of any who have doubts, tell them
hypno mugger Bush, gave US zero to substantiate his public
falsehoods, and tell US about Ahmad as more than a passing
fact that means little of nothing, then, WE, The People, will
believe this has more to do with Justice for Humanity, than
the American suffering movie goer ego being, "leading the free
world", by voicing no public concerns on the criminality of
the bushmob shysters. Left happying in the George Norry, as a
TRAITOR to a dying America not hearing. An enemy of Liberty
to the, tried to be free soldier, who is led TO DIE still
un-wittingly by lie for the misfortuned neocon bounty of
global tyranny through coast to coast story lining. Look, the

General Johnny would teach MY soldiers to immediately arrest to kill for such criminality. In fact, I'd likely even throw in some bonus cash, an a Freedom medal from all lovers of Liberty. Did you know, many bushite sing a song about killing innocent young girls for pleasure? Did you know that also, an "American" radio host likes playing that same song as recorded on "American" airwaves? See? in Johnny's world, that "the Army" person would have been the FIRST questioned, then likely arrested. But look, it hasn't even been acknowledged as evil doing in progress. (Every time you read, "The Army says..", become aware.)

It should be noted, ungodly bushite enemy commanders call every car bomb in Iraq, al-Qaida, without even pretending to do freedom operations for YOUR protections, as just another dead body in the rubble. (Likely caused by Aegis for cash profit.) So then, look my friends, Amerka refuses to demand justice to save the lives of their very own sons and daughters. And when, WE, Humanity, beg them to answer our calls for accountability, they refuse but for to LIE, stating publicly, "God" would grant robbing from innocent others, to enrich their great unholy tyrannical demon liar. They know easily that the bushmob did 911, and they like it. No, they crave it. Bush Successful at Permanent Legalization of Torture
http://www.prisonplanet.com/articles/march2006/070306Torture.htm

/ / The truth is that the Bush Administration has used the McCain
anti-torture bill to codify a policy of torture that is now
embedded in our legal system for perpetuity. \ \

WE'D be hunting down those bushite liars who
torture innocent people to death for their satanic pleasures.
For, you know it does warrant the Death Sentence in America,
right? (You can thank Reagan for that...)

/ / In a move that hardly indicates that he was a terrorist
plotting to attack a US government installation Tatar then
went to the Philadelphia police department to complain that he
was being pressured by someone into getting a map of Fort Dix
and that he thought this had something to do with a terrorist
plot. \ \

Didn't see this on our TV news either did You?

-

/ / On CBS' "Face the Nation," she claimed that intelligence
errors before the war were "worldwide" even though the
International Atomic Energy Agency's Mohamed ElBaradei
publicly stated there was "no evidence" of an Iraqi nuclear
program \ \

That from the 911 witch, who forbade a stop to hostilities IN
AMERICA'S NAME against the innocent in Lebanon. Nazi Israel
ADMITS to the targeting MURDER of any innocent persons who
drive in a truck. Perhaps Americans. Who cares? Not CBC or
CNN they'll tell you consistently absent from the crimes
scene.

Death to the zionist bushite enemy forces

/ / After it was revealed by the Plaid Cymru MP Adam Price that British trained policemen had tortured prisoners to death with drills, we discovered, through the New York Times (!!), that American intelligence officers had been working alongside them at the Jamiyat police station \ \

BASELESS?

/ / Prime Minister Stephen Harper "We will conclude a formal agreement so that we never again face these baseless allegations," he said. Thirty Afghan detainees have claimed they were beaten, whipped, given electric shocks and denied food once they were transferred to Afghan security forces by the Canadian military \ \

These demons who war for ZIONIST censorship are a bunch a dope pushing cop killers, who murder innocent people they call 'Taliban' better known as in Arabic - students.

-

Tenent "Lets everybody tell the truth."

It seems Tenent wants to inform us he actually meant when saying "slam dunk" - that, selling the war to the American Joe, without establishing any real facts would be easier than anything against the powerless as media unrepresented!

Bushite War LIFE Itself - and - They Couldn't Care Less

'Alpha company patrols the poppy fields.'
20070420_taliban28.mp3 (pbs broadcast)

"About the poppy harvest, currently gathering pace all around them, they couldn't care less." Instead they kill unarmed innocent people indiscriminately as enemies to ALL HUMAN LIFE.

They Couldn't Care Less

The 82 Airborne, in assisting in defending the world wide distribution and production of heroin, tells of murdering innocent farmers, that would never raise a gun in anger, are those they openly confess to target for first degree murder as labeled the, second tier Taliban. That's when not defending American Pension thiever ENRON'S pipeline managed under their extremist Muslim fundamentalist regime of intolerance for public communications, as the continuing thieving of 80 percent the Humanitarian Aid given by Canada to feed the STARVING, and school our children of the impoverished Afghanistan, as so reported. Eighty percent. 80. 80 percent stolen. I'm telling YOU: CBC couldn't care less about what Canadian soldiers are actually dying as COWARDS for:

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime" CBC national radio management needs to be arrested in Canada for high TREASON. Please, be a Patriot, and demand these zionists allow open communication with the facts to save the lives of Canadians soldiers they hold in contempt to die as the bad guys committed to no better good.

AMERICAN

Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're

going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Al-Qaida = General Mahmoud Ahmad

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Patriot Soldiers, who trust yourself to see, this wanting of

event without any evidence, has our accuser a bushite, who
should be watched carefully until verifiable conclusions are
done by the understanding of fact. Not faith. With George W.
Bush making real decisions in faith, expecting us to believe
as corporately broadcasted unabashedly unbiased, that he
is not a deliberate incompetent monster war criminal
of unfathomable evil?, who is just too 'stupid' to understand
why we are innocent until proven otherwise?, is really
something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he
played no part whatsoever in 911, then later, offered himself
for arrest, confident he would be acquitted. Not corporately
newsworthy though, so, few even know why their American child
was later died in the terrorists act of corporate contempt for

paying themselves salaries with an obscene take of in around
1.5 billion a year in such "failures" of national management
skills. They take from ALL disenfranchised being Talentlessly
criminal as truly, the despicably evil. All TV nazi pundits
at FOXNEWS and elsewhere will be publicly tried for war
crimes. Taliban fighters are guilty of nothing but standing
in defense of the innocent victims of 911. Today, in
Afghanistan, bushite bomb and torture indiscriminately while
oppressing women, Christians, and children, push heroin, and
steal everybody's donated cash. Real Christians will bill
enemy liar bushite for GOD and man until these undisputed
truths are openly discussed with the facts in Our names.
Death to the bushite torturers, rapists, and thieves, death to
the enemies of a free America liberated from the tyranny of
censorship.

Bushite soldiers beat to death innocent Children to 'let off steam'
http://youtube.com/watch?v=fxi5kxzx3V0&feature=related

We, as Humanity, will hunt every last bushite demon down for death to defend our loved children, for, a TRUE Love for GOD never dies. Demand these enemies of Life be destroyed for freedom to be all we can be. Death to the bushite, death to the enemies of Mankind. To love God, is to kill a lawless bushite savage as defending our innocent lives.

Note: bushite news america will re-run bushite nazi offspring attacking American kids on national television with the minds of contempt gathered. But, our millions of Iraqi victims they forbid our defenses in demanding an end to continuing sancioned lawlessness. When watched, Justice for Life is screamed for, but not as those who commit our concern for ruling. President Bush is a massive war criminal. Attempting 'escape' with the stolen 'loot'. Support my call for international debate on the coast to coast radio network to officially start a criminal investigation of the outstanding 911 question. Justice for any, is freedom for all. CNN "We've learned so much this week."

Support my demands for US to arrest CNN, CBC, CTV, and the BBC news producers, for consciously forbidding American families from knowing, scientifically, mercury causes brain damage to YOUR child, ONE HUNDRED PERCENT of the time. The criminal charge is "endangering children". Please, do not except CNN's zionist enemy LIARS of Christ who would send your teen to DIE in a causeless war for stolen profit - (who routinely refuse OUR concerns,) do not know this while disallowing Americans to survive their continual criminal assaults against our being without apology. Time to pull up on the talk transmitter, to make demand as America, to take these calls for liberty from tyranny, against those corporate nazi news buyer liars. I want to guest host on the Coast to Coast radio network to take open line calls to bring about Justice for Our forsaken Worlds. Make it happen for yourselves as worthy our praise.

Bushite of the nazi air forces are enemies of Freedom for Americans. See the bushite, bill the bushite for We, the People, is the truth, the light, the way. A bushite nazi soldier who refuses to phone Coast to Coast talk radio to demand Americans support the public arrest of General Ahmad who financed the terror attacks of 911, is an enemy worth billing to defend our dying freedoms held in contempt by censorship. Molten metal flowing
http://www.youtube.com/watch?v=NIswdgeU0I8

Let honorable Soldiers know, who are the enemies that get them
KILLED for demon lies. CBC, the BBC and CNN is the terrorist
enemy by forbidding US, The People, from seeing the meaning of
iron flowing like water from the towers, prior to the imminent
collapse for the neocon traitors. As planned - boogahboogah.
Just because they hang on the fact they are here to mislead
ourselves for needless wars to die YOU for, doesn't make the
criminal intent they publicly express unchallenged against

Humanity, any less horrific in it's dupliciting of war crimes by smiling ~ 'unknowingly'. To go silent, is to except freedom to live denied.

Real Jews don't murder innocent people to steal their rights to Life for money.

Again, demonic zionists are ENEMIES of the Jewish faith. They lie to cheat at murder for money. Money paid for by American tax payers to murder innocent Christians, Jews, and Arabs. The pictures of zionist offspring, signing their nazi family name to cluster dud land mines, were FIRST used against Jewish northern communities in Lebanon! Way truth.|. yahduhyahduh.. Checkcheck. Johnny calling America! we have lift off with receivers, i think I got a connection.. Listen:

Freedom for America

/ / Just FIVE major U.S. banks control 97% of all the bank-held derivatives in the United States, a concentration of power and risk unsurpassed in the history of finance. \ \

/ / JPMorgan will take over Bear Stearns' $13.4 trillion contracts \ \

Understand this: JPMorgan received 13 TRILLION in derivatives by excepting the American tax payer gift of three hundred million, to take a billion dollar public building off our hands as 'the losers'. Then this: of all the billions in free tax monies given to the EXTREMELY wealthy [some are actual trillionaires] of the FIVE private banking industrialists, done to "bail out" America of this mortgage meltdown, none of that TAX money goes to the scammed home owners, who's costs have directly increased due to the transgressions of hedgers who privately take the real money for themselves escaping into the Cayman Islands, and leave US, the bogus credits to default on by disappearing public pensions, stock, ect... Example: where is the 13 TRILLION that JPMorgan inherited at the cost of more than 200 million American taxer played? How could a multi-millionaire stock holder of Bear Stearns lose all their money, if the company is still holding 77 trillion for Public leveraging? What kind of bankruptcy of Enron book keeping is that where our loot is unfounded? "lost" to market forces? But JPMorgan inherits 13 trillion? Try FRAUD. Like did you know, Mr. Trillion Aires isn't even on the hook for covering the initial mortgaged loans of mortgaged loans? Or that, the Royal Bank of Canada popularly paid out .02% interest on Canadian savings accounts just for spite? 'Knowing' you don't even have the strength of conviction to raise your phone demanding fairness for our forsaken Worlds, because, for starters, CBC, CNN, with the BBC an George Norry ain't going to take our calls for free

communications, for, the neocon zionists committed 911 with Bush's business partner General Ahmad to rob you all - and die our sons and daughters are, dying our sons and daughters are. Does George Norry really care?, do Americans even care?

/ / Hallburton subsidiary KBR told employees at a water injection plant in Iraq a sand-like substance scattered around the plant was just a "mild irritant," workers recall.

It turns out to be sodium dichromate -- a highly toxic chemical which can [as will] lead to cancer even with limited exposure. \ \

See? Bushite will kill bushite for a stolen nickel. Did these employees know their company robs from soldiers by charging themselves a $100.00 for a single bag of laundry?, or keep slaves to serve the nazi grunt dumdums? Or poison water supplies?, stealing oil revenues?, over billing America while Championing unchallenged by CNN Bush whores more needless wars to profit US further dying as innocent victims on? If the sacrifice of soldiers lives is going to mean anything, it going to mean how long it took, Americans to care for themselves as really worth saving.

Who's Jesus?

ABCNEWS.com : FBI Called off Terror Investigations
http://abcnews.go.com/Primetime/Story?id=131907&page=1

Now think American: Why do you suppose this is anything else but treason involving the escape of the 911 terrorists? Obstruction of Justice is seriously criminal. Understand: CNN, CBC, and the BBC news producers know the neocon bushite committed 911, [I've told them myself] but refuse open debate through dialog to continue murdering ourselves. They are all of Humanity's true enemies by forbidding the knowledge to defend ourselves judicially. In Iraq, American tax payers pay the salaries of lawless mercenary goons who gun down our families at random for entertainment, and all they report is McCain unchallenged, that openly supporting lawlessness, torture and theft of Iraq, is the only way to war "al-Qaida". Not to arrest the guy who financed the 911 operation, General Ahmad, no, but to murder our innocent families by those at Guantanamo, who practice Satanic ceremonies to the demon Moloch. Maj. Gen. Geoffrey D. Miller. You can't make this up. Where is CNN celebs concern for soldiers who beat children to death for pleasure escaping unaccosted? CNN Heroes?, like those who murdered more than 200,000 innocent People in Fallujah for traitor Sattler? Fight back for Christ

'47,500 lbs. of bombs were dropped by bushite on innocent people'

Bushite who war Humanity for Bush are enemies of God as Love, attempting to escape those who actually committed 911, like General Ahmad. When a bushite bomber of the air forces die, all Creation celebrates the victory over lawless tyranny. A good bushite, is a dead bushite halted as a thief from murdering more of our innocent selves indiscriminately.

Where is Christ in Canada when CTV reports there is no evidence that mercury causes Autism?.. Not reported is that vaccines cause brain damage 100 percent of the time, because they contain mercury to poison YOUR child. Type 'mercury vaccine' in Google, and ask yourself, how can some paid hundreds of thousands of dollars in salary as a zionist "expert" miss such findings, along with thousands of corrective emails, as an openly confessed enemy of Love in Christ, as Justice for Life? Do you believe those of Israel's military, who purposefully targeted Jewish communities in Lebanon are anything but, enemies to Life as Love for God's Son the Messiah? Where is a love for Jews in Israel, where this issue of Zionists murdering Jews for money in Lebanon isn't on their front pages demanding Justice for Jews in Any Town, Universally? Better Right: Who are the actual Jews Here? - and what about this "God" business.. I mean, really..

Condoleezza Rice "This barbarous act has no place among civilized peoples and shocks the conscience of all peace loving nations. There is no cause that could ever justify this action." This from the zionist demon witch who okayed the dropping of seven million land mines to murder children in Lebanon for generations!

Bushite still kidnapping innocent people to be tortured to death

These personal Usenet accounts closed by Google I've had for years. No debate was offered, no opportunity for me to even ask formally what the ungodly enemy of Life complained about, Why? Because the truth would have prevailed, and bush whore zionist enemies of God can't have free thoughts expressed by Man, for they would be understood in the streets by the Jews and Christians, arrested, tried, as prosecuted for lowly treason as enemies to Justice. For example: Condi, the zionist demon witch, dropped seven million land mines on more than 170 towns and villages in Lebanon to MASS MURDER our children indiscriminately for decades. Example two: Google has done nothing over zionist pirates who vandalize, every day of the year, page after page of alt.religion.islam, soc.culture.israel, and soc.culture.palestine from Earth's free speakers. EVERY DAY. A zionist enemy of CHRIST screams in joy over such crimes, as the silencing of the crying families going further unaddressed by CNN and CBC, who smile such denials, of my simple public demands to have the truth set US free naturally. FACT: Nazi Israel STEALS our Homes as the innocent forsaken by corporate news americans. Now, those war criminals in Israel wish to steal my name also, further, as my, Johnny Wizard King of Earth thang - not so fast pilgrim.. I don't know who you think you are but, I am a good man, not a thief of Peoples lives. As Son to God Creator of the Heavens and Hell, my will has intent to defend life, as I am a fighter for Justice in all my Love resides Holy and Righteous.

YOU as my "American" listener, will be expected likewise as CNN and CBC has broadcasted You, to do nothing to defend your own child from their refusals to report the fact that mercury is a highly toxic heavy metal that harms all of God's children. and YOU, like FOXNEWS TRAITOR LIARS, will kill your own offspring before acknowledging our great strengths of character as unparalleled in wisdom, for the Ages We Are. Instead, "The Experts" of FOXNEWS and CNN, will tell US as deeply ignorant on subjects you know little of nothing about, they will tell US silently not to bother bushite CRIMINAL enemy of Humanity personally to defend our innocent selves, but instead, evil thought "Socialized Medicine"'ers, being total losers to Life and wiser folk by simply doing the math as ourselves. [Americans pay twice as much and get near half the coverage that Canadians do - !no middle men!.] It's all about talentless corporate multi-millionaire mercenary pirates, seeking our freedoms in America to die profitably, as

they stand on the growing pile of rotting bodies, telling US all, we was right all along to do nothing for ourselves - like speak openly for Rights granted All in a Free Universe of Possibilities. Pick up your phone cowardly dying American, and demand Justice for 911, for, they could be You again. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. And... murder is illegal in all States. As just because the victim was an Iraqi child, casts their lives no less than any other of Humanity's Greatest.

Again, I, as the Son of Man born to GOD will remind ALL Americans, bushite have murdered more than a MILLION innocent people indiscriminately in Iraq, to thieve for the traitor neocon liars. Thousands of videos document those in the air force who target the murder of helpless children for example while chanting "whore yeh" in praise of the lawlessness to continue carnage against our better wills. Worth a death sentence by trial then firing squad, as blatant war criming traitors. Pick a Side: An innocent family?, or a UNARRESTED bush whore nazi rapist, a torturer and thief who believes some how Men of Earth do not exist to hunt them down with the Law of the Land for it. Not in Johnny World I'll tell you my friend, not in my world. Bushite are antichrist forces of evil who war GOD with supporting torture as our INNOCENT families of Humanity, all for the escape of the zionist neocons personally responsible for the demonic crimes of 911 going unadressed. Canadians will know, General Hillier has publicly pronounced Canadian Soldiers will not defend innocent people from being tortured to death under his criminal authority as enemy. Treason against Canada of the lowest order is what Hillier has spoken for himself cowardly. It's official: I am now in Command.

TOP ISSUES

The DEA has openly acknowledged that bushite in Afghanistan are pushing heroin into our streets. Innocent people are still being kidnapped by KNOWN bushite to be tortured as the Innocent to death. The 911 perpetrators such as Bush, Cheney, Condi, Myers with Rumsfeld and Ahmad, have still gone unarrested. Support my demands for national radio hosts like George Norry and Art Bell to allow US open discussion on these subjects, with open line callers to work ourselves through this struggle against lawless tyranny defeated with reason to be somebody worth the effort, or don't. George Norry has told US he's into killing kids, and going ballistic against any soldier who would refuse a criminal order given by neocon. A "great patriot" fighting the NWO?, or a traitor that to this day, happily watches Humanity be poisoned deliberately, and can't find the care to empower ourselves by simply allowing

open line calls from real people who demand a halt to such extreme evil criminality passed off as foolish 'non-stop' newsertainment?

TV NEWS CENSORS ARE OUR MORTAL ENEMIES

Did you hear! The Khadr team found a bushite manufacturing evidence in the military commissions trial. Death sentence for the bushite enemy, or will we instead silently except more crimes against ourselves as the innocent victims? Clearly, bushite are enemies of Freedom in America. We decide. Why must all Humanity die for TV America's contempt for Justice?, to not even fight for OUR dying rights, as if, My rights were theirs to steal. Support my demands for a real Public debate or die unworthy to the neocon's treachery.

HOCUS POCUS
* Only in America you Win 287 million where it really means 96 err.. 95.6 *

These TV experts on America, who refuse to defend American People from poisons in our foods, water, and vaccines, who just nazi lie and broadcast without challenge their top standings among themselves as sell-out corporate Bush whores, are the enemies of every living person who cares about counting votes to determine our real winners. Take a stand, be a man, dial the phone, your not dying alone. Help me.

We can not be defeated, for we never have been even challenged on what is globally, well documented as indisputable. Support my continuing demands for open communications to benefit any as Justice for all. All war profiteers will be sought for prosecution as the worst of criminality. AEGIS, CACI, and Blackwater will pay with their worthless lives through public trials for first degree murdering our families never forsaken in my living forever name. Death to the bushite, death to the enemies of Christ in America.

A New Life

A new life was brought into our world, and a bushite pondered that Heart, and threw it off a cliff for entertaining laughs. Laughs in knowing such action could make every child of Earth cry, that such action could make many American men feel helpless in knowing, such an enemy to Life, would dare steal the image of America as Once Great, risking itself continuing on with no more of a death threat than a small fine if anything. However. If we publicly demand the puppy killers be tried quickly for a tossing off a cliff for fairer sentencing, then the torturers and rapists might soon fear, they're never gonna get away from US either. Death to the bushite, death to the enemies of God as our great Love for

Liberty.

We shall Start with public demands for the formal arrest without bail of traitors Bush, Cheney, Condi, Rumsfeld and Myers for the crimes of 911.

As for our British Loves, call for the immediate public arrest of the con man Peter Power, as the probable cause for the 'al-Qaida' crimes of 7/7. Along with Ian and Tony Blair with their phony cop who was caught guilty for lying as our media over and over again, to then finally confess, he gunned down an innocent man for no 'known' good reason as an escaping MURDERER. And to never forget why the bushite will continue to die rightly: All for, The Queen's Best soldiers, who kidnapped barefooted children from Iraq to be beaten to death on prized video for their godless pleasure of hate for Justice

NEW GAME TO PRACTICE UP WITH

Turning Point: Fall of Liberty
http://www.gametrailers.com/game/5117.html

Boy, this new game is something, not just another, 'questions are stupid. lets just kill whomever-shoot-us-uppers', a computer game of life maybe worth the buy, if for only the reality concept..

New York City is over run by thieving bushite nazi savages, so you, as one of the few proud and brave of a, left to die leaderless, Corporated into lawlessness, America, give the bushite nazis, the real welcome they deserve with fire works. (As freedom killing terrorist liars, the blind to reason bushite always are. [unless seeking forgiveness for such cowardice]) Like it or not. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. And... murder is illegal.. So, DIE BUSHITE DIE by trial and jury we WILL stand for God and Country to defeat evil Nazi tyranny, guaranteed. It's written in the stars. Your paying for some crime. What are YOU good for? The Man says, Evidence is Everything. ..and a person accused of a criminal offense without any public evidence to surmise, is still innocent to anyone. Justice Will Rule when we know what true freedom is gained, by enforcing anti-torture in all cases, then actively hunting down, as Reagan's War Law States, the bushite personally responsible for crimes against Humanity in our stolen Names. We have the demon repuglicons who are voting on the support of torture as something other than TREASONOUS that excuses a murder of an innocent other, as godlessly sadistic. [For even the True Satanist, or True Atheist, would bill these grunting bushite torturers without even sweating about what's right or wrong. thinking.] Those censors like Rush Limbaugh or Shaun Hannity that refuse our wiser minds, do so because

Freedom defeats them in seconds - to be the disturbing groveller to self destruction that they confess to be, hiding from nobody. However: In Johnny's America, they's not down burning in the fiery pits of hell symbolically to teach US all a valuable lesson, Theys got millions from us for "our" continual wanting of yet more mass murders as worst than any fictions since dreamt, and I, the Wisest Godman on Earth, instead of having Coast to Coast public interest, have mostly zionist crazed insults from extreme sexual dysfunctionals, offering to whore to a hundred and 50 something countries - just to fuk you up as lost again to the cause of Liberty. SEE? My critics can't criticize me on my facts, because we are truly dying here forsaking ourselves, truly dying as victims, because of the corporate media refusing to HONESTLY take our continuing challenges to report on. Look, CNN and FOXNEWS hosts have multi-million dollar salaries to cover nothing as important enough to honestly gauge US on, while I, I got hunger pangs feeding my growing costs. Support giving generously to me as my fledgling company, and soon, god willing, I'll be able to leastly afford myself a bus ticket with a tape recorder to get myself down to Washington DC, where I should be giving answers to the People whose questions have not as of yet, arrived from departure. Even with the speed of the Internet and everything, we are still putting harmful chemicals in our vaccines, foods and waters, that do nothing but kill us quicker. Stupid proved a million times over, or, no.. master genius of a new world order, whatever, it must stop, and it must stop now. But, not according to CNN, CBC, BBC, FOXNEWS, and newspaper editors who are much more into money taking by blindly supporting in print, the killing of innocent Peoples in Our Name through Israel, for the stolen cash kickbacks, by just claiming they don't hear US really screaming.. Ever? Never?

Sad, but without your generous dollar donation to the cause, (meaning more than being near less than nothing you people'll please give me in return,) i may yet go short again, so our bankers can take even greater monies by investing in our denied "failures". How about supporting my rise to demand public debate on Justice actually Ruling: by Publicly arresting for Public Trial by TV Jury, Mr. Bush and Cheney immediately, for the crimes of high treason as a major misdemeanor. 1. They closed down investigations following the 911 crime scene leads, designed by the lawMakers of the Land to capture the actual terrorist bad guy leaders of true evil - you know, the Crooks. (Obstruction is serious!) NOBODY disagrees?, publicly? ! SEE? CNN CBC AND FOXNEWS ain't really taking our calls for listening then are they for Justice? It could be dreamed that we are only refused for to be, not valid as fairly recognized. Like, how absurd! that

Obama's preacher suggests supporting WAR crimes AGAINST HUMANITY, is a crime against God too? See, corporate America couldn't give a dying soldier a clean glass of water to save his forsaken life, because hey!, who cares? CNN, CBC, and FOXNEWS certainly don't care about escaping the bushite enemy responsible for the lives lost through the crimes of 911, and so on.... but my friend... do you??

So,

Send this post to your favorite talk host, newspaper, or bar message board if sparing me a few dollars from Japan seems rather obscure. All for the sake of knowing a brother's down on his luck to find some love for Liberty in America.

King Johnny Wizard

P.S. I seriously need to eat.
Please help me, by supporting our cause to not starve to death. If you appreciate my words in defense of the once great Human race, donate a few dollars to this cause. Justice and Freedom for all, especially God as Just, and worthy our praise for Peace. Donate me leastly five dollars for Canadian 2% milk, and yummy multi-grain bread please.

How They Voted: Torture Bill
http://www.cbsnews.com/stories/2008/03/11/ap/congress/main3927680.shtml

These be criminals of the worst order. In America, today, the standing Reagan Law, demands that these bushite enemies of God serve a minimum of 25 years, for knowingly supporting the war crimes actions of torturing innocent Peoples to Death. As President, with the Armed Forces in tow, we will arrest, try, and convict all these demon enemies of freedom for Americans.

Look, we have to realize: everyone knows a bushite cop killer thief is a cowardly enemy of America, who wars God and Humanity as OUR ENEMIES for the criminal escape of the neocon Zionists responsible personally for 911.

Proud bushite enemies of God and Man state:

http://www.forum.militaryltd.com/tun-tavern/m10997-zarqawi-had-close-call-marines.htm

"Heaven Won't Take Marines and Hell Is Afraid They'll Take Over."

See? A bushite is an enemy of the Family, who rapes and murders for the demon antichrist thieves. Dishonorable to the core of what it means to be a free man, they die in cowardice, too afraid to defend what's right as true. A liar, a thief, a murderer, that is what a bush whore nazi grunt who states life must die for as lawlessness. They war Humanity as bush whore slaves for the escape of the neocon liars of 911. (General Ahmad funded Atta) They support torture by silence, they support raping women by silence, they support robbing The Peoples by silence, and they support killing themselves for FOXNEWS to continue LYING to America about what it costs to be a bush bitch who chants routinely, "whore yeah, whore yeah" Death to the bushite, death to the enemies of freedom in Johnny's America to talk openly with the FACTS absent Coast to Coast hosts Demonic censorship of American voices as True Liberty we shall proclaim. I wrote that.

A Zionist liars website:
www.Jews-Did-911.com

I didn't do 911?, least not responsible for closing outstanding criminal investigations on who personally was responsible: Bush and Cheney, Zionists. Not Jews. Zionists believe Israel should not be defended from war criminals who bomb Jewish communities indiscriminately to murder children with millions of landmines. Condi, zionist witch, ordered the dropping of near seven million land mines on Lebanon, with the first strike targets to be JEWS pin pointed by the anti-Israeli racist nazis. Jews, who are so, no matter where we eek out a significance. CBC, CNN, and FOXNEWS with George Norry refuse to take my challenge for public accountability as Zionist enemies to Life. Nazi Israelis steal innocent peoples homes, period. Who's in charge here Kangaroo?? Eh?

Conspiracy of Conspiracies

March 7th, 2008, George Norry
'Why is it that we can never find the big foot?'

Ask the more good than bad Alex Jones why he refused to ask Lou Dobbs why he hasn't reported that General Ahmad funded Ahmad? I know why.. Because Alex Jones once again, with Dobbs, whored for the demon antichrist's escape for the treasonous acts of 911 committed in his name.. Justice as Freedom?, or more go nowhere NWO shadow government bullshit to escape the ungodly zionist neocons personally responsible for the crimes of 911. I demand a Presidential debate with America where We can't hang up on US, while claiming to ourselves as the audience, that the truth tellers hung up myself, honest John. Alex Jones suggested yesterday that ALL those who criticize himself on anything, without naming names, are just jealous. Again, Mr. Look! it's a Prison Planet is not qualified to lead a Peoples towards freedom through Justice wanting. (Qualified to lead the news however, granted, one of the best, IF NOT THEE. (Except for Zionism, Health Care, Immigration, feminine Rights, Banking Issues, and a.. Trade Law))

Mr. George walker Bush is the primary CAUSE for almost all the criminal transgressions against God in America and abroad, since the demon stole the initial election back in 2000. Alex's contention that Mr. Bush and Cheney isn't worth attacking personally with our Laws on treason for defense, (all because theys not responsible for nuting, as his NWO "Puppets",) IS Tyranny of the worst order. Ask anyone, including Alex if he could get his chumped "ego" out of the way. Truly, "Socialized medicine" can also mean paying half as much, with double the coverage. Middle men are our answer givers when it comes to Americans questioning the system of injustices inflicted. Did you know: Private Insurance Companies can clear 70 percent of money invested? NOW... wHy wOuLd wE Do tHaT? If we had the free choice to decide for ourselves I mean, "I" am asking "You"??

Justice is what ALL want for 911. The State of Vermont just ordered all State troopers to not stop Bush on arrestion for High Treasons there as a broad. Newsworthy in corporate America? YOU decide, or don't. Mexican troops, funded by American tax payers, are selling dope in America for Bush and Co. openly now.. Who are you going to call?

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their

flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Petraeus Threatens to Murder More Innocent Peoples!

/ / Gen. David Petraeus said. "We can feel it and see it, and what we're trying to do is rip out any roots before they can get deeply into the ground." \ \

As the President, I will demand Petraeus explain himself. If he refuses, I will order the military to arrest him on sight for lowly treason. We know already, that every bomb that goes off to murder indiscriminately, that isn't credited by bushite THIEVING enemies, is blamed on bin Laden, without the least of any investigation, according to Petraeus' own staff, as so reported on PBS. He, Petraeus is an enemy of AMerican GIs, by refusing to order them all to hunt to kill the neocon terrorists responsible for 911. TREASON is anyone's book. Death to the bushite, death to the enemies of God in America.

THIS IS TREASON

Bogus Iran story was product of Pentagon spokesman
http://rawstory.com/news/2007/Bogus_Iran_story_was_product_of_0116.html

/ / Starr added that one American boat had been given the order to fire, and the Iranians had moved away just in time.

Porter identifies Bryan Whitman, the Pentagon's top spokesman, as the culprit for the spurious [TREASONOUS] account.

Fifth Fleet commander Vice Admiral Kevin Cosgriff denied that his ships had been close to firing on the Iranians. So did destroyer commander Jeffery James. \ \

Remember, these bushite are trying to con leaderless America into a another needless conflict, where we die for their growing riches as war mongering privateers of this, our 'popular will' contesting as defeated already.. Johnny America for Presidential Election Questions! Or, go back to dying needlessly then as dunfukked "Bushite", you losered.

Bushite "Hero" makes eight year old run five miles to save the life of his loving mother, to only after the run, be laughed at with a refusal to grant the emergency water the soldier dumps elsewhere. [Remember: demonic bushite enemies of GOD blew up the water treatment plants to "help" Iraqis.]

President Clinton Speaks on US as Dying Idiots

http://groups.msn.com/PeoplesPolitics/general.msnw?action=get_message&mview=0&ID_Message=360506&LastModified=4675658822492294908

President Clinton - "We look like [DYING] idiots, folks, denying that the people who murdered our fellow citizens [GENERAL AHMAD and Co.] didn't when they are continuing [AS THE 'ESCAPED"] to murder people all around the world," to thieve further for the neocon traitors, from a left undefended "America" silenced by censorship practiced by the demon enemy George Norry, making lawless and godless, synonymous with good will and charity. Where's the reason for George Norry to be happy about godless tyranny destroying GOD'S undefended America I ask YOU? George Norry is what is referred to in the bible as a Demon.

Fight back for Freedom, Fight back for God, or rightly die a cowardly victim to eternal life's desperate struggle against the bushite's tyrannical barbarity where indiscriminate bombings with torture and rape is not worth getting anyone publicly arrested over, and courts with lawyers are banned to practice by the war criminals left in charge without questions given or answered, while YOU continue to pay dying in silence. Pick up YOUR phone, and make the call to talk radio to-day. Demand Justice for America, demand Justice for God.

Demon Livney "The world should respect ANY ACTION taken by [ungodly zionist evil] Israel in order to defend it's citizens."

So, UNGODLY nazi Israel can put millions of innocent people in concentration camps, because hey, it's to protect the enemies of Mankind who routinely steal innocent peoples homes, while murdering our children indiscriminately with land mines for Satan. According to the Jewish/Christian Bible anyway.

U.S. Army Sergeant Logan Laituri - "The problem that we face
in Iraq [AND ZIONIST AMERICA] is that policymakers in
leadership have set a precedent of lawlessness where we don't
abide by the rule of law, we don't respect international
treaties, so when that atmosphere exists it lends itself to
criminal activity," ..by rapists and torturers who OPENLY
practice a hatred for G-D unprecedented in world history. The
Nazis of WWII have nothing on bushite enemies who sing and
cheer on video available at YouTube for the murders of
innocent god loving children. (Just like REAL DEMON censor
George Norry advocates publicly by the way without contention)
Death to the bushite, death to the enemies of a liberating

/ / "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite TRAITOR and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children practically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis savages, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones.

Bushite are Traitors

British Soldiers Torture innocent Iraqis to Death for fun as Satanic

SEE? Soldiers who Hunt to kill a bushite, hunt to kill the enemy of every living person. They are enemies of truth, as enemies of Justice for Life. It, as a zionist KNOWS, is an enemy to freedom and God in Britain by supporting indiscriminate warfare, such as torture by suggesting we have no power to demand evidence to form OUR conclusions on who is good or evil.

Heaven Won't Take Marines

LOOK! The lawless bushite is warring Humanity to bring about near what was there prior to them attacking.. THINK: they are trying to bring about the stability that their continuing conduct decreases through further LAWLESS rape, theft, and murder. Did you know: American tax payers openly pay the salaries of death squad goons who murder defenseless innocent families in Iraq TODAY as The Enemy?

Support my call for open communications to demand Justice for any, as freedom for all.

George Walker Bush, "The Puppet" is GUILTY of TREASON a thousand and one times over already. We all love Alex Jones, but this nwo bullshit doesn't apply to the lawless demon enemies who inflict harm on our humanity because they confusingly tell US, they enjoy it. Murder, rape and pillage for the sake of murdering, raping, and pillaging. Look, I'm

sure we'd be able to easily work out our differences, if George Norry's amerka would take our calls for clarity, on Justice ruling our ways to a fool's paradise where those accused of a crime without any evidence would be US, as the INNOCENT forsaken in God's good name.

http://www.whitehouse.gov/news/releases/2007/11/20071107-5.html

Look, November 7th, the demon antichrist stated he and the neocons ordered the murder of more than a million innocent Iraqis indiscriminately because, he was simply enforcing UN resolution 1441. HE LIED. [how else could the UN officially declare bushites as war criminal? NO CAUSE!!] And multi-million dollar salaried, "American" reporters, who full time, claim to represent American interests while you slog double full-time for corrupt private bankers, refused to call him on it to defend ourselves from his easily provable demonic tirades against God as the innocent. On the scene, and still today... YOU, as American are TRULY dying for George Walker Bush's continuing LIES. Johnny Wizard is Forever King of this moment being. If you can't believe it is important for you to raise your cries for justice likewise, we're all going to be done for lost to indifference. Defeating the neocon is serious business my brothers, serious business.

You and I

Our Demon Enemy Lying Leader Mr. Bush speaking recently, "You and I believe in accountability", "People should be responsible for their actions", "My number one priority is to protect you" "All human life is precious and deserves to be protected." Just words from the demon in HIS nation that drops 47,500 lbs. of bombs to indiscriminately murder Iraqis while paying [whoknowswhere] salaries to 80,000 al-qaeda in a nation the antrichrist forces occupy, all the while, holding George Norry a great host for supporting the war crimes of bushite thieves who target innocent children to steal further from our undefended Graces. As George Norry happily sends CONNED or cowardly America to their treasonous doom, for the zionist neocons personally responsible for the terror crimes of 911. The George Norry is an enemy to God and Humanity by conning Americans into not allowing open line communications on any relevant human interest story involving the criminal sacrifice of Justice for America. No, instead, more bullshit on AREA51. AREA 51 where toxic waste is illegally burned for cash profit at the loss of REAL American lives paid for in CENSORED collateral. You die as An American for the treasonous con of Coast to Coast hosts who forbid open dialog on the reasons for why YOUR nation wars innocent others to thieve from. Remember, the REAL DEMON George Norry gives an endless stream of bushite dumfuk who endlessly praise George for supporting

the neocon murders of more than a million INNOCENT PEOPLE by forbidding truth to be sought concerning our circumstances. And YOU, yes YOU, are meant to feel alone in your concerns on the fact that the neocons are trying to escape their rightful arrest for the crimes of mass murder. Al-Qaida = General Mahmoud Ahmad. George Norry is a DEMON traitor who's con is on just playing happy as a polite demonic sadist, who silents on for the murder of soldiers - who are as dumb as we come. George Norry deserves to be TRUTHFULLY exposed for what he denies as America's privilege, freedom and justice for all.

GLORY OF THE CORPS - A Real Man Speaks for Freedom

Coast to Coast hosts wont take our calls, but they did take several demons on Wednesday, one in particular who figured he could be a "god" too, by supporting the indiscriminate murder of Iraqis to defend the evil zionist neocons in hiding. But, what did GOD in Iraq have to do with the bushite responsible for the DEATHS of 911?, or the DEATHS of all Arabs in around the naive age of 15? George Norry didn't ask.. Another demon witch allowed on our air said at great lengths, she appreciated that the demon antichrist Bush lies continuously to dying soldiers because that's the only way to blindly defeat terrorists.. (evil = good) George speaks nothing but happy silences in trusting warmly with dying US all for ignorance as belligerent criminal negligence. Again, the demon enemy of God refuses US to open communications on any relevant subject involving the sacrifice of American lives. Staying happy, he figures that's all it will ever take to defeat Americans lost in doubt on his contempt for all Peoples lives, is to simply forbid knowledge from escaping his charade. He told US previously, he'd go ballistic against any soldier who refused a criminal order. So, when marines are asked, as reported, if they'd murder their own parents without reason for the glory of the Corps., would George Norry shoot "them" as traitors for asking simply now why would WE do that? See something here my friends behind these great words of wonder? Demand open communications regarding our demands for the arrest of those truly responsible for the crimes of mass murder in America on 911 back in New York city.

Because Condi, unelected demon witch, sent herself, SEVEN MILLION land mines to be strewn over 170 towns and villages to murder OUR children indiscriminately for decades. Sent after a truce had been called, and an end to the zionist nazi conflict was at hand. CNN, CBC, and FOXNEWS

Their chauvinistically contemptible egos. For example: we're hugely more wise on health care, and they'd rather DIE AMERICA, before allowing us to speak in challenge to their irrationalisms, that truly cost everyone more money by staying dumb on the issues. See? I support open debate, while national bushite broadcasters boast of happy times to see US suffer for more pled ignorance hiding sadists, like the coast to coast radio host, George Norry, who's into murdering innocent people in war for no better good, or reason understood. A New America

Bush tells America, it is WE who should be fearful of being caught innocently, instead of himself personally as a war monger traitor to Humanity, who closed police investigations on 911 immediately after the terror action going down. Again, even if bush were "just a puppet, just a puppet!!", his criminal action would just as assuredly, warrant his immediate arrest for high treason. defense of ourselves the innocent. The innocent that a
'lawless' bushite holds for ransom in pain dying. Hell hath

no fury like that held against the bushite enemy, a savage zionist criminal waging war against Life as our shared Universe, 'escaping' those who personally carried out 911. Bush, Cheney, Rumsfeld, Condi, and Myers as topped suspects. Other 911ers will tell you no no no, it's impossible to apprehend them all, for the arrows can go on for never. Bush personally closed criminal investigations on 911 immediately after the terrorist event of no questions occurring. The Bush administration were well aware of their PERSONAL dealings with the Taliban prior to the "Pearl Harbor" event conveniently occurring. And they were all most certainly aware of the plans in place to: within weeks, invade Afghanistan for Enron to stave off criminal proceedings. Walla! Johnny G wills every able bodied man, woman, and child to defend ourselves against bushite that indiscriminately murder ourselves for cash profit. Stolen profit. Ours. By the Will of US alrighty, we shall recognize...

The King Has Arrived

Look, let's "say" Peter Power didn't do the crime he did, and told us so for our own benefit, it would still SUIT Peter Power for him to be arrested immediately for the crimes of 7/7. For it is Peter that alleged HE was running terror drills at the same time and locations of those that murdered many good people from London. London England. Privately, with his bud at Scotland Yard he's saying. I'm sorry, all Bobbies do not want to kill indiscriminately so Peter Power will score a few extra BILLION dollars to hypno mug us to say we can't find'em no matter how hard we look.[*ILLUM I NATII*]. Americans are just poorly being spoken for, by those who lack the skills to win justice denied from the average Joe who knows so.

At youtube you can see and hear these grunts cheering "whore yeah" in praises to the demon antichrist, while committing horrendous war crimes Nazi Germany would have been proud to see the bushite die for. without cause, but for the demon antichrist thieves who speak
nothing to defend Humanity. Much like happy happy who cares
Germans were under "liberator" Hitler. Except however,
in our defense, we at that time, didn't have our internets,
or so many, 'you have no power, you have no power' corporate
news channels for Americans to quietly sleep through.
Americans who refuse to speak outrage in the defense of the
Human Race, are Americans not worthy the title of fellow
Human beings. All they as bushmob amerika have done, is
thieve, destroy and murder from everyone of US since
911. I am growing wearily concerned over whether Americans
even can still express real anger over their continuing
sacrifice.

Terror watch list swells to more than 755,000

innocent doers for evil Bush.

I have the plan. Return all the stolen monies, and hunt those
who rape torture, or murder. And.. get the neocons for
treason on 911 most especially. So, here we go..

Bombs Kill People

Nazi Israel, the ungodly nation that murders Christians in
G-D's name AS THIEVES, deserves as proven war
criminals, to bring about a living nation that respects the
Jew by Law, to be just me or You living freely for happiness.

USEFUL! Tell me, wouldn't YOU have publicly tried, then
executed neocon traitors for mass murder if you were
dying as Johnny's America?

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick

trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Power, murdered the innocent in Britain for more stolen goods against God.

-

REMBERANCE DAY

So Remember: Bushite grunts told the world they wouldn't let anyone out of the city, because [enemy Sattler LIED] pro-bushite Zarqawi was there present, so the innocent families who believed they had nothing to fear from the liar disciples of the ungodly enemy of ALL HUMAN LIVES, remained in the tiny city to be indiscriminately 'protected' with more than nine two thousand pound bombs, or made dead instead by heinous pro-bush escaping war criminals who used white phosphorous on civilization. All to die our Humanity for the thieved loss of evidence to demand ourselves of some official freedom time to deal with our terrorized as suffering reality.

'Why is it so crazy'?, you might ask an un-responsive big sky of Love? Well, the Bush administration committed 911 with General Ahmad that's why.. and threatening Humanity with torture, is how the neocons plan to fear YOU into speaking nothing for the defense of innocent others.. As a consequence, more than half the monies spent each month on this war against civilized Life, isn't accounted for by anyone. Except those at the Pentagon STEALING from a deafened

America. In fact, Moyers at PBS reported none! of the billions flowing out of American pocket books EVERY MONTH for the bushmob war monger shysters is actually audited for the taxing payers.

Mr. Bush, the terrorist, doesn't care to war for your stolen billions, instead wants to kill even more innocent others as neoconner traitor. In your name as "American."

Support my rise against Living's enemy George Norry, by making an effort to demand real Justice for dying American values.

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite thieving murderous military, by the likely ton full to attack our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist evil enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Or don't. Your choice. Life lived Now, or damnable death by cowardly design brought forthwith under your own power to do nothing under such terrible costs against our suffering natures.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

God Damn America

You f-cks, because Bush told congressmen secretly about truly torturing innocent people to death in YOUR name, doesn't make the crime any less satanic. True Christians will execute bushite torturers with glee. America will pay millions a head for each bush bitch nazi traitor to children as family. The neocons will all be tried to death for treasons like 911, and for supporting a slaughter against Iran. For Petraeus has giving US no evidence to form our conclusions on the validity of his therefore, TREASONOUS statements. Bushite are murderous thieves of Iraq and deserve by the measurements of any civilized man, a action worthy of death as demonic, before allowed to further steal from our Humanity. SAUDI Bush bitch Buford Blount gave out 170 tons of explosives to KILL marines with, and Petraeus doesn't call for his rightful death, nor for death to be brought to bushite soldiers who kidnapped bare footed children to be beaten to death on video tape. hundreds of thousand of guns were 'lost' in Iraq through bushite

management skills, and liar Petraeus speaks no outrage. Private death squad goons are committing crimes against GOD, and Petraeus blames no one. MORE than half the monthly bill for these bushite bleeding atrocities to Humanity, are not even accounted for by ANYONE, but for the thieves at the Pentagon who are ROBBING america with Petraeus' silence on the life and death issue of America. Again, Petraeus knows the bushmob did 911, and would rather kill your stupid american teen, than stand for freedom in America by holding evidence a pre-requisite in determining OUR capital allegations. Death to the false accusing bushite, death to the enemies of America,

al-Qaida = General Mahmoud Ahmad. Torture IS against the law, and deserves the death sentence. Bushite Cofer Black MUST be put to death for being a Satanic demon enemy of Human life, who freely admits he tortures innocent people to help escape the neocons for 911. Bill a bushite for America, bill a bushite for God. What do Texans own guns for, if not to bill a bushite child killer like those in the evil enemy pro-bush air force. Bushite repeatedly have been found killing innocent people without apology,

Therefore, to survive US all for something better, halt the 'escaping' murderous

bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. I AM AMERICA

Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected traitor neocon. I AM AMERICA.

America MUST demand war crime trials for the propaganda CNN broadcast "Anvil of God" regarding the demonic actions of Bravo company. They forgot to tell America importantly, nazi forces forbade the population from leaving, gunning originally for everyone between 15 to 55, but sided instead to murder infants and the elderly too, when beginning the Zarqawi campaign by bombing hospitals as first strike targets. As such, the bushite murdered many good doctors and nurses - so all to send bushite snipers on hospital near rooftops gunning for every seriously injured woman and child who tried to get help from the Humans. While driving down residential streets, grenading every home of humans being. Remember that when you hear these dishonorable bushite thieves die rightly for god and country.

[Sideline: It's been thought the reason why rescue efforts in New Orleans were provably sabotaged by Rove, was an attempt to make the blue state, commi red.]

See?.. women and children, who the enemy bushite forbade to leave the city with their innocent families, who, as were all living in the entire city of mosques conveniently found labeled therefore by bushite, "Insurgents" (or did leave earlier, and had our innocent families reportedly indiscriminately murdered two miles or so down the road by the most evil war crime act of recorded history.)

Importantly, there was no evidence made awared of, that legitimately offered PUBLICLY, from the UN or the U.S. to indicate a refugee camp anywhere, but for maybe a small group photographed - then some belligerent bushite bogus pocus - all headed up by a blatant traitor to America named Sattler. Reminder: after the indiscriminate carnage, they couldn't find near anyone for weeks who would take money offered to any citizen freely who survived for their satanic benefactor. So insanely disturbing as ungodly evil doing, war criminal Sattler called a halt to giving out charitable considerations from Americans to the unseen surviving victims - all in an 'escape' attempt to make it look better for US, the paying

audience. So, where did our stolen values go to then eh?

911 financier Ahmad = al Qaida, and we have molten iron on video flowing like water. Demon Bush Jr. gave US zero, while closing criminal investigations immediately after the terrorist offense of no questions!, no questions! Case closed. But no, the American media rarely if never mention these facts, while insisting Bush's deathly war criminalling is as only a puppet, look away! look away!, leaving without challenge on the, teen like naivety of wearechange.org's consistence that "we", who demand justice for 911, who might also hold the opinion that zionist behavior does not blindly equal being Jewish, should not be allowed to speak Justly for our public challenge, because bushite Amerika has no defense for censorship against ANY of our judicial wanting, as documented positions on behalf of the suffering to death victimized public. Why? Because we are Just. Well, I try to be anyway. (I've spoken as written for YEARS, with NO ONE WORLD WIDE countering in the public realm, but for the strangely odd insult. Bushite do exist, don't get god wrong, but dumb evil bushite brood in darkness with censorship like all zionists do, selling to be 'godly' honorable men, when in truth, they'd murder anyone of US for a stolen nickel given to a neocon. I, as open line talk radio producer, win every time, always, forever, never fail. [er.. yet..] Why? Because I treat YOU fairly. America should do the same. We are all in this together. Zionists like robbing then killing defenseless innocent Christians, and Jews, while just lying that they don't without scened factual TV perception. Demon 911 WITCH, zionist Condi 'okayed' the dropping of more than SEVEN MILLION land-mines on Lebanon, purposefully done to indiscriminately murder ourselves for generations. Jason might foolishly call you an "anti-Semite" in fear for speaking such not understood truths. And importantly, not because they can publicly disagree so in open debate, so sides to not allow US to rise in acknowledgement to bring about Justice as

demanded, for ALL as ANY. (Gee, who's the neocon now eh?
(we're all sinners.))

If Americans really want 911 Justice:

Help US out by putting the video of molten iron flowing like
water out there in the minds of any who have doubts, tell them
hypno mugger Bush, gave US zero to substantiate his public
falsehoods, and tell US about Ahmad as more than a passing
fact that means little of nothing, then, WE, The People, will
believe this has more to do with Justice for Humanity, than
the American suffering movie goer ego being, "leading the free
world", by voicing no public concerns on the criminality of
the bushmob shysters. Left happying in the George Norry, as a

It should be noted, ungodly bushite enemy commanders call every car bomb in Iraq, al-Qaida, without even pretending to do freedom operations for YOUR protections, as just another dead body in the rubble. (Likely caused by Aegis for cash profit.) So then, look my friends, Amerka refuses to demand justice to save the lives of their very own sons and daughters. And when, WE, Humanity, beg them to answer our calls for accountability, they refuse but for to LIE, stating publicly, "God" would grant robbing from innocent others, to enrich their great unholy tyrannical demon liar. They know easily that the bushmob did 911, and they like it. No, they crave it. We Have A Problem Here

Look, Bush closed investigations on 911 immediately, then
started firstly on Iraq, for war mongering thieves, with
General Ahmad escaping un-accosted for the neocon enemies.
Not relevant? Your Constitution is laying undefended, a
National act that can not be done by any other terrorist group
but those who claim your freedom rights denied by bushite
command. Not treasonous? Look Condi, the demon 911 nazi
witch PERSONALLY assisted in dropping more than seven million
land-mines on Lebanon indiscriminately in Your terrorized
dying names. Hate Life and God as yourself do You?

Don't anyone be deceived that the neocon enemies minimally
assisted these crimes by refusing to allow US pursue the evil

doers by following the actual crime scene leads, but we lack REAL leadership skills that are naturally required to see molten Iron flowing like water from the 911 towers on YouTube.

They, as America's Coast to Coast voices, would rather richly die YOU sacrificed for CRIMINAL zionist Israel, (Israel, where the government leaves actual Jews to die in the streets starving as garbage dumps, to make it look good for MORE giving American charitable donations to disappear elsewhere) before saving the lives of THEIR VERY OWN. Americans don't seem to care they die by their own unwillingness to communicate openly for Justice. I ask you again, to spare me a few dollars so I can feed myself. I am actually, near starving, and never in my most feared nightmares, thought this world, with our communication technology, would leave me without any financial assistance.

Death to the bushite instead of the innocent loved in God

/ / IntelCenter issued a tacit warning \ \

Don't EVER forget, the private company Aegis has been officially found dressing up as AL-QAIDA! - AL-QAIDA! - AL-QAIDA! to murder pro-western forces in Iraq, while desecrating Elvis. Elvis Presley. If you don't love Elvis, there is something seriously wrong with America.

-

/ / The US has also been backing some pro-western politicians like Iyad Allawi \ \

Do you know who Allawi is? Allawi confesses to blowing up school buses filled with children for "CIA" money. NOT THEORY. HE ADMITS IT AS AN ACTUAL SATANIC DEMON! Allawi, the truly insane mad man, confesses to having ordered the murder of doctors and nurses that treated wounded god loving women and children from Fallujah. It was these DOCUMENTED acts that had him thrown out of 'the CBC, CNN, and FOXNEWS TV expert scene as workable', all for fears that US humans might actually wake the fuk up on WHO is Our True Enemies here. All three, pro-private-bank zionist news stations are well aware that the bushmob did 911, but lie to YOU as forsakenly dying for their growing riches and world wide broadcast fame.

CBC National Newz - July 11th 2007 'tens of thousands have died in Iraq since the war against truth started.'

Anyway, these two Allawi incidences are fully documented, look it up, then demand the "The US" pro-western politician person quoted as supporting Allawi - be found guilty of CRIMES

AGAINST HUMANITY, Demand publicly, having the neocon zionists
EXECUTED by America, for America, as America. A Just America

AMERICAN

Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're

going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Al-Qaida = General Mahmoud Ahmad

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. Life
begs, takes a stand for your fellow man, and demand our voices
heard for the defense of the entire human race. And be quick

Patriot Soldiers, who trust yourself to see, this wanting of
Justice isn't complicated. A person accused of a terrorist
event without any evidence, has our accuser a bushite, who
should be watched carefully until verifiable conclusions are
done by the understanding of fact. Not faith. With George W.
Bush making real decisions in faith, expecting us to believe
as corporately broadcasted unabashedly unbiased, that he
is not a deliberate incompetent monster war criminal
of unfathomable evil?, who is just too 'stupid' to understand
why we are innocent until proven otherwise?, is really
something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he
played no part whatsoever in 911, then later, offered himself
for arrest, confident he would be acquitted. Not corporately
newsworthy though, so, few even know why their American child
was later died in the terrorists act of corporate contempt for
US living Freedom with something greater as real Justice wills

you might as well add this to your list of bullshit:

What is it about the following that approximately half the US population not
understand?

DO I HAVE THIS STRAIGHT?

HIS FATHER WAS A KENYAN, MOSLEM, BLACK- WE HAVE SEEN PICTURES OF HIS AFRICAN
"FAMILY"

HIS MOTHER IS A KANSAN, ATHEIST, WHITE- WHERE ARE THE PICTURES OF HIS
KANSAN, WHITE MOTHER AND HIS WHITE GRANDPARENTS WHO RAISED HIM?

HIS FATHER DESERTED HIS MOTHER AND HIM WHEN HE WAS VERY YOUNG AND WENT BACK
TO HIS FAMILY IN KENYA.

HIS MOTHER MARRIED AN INDONESIAN MOSLEM AND TOOK HIM TO JAKARTA WHERE HE WAS
SCHOOLED IN A MOSLEM SCHOOL.

HIS MOTHER RETURNED TO HAWAII AND HE WAS RAISED BY HIS WHITE KANSAN
GRANDPARENTS, HE LATER WENT TO THE BEST HIGH DOLLAR SCHOOLS, HOW?

HE LIVES IN A $1.4 MILLION DOLLAR HOUSE THAT HE ACQUIRED THROUGH A DEAL WITH
A WEALTHY FUND RAISER. HOW?

HE "WORKED" AS A CIVIL RIGHTS ACTIVIST IN CHICAGO- HAS NEVER HELD A
PRODUCTIVE JOB - NEVER RECEIVED A PAYCHECK FROM A BUSINESS WHICH WAS NOT
GOVERNMENT FUNDED AND/OR TAXPAYER SUPPORTED.

(THE PRESIDENCY IS NOT A CIVIL RIGHTS POST NOR IS IT SUBJECT TO AFFIRMATIVE
ACTION SET ASIDES. ON-THE-JOB TRAINING WON'T CUT IT.)

HE ENTERED POLITICS AT THE STATE LEVEL AND THEN THE NATIONAL LEVEL WHERE HE
HAS MINIMAL EXPERIENCE.

HE IS PROUD OF HIS "AFRICAN HERITAGE" BUT IT SEEMS THAT HIS ONLY AFRICAN
CONNECTION WAS THAT HIS AFRICAN FATHER GOT A WHITE GIRL PREGNANT AND
DESERTED HER. I DIDN'T KNOW THAT SPERM CARRIED A "CULTURAL" GENE. WHERE IS
THE PRIDE IN HIS WHITE CULTURE?

HE GOES TO A "AFROCENTRIC" CHURCH THAT HATES WHITES, HATES JEWS, AND BLAMES AMERICA FOR ALL THE WORLD'S PERCEIVED FAULTS, INCLUDING "CREATING" AIDS TO INFLICT ON AFRICANS. HE THEN REPEATEDLY WHITEWASHES THE PASTOR, HIS CHURCH, AND THE MEMBERS WHO CHEERED AFTER HEARING THE PASTOR'S VITRIOLIC PULPIT TIRADES.

HE COULD NOT CONFRONT HIS PASTOR BUT HE WANTS US TO BELIEVE THAT HE CAN CONFRONT NORTH KOREA AND IRAN--RIGHT!!!

IN HIS BRIEF TIME IN THE SENATE HE HAS MANAGED TO AMASS THE NUMBER ONE ULTRA-LIBERAL VOTING RECORD OF THE HUNDRED MEMBERS, VOTING CONSISTENTLY FOR BIGGER GOVERNMENT, HIGHER TAXES, BIG ENTITLEMENTS AND LEGISLATION WHICH WOULD SEVERELY CURTAIL AMERICA'S ABILITY TO FIGHT TERRORISM, PROTECT OUR BORDERS AND OUR NATIONAL INTERESTS AROUND THE WORLD.

BUT HE IS A GOOD ORATOR.

YEAH, I THINK I SEE HOW WELL HE COULD BE A UNITER AND BRING US TOGETHER. I THINK THE HOPE IS THAT HE HOPES NO ONE WILL PUT THE PIECES TOGETHER.

LADIES AND GENTLEMEN, LET ME INTRODUCE OUR NEW CHIEF PILOT.
HE DOESN'T HAVE A PILOTS' LICENSE.
HE'S NEVER FLOWN AN AIRPLANE.
IN FACT HE'S NEVER EVEN SAT IN A COCKPIT, BUT HE'S RIDDEN ON THEM.
WE'RE SURE HE WILL GUIDE US SAFELY THROUGH THE STORMS WE ARE ABOUT TO ENCOUNTER ON THIS FLIGHT.

I think the real truth is Mark's attorney is smart enough not to
persue a no-win nothing case since Mark can't afford to pay the
multiple of hundreds of thousand of dollars it takes to hire a
computer system forensics firm to seperate who is post what under who

knows how many differenct nyms and ISPs, gather the information from all of the various ISPs, serve everybody, and get them into court. Then he has to prove actual monitary damages and prove that anyone who posted against him intended to cause him real damages. If he happens by a slim chance to win a judgement, then everyone involved can just go file bankruptcy against the judgement, and not pay anything. Then Mark and his attorney will get to look like a pair of idiots for wasting the courts time to get nothing...isn't America great, the land of lawsuits, judgements, and then bankruptcy.

I hope Mark does sue me, I will get a free vacation to the UP, If you win mark you and your attorney can fight over who gets the 40 channel radio shack CB a 2 meter ht, the $200.00 computer I use, and a 1988 Olds with 155,000 miles.

Good luck fatty.

I'm going on the real freeband.

As soon as I build a transmitter and reciever for it.

The posts posted here are mistaken that the freeband is regulated.

It's not.

And they are mistaken that you need a license to operate on the freeband.

The truth is you don't.

The people operating on 26, 27, and 28 mhz above and below the cb frequencies are NOTon the freeband.

Those frequencies are assigned to other users.

Whether they're being used or not.

The real freeband is below 9 knz.

Which the FCC currently has no authority over,

And it's all completely legal.

Bushite soldiers beat to death innocent Children to 'let off steam'
http://youtube.com/watch?v=fxi5kxzx3V0&feature=related

We, as Humanity, will hunt every last bushite demon down for
death to defend our loved children, for, a TRUE Love for GOD
never dies. Demand these enemies of Life be destroyed for
freedom to be all we can be. Death to the bushite, death to
the enemies of Mankind. To love God, is to kill a lawless
bushite savage as defending our innocent lives.

Note: bushite news america will re-run bushite nazi offspring
attacking American kids on national television with the minds
of contempt gathered. But, our millions of Iraqi victims they
forbid our defenses in demanding an end to continuing
sancioned lawlessness. When watched, Justice for Life is
screamed for, but not as those who commit our concern for
ruling. President Bush is a massive war criminal. Attempting
'escape' with the stolen 'loot'. Support my call for
international debate on the coast to coast radio network to
officially start a criminal investigation of the outstanding
911 question. Justice for any, is freedom for all. Who am
I?.. King Johnny.

CNN News Special: Autism - Unraveling the Mystery

CNN "We've learned so much this week."

Support my demands for US to arrest CNN, CBC, CTV, and the BBC news producers, for consciously forbidding American families from knowing, scientifically, mercury causes brain damage to YOUR child, ONE HUNDRED PERCENT of the time. The criminal charge is "endangering children". Please, do not except CNN's zionist enemy LIARS of Christ who would send your teen to DIE in a causeless war for stolen profit - (who routinely refuse OUR concerns,) do not know this while disallowing Americans to survive their continual criminal assaults against our being without apology. Time to pull up on the talk transmitter, to make demand as America, to take these calls for liberty from tyranny, against those corporate nazi news buyer liars. I want to guest host on the Coast to Coast radio network to take open line calls to bring about Justice for Our forsaken Worlds. Make it happen for yourselves as worthy our praise.

Boston Globe PROVED the election was RIGGED
http://www.ronpaulwarroom.com/?p=941

Ask yourself, why do you think Dr. Paul refuses to demand a fair election? He certainly has the donated money for something about changing things for the better by counting. People! can you spare me some money to help my real rise for freedom through Justice by demanding a 911 investigation including building seven?..and General Ahmad being brought to public trial with the neocons for treason? Treason against Civilization. $25 sure could go along way in building The Media Empire, of King Johnny Wizard's, Shareware Earth Co.. as presently considered. Be Human, support Johnny Wizard.

All the while, bombing our families indiscriminately as the demon antichrist forces responsible for the crimes of 911 in New York City. Bushite of the nazi air forces are enemies of Freedom for Americans. See the bushite, bill the bushite for We, the People, is the truth, the light, the way. A bushite nazi soldier who refuses to phone Coast to Coast talk radio to demand Americans support the public arrest of General Ahmad who financed the terror attacks of 911, is an enemy worth billing to defend our dying freedoms held in contempt by censorship. You can not find a single soldier on Earth to publicly support George W. Bush without immediately being recognized a traitor, a liar, an enemy of freedom for Democracy.

Molten metal flowing
http://www.youtube.com/watch?v=NIswdgeU0I8

Let honorable Soldiers know, who are the enemies that get them KILLED for demon lies. CBC, the BBC and CNN is the terrorist enemy by forbidding US, The People, from seeing the meaning of iron flowing like water from the towers, prior to the imminent collapse for the neocon traitors. As planned - boogahboogah. Just because they hang on the fact they are here to mislead ourselves for needless wars to die YOU for, doesn't make the

criminal intent they publicly express unchallenged against Humanity, any less horrific in it's dupliciting of war crimes by smiling ~ 'unknowingly'. To go silent, is to except freedom to live denied.

Real Jews don't murder innocent people to steal their rights to Life for money.

Again, demonic zionists are ENEMIES of the Jewish faith. They lie to cheat at murder for money. Money paid for by American tax payers to murder innocent Christians, Jews, and Arabs. The pictures of zionist offspring, signing their nazi family name to cluster dud land mines, were FIRST used against Jewish northern communities in Lebanon! Way truth.|. yahduhyahduh.. Checkcheck. Johnny calling America! we have lift off with receivers, i think I got a connection.. Listen:

Freedom for America

/ / Just FIVE major U.S. banks control 97% of all the bank-held derivatives in the United States, a concentration of power and risk unsurpassed in the history of finance. \ \

/ / JPMorgan will take over Bear Stearns' $13.4 trillion contracts \ \

Understand this: JPMorgan received 13 TRILLION in derivatives by excepting the American tax payer gift of three hundred million, to take a billion dollar public building off our hands as 'the losers'. Then this: of all the billions in free tax monies given to the EXTREMELY wealthy [some are actual trillionaires] of the FIVE private banking industrialists, done to "bail out" America of this mortgage meltdown, none of that TAX money goes to the scammed home owners, who's costs have directly increased due to the transgressions of hedgers who privately take the real money for themselves escaping into the Cayman Islands, and leave US, the bogus credits to default on by disappearing public pensions, stock, ect... Example: where is the 13 TRILLION that JPMorgan inherited at the cost of more than 200 million American taxer played? How could a multi-millionaire stock holder of Bear Stearns lose all their money, if the company is still holding 77 trillion for Public leveraging? What kind of bankruptcy of Enron book keeping is that where our loot is unfounded? "lost" to market forces? But JPMorgan inherits 13 trillion? Try FRAUD. Like did you know, Mr. Trillion Aires isn't even on the hook for covering the initial mortgaged loans of mortgaged loans? Or that, the Royal Bank of Canada popularly paid out .02% interest on Canadian savings accounts just for spite? 'Knowing' you don't even have the strength of conviction to raise your phone demanding fairness for our forsaken Worlds, because, for starters, CBC, CNN, with the BBC

an George Norry ain't going to take our calls for free communications, for, the neocon zionists committed 911 with Bush's business partner General Ahmad to rob you all - and die our sons and daughters are, dying our sons and daughters are. Does George Norry really care?, do Americans even care?

/ / Hallburton subsidiary KBR told employees at a water injection plant in Iraq a sand-like substance scattered around the plant was just a "mild irritant," workers recall.

It turns out to be sodium dichromate -- a highly toxic chemical which can [as will] lead to cancer even with limited exposure. \ \

See? Bushite will kill bushite for a stolen nickel. Did these employees know their company robs from soldiers by charging themselves a $100.00 for a single bag of laundry?, or keep slaves to serve the nazi grunt dumdums? Or poison water supplies?, stealing oil revenues?, over billing America while Championing unchallenged by CNN Bush whores more needless wars to profit US further dying as innocent victims on? If the sacrifice of soldiers lives is going to mean anything, it going to mean how long it took, Americans to care for themselves as really worth saving.

Who's Jesus?

ABCNEWS.com : FBI Called off Terror Investigations
http://abcnews.go.com/Primetime/Story?id=131907&page=1

Now think American: Why do you suppose this is anything else but treason involving the escape of the 911 terrorists? Obstruction of Justice is seriously criminal. Understand: CNN, CBC, and the BBC news producers know the neocon bushite committed 911, [I've told them myself] but refuse open debate through dialog to continue murdering ourselves. They are all of Humanity's true enemies by forbidding the knowledge to defend ourselves judicially. In Iraq, American tax payers pay the salaries of lawless mercenary goons who gun down our families at random for entertainment, and all they report is McCain unchallenged, that openly supporting lawlessness, torture and theft of Iraq, is the only way to war "al-Qaida". Not to arrest the guy who financed the 911 operation, General Ahmad, no, but to murder our innocent families by those at Guantanamo, who practice Satanic ceremonies to the demon Moloch. Maj. Gen. Geoffrey D. Miller. You can't make this up. Where is CNN celebs concern for soldiers who beat children to death for pleasure escaping unaccosted? CNN Heroes?, like those who murdered more than 200,000 innocent People in Fallujah for traitor Sattler? Fight back for Christ

'47,500 lbs. of bombs were dropped by bushite on innocent people'

Bushite who war Humanity for Bush are enemies of God as Love, attempting to escape those who actually committed 911, like General Ahmad. When a bushite bomber of the air forces die, all Creation celebrates the victory over lawless tyranny. A good bushite, is a dead bushite halted as a thief from murdering more of our innocent selves indiscriminately.

Where is Christ in Canada when CTV reports there is no evidence that mercury causes Autism?.. Not reported is that vaccines cause brain damage 100 percent of the time, because they contain mercury to poison YOUR child. Type 'mercury vaccine' in Google, and ask yourself, how can some paid hundreds of thousands of dollars in salary as a zionist "expert" miss such findings, along with thousands of corrective emails, as an openly confessed enemy of Love in Christ, as Justice for Life? Do you believe those of Israel's military, who purposefully targeted Jewish communities in Lebanon are anything but, enemies to Life as Love for God's Son the Messiah? Where is a love for Jews in Israel, where this issue of Zionists murdering Jews for money in Lebanon isn't on their front pages demanding Justice for Jews in Any Town, Universally? Better Right: Who are the actual Jews Here? - and what about this "God" business.. I mean, really..

The Probable Cause to Charge Dick Cheney With Mass Murder, Terrorism, and High Treason

/ / The fact is that it shoots at figures it considers suspicious, with full knowledge - according to its own contention - that they are liable to be children. \ \

Condoleezza Rice "This barbarous act has no place among civilized peoples and shocks the conscience of all peace loving nations. There is no cause that could ever justify this action." This from the zionist demon witch who okayed the dropping of seven million land mines to murder children in Lebanon for generations!

Bushite still kidnapping innocent people to be tortured to death

These personal Usenet accounts closed by Google I've had for years. No debate was offered, no opportunity for me to even ask formally what the ungodly enemy of Life complained about, Why? Because the truth would have prevailed, and bush whore zionist enemies of God can't have free thoughts expressed by Man, for they would be understood in the streets by the Jews and Christians, arrested, tried, as prosecuted for lowly treason as enemies to Justice. For example: Condi, the zionist demon witch, dropped seven million land mines on more than 170 towns and villages in Lebanon to MASS MURDER our children indiscriminately for decades. Example two: Google has done nothing over zionist pirates who vandalize, every day of the year, page after page of alt.religion.islam, soc.culture.israel, and soc.culture.palestine from Earth's free speakers. EVERY DAY. A zionist enemy of CHRIST screams in joy over such crimes, as the silencing of the crying families going further unaddressed by CNN and CBC, who smile such denials, of my simple public demands to have the truth set US free naturally. FACT: Nazi Israel STEALS our Homes as the innocent forsaken by corporate news americans. Now, those war criminals in Israel wish to steal my name also, further, as my, Johnny Wizard King of Earth thang - not so fast pilgrim.. I don't know who you think you are but, I am a good man, not a thief of Peoples lives. As Son to God Creator of the Heavens and Hell, my will has intent to defend life, as I am a fighter for Justice in all my Love resides Holy and Righteous.

YOU as my "American" listener, will be expected likewise as CNN and CBC has broadcasted You, to do nothing to defend your own child from their refusals to report the fact that mercury is a highly toxic heavy metal that harms all of God's children. and YOU, like FOXNEWS TRAITOR LIARS, will kill your own offspring before acknowledging our great strengths of character as unparalleled in wisdom, for the Ages We Are. Instead, "The Experts" of FOXNEWS and CNN, will tell US as deeply ignorant on subjects you know little of nothing about, they will tell US silently not to bother bushite CRIMINAL enemy of Humanity personally to defend our innocent selves, but instead, evil thought "Socialized Medicine"'ers, being total losers to Life and wiser folk by simply doing the math as ourselves. [Americans pay twice as much and get near half the coverage that Canadians do - !no middle men!.] It's all about talentless corporate multi-millionaire mercenary pirates, seeking our freedoms in America to die profitably, as

they stand on the growing pile of rotting bodies, telling US all, we was right all along to do nothing for ourselves - like speak openly for Rights granted All in a Free Universe of Possibilities. Pick up your phone cowardly dying American, and demand Justice for 911, for, they could be You again. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. And... murder is illegal in all States. As just because the victim was an Iraqi child, casts their lives no less than any other of Humanity's Greatest.

Again, I, as the Son of Man born to GOD will remind ALL Americans, bushite have murdered more than a MILLION innocent people indiscriminately in Iraq, to thieve for the traitor neocon liars. Thousands of videos document those in the air force who target the murder of helpless children for example while chanting "whore yeh" in praise of the lawlessness to continue carnage against our better wills. Worth a death sentence by trial then firing squad, as blatant war criming traitors. Pick a Side: An innocent family?, or a UNARRESTED bush whore nazi rapist, a torturer and thief who believes some how Men of Earth do not exist to hunt them down with the Law of the Land for it. Not in Johnny World I'll tell you my friend, not in my world. Bushite are antichrist forces of evil who war GOD with supporting torture as our INNOCENT families of Humanity, all for the escape of the zionist neocons personally responsible for the demonic crimes of 911 going unadressed. Canadians will know, General Hillier has publicly pronounced Canadian Soldiers will not defend innocent people from being tortured to death under his criminal authority as enemy. Treason against Canada of the lowest order is what Hillier has spoken for himself cowardly. It's official: I am now in Command.

TOP ISSUES

The DEA has openly acknowledged that bushite in Afghanistan are pushing heroin into our streets. Innocent people are still being kidnapped by KNOWN bushite to be tortured as the Innocent to death. The 911 perpetrators such as Bush, Cheney, Condi, Myers with Rumsfeld and Ahmad, have still gone unarrested. Support my demands for national radio hosts like George Norry and Art Bell to allow US open discussion on these subjects, with open line callers to work ourselves through this struggle against lawless tyranny defeated with reason to be somebody worth the effort, or don't. George Norry has told US he's into killing kids, and going ballistic against any soldier who would refuse a criminal order given by neocon. A "great patriot" fighting the NWO?, or a traitor that to this day, happily watches Humanity be poisoned deliberately, and can't find the care to empower ourselves by simply allowing

open line calls from real people who demand a halt to such extreme evil criminality passed off as foolish 'non-stop' newsertainment?

TV NEWS CENSORS ARE OUR MORTAL ENEMIES

Did you hear! The Khadr team found a bushite manufacturing evidence in the military commissions trial. Death sentence for the bushite enemy, or will we instead silently except more crimes against ourselves as the innocent victims? Clearly, bushite are enemies of Freedom in America. We decide. Why must all Humanity die for TV America's contempt for Justice?, to not even fight for OUR dying rights, as if, My rights were theirs to steal. Support my demands for a real Public debate or die unworthy to the neocon's treachery.

HOCUS POCUS
* Only in America you Win 287 million where it really means 96 err.. 95.6 *

These TV experts on America, who refuse to defend American People from poisons in our foods, water, and vaccines, who just nazi lie and broadcast without challenge their top standings among themselves as sell-out corporate Bush whores, are the enemies of every living person who cares about counting votes to determine our real winners. Take a stand, be a man, dial the phone, your not dying alone. Help me.

We can not be defeated, for we never have been even challenged on what is globally, well documented as indisputable. Support my continuing demands for open communications to benefit any as Justice for all. All war profiteers will be sought for prosecution as the worst of criminality. AEGIS, CACI, and Blackwater will pay with their worthless lives through public trials for first degree murdering our families never forsaken in my living forever name. Death to the bushite, death to the enemies of Christ in America.

A New Life

A new life was brought into our world, and a bushite pondered that Heart, and threw it off a cliff for entertaining laughs. Laughs in knowing such action could make every child of Earth cry, that such action could make many American men feel helpless in knowing, such an enemy to Life, would dare steal the image of America as Once Great, risking itself continuing on with no more of a death threat than a small fine if anything. However. If we publicly demand the puppy killers be tried quickly for a tossing off a cliff for fairer sentencing, then the torturers and rapists might soon fear, they're never gonna get away from US either. Death to the bushite, death to the enemies of God as our great Love for

Liberty.

We shall Start with public demands for the formal arrest without bail of traitors Bush, Cheney, Condi, Rumsfeld and Myers for the crimes of 911.

As for our British Loves, call for the immediate public arrest of the con man Peter Power, as the probable cause for the 'al-Qaida' crimes of 7/7. Along with Ian and Tony Blair with their phony cop who was caught guilty for lying as our media over and over again, to then finally confess, he gunned down an innocent man for no 'known' good reason as an escaping MURDERER. And to never forget why the bushite will continue to die rightly: All for, The Queen's Best soldiers, who kidnapped barefooted children from Iraq to be beaten to death on prized video for their godless pleasure of hate for Justice

NEW GAME TO PRACTICE UP WITH

Turning Point: Fall of Liberty
http://www.gametrailers.com/game/5117.html

Boy, this new game is something, not just another, 'questions are stupid. lets just kill whomever-shoot-us-uppers', a computer game of life maybe worth the buy, if for only the reality concept..

New York City is over run by thieving bushite nazi savages, so you, as one of the few proud and brave of a, left to die leaderless, Corporated into lawlessness, America, give the bushite nazis, the real welcome they deserve with fire works. (As freedom killing terrorist liars, the blind to reason bushite always are. [unless seeking forgiveness for such cowardice]) Like it or not. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. And... murder is illegal.. So, DIE BUSHITE DIE by trial and jury we WILL stand for God and Country to defeat evil Nazi tyranny, guaranteed. It's written in the stars. Your paying for some crime. What are YOU good for? The Man says, Evidence is Everything. ..and a person accused of a criminal offense without any public evidence to surmise, is still innocent to anyone. Justice Will Rule when we know what true freedom is gained, by enforcing anti-torture in all cases, then actively hunting down, as Reagan's War Law States, the bushite personally responsible for crimes against Humanity in our stolen Names. We have the demon repuglicons who are voting on the support of torture as something other than TREASONOUS that excuses a murder of an innocent other, as godlessly sadistic. [For even the True Satanist, or True Atheist, would bill these grunting bushite torturers without even sweating about what's right or wrong. thinking.] Those censors like Rush Limbaugh or Shaun Hannity that refuse our wiser minds, do so because

Freedom defeats them in seconds - to be the disturbing groveller to self destruction that they confess to be, hiding from nobody. However: In Johnny's America, they's not down burning in the fiery pits of hell symbolically to teach US all a valuable lesson, Theys got millions from us for "our" continual wanting of yet more mass murders as worst than any fictions since dreamt, and I, the Wisest Godman on Earth, instead of having Coast to Coast public interest, have mostly zionist crazed insults from extreme sexual dysfunctionals, offering to whore to a hundred and 50 something countries - just to fuk you up as lost again to the cause of Liberty. SEE? My critics can't criticize me on my facts, because we are truly dying here forsaking ourselves, truly dying as victims, because of the corporate media refusing to HONESTLY take our continuing challenges to report on. Look, CNN and FOXNEWS hosts have multi-million dollar salaries to cover nothing as important enough to honestly gauge US on, while I, I got hunger pangs feeding my growing costs. Support giving generously to me as my fledgling company, and soon, god willing, I'll be able to leastly afford myself a bus ticket with a tape recorder to get myself down to Washington DC, where I should be giving answers to the People whose questions have not as of yet, arrived from departure. Even with the speed of the Internet and everything, we are still putting harmful chemicals in our vaccines, foods and waters, that do nothing but kill us quicker. Stupid proved a million times over, or, no.. master genius of a new world order, whatever, it must stop, and it must stop now. But, not according to CNN, CBC, BBC, FOXNEWS, and newspaper editors who are much more into money taking by blindly supporting in print, the killing of innocent Peoples in Our Name through Israel, for the stolen cash kickbacks, by just claiming they don't hear US really screaming.. Ever? Never?

Sad, but without your generous dollar donation to the cause, (meaning more than being near less than nothing you people'll please give me in return,) i may yet go short again, so our bankers can take even greater monies by investing in our denied "failures". How about supporting my rise to demand public debate on Justice actually Ruling: by Publicly arresting for Public Trial by TV Jury, Mr. Bush and Cheney immediately, for the crimes of high treason as a major misdemeanor. 1. They closed down investigations following the 911 crime scene leads, designed by the lawMakers of the Land to capture the actual terrorist bad guy leaders of true evil - you know, the Crooks. (Obstruction is serious!) NOBODY disagrees?, publicly? ! SEE? CNN CBC AND FOXNEWS ain't really taking our calls for listening then are they for Justice? It could be dreamed that we are only refused for to be, not valid as fairly recognized. Like, how absurd! that

Obama's preacher suggests supporting WAR crimes AGAINST HUMANITY, is a crime against God too? See, corporate America couldn't give a dying soldier a clean glass of water to save his forsaken life, because hey!, who cares? CNN, CBC, and FOXNEWS certainly don't care about escaping the bushite enemy responsible for the lives lost through the crimes of 911, and so on.... but my friend... do you??

So,

Send this post to your favorite talk host, newspaper, or bar message board if sparing me a few dollars from Japan seems rather obscure. All for the sake of knowing a brother's down on his luck to find some love for Liberty in America.

King Johnny Wizard

P.S. I seriously need to eat.
Please help me, by supporting our cause to not starve to death. If you appreciate my words in defense of the once great Human race, donate a few dollars to this cause. Justice and Freedom for all, especially God as Just, and worthy our praise for Peace. Donate me leastly five dollars for Canadian 2% milk, and yummy multi-grain bread please.

How They Voted: Torture Bill
http://www.cbsnews.com/stories/2008/03/11/ap/congress/main3927680.shtml

These be criminals of the worst order. In America, today, the standing Reagan Law, demands that these bushite enemies of God serve a minimum of 25 years, for knowingly supporting the war crimes actions of torturing innocent Peoples to Death. As President, with the Armed Forces in tow, we will arrest, try, and convict all these demon enemies of freedom for Americans.

Look, we have to realize: everyone knows a bushite cop killer thief is a cowardly enemy of America, who wars God and Humanity as OUR ENEMIES for the criminal escape of the neocon Zionists responsible personally for 911.

Proud bushite enemies of God and Man state:

http://www.forum.militaryltd.com/tun-tavern/m10997-zarqawi-had-close-call-marines.htm

"Heaven Won't Take Marines and Hell Is Afraid They'll Take Over."

See? A bushite is an enemy of the Family, who rapes and murders for the demon antichrist thieves. Dishonorable to the core of what it means to be a free man, they die in cowardice, too afraid to defend what's right as true. A liar, a thief, a murderer, that is what a bush whore nazi grunt who states life must die for as lawlessness. They war Humanity as bush whore slaves for the escape of the neocon liars of 911. (General Ahmad funded Atta) They support torture by silence, they support raping women by silence, they support robbing The Peoples by silence, and they support killing themselves for FOXNEWS to continue LYING to America about what it costs to be a bush bitch who chants routinely, "whore yeah, whore yeah" Death to the bushite, death to the enemies of freedom in Johnny's America to talk openly with the FACTS absent Coast to Coast hosts Demonic censorship of American voices as True Liberty we shall proclaim. I wrote that.

A Zionist liars website:
www.Jews-Did-911.com

I didn't do 911?, least not responsible for closing outstanding criminal investigations on who personally was responsible: Bush and Cheney, Zionists. Not Jews. Zionists believe Israel should not be defended from war criminals who bomb Jewish communities indiscriminately to murder children with millions of landmines. Condi, zionist witch, ordered the dropping of near seven million land mines on Lebanon, with the first strike targets to be JEWS pin pointed by the anti-Israeli racist nazis. Jews, who are so, no matter where we eek out a significance. CBC, CNN, and FOXNEWS with George Norry refuse to take my challenge for public accountability as Zionist enemies to Life. Nazi Israelis steal innocent peoples homes, period. Who's in charge here Kangaroo?? Eh?

Conspiracy of Conspiracies

March 7th, 2008, George Norry
'Why is it that we can never find the big foot?'

Ask the more good than bad Alex Jones why he refused to ask Lou Dobbs why he hasn't reported that General Ahmad funded Ahmad? I know why.. Because Alex Jones once again, with Dobbs, whored for the demon antichrist's escape for the treasonous acts of 911 committed in his name.. Justice as Freedom?, or more go nowhere NWO shadow government bullshit to escape the ungodly zionist neocons personally responsible for the crimes of 911. I demand a Presidential debate with America where We can't hang up on US, while claiming to ourselves as the audience, that the truth tellers hung up myself, honest John. Alex Jones suggested yesterday that ALL those who criticize himself on anything, without naming names, are just jealous. Again, Mr. Look! it's a Prison Planet is not qualified to lead a Peoples towards freedom through Justice wanting. (Qualified to lead the news however, granted, one of the best, IF NOT THEE. (Except for Zionism, Health Care, Immigration, feminine Rights, Banking Issues, and a.. Trade Law))

Mr. George walker Bush is the primary CAUSE for almost all the criminal transgressions against God in America and abroad, since the demon stole the initial election back in 2000. Alex's contention that Mr. Bush and Cheney isn't worth attacking personally with our Laws on treason for defense, (all because theys not responsible for nuting, as his NWO "Puppets",) IS Tyranny of the worst order. Ask anyone, including Alex if he could get his chumped "ego" out of the way. Truly, "Socialized medicine" can also mean paying half as much, with double the coverage. Middle men are our answer givers when it comes to Americans questioning the system of injustices inflicted. Did you know: Private Insurance Companies can clear 70 percent of money invested? NOW... wHy wOuLd wE Do tHaT? If we had the free choice to decide for ourselves I mean, "I" am asking "You"??

Justice is what ALL want for 911. The State of Vermont just ordered all State troopers to not stop Bush on arrestion for High Treasons there as a broad. Newsworthy in corporate America? YOU decide, or don't. Mexican troops, funded by American tax payers, are selling dope in America for Bush and Co. openly now.. Who are you going to call?

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their

flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Petraeus Threatens to Murder More Innocent Peoples!

/ / Gen. David Petraeus said. "We can feel it and see it, and what we're trying to do is rip out any roots before they can get deeply into the ground." \ \

As the President, I will demand Petraeus explain himself. If he refuses, I will order the military to arrest him on sight for lowly treason. We know already, that every bomb that goes off to murder indiscriminately, that isn't credited by bushite THIEVING enemies, is blamed on bin Laden, without the least of any investigation, according to Petraeus' own staff, as so reported on PBS. He, Petraeus is an enemy of AMerican GIs, by refusing to order them all to hunt to kill the neocon terrorists responsible for 911. TREASON is anyone's book. Death to the bushite, death to the enemies of God in America.

THIS IS TREASON

Bogus Iran story was product of Pentagon spokesman
http://rawstory.com/news/2007/Bogus_Iran_story_was_product_of_0116.html

/ / Starr added that one American boat had been given the order to fire, and the Iranians had moved away just in time.

Porter identifies Bryan Whitman, the Pentagon's top spokesman, as the culprit for the spurious [TREASONOUS] account.

Fifth Fleet commander Vice Admiral Kevin Cosgriff denied that his ships had been close to firing on the Iranians. So did destroyer commander Jeffery James. \ \

Remember, these bushite are trying to con leaderless America into a another needless conflict, where we die for their growing riches as war mongering privateers of this, our 'popular will' contesting as defeated already.. Johnny America for Presidential Election Questions! Or, go back to dying needlessly then as dunfukked "Bushite", you losered.

Bushite "Hero" makes eight year old run five miles to save the life of his loving mother, to only after the run, be laughed at with a refusal to grant the emergency water the soldier dumps elsewhere. [Remember: demonic bushite enemies of GOD blew up the water treatment plants to "help" Iraqis.]

President Clinton Speaks on US as Dying Idiots

http://groups.msn.com/PeoplesPolitics/general.msnw?action=get_message&mview=0&ID_Message=360506&LastModified=4675658822492294908

President Clinton - "We look like [DYING] idiots, folks, denying that the people who murdered our fellow citizens [GENERAL AHMAD and Co.] didn't when they are continuing [AS THE 'ESCAPED"] to murder people all around the world," to thieve further for the neocon traitors, from a left undefended "America" silenced by censorship practiced by the demon enemy George Norry, making lawless and godless, synonymous with good will and charity. Where's the reason for George Norry to be happy about godless tyranny destroying GOD'S undefended America I ask YOU? George Norry is what is referred to in the bible as a Demon.

Fight back for Freedom, Fight back for God, or rightly die a cowardly victim to eternal life's desperate struggle against the bushite's tyrannical barbarity where indiscriminate bombings with torture and rape is not worth getting anyone publicly arrested over, and courts with lawyers are banned to practice by the war criminals left in charge without questions given or answered, while YOU continue to pay dying in silence. Pick up YOUR phone, and make the call to talk radio to-day. Demand Justice for America, demand Justice for God.

Demon Livney "The world should respect ANY ACTION taken by [ungodly zionist evil] Israel in order to defend it's citizens."

So, UNGODLY nazi Israel can put millions of innocent people in concentration camps, because hey, it's to protect the enemies of Mankind who routinely steal innocent peoples homes, while murdering our children indiscriminately with land mines for Satan. According to the Jewish/Christian Bible anyway.

U.S. Army Sergeant Logan Laituri - "The problem that we face
in Iraq [AND ZIONIST AMERICA] is that policymakers in
leadership have set a precedent of lawlessness where we don't
abide by the rule of law, we don't respect international
treaties, so when that atmosphere exists it lends itself to
criminal activity," ..by rapists and torturers who OPENLY
practice a hatred for G-D unprecedented in world history. The
Nazis of WWII have nothing on bushite enemies who sing and
cheer on video available at YouTube for the murders of
innocent god loving children. (Just like REAL DEMON censor
George Norry advocates publicly by the way without contention)
Death to the bushite, death to the enemies of a liberating

/ / "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite TRAITOR and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children practically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis savages, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones.

It, as a zionist KNOWS, is an enemy to freedom and God in Britain by supporting indiscriminate warfare, such as torture by suggesting we have no power to demand evidence to form OUR conclusions on who is good or evil.

Heaven Won't Take Marines

LOOK! The lawless bushite is warring Humanity to bring about near what was there prior to them attacking.. Did you know: American tax payers openly pay the salaries of death squad goons who murder defenseless innocent families in Iraq TODAY as The Enemy?

Support my call for open communications to demand Justice for any, as freedom for all.

George Walker Bush, "The Puppet" is GUILTY of TREASON a thousand and one times over already. We all love Alex Jones, but this nwo bullshit doesn't apply to the lawless demon enemies who inflict harm on our humanity because they confusingly tell US, they enjoy it. Murder, rape and pillage for the sake of murdering, raping, and pillaging. Look, I'm

sure we'd be able to easily work out our differences, if George Norry's amerka would take our calls for clarity, on Justice ruling our ways to a fool's paradise where those accused of a crime without any evidence would be US, as the INNOCENT forsaken in God's good name.

http://www.whitehouse.gov/news/releases/2007/11/20071107-5.html

Look, November 7th, the demon antichrist stated he and the neocons ordered the murder of more than a million innocent Iraqis indiscriminately because, he was simply enforcing UN resolution 1441. HE LIED. [how else could the UN officially declare bushites as war criminal? NO CAUSE!!] And multi-million dollar salaried, "American" reporters, who full time, claim to represent American interests while you slog double full-time for corrupt private bankers, refused to call him on it to defend ourselves from his easily provable demonic tirades against God as the innocent. On the scene, and still today... YOU, as American are TRULY dying for George Walker Bush's continuing LIES. Johnny Wizard is Forever King of this moment being. If you can't believe it is important for you to raise your cries for justice likewise, we're all going to be done for lost to indifference. Defeating the neocon is serious business my brothers, serious business.

You and I

Our Demon Enemy Lying Leader Mr. Bush speaking recently, "You and I believe in accountability", "People should be responsible for their actions", "My number one priority is to protect you" "All human life is precious and deserves to be protected." Just words from the demon in HIS nation that drops 47,500 lbs. of bombs to indiscriminately murder Iraqis while paying [whoknowswhere] salaries to 80,000 al-qaeda in a nation the antrichrist forces occupy, all the while, holding George Norry a great host for supporting the war crimes of bushite thieves who target innocent children to steal further from our undefended Graces. As George Norry happily sends CONNED or cowardly America to their treasonous doom, for the zionist neocons personally responsible for the terror crimes of 911. The George Norry is an enemy to God and Humanity by conning Americans into not allowing open line communications on any relevant human interest story involving the criminal sacrifice of Justice for America. No, instead, more bullshit on AREA51. AREA 51 where toxic waste is illegally burned for cash profit at the loss of REAL American lives paid for in CENSORED collateral. You die as An American for the treasonous con of Coast to Coast hosts who forbid open dialog on the reasons for why YOUR nation wars innocent others to thieve from. Remember, the REAL DEMON George Norry gives an endless stream of bushite dumfuk who endlessly praise George for supporting

the neocon murders of more than a million INNOCENT PEOPLE by forbidding truth to be sought concerning our circumstances. And YOU, yes YOU, are meant to feel alone in your concerns on the fact that the neocons are trying to escape their rightful arrest for the crimes of mass murder. Al-Qaida = General Mahmoud Ahmad. George Norry is a DEMON traitor who's con is on just playing happy as a polite demonic sadist, who silents on for the murder of soldiers - who are as dumb as we come. George Norry deserves to be TRUTHFULLY exposed for what he denies as America's privilege, freedom and justice for all.

Just like an ungodly bushite does, when it murders for blind obedience to the unelected zionist neocons who truly committed 911.

The Corporate Bush Whores

The Corporate Bush whores, who lie to die our naive sons and daughters for stolen profits given to those personally who committed 911 must pay with public trials for their contempt of the value of our forsaken lives. Those in the air force responsible for indiscriminate bombings to murder our innocent families, and those that torture innocent people to death, must be tracked down by every living Man, and executed through public trial for a love as God that will never die. Death to the bushite liars, death to the enemies of Justice for any. Al-Qaida = General Mahmoud Ahmad, and we have video of iron flowing like water from the towers. Evidence is Everything. GLORY OF THE CORPS - A Real Man Speaks for Freedom

Coast to Coast hosts wont take our calls, but they did take several demons on Wednesday, one in particular who figured he could be a "god" too, by supporting the indiscriminate murder of Iraqis to defend the evil zionist neocons in hiding. But, what did GOD in Iraq have to do with the bushite responsible for the DEATHS of 911?, or the DEATHS of all Arabs in around the naive age of 15? George Norry didn't ask.. Another demon witch allowed on our air said at great lengths, she appreciated that the demon antichrist Bush lies continuously to dying soldiers because that's the only way to blindly defeat terrorists.. (evil = good) George speaks nothing but happy silences in trusting warmly with dying US all for ignorance as belligerent criminal negligence. Again, the demon enemy of God refuses US to open communications on any relevant subject involving the sacrifice of American lives. Staying happy, he figures that's all it will ever take to defeat Americans lost in doubt on his contempt for all Peoples lives, is to simply forbid knowledge from escaping his charade. He told US previously, he'd go ballistic against any soldier who refused a criminal order. So, when marines are asked, as reported, if they'd murder their own parents without reason for the glory of the Corps., would George Norry shoot "them" as traitors for asking simply now why would WE do that? See something here my friends behind these great words of wonder? Demand open communications regarding our demands for the arrest of those truly responsible for the crimes of mass murder in America on 911 back in New York city.

The pictures of zionist offspring, signing their nazi family name to cluster dud land mines, were FIRST used against Jewish northern communities in Lebanon! Not CNN newsworthy.. Why? Because Condi, unelected demon witch, sent herself, SEVEN MILLION land mines to be strewn over 170 towns and villages to murder OUR children indiscriminately for decades. Sent after a truce had been called, and an end to the zionist nazi conflict was at hand. CNN, CBC, and FOXNEWS

crews are not working to defend our interests as God's, but to support zionist censorship on mass murder committed by the ungodly bushmob demon liars. Again, realize: George Norry, the indisputable pro-child killer, forbids Americans to understand: General Ahmad funded Atta. And that iron flowing like water on video tape exists. The demon states the antichrist ["not Bush", the demon lying capital false accuser, who immediately closed outstanding criminal investigations on 911 while claiming to be a Christian, and all those who appose with independent thought, evil terrorists] is actually the guy who states he's of GOD! Where demons? I, The son of Man, CREATOR, demand America prove their great love for Freedom, a "truth" they promote as practiced, to continue hiding the lies committed by treasonous neocons responsible for 911, and so on... Remember: Coast to Coast hosts don't mention no specific individuals responsible for the terrorist acts of 911 learned from official investigations done by the honorable in the FBI, and a great many others, no, why? Their chauvinistically contemptible egos. For example: we're hugely more wise on health care, and they'd rather DIE AMERICA, before allowing us to speak in challenge to their irrationalisms, that truly cost everyone more money by staying dumb on the issues. See? I support open debate, while national bushite broadcasters boast of happy times to see US suffer for more pled ignorance hiding sadists, like the coast to coast radio host, George Norry, who's into murdering innocent people in war for no better good, or reason understood. Corporate News Whores are Evil to All Humans Being

http://thisiszionism.blogspot.com/2008/01/purpose-of-pearlman.html

/ / In spite of being evil geniuses of the internet it never occurred to anyone in Al Qaeda to put Adam Gadahn into Google. So unconcerned and trusting is this secretive criminal uber-gang that they made Mr Pearlman their chief spokesman. \ \ As this writer stresses, REALIZE: CNN, CBC, and FOXNEWS with George Norry, the Demon, make no words over it.. Fuk, George Norry, that pro-child killing bush bitch nazi whore for the lawless antichrist, who is nationally broadcasted for blinded dumb amerikans - who as reported, will continue to die US as his treasonous annunciations. All by refusing to demand our interests be defended TRULY - with his BLANTANT demonic LYING and cheating of the facts to make others believe his demon con to die further innocents as more murder victims. Again, the pro-killing of innocent People george norry doesn't own my voice for Justice, but apparently, he owns amerikans when he says "We" love to suffer god on a cross as Our Humanity for his stolen glory - riches - life is easy: Bush isn't the lawless antichrist being lawless and so antichrist

like. No evidence required for American listeners lost to form THEIR won conclusions with the facts so readily available as 'unfound'. George Norry, the child killer will lose, for he is an evil man, truly evil as opposed to conceiving a better world through Justice practiced as ourselves.

A New America

Bush tells America, it is WE who should be fearful of being caught innocently, instead of himself personally as a war monger traitor to Humanity, who closed police investigations on 911 immediately after the terror action going down. Again, even if bush were "just a puppet, just a puppet!!", his criminal action would just as assuredly, warrant his immediate arrest for high treason. Ask any Judge. then a Jury for Your verdict on the entire criminal spectacle of mass murderers escaping the Justice of a New America.

You Better Watch Out

God is coming to town for bushite nasties on his sled of make
believe. A halted bushite, is a mercy on our souls, in
defense of ourselves the innocent. The innocent that a
'lawless' bushite holds for ransom in pain dying. Hell hath

no fury like that held against the bushite enemy, a savage zionist criminal waging war against Life as our shared Universe, 'escaping' those who personally carried out 911. Bush, Cheney, Rumsfeld, Condi, and Myers as topped suspects. Other 911ers will tell you no no no, it's impossible to apprehend them all, for the arrows can go on for never. Bush personally closed criminal investigations on 911 immediately after the terrorist event of no questions occurring. The Bush administration were well aware of their PERSONAL dealings with the Taliban prior to the "Pearl Harbor" event conveniently occurring. And they were all most certainly aware of the plans in place to: within weeks, invade Afghanistan for Enron to stave off criminal proceedings. Walla! Johnny G wills every able bodied man, woman, and child to defend ourselves against bushite that indiscriminately murder ourselves for cash profit. Stolen profit. Ours. By the Will of US alrighty, we shall recognize...

The King Has Arrived

Look, let's "say" Peter Power didn't do the crime he did, and told us so for our own benefit, it would still SUIT Peter Power for him to be arrested immediately for the crimes of 7/7. For it is Peter that alleged HE was running terror drills at the same time and locations of those that murdered many good people from London. London England. Privately, with his bud at Scotland Yard he's saying. I'm sorry, all Bobbies do not want to kill indiscriminately so Peter Power will score a few extra BILLION dollars to hypno mug us to say we can't find'em no matter how hard we look.[*ILLUM I NATII*]. Americans are just poorly being spoken for, by those who lack the skills to win justice denied from the average Joe who knows so.

A Dying God

Look, these soldiers who war for enemy Bush are not warring for freedom as Justice for Ourselves.

Evidence is Everything

there is more than enough supporting impeachment of washington insiders, but the news media refuses to say so to defend our dying interests.

Let's demand CNN, BBC and CBC respect our interests by publicly advocating accountability in respect to the terrorist acts of 911. Their position of neutrality is unwarranted in respect for our victimized selves due to indiscriminate warfare. The Iraq war has no legitimate cause, for they are warring to bring about an end to what they started/starting. Nazi fascist Cowards, as enemies to every man woman and child

Bush Threatens To Veto Bill That Bans Torture

See how these DEMONS play? Torturing innocent people to death for the pleasures of a bushite liar, already warrants the death sentence in America. It's like lawless bushite nazi savages spying on innocent Justice loving Americans, "Just" to see what your doing, IS illegal, now.. well.. YOU decide as the 'made' uniformed. Make a phone call for freedom you lazy amerkan fuks. Ian Punnet says the towers fell naturally, and George Norry reports we got to get bin Laden.. blahblahblah. They know America is dying and couldn't care much less with all the laughing and cheering at YOUR expense.

Oath to God

The bushite took an Oath to God and country to defend America from war criminals, and instead, as cowardly neocon bush bitches, commit war crimes of theft and mass murder against the great Iraqi People. A soldier in the air force, is a dishonorable nazi savage, worthy the death sentence for assisting in bombing Humanity indiscriminately as zionist enemies of Christ, attempting to destroy Johnny's America with their provable DEMONIC LIES. Death to the bushite enemies of Life, who lawlessly war Creation with torture and slavery to 'escape' the neocons for 911. Your magic TV exec excuses don't mean squat when the facts are so readily available. But a bushite don't read, or write, or think freedom. Zionist enemies of ALL Our humanity, murder to believe US won't ever hunt them down by Law to defend ourselves over. Hammurabi LAWS to bill the false capital accusers first, and everything else will fall into place. [note: Hammurabi founded Civilization.]

Christ Begs America

If there is ever a reason Christ begs Americans to joyously, with pride, bill a bushite terrorist enemy of God, it is with the actions General Sattler took in murdering more than 200,000 defenseless innocent people in Fallujah. At youtube you can see and hear these grunts cheering "whore yeah" in praises to the demon antichrist, while committing horrendous war crimes Nazi Germany would have been proud to see the bushite die for. They walk through the city, killing every woman and child they find hidden. No Joke: first strike targets - Health Care Clinics. I am serious.

Christ grows angry with Americans who refuse to even pick up their phones to express outrage, it's as if, Americans, er.. I guess amerikans, couldn't care less for our dying Humanity. I'd like to see Americans enforce the law of the land, and advocate the public execution of those responsible for torture. Again, the TV celebs pretend there is actually some possible meritable argument to support these truly demonic actions as criminal. Bushite have admittingly kidnapped innocent people, then tortured them to death for the pleasures of doing so, 'knowing' also, that they couldn't be held accountable to US, the human species. All for hating us so as loved by Life. They say, we're too weak to stand for freedom's defense against naked tyranny - While Johnny says

otherwise: Death to those who advocate torture in war time,
for there is no legitimate argument, but for the practice of
censorship to understand why the Laws against torture have
never failed for defense, but, for the treasonous actions of a
Bill O'Really, who recently reported internationally that the

"...advanced forms of biological warfare that can target specific
genotypes may transform biological warfare from the realm of
terror to a politically useful tool."

USEFUL! Tell me, wouldn't YOU have publicly tried, then
executed neocon traitors for mass murder if you were
dying as Johnny's America?

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick

trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Power, murdered the innocent in Britain for more stolen goods against God.

REMBERANCE DAY

So Remember: Bushite grunts told the world they wouldn't let anyone out of the city, because [enemy Sattler LIED] pro-bushite Zarqawi was there present, so the innocent families who believed they had nothing to fear from the liar disciples of the ungodly enemy of ALL HUMAN LIVES, remained in the tiny city to be indiscriminately 'protected' with more than nine two thousand pound bombs, or made dead instead by heinous pro-bush escaping war criminals who used white phosphorous on civilization. All to die our Humanity for the thieved loss of evidence to demand ourselves of some official freedom time to deal with our terrorized as suffering reality.

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite thieving murderous military, by the likely ton full to attack our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist evil enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Or don't. Your choice. Life lived Now, or damnable

death by cowardly design brought forthwith under your own power to do nothing under such terrible costs against our suffering natures.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

God Damn America

You f-cks, because Bush told congressmen secretly about truly torturing innocent people to death in YOUR name, doesn't make the crime any less satanic. True Christians will execute bushite torturers with glee. America will pay millions a head for each bush bitch nazi traitor to children as family. The neocons will all be tried to death for treasons like 911, and for supporting a slaughter against Iran. For Petraeus has giving US no evidence to form our conclusions on the validity of his therefore, TREASONOUS statements. Bushite are murderous thieves of Iraq and deserve by the measurements of any civilized man, a action worthy of death as demonic, before allowed to further steal from our Humanity. SAUDI Bush bitch Buford Blount gave out 170 tons of explosives to KILL marines with, and Petraeus doesn't call for his rightful death, nor for death to be brought to bushite soldiers who kidnapped bare footed children to be beaten to death on video tape. hundreds of thousand of guns were 'lost' in Iraq through bushite management skills, and liar Petraeus speaks no outrage. Private death squad goons are committing crimes against GOD, and Petraeus blames no one. MORE than half the monthly bill for these bushite bleeding atrocities to Humanity, are not even accounted for by ANYONE, but for the thieves at the Pentagon who are ROBBING america with Petraeus' silence on the life and death issue of America. Again, Petraeus knows the bushmob did 911, and would rather kill your stupid american teen, than stand for freedom in America by holding evidence a pre-requisite in determining OUR capital allegations. Death to the false accusing bushite, death to the enemies of America,

al-Qaida = General Mahmoud Ahmad. Torture IS against the law, and deserves the death sentence. Bushite Cofer Black MUST be put to death for being a Satanic demon enemy of Human life, who freely admits he tortures innocent people to help escape the neocons for 911. Bill a bushite for America, bill a bushite for God. What do Texans own guns for, if not to bill a bushite child killer like those in the evil enemy pro-bush air force. Bushite repeatedly have been found killing innocent people without apology,

I AM AMERICA

Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected traitor neocon. I AM AMERICA.

America MUST demand war crime trials for the propaganda CNN broadcast "Anvil of God" regarding the demonic actions of Bravo company. They forgot to tell America importantly, nazi forces forbade the population from leaving, gunning originally for everyone between 15 to 55, but sided instead to murder infants and the elderly too, when beginning the Zarqawi campaign by bombing hospitals as first strike targets. As such, the bushite murdered many good doctors and nurses - so all to send bushite snipers on hospital near rooftops gunning for every seriously injured woman and child who tried to get help from the Humans. While driving down residential streets, grenading every home of humans being. Remember that when you hear these dishonorable bushite thieves die rightly for god

and country.

[Sideline: It's been thought the reason why rescue efforts in New Orleans were provably sabotaged by Rove, was an attempt to make the blue state, commi red.]

See?.. women and children, who the enemy bushite forbade to leave the city with their innocent families, who, as were all living in the entire city of mosques conveniently found labeled therefore by bushite, "Insurgents" (or did leave earlier, and had our innocent families reportedly indiscriminately murdered two miles or so down the road by the most evil war crime act of recorded history.)

Importantly, there was no evidence made awared of, that legitimately offered PUBLICLY, from the UN or the U.S. to indicate a refugee camp anywhere, but for maybe a small group photographed - then some belligerent bushite bogus pocus - all headed up by a blatant traitor to America named Sattler. Reminder: after the indiscriminate carnage, they couldn't find near anyone for weeks who would take money offered to any citizen freely who survived for their satanic benefactor. So insanely disturbing as ungodly evil doing, war criminal Sattler called a halt to giving out charitable considerations from Americans to the unseen surviving victims - all in an 'escape' attempt to make it look better for US, the paying audience. So, where did our stolen values go to then eh? (Sattler's pocket no doubt.)

911 financier Ahmad = al Qaida, and we have molten iron on video flowing like water. Demon Bush Jr. gave US zero, while closing criminal investigations immediately after the terrorist offense of no questions!, no questions! Case closed. But no, the American media rarely if never mention these facts, while insisting Bush's deathly war criminalling is as only a puppet, look away! look away!, leaving without challenge on the, teen like naivety of wearechange.org's consistence that "we", who demand justice for 911, who might also hold the opinion that zionist behavior does not blindly

equal being Jewish, should not be allowed to speak Justly for our public challenge, because bushite Amerika has no defense for censorship against ANY of our judicial wanting, as documented positions on behalf of the suffering to death victimized public. Why? Because we are Just. Well, I try to be anyway. (I've spoken as written for YEARS, with NO ONE WORLD WIDE countering in the public realm, but for the strangely odd insult. Bushite do exist, don't get god wrong, but dumb evil bushite brood in darkness with censorship like all zionists do, selling to be 'godly' honorable men, when in truth, they'd murder anyone of US for a stolen nickel given to a neocon. I, as open line talk radio producer, win every time, always, forever, never fail. [er.. yet..] Why? Because I treat YOU fairly. America should do the same. We are all in this together. Zionists like robbing then killing defenseless innocent Christians, and Jews, while just lying that they don't without scened factual TV perception. Demon 911 WITCH, zionist Condi 'okayed' the dropping of more than SEVEN MILLION land-mines on Lebanon, purposefully done to indiscriminately murder ourselves for generations. Jason might foolishly call you an "anti-Semite" in fear for speaking such not understood truths. And importantly, not because they can publicly disagree so in open debate, so sides to not allow US to rise in acknowledgement to bring about Justice as demanded, for ALL as ANY. (Gee, who's the neocon now eh? (we're all sinners.))

If Americans really want 911 Justice:

Help US out by putting the video of molten iron flowing like water out there in the minds of any who have doubts, tell them hypno mugger Bush, gave US zero to substantiate his public falsehoods, and tell US about Ahmad as more than a passing fact that means little of nothing, then, WE, The People, will believe this has more to do with Justice for Humanity, than the American suffering movie goer ego being, "leading the free world", by voicing no public concerns on the criminality of the bushmob shysters. Left happying in the George Norry, as a TRAITOR to a dying America not hearing. An enemy of Liberty to the, tried to be free soldier, who is led TO DIE still un-wittingly by lie for the misfortuned neocon bounty of global tyranny through coast to coast story lining. Look, the peenackers will tell you freakishly, that they work to lie to us all, to take advantage of a plain to view weakness. I swear. It should be noted, ungodly bushite enemy commanders call every car bomb in Iraq, al-Qaida, without even pretending to do freedom operations for YOUR protections, as just another dead body in the rubble. (Likely caused by Aegis for cash profit.) So then, look my friends, Amerka refuses to demand

AMERICAN

Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. true story.

My brother-in-law who works in an electronics store and had classes to do so was trying to hook up an old atari 2600 to his tv.

I said to "hook it up to the radio frequency input"

He replied "Those aren't radio frequency inputs, they're RF inputs, which is completely different than radio frequency inputs"

I tried, but since he had the schooling for electronics in order to work in an electronics store, and I never had any such schooling, that settled the matter as
far as he was concerned.

"This tv does not have any radio frequecy inputs or radio frequency terminals. It only has RF inputs/terminals which are not the same thing as radio frequency
inputs/terminals."

Case closed.

I know better, though.

fair enough. However, my message was in reply to another poster. Which
when I look at it now, had no ham,cb,or electronic content at all.

At least my reply had electronic content, which some hams and some
cbers are interested in.

The cb newsgroup was ruined several months ago by a bunch of off-topic
garbage posts by posters who were obviously there just to cause
trouble.

I don't think a little post containing at least a little something
about electronics would cause any trouble.

Even if it was just to show how dumb certain people are about
electronics.

And I also have another one. Also true.

I went into Radio Shack to get some resistors for an electronics
project I was building.

Although the electronics project I was building has nothing at all to
do with cb or ham radio, I bought the kid at theham radio store.

There, I included some ham radio content in this post. ;)

I ended up losing some of the resistors which I needed which is why I
went into Radio Shack to get replacement parts for it.

They didn't have the correct ones I needed.

The ones they had was a difference of two K.

When I said they weren't the correct ones and told them what I needed,
the sales clerks at Radio Shack told me that they would work just the
same as the
ones I needed "because they're only a difference of two which won't

make much difference in how whatever you're building operates".

And to think I was dumb enough to think that a difference of 2K is a difference of two thousand instead of only a difference of two. ;)

yep. It seems some posters think that my classic tv shows you can't say on ham but can on cb post mentioning "booby", "boob", "Hooterville", and "Hootersville" isn't gay enough for a certain poster.

However, I didn't join this to cause trouible. I joined it to talk abiut cb. Or at least radio and tv electronics.

However, this newsgroup was already ruined several months ago by a bunch of posts which seemed to have X-rated content and subject matter.

Which had nothing at all to do with cb, ham radio, or electronics in any way, shape, or form.

It seems to me like this newsgroup is finally starting to get back on track.

Although I might be wrong about that.

## 2326. keyclowns and keydowns

We have what I would call a keyclown on cb here, although he
technically isn't really doing anything illegal.

Except maybe using offensive language over the air.

And although I consider his language offensive, I also know what's
considered offensive in one area is considered
not ofensive and completely innocent in other areas.

Which is why the FCC doesn't have a list of official offensive words
not allowed to be said on the radio.

For example, a ham in Appalachia could end up in jail for the rest of
his life for saying
things that are commonly used there and completely innocent there that
northern hams take as
offensive and as admitting to committing a very serious crime.

Even though no crime was ever committed.

We also have a certain ham radio here (up north) that has indeed
committed very serious crimes but is
very smart and smart enough to have avoided getting in trouble for
comitting them.

I also consider him to be a jerk. However, a very smart jerk.

So I finally came to the conclusion that it isn't whether it's cb
radio or ham radio.

It's the kind of people you have in your community

Or the kind of the people in the community you're talking to on the
radio.

Enough about keyclowns. Now about keydowns.

I've seen several postings by ham radio operators putting down cbers
for keydowns, saying that they are illegal.

I've never participated in one myself and never plan to. It doesn't
interest me.

I've also heard on my scanner hams mentioning for hams to participate
in keydowns. And these were hams
who had passed their cw tests over twenty years ago.

Why is it legal for hams to have keydowns and cbers not to?

Or does having a keydown mean something different in ham radio than it does in cb?

Which reminds me. I also read a post by hams complaing about "QSL" and "Roger" being used as
qustions.

Granted, QSL should not be used as a question in the way they were using it, but as long as I can remember,
ever since the 1960's (maybe even before) "Roger" was always used as either a question or statement
depending on the context of the transmissions.

Even in the 1960's, "Roger" was commonly used as a question besides just meaning "acknowkledged".

Both were common.

Even in the same transmissions.

# 2327. meaning of 10-200

Speaking about meanings of words changing over time, when was the meaning of 10-200 changed?

And it seems to have only changed in certain areas while remaining the same in other areas.

When I was growing up in the 70's and 80's, all of the radio publications I read, which were several different publications, all said the exact same thing about the meaning iof 10-200.

That everywhere in the country (U.S.), it meant that you had to take a #2 during a bathroom break.

If youwere talking on cb.

Now I read on the internet that some areas of the U.S. are using it to mean "police urgently needed" if you're talking on cb.

Yet these areas seem to be widely separated from each other so that you don't know which cities or areas are using the new meaning.

Since other areas of the country are still using the old meaning since that's what it has always meant on cb.

Since I grew up back then and that's the way I learned it, I would just naturally use the old meaning.

Some people from back then naturally would justout of habit.

But what worries me is I sure would hate to say "10-200" on cb and then have the police come arrest me for "false emergency calls" right while I'm in the restroom in the rest area on the ingerstate taking a #2.

Even though I never made a "false emergency call" over cb.

Why can't people leave the meanings of the words alone and keep them the way they were so that this problem of it meaning something different in half of the country than it does in the other half of the country wouldn't exist.

It meaning "police urgently needed" is a recent development. As far as cb goes.

## 2329. losing licenses

Newsgroup: rec.radio.cb

Well, there was a couple who lost their ham licenses just because the
woman was a woman.

I once read a post by some legal-eagle type of ham who admitted he
turned a couple to the fcc and made
them lose their ham licenses because the couple who used ham radio as
a cell phone were breaking the
law by using secret code words intended to obscure the meaning of what
was being said such as the
wife saying "Go to that store and pick me up those grocries." and the
wife saying "get me what I want at
the store" (without saying which store).

Well, those are NOT secret code words intended to obscure the
meaning.

From my own personal experience, that is just the way most women talk,
including women who never ever
used a two-radio in their entire lives.

That's just the way most women who I personally know talk.

I think they do it just to drive men crazy.

And it does drive me crazy.

Real life example while NOT talking on the radio.

I'm told to go to the store. I wonder which store. And the reply is
"You know, that store". And I still don't
have any idea at all which store she's talking about.

Trying to pursue it any further by saying "No, I don't know which
store" just ends up starting an
argument about it.

No wonder most women seem to not want to use ham radio.

Although I have heard a few women hams on ham radio while listening to
my scanner.

They risk losing their ham radio licenses for just talking "in plain
Englsh" the way they naturally do.

Even though the rules clearly say to talk "in plain English".

I've also seen some hams (not all) complain about people using plain
English words on ham radio
instead of the ham radio terms even though the plain English words

were more in keeping with the
rules than those particular ham radio terms.

Some hams complained about a couple of other hams using the plain
English language of meet me later
on the two meter" as short for "meet me later on the two meter radio"
instead of using the non plain English
term of "meet me later on my rig".

Now that I think about it, the hams they were complaining about were
more correct, because they were
talking in plain English as the rules required, they kept the
transmissions as short as they could while still
making sense by shortening "the two meter radio" to the two meter",
and if they had said "meet me later
on my rig", the other person wouldn't know which rig or band to meet
him on, especially if he had a cb
rig in addition to ham rigs.

oops. I didn't notice I was only in the cb newsgroup. I got so used
to several posts being crossposted between the two newsgroups.

Such as the "They walk among us" thread was crossposted between the
two newsgroups by the original poster.

And no it isn't trolling.

It would be trolling if I did post it in only the ham newsgroup,

That's true. From what I read, the FCC currently only has authority
over radio frequencies, and currently frequencies below 9 khz are not
legally considered
radio frequencies.

However, if the FCC doesn't eventually auction them off somehow by getting control, Congress or other branches of the government probably will somehow.

Isn't it supposed to be illegal for the government to sell or auction off "public spectrum"?

I know they're doing it anyways, but that still doesn't make it legal, just like the national 55 mph speed limit back in the 1970's.

From what I was taught back then about what the U.S. Constitution says (and I believe was also on news reports back then), that was definitely not legal.

With all the complaints about it being unconstitutinal, the government than got around it by illegal bribery.

Their thinking was that although bribery is illegal, at least no one will be able to accuse us of illegally violating the U.S. constitution by doing so.

So all those legal-eagle type of hams who thought they were following the law by defending the 1970's national speed limit on these newsgroups (and claimed that they
never ever break the law) were breaking the law by advocating and promoting the crime of illegal bribery.

Advocating and promoting a crime is also illegal.

So why do they still have their ham licenses?

After all, it was they theirselves who said that anyone who breaks even the most minor of laws, even just one time, should have their ham radio licenses taken away permanently.

The cb'ers disobeying the national speed limit were the ones defending the supreme law of the land, the U.S. Constitution.

Although I don't like people speeding either, the thinking then was the national speed limit is illegal. Which it was and is from the way it was passed and the way
it was put into effect.

So the people not following it weren't breaking any legal laws as far as they were concerned.

Unless they were going a hundred miles an hour or something.

## 2333. why are almost all of my legally bought radios illegal to use

Newsgroup: rec.radio.cb

Message-ID: <31f754dd-a697-4ab9-9345-29817ce0e284@y21g2000hsf.googlegroups.com>
Source record: 238904

Why are almost all of my legally bought two-way radios considered
illegal, including one I planned to buy?

According to certain licensed users (both ham and GMRS users), almost
all of the two-way radios I bought here
in the U.S. from legal national chains here in the U.S. are completely
illegal to use.

1. My Motorola T6250's

I bought all of the T6250's I have separately from each other at Radio
Shack here in the U.S.

None of them have a FCC sticker on them, nor even a FCC ID engraved on
them.

The FCC ID for them is only in the instruction manual for them.

According to certain licensed users, these radios are illegal to use
in the U.S. since there aren't any FCC
identifications on the radios themselves.

To thm, it doesn't matter that the FCC I.D. is listed in the
instruction manual. According to them, the
FCC I.D. must be on the radios themselves and since Motorola doesn't
put any FCC I.D. stickers on any of
the T6250 radios themselves, the T6250's are illegal to use.

Then why can't I sue Radio Shack for selling me devices that aren't
fit for the purpose they were sold as?

Well, even if i could, it would cost too much money to go to court
over it, money that I don't have, and my state
passed a anti-consumer law which they passed off as a pro "consumer
protection law".

Oh, it's a consumer protection law alright. A law that protects
businessess from consumers suing them
whenever the businesses commit any kind of fraud or deception.

Also, all of the T6250's I have, which I bought separately from each
other, transmits a ring tone on whatever
channel you're on when you push the monitor button to hear if anyone
else is on frequency or not.

That causes interference. The left button sends a ring tone as it
should. however, the right button also sends
a ring tone which it shouldn't since it's a monitor button.

,
So whenever you try to monitor the frequency first to avoid
interference, you cause interference by doing so.

2. My Midland frs/gmrs radios.

According to licensed users, these are also illegal since the only
easy way to change channels on them is
to transmit on the channel you want it changed to even if you don't
intend to make any other transmissions
on that channel.

Such as you want to change it from channel 1 to channel 5 just to
listen to channel 5. To change it to
channel 5, you have to push the transmit button to make the radio
change channels, which transmits on
channel 5 in order to change the radio channel 5. So everyone else
listening to channel 5 hears a blank
carrier without anyone saying anything.

And to listen to two certain GMRS channels, you have to do the same,
which it's illegal to transmit at all on those
two GMRS channels here in the U.S.

The instruction manual even lists the above way as the way to change
channels on it.

I'll give the model number later when I find them.

Now to be fair, there is a way in the instruction manual to do it
without having to transmit on the channel
you want the radio turned to. However that way has so many steps and
is so complicated, and takes
much much longer, that most people wouldn't even bother using that
way.

Plus people who lost or misplaced the instruction manual like I did,
can't remember all of those
complicated steps,

Just the simple way of if you want to change channels on the radio,
even if you only want to listen and not talk,
transmit on the channel you want the radio changed to.

3. Motorola frs/gmrs with a blue casing.

I don't see the model number on the cas.

Mine of these have a one-minute time-out "feature" which makes
conversations last hours longer than they
normally would otherwise, thereby violating the FCC rules of keep
transmissions as short as possible
and therefore illegal to use.

Ironically, it was the licenced users who wanted the manufacturers to include a time-out feature on the
frs/gmrs radios in order to follow Fcc rules and keep transmissions as short as possible which
caused the radios to have these time-out features that violate FCC rules by making transmissions
take hours longer than they otherwise would.

Just listen to the conversations of anyone who has these frs/gmrs radios with a time-out feature.

It causes a bunch of arguments between the two parties involved that never used to happen when the
exact same people used to use frs/gmrs radios that didn't have any time-out feature at all.

The above two radios (#2 and #3), I bought from Best Buy.

4. My TRC. I forget the model number. I bought this years ago. It was listed as "5 watts output".

According to some of the licensed people, this radio is also illeegal because 5 watts output on cb isn't
legal and never ever was, according to them.

I bought it from Radio Shack, and it definitely said "five watts output power" on the box, when used in high
power mode and was FCC-certified also.

How about that? A FCC-certified radio that is against the law to use in the U.S.

Then where do you use it that it's legal at? Certainly not anywhwere else in this world.

5. A CB radio I was thinking about buying. Radio Shack is selling it. It's a three channel cb walkie talkie
that uses user-accessible crystals for the user to put in whatever cb channel he wants.

According to certain licensed users, this cb is also illegal, since it has user-acessible crystals which is a
violation of FCC rules and the trransmit and recieve crystals can be easily switched around to make the
radio capable of transmitting on non-cb frequencies, and a radio capable of such is also a violation of
FCC rules (according to licensed users) and therefore illegal to use in the U.S.

And yet, this radio is also FCC-certified as being completely legal to use in the use.

How about that? Another FCC-certified radio that's completely illegal to use in the U.S. even though it's
FCC-certified as being completely legal to use in the U.S.

And one of the licened users even posted what he claimed wasrules from the FCC site (it looked real too me)
which said that using FCC-certified radios on cb frequencies is illegal in the U.S. if the cb has easily
acessible user controls that allow the radio to easily be ussed on non-cb frequncies.

So what we have here is a FCC-approved as legal to use on the legal cb frequencies in the U.S. radio that the FCC says is illegal to use on the legal cb frequencies in the U.S.

Even if what the licenssed user posted wasn't really from the FCC, the actual FCC rules I read myself still
make all of the above statements true and therefore contradicts itself.

Which is "entrapment", an illegal act that the FCC and othe authorities are not legally allowed to do.

Allowing for sale as a "legal rradio to use" that is completely "illegal to use" is "entrapment" when done
by the authority that regulates the radio rules.

I didn't buy it. Yet. And I'm not sure that I should even though I want it,

Simply because the FCC completely contradicts itself as to whether what they approved as legal is legal or not.

Or as to what they said is illegal is illegal or not since they also approved it as legal.

In addition to saying it's illegal.

In addition to saying it's legal.

never read that myself I thought the trolls on here were just making
shit up as always

You might be correct. I might have fell for what the trolls on here
posted.

With the internet out of the picture, I've only seen one meaning for
it, which is what I posted I read in a bunch of radio publications in
the 70's and 80's,
and it isn't the "police urgently needed" meaning.

as to cb lingo.

Not exactly. You are correcct, but there's also extenuating
circumstances.

rec.radio.amateur is/was also for radio-related topics that aren't
about policy.

rec.radio.amateur is now closed down.

rec.radio.amateur doesn't accept any new posts.

the instructions given were that all posts meant for rec.radio.amateur
are now to be posted in rec.radio.amateur.policy

therefore, the amateur radio topics that don't cover policy now belong
in rec.radio.amateur.policy

At least, according to the instructions that were given when I tried
posting in that newsgroup.

## 2336. build-it-yourself cb illegal?

From the posts here and in the other radio newsgroups such as the ham and frs groups, I seen posts saying it
was illegal to use a cb transmitter you built yourself.

So does this mean it's illegal to use my Radio Shack CB kit that was sold in the 1970's and 1980's to
transmit on the cb channels?

I don't have that kit anymore though, or what was built with it.

The posts here had me thinking it was illegal to use.

Until I saw another post somewhere that made me realize it was probably a part 15 device.

Which I think is completely legal to use on the 40 cb channels.

If not, then those kits weren't legal even though Radio Shack sold them all over the country.

Whether they were part 15 or full power, since they were completely legal at the time they were sold, not
allowing them to be used on the legal 40 cb channels is a violation of the ex-post-facto laws of the
U.S. Constitution, the supreme law of the land.

I highly doubt that they were full power though. I think they were probably part 15.

But then again, some people say it's not part 15 either unless it's been certified as part 15 by the FCC.

Either the way, the kits were sold as being legal to use on "all 40 cb channels" in the U.S.

Some of the older kits said on all 23 channels.

If only I still had mine, which I don't anymore.

So basically some of these licensed users are saying that people who built these cb kits in the 70's and 80's
and were using them aren't allowed to use them anymore (even though they didn't build them today) even
though prohibiting such use is a violation of the law.

This is just theortical since I don't have the kit anymore anyways,
unless I come across one in a secondhand shop or something (highly
doubtful), but what if
I had an old kit from back then that was perfectly legal back then,
but never started putting it together until today.

Would it be legal to use or not?

Would it be grandfathered or not?

The radio built from it would only be being built recently.

Even though the kit and parts to build it are both from back then when
it was legal.

With the instructions to build it from that kit (included in the kit)
are also from back then.

The post about "cb callbook" reminded me

Combining two of my hobbies, one of which is cb radio, is there any
way anyone can find out/look up old FCC
cb licensees and call letters by name of the person, similar to the
way they can look up amateur radio and GMRS licenseess?

I think it would be legal since the kits were legal when sold.

Otherwise, it would be the government violating the ex-post-facto provisions of the U.S. constitution, the whole reason grandfathering radios and other things
came about in the first place.

It wasn't just willy-nilly deciding what does and doesn't get to be grandfathered. Althoigh it seems like the FCC thinks it can today.

Grandfathering came about because it would be a violation of the laws otherwwise.

The government wasn't legally allowed to not grandfather older radios.

Too many people today are forgetting how the laws came about. And the reasons for them.

Boy did you flunk Civics 102.

The Supreme Law of the Land is the US Cde of Federal regulations. The Constitution is there as a guideline for making laws and determining whather laws violate or follow its intent. Then again intent is all based on interpretation.

|
|I think it would be legal since the kits were legal when sold.
|
|Otherwise, it would be the government violating the ex-post-facto
|provisions of the U.S. constitution, the whole reason grandfathering
|radios and other things
| came about in the first place.
|
|It wasn't just willy-nilly deciding what does and doesn't get to be
|grandfathered. Althoigh it seems like the FCC thinks it can today.
|
|Grandfathering came about because it would be a violation of the laws
|otherwwise.
|
|The government wasn't legally allowed to not grandfather older radios.
|
|Too many people today are forgetting how the laws came about. And the
|reasons for them.
|
|-----------------------

First off the Communications Act of 1934 empowers the FCC to regulate and determine standards for all transmitters used by the general public. So whether they grandfather one specific model or not is not a violation of any Law or the Constitution. During WW2 the US Congress suspended "ALL" none essential Communications traffic in the US. That included amature radio. Only Public safety, and broadcast radio were not affected. It took an act in 1947, if my memory serves me correctly, to reinstate the amature radio service.

In 1976 the FCC changed the rules for Type Acceptance of CB radios. Any radio that met type acceptance prior to that date was allowed to be used but their sale was made illegal. As for your question, if it was a type accepted kit prior to 1976 and unassembled and you obtained in a sale on or before January of 1976 then it would be legal to build and use. If you obtained the kit not through a sale it also would be legal to build.

In reality, today if you were find one and build it and it met these criteria:

1) caused no TVI to your neighbors
2) transmitted less the 5 watts output

then for most part the FCC probably wont bother you.

Those old radios are good for nostalgia purposes. Their receivers lack today in comparision to even the cheapest of CB sets. I had an old Radio Shack Knight Kit CB radio back in the early 70's. The main complaint I had of it was selectivity.

# 2367. Ultra 310 CD Scanner help

A friend of mine just picked up a vintage CD Scanner and can't find
any specs on it.
"Ultra 310" is name on the front panel.
Looks to be a 1950-60's era design/style with a ruddy cyan coloured
case.
Reminds me of a Heathkit kit but he says it is definately NOT a kit.
The are three modular boards in blade sockets on the back right of the
mainboard.
The power connector on the rear is a 2x6 rectangular connector with
five male pins.
No power supply came with it, so he would like to identify the pins
before tinkering with it.

Any help is appreciated.

Hello Sensate:

Unfortunately the older scanners technology is old and no one fixes them to my knowledge. I have a few old scanners that I would pay dearly to have repaired. But manufactures special parts, some parts not made any more doesn't help matters.

Suggest you look on E-Bay and there are some scanner groups on the Yahooo nets that are dedicated to particular type of scanners, and there are a few sharp guys out there. Also rec.radio.scanner, may be a help.

I have several older scanners that have the chrome case that I going to convert to speaker box's having the LED lights be a kind of audio level indicator. It will look pretty!

Ken Electronics on the net here may be able to help you out with the power connector wiring.

If you get fed up and want a new scanner, I strongly suggest playing with them before you buy. I bought a Uniden BCT-15 Scanner mail order to avoid a trip into the big city of Los Angles. Big mistake, this BCT-15 was designed and the instruction manual written by some software toad.

It needed to be tested by a group of scanner users and the nut cakes that can recite all the VHF and UHF scanner frequencies over the last 20 years. Not some software nerd-linger guys who need to be threatened with bodily harm to make things work simply.

If they can make a cockpit of a new fighter jet pilot/user friendly they surly can make a stinking scanner radio operate simply. So again watch for the over complicated designed, user hostile, idiot switch-ology scanners.

I think you don't get it.

My radios that some of the licensed users claim are illegal and
against the law to use at all in the U.S. are ALL FCC-approved as
legal to use in the U.S. radios.

Although I think I agree with your statement about "the Govt is broken
and the FCC is part of that broken Govt"

It's legal for them to do that during wartime, but not during

Although I doubt if there's any of those kits left, I do know that
there are some people who can only afford to shop in secondhand shops.

And might run across one today, although it's probably much more
likely they would find an actual full power 23 chanel cb.

yes. Those kits did lack sensitivity. And aren't as good as real cb
radios today.

And they probably weren't as good as real cb radios back then, either.

The old broadcast AM radios have better sensitivity than today's radios on the AM band.

Even the old AM/FM radios have better sensitivity on the AM band than today's AM/FM radios.

Today's radios seem to have better sensitivity on the FM band than the older AM/FM radios do.

At least, that's been my experience.

Back to CB, the last time I looked, which was recently (2007), one of the Radio Shacks near here is selling a channel CB walkie-talkie. Which uses crystals the
user is supposed to put in himself for the channels he wants to operate on.

However, these crystals are easily switched around by any user to transmit out of band. Just by switching the transmit and recieve crystals around.

It is a FCC-approved radio.

However, the FCC rules also say it's not a FCC-approved radio.

Even though there is an FCC approved notice either on a sticker on the radio or engraved into the radio itself, if I recall correctly.

I believe it's engraved.

Screwed up government at work once again.

At least, that's been my experience.

No, the "everything in the U.S. cconstitution is only interpretation"
is promoted by extreme liberals who want to destroy the U.S.
Constitution for their own
purposes.

You probably fell for that line, as so many people today do.

When I was in school, decades ago, we were definitely taught that it
is the supreme law of the land and not interpretation.

Such as all the powers that the U.S. constitution does not list as
being given to the federal government is reserved to the states.

The first and second amendments, and the rest of them, are also law,
not interpretation.

Although the U.S. Supreme Court has the right to interpret the laws in
how they think what it means..

But even in that remark, it was called "laws", not interpretation.

However, the U.S. Supreme Court does not have the right to make laws,
only the right to interpret what laws are already there.

There IS a difference.

> > be used but their sale was made illegal.

yes, I remember the sale of 23 channels being made illegal.

However, I'm still not sure that it was even legal for the FCC to do
so.

Although they did so, anyways.

From what I learned in school, which was before that happened, it's
illegal for the FCC to do so.

Or the mandatory transition to digital tv (although it was a past
Congress who decided to do that instead of the FCC)

Or them busting the CB shops for selling 10 meter radios today they
bbought before the new FCC rules prohibiting selling them went into
effect.

You can still legally get scanners wih cell phone coverage, if you can
find one, as long as they were manufactured before a certain date.

So the salee of those are still legal. So why not the sale of 23
channel CBs?

I thought all analog tv had to be shut off next year, but last night,
I seen the tv station run a crawl explaining thatonly full power tv
stations have to switch, and
explained that low power tv stations and tv translators are both
allowed to continue broadcasting in analog after that date.

We don't have any LPTV we can pick up over the air here, so over the
air tv will effectively be gone from here, since indoor antennas,
stationary roof antennas,
roof antennas with rotors all didn't work to get clear digital tv
reception. Digital tv reception didn't even work through the cable tv
company even though they
have the best reception equipment and location allowed around here. It
still frequently breaks up into blocks with audio cutting out when it
does so.

Unwatchable.

And neighbors with a lot better lot more expensive equipment than we
can afford who also had digital tv capability couldn't get any
watchable digital tv reception,

even though there's several digital tv stations around here.

The analog versions of those same stations are completely fine around here.

And other people than just me also noticed the analog cable tv breaking up into blocks since the cable company picks up the cable tv stations' digitally and
retransmits them as analog.

Once all the full power broadcast stations switch over to digital, they'll be unwatchable even on analog cable tv from the digital signal breaking up at the cable tv
companiy's reception point and retransmitting it over analog cable tv.

From what I learned in school, obviously before it ever happened, the FCC's busting of the CB shops for selling today 10 meter radios they bought before the
FCC changed the rules is completely illegal.

If it's legal, then ham radios have to be certified by the FCC to legally be used on the ham bands.

And hams say ham radios don't have to be certified to be used on the ham bands.

But if those hams are correct, then the 10 meter radios are perfectly legal.

however, the FCC says they aren't legal

And if they are not legal,

then ham radios do have to be certified by the FCC before they're allowed to be used on the ham bands.

Which makes almost every ham radio that exists today completely illegal to use on the ham bands.

Beccause according to what the FCC has been doing recently, it doesn't matter how old those radios are.

According to the FCC rules, old ham radios are illegal since they're channelized radios which can easily be used on the cb band.

From the way I learned it, which was ven before the FCC prohibited the sale of 23 channel CB radios.

The FCC is allowed to prohibit the sale of 23 channel cb radios and 10 meter radios

But they're not allowed to prevent the sale of 23 channel cb radiosd and 10 meter radios if those radios were bought before the new FCC laws went into effect.

If the FCC says "no 10 meter radios allowed for sale after january 1, 2005"

they are not legally allowed to bust a shop for selling any 10 meter radio after that date if the shop had bought all of their 10 meter radios before that date.

Only if the shop continued to buy those radios after January 1, 2005

The above dates are only examples. I don't know what real date was set, if any. I don't think any was in the case of 10 meter radios, just in the case of 23 channel
cb radios).

But as I recall, the 23 channel CBs were gone from the shops by the date the FCC said.

What a waste throwing all of those good CB radios out.

Off course, any company or store who tries to defend their legal rights in such cases ends up paying a lot of money in legal fees which they shouldn't have to
in that case since they weren't breaking any laws anyway.

The FCC claiming that it's breaking the law just goes to show that either 1. The FCC doesn't know the law. o 2. The FCC is purposely ignoring the law.

Since it's clearly a violation of the ex-post-facto provisions of the U.S. Constitution.

No one can legally be found guilty today or tomorrow for a crime they comitted yesterday or before that was not a crime yesterdasy or before, at the time it was
comitted.

As I understand it from what I read, the FCC has been busting and fining some places and people for mere "posession" of those radios even if the people bought them before their new rules defining them as "illegal" were made and went into effect.

I don't own one anyways.

their new rules defining them as illegal went into effect.

At a conference on the supernatural, one of the
speakers asked, "Who here has ever seen a ghost?"

Most of the hands go up.

"And how many of you have had some
form of interaction with a ghost?"

About half the hands stay up.

"Okay, now how many of you have had
*physical* contact with a ghost?"

Three hands stay up; there's a slight murmur
in the crowd.

"Gosh, that's pretty good. Okay, have any of you
ever, uh..., been *intimate* with a ghost?"

One hand stays up. The speaker blinks.

"Gosh, sir, are you telling us that you've
actually had *sexual* contact with a ghost?"

The fellow suddenly blushes and says,
"Oh, I'm sorry,... I thought you said 'goat'!"

Isn't it kind of ironic that a "channel cop" would post an off-topic
message in a newsgroup. ;)

Not that I care.

Just kind of ironic. ;)

correct.

If the U.S. Constitution is only interpretation and not law, then the
things about ex-post-facto in it are not law either which means you as
U.S. citizens have no
guarantee that you won't be put in jail tomorow for something that is
a crime tomorrow but not a crime today when you commit it.

Nor even have the right to not be put in jail tomorrow for doing
somethinng today that is a crime tomorrow but not a crime today

This means that if the FCC decides in 2011 to give thee 27 mhzCB band
back to the ham operators and says that non-hams aren't allowed to
transmit anywhere
in what was the 27 mhz CB band, they can legally put you, a non-ham in

jail in 2012 for transmitting on CB channel 19 in 2008 even if you never transmitted there after 2008.

Think that can't happen? As recently as last year (2007), I seen some posts by some hams wanting and trying to get the FCC to give back the 27 mhz CB band
that the CBers "stole" from them.

And they would also be able to legally put you, a ham, in jail in 2008 for transmitting on the 11 meter band in 1955 with more power than is allowed to be transmitted on the
11 meter band in 2008.

If the U.S. Constitution is law, which it is, and not interpretation, then you as U.S. citizens are guaranteed that you can't legally be put in jail or fined tomorrow for
doing today something that is a crime tomorrow but not a crime today at the time you do it.

The U.S. Constitution is the supreme law of the U.S.

.

Besides what was mentioned in this thread, this in my opinion also
explains why beer advertising is still allowed on tv after cigarette
advertising was no longer
allowed.

After a relaxing bath...Monica Lewinsky
was looking at herself, nude in a Mirror.

Her frustration over her lack of ability to
lose weight, was depressing her.

In an act of desperation, she decided to
call on God for help.

'God...If you take away my love handles,
I'll devote my life to you,' she Prayed.

And just like that... Her ears fell off.

66.82.9.80 resolves to dpc6682009080.direcpc.com.

So that's that, Mark. You can't fake an NNTP-Posting-Host header while
posting through Google, so that is definitely your post, and that makes
you a racist.

And for your information, Channel Cop said "NAGGER"; not "NIGGER" dimwit!

Yes it was perfectly legal. The standards for type acceptance changed.
Therefore, the older units no longer met type acceptance.

We are a nation of Statutes and Regulations that use the Constitution
as a guide for what can and cannot be written into those statutes. We
passed into Statutory Law a long time ago.

Break a law and they don't cite the Constitution. They cite Statutes.
It is for lawyers and judges to determine if statutues meet
Constitutional merit and thus legal.

Again, the Constitution is there to provide a means of whether
Statutes and Regualtions meet the intent of the COnstitution. The
Constitution perse is not Law but rather the Supreme guideline in
which Regulations and Statutes are deemed permissable.

|correct.
|
|If the U.S. Constitution is only interpretation and not law, then the
|things about ex-post-facto in it are not law either which means you as
|U.S. citizens have no

|
|Nor even have the right to not be put in jail tomorrow for doing

|
|This means that if the FCC decides in 2011 to give thee 27 mhzCB band
|back to the ham operators and says that non-hams aren't allowed to
|transmit anywhere
|in what was the 27 mhz CB band, they can legally put you, a non-ham in

|never transmitted there after 2008.
|
|Think that can't happen? As recently as last year (2007), I seen some
|posts by some hams wanting and trying to get the FCC to give back the
|27 mhz CB band
|that the CBers "stole" from them.
|
|And they would also be able to legally put you, a ham, in jail in 2008
|for transmitting on the 11 meter band in 1955 with more power than is
|allowed to be transmitted on the
|11 meter band in 2008.

Again you fail to see. The Constitution was setup in order to provide guidelines on how teh government must be ran. The Bill of Rights, the first ten amdendments are inalienable rights that Government can not take away. Thus no government shall pass Statutes and Regulations that remove the right spelled out in the Bill of Rights.

|Why are almost all of my legally bought two-way radios considered
|illegal, including one I planned to buy?
|
|According to certain licensed users (both ham and GMRS users), almost
|all of the two-way radios I bought here
|in the U.S. from legal national chains here in the U.S. are completely
|illegal to use.
|
|1. My Motorola T6250's
|
|I bought all of the T6250's I have separately from each other at Radio
|Shack here in the U.S.
|
|None of them have a FCC sticker on them, nor even a FCC ID engraved on
|them.
|
|The FCC ID for them is only in the instruction manual for them.
|
|According to certain licensed users, these radios are illegal to use
|in the U.S. since there aren't any FCC
| identifications on the radios themselves.
|
|To thm, it doesn't matter that the FCC I.D. is listed in the
|instruction manual. According to them, the
| FCC I.D. must be on the radios themselves and since Motorola doesn't
|put any FCC I.D. stickers on any of
|the T6250 radios themselves, the T6250's are illegal to use.
|
|Then why can't I sue Radio Shack for selling me devices that aren't
|fit for the purpose they were sold as?
|
|Well, even if i could, it would cost too much money to go to court
|over it, money that I don't have, and my state
|passed a anti-consumer law which they passed off as a pro "consumer
|protection law".
|
|Oh, it's a consumer protection law alright. A law that protects
|businessess from consumers suing them
| whenever the businesses commit any kind of fraud or deception.
|
|Also, all of the T6250's I have, which I bought separately from each
|other, transmits a ring tone on whatever

|channel you're on when you push the monitor button to hear if anyone
|else is on frequency or not.
|
|That causes interference. The left button sends a ring tone as it
|should. however, the right button also sends
|a ring tone which it shouldn't since it's a monitor button.
|,
|So whenever you try to monitor the frequency first to avoid
|interference, you cause interference by doing so.
|
|2. My Midland frs/gmrs radios.
|
|According to licensed users, these are also illegal since the only
|easy way to change channels on them is
| to transmit on the channel you want it changed to even if you don't
|intend to make any other transmissions
| on that channel.
|
|Such as you want to change it from channel 1 to channel 5 just to
|listen to channel 5. To change it to
|channel 5, you have to push the transmit button to make the radio
|change channels, which transmits on
|channel 5 in order to change the radio channel 5. So everyone else
|listening to channel 5 hears a blank
|carrier without anyone saying anything.
|
|And to listen to two certain GMRS channels, you have to do the same,
|which it's illegal to transmit at all on those
|two GMRS channels here in the U.S.
|
|The instruction manual even lists the above way as the way to change
|channels on it.
|
|I'll give the model number later when I find them.
|
|Now to be fair, there is a way in the instruction manual to do it
|without having to transmit on the channel
|you want the radio turned to. However that way has so many steps and
|is so complicated, and takes
|much much longer, that most people wouldn't even bother using that
|way.
|
|Plus people who lost or misplaced the instruction manual like I did,
|can't remember all of those
|complicated steps,
|
|Just the simple way of if you want to change channels on the radio,
|even if you only want to listen and not talk,
|transmit on the channel you want the radio changed to.
|

|3. Motorola frs/gmrs with a blue casing.
|
|I don't see the model number on the cas.
|
|Mine of these have a one-minute time-out "feature" which makes
|conversations last hours longer than they
|normally would otherwise, thereby violating the FCC rules of keep
|transmissions as short as possible
|and therefore illegal to use.
|
|Ironically, it was the licenced users who wanted the manufacturers to
|include a time-out feature on the
|frs/gmrs radios in order to follow Fcc rules and keep transmissions as
|short as possible which
|caused the radios to have these time-out features that violate FCC
|rules by making transmissions
|take hours longer than they otherwise would.
|
|Just listen to the conversations of anyone who has these frs/gmrs
|radios with a time-out feature.
|
|It causes a bunch of arguments between the two parties involved that
|never used to happen when the
|exact same people used to use frs/gmrs radios that didn't have any
|time-out feature at all.
|
|The above two radios (#2 and #3), I bought from Best Buy.
|
|4. My TRC. I forget the model number. I bought this years ago. It was
|listed as "5 watts output".
|
|According to some of the licensed people, this radio is also illeegal
|because 5 watts output on cb isn't
|legal and never ever was, according to them.
|
|I bought it from Radio Shack, and it definitely said "five watts
|output power" on the box, when used in high
|power mode and was FCC-certified also.
|
|How about that? A FCC-certified radio that is against the law to use
|in the U.S.
|
|Then where do you use it that it's legal at? Certainly not anywhwere
|else in this world.
|
|5. A CB radio I was thinking about buying. Radio Shack is selling it.
|It's a three channel cb walkie talkie
|that uses user-accessible crystals for the user to put in whatever cb
|channel he wants.
|

|According to certain licensed users, this cb is also illegal, since it
|has user-acessible crystals which is a
|violation of FCC rules and the trransmit and recieve crystals can be
|easily switched around to make the
|radio capable of transmitting on non-cb frequencies, and a radio
|capable of such is also a violation of
|FCC rules (according to licensed users) and therefore illegal to use
|in the U.S.
|
|And yet, this radio is also FCC-certified as being completely legal to
|use in the use.
|
|How about that? Another FCC-certified radio that's completely illegal
|to use in the U.S. even though it's
|FCC-certified as being completely legal to use in the U.S.
|
|And one of the licened users even posted what he claimed wasrules from
|the FCC site (it looked real too me)
| which said that using FCC-certified radios on cb frequencies is
|illegal in the U.S. if the cb has easily
|acessible user controls that allow the radio to easily be ussed on non-
|cb frequncies.
|
|So what we have here is a FCC-approved as legal to use on the legal cb
|frequencies in the U.S. radio that the FCC says is illegal to use on
|the legal cb frequencies in the U.S.
|
|Even if what the licenssed user posted wasn't really from the FCC, the
|actual FCC rules I read myself still
|make all of the above statements true and therefore contradicts
|itself.
|
|Which is "entrapment", an illegal act that the FCC and othe
|authorities are not legally allowed to do.
|
|Allowing for sale as a "legal rradio to use" that is completely
|"illegal to use" is "entrapment" when done
|by the authority that regulates the radio rules.
|
|I didn't buy it. Yet. And I'm not sure that I should even though I
|want it,
|
|Simply because the FCC completely contradicts itself as to whether
|what they approved as legal is legal or not.
|
|Or as to what they said is illegal is illegal or not since they also
|approved it as legal.
|
|In addition to saying it's illegal.
|

|In addition to saying it's legal.
|
|

about.

Oh, wait! I can see it coming. Mark will next post that I am libeling him, that I am a racist, or am an anti-Semite or a Homophobe or whatever other oddball descriptor that enters his muddled mind.
At the very least he will tell us that we are "OT", off topic.

Luckily for us, DeLorean got Mark booted from his Teranews account and Mark can no longer abuse these groups with hundreds upon hundred of inane posts.

I did NOT lie. You falsely assume that the rest of us are not unlike you. We are not Dyslexic and most of us take the care to spell correctly when making a point. It is a matter of proper protocol...and wanting to appear as being intelligent enough to post properly.

I have no "gaol", fool. Whatever that is .
Rude? Not half as rude as you who monopolized this group with your rude flames and one-liners.

Am I a "sob"? That is open for conjecture and your input doesn't count.

Not unless it's where you have to take the radio completely apart with
a screwdriver to see it.

I checked several times, both on the outsides of the radios, and on
the insides of the battery covers also, among various other places.

I just came across a copy of the part 95 rules.

It is a FCC-approved CB radio that can operate on the "freeband"
without any modifications at all. Even the part 95 rules say it's not
a modification.

Finally!!! A FCC-approved CB radio that can legally operate on both
the 27 mhz CB band and the 10 meter ham band.

Since there won't be any modifications made to it,

I guess it might be time to go to Radio Shack.

KFC Issues a Nationwide Allergy Alert, Recalls Unlabeled Double Chocolate Chip Cakes
Contact:
Rick Maynard, KFC Public Relations
502-874-8100

FOR IMMEDIATE RELEASE --Toledo, OH -- April 18, 2008 --- KFC Corporation is voluntarily recalling its Double Chocolate Chip Cakes because they contain eggs, milk, wheat, soy ingredients and possibly traces of tree nuts, and are not individually labeled with ingredient information.

The cakes are being recalled because people who have an allergy to eggs, milk, wheat, soy ingredients or tree nuts run the risk of a serious or life-threatening reaction if they consume this product. There is no health risk for consumers who are not allergic to any ingredients in the product.

The recalled cakes were distributed nationwide at KFC restaurants.

The product comes in a round 16-ounce package with a black or clear plastic bottom and a clear plastic dome.

There is one reported allergic reaction to this product.

KFC will resume selling Double Chocolate Chip Cakes in the future after the product packaging has been modified to include ingredient information.

Ingredient information for Double Chocolate Chip Cakes and all KFC products can be found at http://www.kfc.com/nutrition/pdf/kfc_ingredients.pdf

Customers with these allergies who have purchased Double Chocolate Chip Cakes are urged to return them to a KFC restaurant for a full refund. Customers with questions can call 1-800-CALL-KFC.

During a recent trip my wife and I were on we drove around the back woods of East Texas. On one back road I saw a sign in front of a broken down shanty style house: "Talking Dog for Sale". I needed a break so I stopped to see what the deal was. I went into the backyard and saw a nice looking Labrador retriever sitting there.

"You talk?" I asked.

"Yep," the Lab replied.

After I got over the shock of hearing a dog talk, I asked "So, what's your story?"

"Ah shucks there ain't much to tell. Is that a VUU screwdriver antenna on your truck out there?"

"How did you know that," I asked?

The Lab looks up and says, "Well, I'm a ham radio operator. I got my ticket when I was a young pup and in no time at all I had my 5 band DXCC in Phone and CW both.

The CIA heard about me and asked me to do some spy work for them. I would hang out around the communications centers and with my keen hearing I could copy the classified radio transmissions. Because no one figured a dog would be eavesdropping I was one of their most valuable spies for eight years. Copying high speed CW all day really tired me out and I knew I wasn't getting any younger so, I decided to settle down. I retired from the CIA (8 dog years is 56 CIA years) and joined a ham radio club. In fact I won first place in the Oklahoma QSO Party two years in a row. Next I sired a mess of puppies and got away from Ham Radio for a while. I sure miss my ham radio. Why don't you buy me and I'll be your CW operator in the next big Worldwide DX QSO Contest?

I said "let me see what I can do." I went back in and asked the dog's owner what he wanted for the dog.

"Ten dollars" the guy says.

"Ten dollars"? This dog is amazing! Why on earth are you selling him so cheap?"

"Because he's a liar. He never did any of that stuff. He's just a No-Code Technician.

What is it about the following that approximately half of the US population not understand?

HIS FATHER WAS A KENYAN, MOSLEM, BLACK- WE HAVE SEEN PICTURES OF HIS AFRICAN "FAMILY"

HIS MOTHER IS A KANSAN, ATHEIST, WHITE- WHERE ARE THE PICTURES OF HIS KANSAN, WHITE MOTHER AND HIS WHITE GRANDPARENTS WHO RAISED HIM?

HIS FATHER DESERTED HIS MOTHER AND HIM WHEN HE WAS VERY YOUNG AND WENT BACK TO HIS FAMILY IN KENYA.

HIS MOTHER MARRIED AN INDONESIAN MOSLEM AND TOOK HIM TO JAKARTA WHERE HE WAS SCHOOLED IN A MOSLEM SCHOOL.

HIS MOTHER RETURNED TO HAWAII AND HE WAS RAISED BY HIS WHITE KANSAN GRANDPARENTS, HE LATER WENT TO THE BEST HIGH DOLLAR SCHOOLS,
HOW?

HE LIVES IN A $1.4 MILLION DOLLAR HOUSE THAT HE ACQUIRED THROUGH A DEAL WITH A WEALTHY FUND RAISER. HOW?

HE "WORKED" AS A CIVIL RIGHTS ACTIVIST IN CHICAGO- HAS NEVER HELD A PRODUCTIVE JOB - NEVER RECEIVED A PAYCHECK FROM A BUSINESS WHICH WAS NOT GOVERNMENT FUNDED AND/OR TAXPAYER SUPPORTED.

(THE PRESIDENCY IS NOT A CIVIL RIGHTS POST NOR IS IT SUBJECT TO AFFIRMATIVE ACTION SET ASIDES. ON-THE-JOB TRAINING WON'T CUT IT.)

HE ENTERED POLITICS AT THE STATE LEVEL AND THEN THE NATIONAL LEVEL WHERE HE HAS MINIMAL EXPERIENCE.

HE IS PROUD OF HIS "AFRICAN HERITAGE" BUT IT SEEMS THAT HIS ONLY AFRICAN CONNECTION WAS THAT HIS AFRICAN FATHER GOT A WHITE GIRL PREGNANT AND DESERTED HER. I DIDN'T KNOW THAT SPERM CARRIED A "CULTURAL" GENE. WHERE IS THE PRIDE IN HIS WHITE CULTURE?

HE GOES TO A "AFROCENTRIC" CHURCH THAT HATES WHITES, HATES JEWS, AND BLAMES AMERICA FOR ALL THE WORLD'S PERCEIVED FAULTS, INCLUDING "CREATING" AIDS TO INFLICT ON AFRICANS. HE THEN REPEATEDLY WHITEWASHES THE PASTOR, HIS CHURCH, AND THE MEMBERS WHO CHEERED AFTER HEARING THE PASTOR'S VITRIOLIC PULPIT TIRADES.

HE COULD NOT CONFRONT HIS PASTOR BUT HE WANTS US TO BELIEVE THAT HE CAN CONFRONT NORTH KOREA AND IRAN--RIGHT!!!

IN HIS BRIEF TIME IN THE SENATE HE HAS MANAGED TO AMASS THE NUMBER ONE ULTRA-LIBERAL VOTING RECORD OF THE HUNDRED MEMBERS, VOTING CONSISTENTLY FOR

BIGGER GOVERNMENT, HIGHER TAXES, BIG ENTITLEMENTS AND LEGISLATION WHICH WOULD SEVERELY CURTAIL AMERICA'S ABILITY TO FIGHT TERRORISM, PROTECT OUR BORDERS AND OUR NATIONAL INTERESTS AROUND THE WORLD.

BUT HE IS A GOOD ORATOR.

YEAH, I THINK I SEE HOW WELL HE COULD BE A UNITER AND BRING US TOGETHER. I THINK THE HOPE IS THAT HE HOPES NO ONE WILL PUT THE PIECES TOGETHER.

LADIES AND GENTLEMEN, LET ME INTRODUCE OUR NEW CHIEF PILOT.
HE DOESN'T HAVE A PILOTS' LICENSE.
HE'S NEVER FLOWN AN AIRPLANE.
IN FACT HE'S NEVER EVEN SAT IN A COCKPIT, BUT HE'S RIDDEN ON THEM.
WE'RE SURE HE WILL GUIDE US SAFELY THROUGH THE STORMS WE ARE ABOUT TO ENCOUNTER ON THIS FLIGHT.

Why should you? I got news for you, if you are sporting a 38 or 40
waist, you need to lose some weight. You are too fat, plus the fact
that you are diabetic/pre-diabetic should be enough motivation. Your
BP also is probably marginally borderline, and your Doctor more than
likely has also recommended that you drop some weight.

With FCC busts, the question is "whose community standards"?

It is clear that the FCC rules are what's offensive and not is
determined by "community standards".

So when a U.S. ham in Appalachia is talking to a U.S. ham not in
Appalachia, whose "community standards" apply?

Especially if both have always heard the words only as used in their
own respective areas. In other words, their own "community standards".

A ham who says what is perfectly innocent non-offensive everyday plain
English in Appalachia can get in very serious trouble.

Especially if he's talking to the type of ham who is a self-appointed
cop. (not all hams,)

Southern Ham: Service has degradeds in the past ten years, so now I
tell all my kids to make sure they always give all of their customers
a poke."

Northerb ham: "You sick perverted scum. I'm reporting you to the FCC
for violaing their rules about not saying anything offensive over the
air, and to the
government for the sicko crime you admitted to. You must be Marqueer's
friend."

Southern ham: "I ain't never heard of no Marqueer. I don't even know
who he is, and I ain't never said nothing offensive, and I ain't never
admitted to no crime.
Quit making up lies."

Northern ham: "You did too. You said that you always tell all your kids to give ll o their cstomers a poke."

Southern ham: That ain't nothing ofensive and in't a crime, either.

Northern ham: Well, we all know that all you guys down there don't think it's offensive or a crime since it's well known that your area has a long history of
being inbred. It still doesn't make it legal. It's still a federal crime, and I'm reporting you."

Southern ham" "I ain't never comitted no crime in my life".

Northern ham: Yes you did. You even admitted to it".

Southern ham: "No, I didn't. I ain't never admitted to no such thing."

Northrn ham: "Yes you did."

Southern ham: "No I didn't"

The self-appointed cop Northern ham turns him in.

The southern ham tries to explain in the hearings but is met with:

Judge: "Just answer the question yes or no. Nothing else. yes or no. Did you say you told your children to always give all of their customers a poke?"

Southern ham: "Yes".

Judge: Guilty as charged since you just admitted you comitted a very serious federal crime."

Sentence: "jail for life"

And the poor ham is in jail for life for a crime he never committed, for admitting to a crime he never admitted to, fined by the FCC for saying offensive remarks over
ham radio airwaves that he never said, and his ham license taken away for the samein addition to violating the FCC rules of "a ham nust be of good moral character"
even though he never violated that rule and is of good moral character.

He's somebody who has no idea what the definition of spam is. He throws the term around without understanding it.

The REAL definition of spam can be found in news.answers, and it involves something called the Breidbart Index (BI). SPAM is not defined by its content. It depends only upon the poster's abuse of Usenet servers and readers.

Therefore, off topic != spam (if you can even decide what a newsgroup topic is these days).

But if you flood a news group by posting many, many substantially identical posts, that IS spam, because it runs the BI up rapidly. It does so because it abuses Usenet servers (such as Google) and its readers. Mark should be very, very familiar with that kind of activity, because he has engaged in it regularly.

In fact, Mark has been the only one spamming this group in the strictest sense of its definition, because he's the only one whose posts have ever exceeded a BI of 20.

If you don't want to look in news.answers for a detailed rundown on spam, you can check out http://en.wikipedia.org/wiki/Breidbart_Index for a fairly good discussion.

P.S. That high BI is why, at one point in time, the cancel bots started to cancel Mark's posts. The bot that was after Mark uses BI2 as its

standard, and Mark triggered it for a day or two with his spam.

He's somebody who has no idea what the definition of spam is. He throws the term around without understanding it.

The REAL definition of spam can be found in news.answers, and it involves something called the Breidbart Index (BI). SPAM is not defined by its content. It depends only upon the poster's abuse of Usenet servers and readers.

Therefore, off topic != spam (if you can even decide what a newsgroup topic is these days).

But if you flood a news group by posting many, many substantially identical posts, that IS spam, because it runs the BI up rapidly. It does so because it abuses Usenet servers (such as Google) and its readers. Mark should be very, very familiar with that kind of activity, because he has engaged in it regularly.

In fact, Mark has been the only one spamming this group in the strictest sense of its definition, because he's the only one whose posts have ever exceeded a BI of 20.

If you don't want to look in news.answers for a detailed rundown on spam, you can check out http://en.wikipedia.org/wiki/Breidbart_Index for a fairly good discussion.

P.S. That high BI is why, at one point in time, the cancel bots started to cancel Mark's posts. The bot that was after Mark uses BI2 as its

standard, and Mark triggered it for a day or two with his spam.

This thread had nothing to do with Sex, and you go and make it into a thread
about someone going to bashing YOU about you're
sexuality.....What the fuck does sex have to do with the
original "Joke" post"? What a fucking piece of work.

Had a relative pass away and have been going through his radio equipment. I'm working on bring his Mark III back to life, seems the receiver is working but transmitter is going to need some work. The output power seems fine but modulation is only about 30% if you're right into the mike. Forget about the ping, with this low modulation it ain't going to happen, at least that's what I'm thinking.

Any rebuild pointers from anyone that has worked with these Brownings?

Thanks

Hello Mark:

I have rebuilt only a few radios and such. I replace all the electrolytic capacitors, and check all the resistors.

There only a couple of tubes in the modulator circuit, so may not be too hard to replace them Good luck.

There should be a voltage chart they gives you all the voltages for transmit and stby modes. That is always a help.

Hmmm, try again Steve. You know this isn't Brownsboss or whoever you claim. So many people who witness your gay pedo bullshit, your fake posts, and your stalking of other users on Usenet are now calling you out for it, some subtly, and some like this. How many people are you going to harass and stalk just because they differ in opinion to yourself? I've been researching your posts and can clearly see you're to blame for much of the abuse in the groups you post to. It's to the point where about 20% of what you post actually has some value to a group, and the other 80% is your perpetuating indecency and foul-mouthed teenaged troll banter. If you would grow up and simply ignore those you have differences with, then the rest of us can stay on topic. Please either class it up, or confine your posts to a group with KooKs in the addy.

This has been a public service announcement. Now back to your original programming. 8D

He's somebody who has no idea what the definition of spam is. He throws the term around without understanding it.

The REAL definition of spam can be found in news.answers, and it involves something called the Breidbart Index (BI). SPAM is not defined by its content. It depends only upon the poster's abuse of Usenet servers and readers.

Therefore, off topic != spam (if you can even decide what a newsgroup topic is these days).

But if you flood a news group by posting many, many substantially identical posts, that IS spam, because it runs the BI up rapidly. It does so because it abuses Usenet servers (such as Google) and its readers. Mark should be very, very familiar with that kind of activity, because he has engaged in it regularly.

In fact, Mark has been the only one spamming this group in the strictest sense of its definition, because he's the only one whose posts have ever exceeded a BI of 20.

If you don't want to look in news.answers for a detailed rundown on spam, you can check out http://en.wikipedia.org/wiki/Breidbart_Index for a fairly good discussion.

P.S. That high BI is why, at one point in time, the cancel bots started to cancel Mark's posts. The bot that was after Mark uses BI2 as its

standard, and Mark triggered it for a day or two with his spam.

Sarge, I won't say who I am because I am a regular poster to one of these NG's in question. I won't play that game because Steve will just turn the hate towards my regular name. But think about how he's now attempting to make you believe I have somehow been faking *your* name Sarge, and now others, without ever knowing who I am or having any proof. There is no proof because I simply don't act like Steve. Like I said earlier, this guy often seems to be a good poster and a decent guy, but over the many years has contributed to the perverse behavior which ruins the experience for others by going so far of the topic of the newsgroup in order to satisfy his own anger and aggression.

Public Service Announcement Follow-up... Enjoy a great day.

Jay,

Thanks for the suggestions , went searching the web today and found schematics for both so that's a welcome find. Oh note, found a friend of mine that has 3 of these, turns out the mic with the one I have is the whole problem. swapped mics and the modulation came right up like it should. So looks like finding a HI Z mic is the first order of business along with making a shopping list for the caps. From what my aunt remembers, this radio hasn't been turned on for several years so I'm kind of surprised it didn't go up in a puff of smoke when I powered it up. Sure wished I'd know that before. Oh well, sometimes you get lucky!

Steve, those of us who know of you these past 10+ years in this ng do not pay attention or give any credibility to morons like JD (or any of his aliases) that join the fray in agitating you. Just don't give the simpleton the satisfaction of a response and he will move on to someone else, probably me for calling him a moron, simpleton and a dickhead. Well I didn't call him a dickhead until just now ...but it still applies.

Just ignore the dumbass. He obviously has nothing else to look forward to other that humping your leg in this newsgroup and others each and every year. Very sad !

This spoken & cross posted like a true troll. Yes, you are a credible source of information:
Results 1 - 9 of 9 for author:moparloser@hotmail.com

Compared to someone record that goes back way more than 10 years & speaks for itself:

Results 1 - 100 of about 9,400 for author:moparholic@Hotmail.com

I've know and spoke with Steveo for well over 10 years and he almost never attacks someone unless he's been attacked or that person is acting like a complete imbecile.

Ah, but do *you* need to continue it? You've made your point in spades, right or wrong, and the /better/ man lets it rest.

Please do, for the sake of everyone's sanity, and everyone will thank you as I will. If you do, that is.

If not, then I shall sic the Holy Spirit on those responsible and let the (bull)chips fall where they may. Ye have been warned; so it shall be written, so it shall be done.

IF the radio is "Type Acceptance" labled then it will have an FFC ID number somewhere on the radio. IF "type Certified" it will have a ceritfication symbol usually on the main transmitter PCB.

The difference between certification and acceptance is that with certification the vendor records all the pertenent data that the FCC requires and then submits that data. They do not have to send in units to the FCC to be tested as with Type Acceptance. The FCC will then spot check units to see that the units comply with the data submitted during teh certification period.

I have done both Type acceptance units and Type Certification units for FCC approval.

## 2560. Blind Bitch Oyen at it again....

Looks like ol' "Blind Boy" Oyen (n7zzt) got his foot stuck firmly in his mouth once again.

This morning at around 3 AM, he was heard to be in a fight on 38 Lower with richard and bob johnson. Someone didn't like him so they replayed a recording of channel 19 right over the top of him. This got richard fueled up as well, accusing shit-for-brains Eric (n7zzt) of being the culprit. Still, Eric wouldn't let go, he actually threatened richard over the air. Now is that stupid or what?

Later Eric (n7zzt) was heard to be chatting down on 19 and whining loudly about how he is being harassed by those meanies on 38 lower.

Shouldn't he be on ham radio somewhere complaining about his life like every other ham? Get off our cb band Blind Bitch! We don't want you there!

# 2561. Antenna specialist scanner antenna Specs

I just bought a tram titan II on ebay and a sedelta mic. Also a scanner antenna. recently... I am receiving nothing on it. I just checked the antenna thinking the relays are not working. But yes they are. However with the controller off. I am getting all elements shorted. Should be normal.. Position one. 2 elements open ore shorted. same for pos 2 but next element pos 3 same but next element and pos 4 all elements shorted. again. this is not normal... A B and D are all wired properly. with 2 elements hot I should have a bad match ( I have not checked the SWR yet. but would expect a poor match. I would think one element hot.. 2 and 3 as reflectors is the way it should work for directional characteristics. right??

anyone with experience with this antenna?? I cant find any specs on the web for this antenna. .... so far....

cheers

Hello Islander;

Look at CB Tricks.com at

http://www.cbtricks.com/ant_manuals/index.htm

and click on the Super Scanner, there is a diagram showing how the
control box and antenna switch box should be wired.

Let us know how you make out there, I have threatened to make a
electronic switching antenna, but with a few improvements over the old
Scanner antenna design.

Great antenna, it wasn't as good as the ads made it out to be but it was
handy to figure out where to point the beam from switching between the
elements.

Well well well!
it seems that not only have I driven Blind Bitch Oyen off the air on cb, but I may have also driven him from any of the usenet forums here. Whats he matter? you chicken or something Eric?

I can't wait for you to come back on channel 19 where we can razz you again. In fact, next time, we'll just leave a burnin pile o' shit on your front doorstep!

Thats right folks, the Blind bitch has shown his true colors! HE IS A COWARD!

Mark has hot links to images which are hosted by Karol Madera's web server via URLs like http://members.shaw.ca/karolus/bri+mikee.jpg He also has links to other foreign images on his blogs, and those are all a danger to anyone who views them.

The first reason is that Madera can look in his web server logs and track all of Mark's visitors. The second (and far more serious) reason is that blogger.com keeps its login credentials in a browser cookie. Once you've entered your blogger userid and password, a cookie is set in your browser which is used to identify you as logged in. If someone else could read and reproduce that cookie, he could impersonate you to blogger and do anything you can do.

That's exactly what a hot linked image allows the image hosting site to do. For example, Madera simply has to insert a little Javascript into his own server, and anyone loading his images while looking at Mark's web pages can have his browser tricked into supplying the login cookie's contents to Madera's server. After that, Madera can take over your blogspot blog by pretending to be you.

I've only used Madera as an example. There are several other hot linked images on Mark's blogs which allow their owners to steal cookies in the same way. Even if the links to shaw.ca are removed, Mark's blogs are still dangerous because of all the other hot linked images they contain.

EITHER TURN OFF THE LOADING OF ALL IMAGES WHEN VISITING MARK'S BLOGS, OR SIMPLY DO NOT VISIT ANY OF MARK'S BLOGS. YOU HAVE BEEN WARNED!!!!

Well Fatty, I see that you finally admitted that it is a photo of YOUR
trash filled yard, after you have denied such for so long...more proof
of your pathological lying.

Yeah, they have been reported to ebay as illegal transceivers. Maybe
ebay has finally gotten the message.

Well, you don't seem to have gotten the message commander clown. They are
NOT illegal radios. They are 40 channel AM/SSB tranceivers. Do your homework
boy.

Neither. It's USPS, which is an acronym for Unusually Stable Power Supply. That means the car can't be moving when the radio is being fed.

It's a safety feature which should be applied to all cell phones now in mobile use.

I am not a know it all in this stuff. but I do Have a D201A that is a 40 channel radio and the D201 is only a 23 channel radio I believe.

This Tram radio has more audio than any other radio I have seen, very impressive for the AM Crowd.

I had a D201, which of course had the VFO modded to cover the full 40 channels, and I can tell you it was a awesome radio. I regret basically giving it away, but as things go, interests change from time to time. Oh well.

And why? Do you have a chance to pick one up?

It really is a matter of preeference. The major differences is that
the D201A was made in Mexico, unconfirmed, and had the tube sockets
mounted on PCBs. The D201 also a tube rig used point to point wiring.

try Googling "tram D201"

A soldier who attacks from the front and the back, is more of
a concern than a dedicated rear gunner. At least you know where
a rear gunner is! As long as your botty guard is in place,you're

First, let's lay some ground work.
Mark, KB9RQZ, admits that he is bisexual. His blogs attest to that. No other Hams in this group do so.
Secondly, Mark, the greatest abuser of this group, takes umbrage when he is referred to as being "gay". Mark, while admitting to male-male sexual liasons in which he has participated, seems to draw some sort of "line" between bisexual and homosexual relationships.
Mark resents being referred to as being "Gay". He has, after all, some sort of strange pecking order priority in which bisexuals stand a rung or two above the lowly gay guys. Or so he sees it.

Those old tube rigs do have some advantages over more modern solid
state radios. Better immunity to overload. Still 455KHz second IF is
to high a frequency to not use ceramic or crytal filters. Lower IF
frequencies are more suseptable to image problems but are not bad for
LC filters.

Mark has been overly busy when it comes to accusing others of allegedly illegal acts.
Libel? Mark seemingly knows all about it.
Stalking? (or "staking" as he spells it) Mark knows about that, too since he does so himself.

Ever wonder where Mark gained all his "flase" (his spelling again) knowledge of the law?

Now you know the rest of the story.

So? You fucking retard! You constantly whine about being picked on, then you repost something to start shit all over again. You love it, don't you? You really don't have a life, do you? You're like the little punk that talks shit to the bully when the principle is standing there. Most likely, if you met any of your tormenters in person, you'd not talk shit, you'd shit your panties. Fucking punk!

Get that 5 WPM CW figured out, Mark?

Since you spell everything backwards and upside down it would be a hoot to
hear you on CW.

I'd love to have heard Mark's CW operation during a
Sweepstakes 'test. I'll bet it sounded like someone falling down a
flight of stairs with a keyer and a Scrabble game.

Yet, oddly, Mark will challenge some of us on Usenet to post our names and calls. He tells us that we are "coiwards".
The odd part of this is that Mark himself knows well what it is like to be targeted by stalkers such as Woger. Mark has received harassing phone calls, has had his email Inbox flooded, has been the victim of anonymous snail mail letters, and has, according to Mark, been threatened on more than one occasion.
And all of this happened to Mark because he, the Dummy that he is, was stupid enough to post his name and call. And, additionaly, because Mark is still so stupid as to flame various groups and make a general pest of himself, his tribulations will not soon cease.

By refusing to post his home phone number on the CCRAA site, so what? If you ask around I am sure that Roger can post the number for you. Roger has done this in the past, much to Mark's chagrin.

Yes, Mark is indeed a POS, but he is not a "chicken". Stupid? Yes.
Borderline psychotic? Yes.
Sexually confused? Yes. Societally acceptable? No.

All in all, when you look at Mark and his disjointed musings you just can't help feeling sorry for the clown.

As Jesus once prayed, and I paraphrase, "Father, forgive him, for he knows not that which he has done."

NASA is inviting everyone to send their name to the moon on board the Lunar Reconnaissance Orbiter.

Right now you can log onto a special NASA Web site that is collecting names, which will be put on a microchip that will be integrated into the LRO.

The LRO mission is the first step in NASA's plans to return humans to the moon by 2020.

The deadline to add your name to the microchip is June 27.

Well you either let them in or they go and get a search warrant. Oh by
the way, part of the priviledge of operating a station is that the FCC
has the right to inspect that station at will. Failure to allow them
to inspect the station is prima facia evidence that some type of
illegal activity is going on and thus a search warrant is much easier
to get.

Correct, one maybe 2 others. If you'd take the time and look
at their IP addy, you'll see that there really is only one person
usually doing the posts. You say that you have stopped posting
and "they" continue with it. You're wrong, if you just ignore the
posts, they would eventually go away (because what fun would
it be if you didn't give them a reaction).
Honestly, most people give you a hard time because when one person puts up
6 posts, under 2 or 3 different screen nics, you respond with the same
message 2, 3, sometimes 4 times under each post saying the same thing.
That's what irks me and from what I see most others.
The posts showing what you have posted in just over a year & half is not
counting forged nics, that being searched via your IP and only yours, so if
you some how think that it's normal to post more than 3000 times in even a 2
year period, saying the same thing is normal, you're wrong. That's at a
minimum of doing 4.1 posts everyday, 24 hours a day for 2 fricken years.
That's only with just saying "fake", can you even begin to fathom how many
it would be if you counted "dloyd", "lies", "spam" etc?
I have done this post in all honesty, please stop responding to that idiot
so at least Rec.radio.cb can back to some sort of normalcy.

be irked that is your right

but since you are prepared to tolerate one or at most 3 people harrass
other users of the web then honest I don't give a damm if you are
irked

your opinion

but then as far as I am concered you don't count

but you have missed RRAP is a reality smal number of posts there are
other NG where single users may post several a day I get more than
2000 emails a day

why should I allow anyone including you the right to decide that I
must endure the treament you are demanding I accept unanswered?

you do not even grant me the coutesy of your name

as long as you treat me with such disrespect (and for that matter you
could be the forger the ip address could be happened by simply you
droping in to starbuck for coffe and interent) why should I do as you
wish

indeed why should I surrender my rights for you or anyone else

normaly one maybe another person or 2

That does equate to quantity of 2

itI wa snot here from 2000 to 2005 and it never stooped and to get the
reaction they wanted they contacted my neighboors

So you are now saying that the one person doing this will do the
exact same thing? In the day and age of "caller ID" and not being
able to call through unless you unblock the #, he would do the same thing?
Not going to happen Mark.

> Honestly, most people give you a hard time because when one person puts up

why should I come with new meesages for the same old borring shit

Exactly, why do you keep posting the same old boring "Sh*t"?
Ignore it, for a few weeks maybe even a few months he'll do his
best to get you riled, but ignore it and it will go away.

> That's what irks me and from what I see most others.

be irked that is your right

but since you are prepared to tolerate one or at most 3 people harrass
other users of the web then honest I don't give a damm if you are
irked

Well I have said it more than once, I have complained about him too, I have
sent complaints to his ISP too, you are not being singled out. But you
continue to throw fuel onto the fire every time you reply to his nonsense.
As for not giving a damn.....Well I truly couldn't care if you
dropped dead either, but since you want to always perpetuate the matters,
you will always get what you deserve in the end.

your opinion

No, fact, not opinion at all. Would you really like me to do an
IP search of every post you've ever made and post the counts?

but then as far as I am concered you don't count

Neither do you, except the fact is that you pollute the newsgroups far worst
than any of you "so called" attackers (all of one or two people).

but you have missed RRAP is a reality smal number of posts there are
other NG where single users may post several a day I get more than

You get 2000 emails a day? at your Hughes account addy?

why should I allow anyone including you the right to decide that I

Why should we endure the treatment that you are giving us
at Rec.Radio.CB? Very easy to elminate the the rec.radio.cb
from the cross posting, why don't you?

you do not even grant me the coutesy of your name

I have given it to you, I even posted it along with a my home address &
phone #, you refused to beleive that it is real.

as long as you treat me with such disrespect (and for that matter you
could be the forger the ip address could be happened by simply you
droping in to starbuck for coffe and interent) why should I do as you

LMFAO!!!! My email adderss is real, the link with my name & address was
real, but you are in denial because you know I am right. If you think that I
have a laptop, let alone the time or money to go to a Starbucks, you're
crazy.

indeed why should I surrender my rights for you or anyone else

Why are you hampering my "rights" to enjoy rec.radio.cb?

Well he puts it as his "Rights" for him to respond with babble and incoherent sentences, to "defend" himself. Against what? Even more babble and incoherent sentences from his one or two admirers? So with it in those terms, he's hampering my right to read through the newsgroups without having to filter all his dozens of posts a day, with little or no meaning.

what right is that?

you have no such right sadly i wish you did becuase it wouldf mean I
have the same right and the problem would exist in the first place

You can't reason or talk sensible with Mark/Fatty, a known Usenet
Kook. He is in his own little "victum" world where he is the victim
presecuted at every step by all, but in his mind everything that he
does like filing false accusations to law enforcement, making
statements of libel, flooding the NGs, and making accusations against
other hams about unproven crimes allegedly perpetuated against him is
all justified in the line of his own defense.

Gomer,

Let me give you a piece of advice. Just deal with the flooding and
never ever let this kook find out your real identity, and this is why.

A few known facts about Fatty:

Do you know that based on a fued of words on Usenet, Fatty started
harrassing the employer of the person he was fueding with about what
the other person was posting here, and even tried to get the person
fired from his livelyhood. The same person was involved in the Civil
Air Patrol as an officer, and fatty also went as far as harrassing the
guy's CO trying to get him into some kind of trouble.

Further, when fatty found out that the same person's young daughter
had died, he used that fact to harrass the guy, stated that it was

good that she had died, and even when as far to start posting under the guy's deceased daughter's name on usenet.

Do you know that the person you are trying to reason with and apply common sense recently called law enforcement in multiple states and accused multiple hams of trying to offer him a minor for sex based on an almost anonymous email Fatty alleges that he received.

Fatty will take whatever you say and will twist it around where it will be all your fault, and you have been the cause of everything, You can see from his last response to you that he is heading into that direction with his "but since you are prepared to tolerate one or at most 3 people harrass other users of the web then honest I don't give a damm if you are
irked"

That is Fatty getting poise to tell you that you are just at fault because you are (in his twisted mind) letting other folks comment on his buffoonery and are getting away with it.

You are wasting your time...here is a link to another example of someone, just like you, trying to talk sense to Fatty. Read all the pages in the thread and see how it went from a simple, " hi, let me give you some advice for your problem" to Fatty ranting "you are harrassing me cease and desist. It is quite an intersting and entertaining read to see a small glimpse of the inner workings of the mind of a kook.

what right is that?

you have no such right sadly i wish you did becuase it wouldf mean I
have the same right and the problem would exist in the first place
---

He/she fits into 1 or more of these categories: psychotic delusional
disorder, schizoaffective disorder, bipolar disorder obsessive compulsive
disorder or schizophrenia when talking about stalkers - I haven't quite
figured out which one actually fits him/her other than obsessive compulsive
as he/she continues to post garbage: "fake", "fake on fake", "dloyd",
"lies", "spam", etc. In essence you are stalking us with these
gibberish/garbage postings!

We, all the other posters in these NG's (rec.radio.amateur.policy or
rec.radio.cb) (I don't know about the other NG's that he/she keeps X-post
too)
Are NOT stalking him/her in his/hers delusional mind that he/she keeps
posting about.

He/she Is constantly bringing up some OT crap that he/she is a "KOSHER HAM"
& is "BI-SEXUAL". Who the F**K really cares. You want to talk about that
kind of crap - then take it to those NG's and keep it off of the Amateur/CB
Radio groups.

He/she is against OT postings of others, but it is OK for him/her to do it with the constant 1 to 3 word garbage that he/she posts. I guess KPB is OK in his/hers delusional mind only.

You say that you don't x-post, then how does your garbage get x-posted with you in the middle of some of the responses that are floating around?

If he/she keeps bringing this S**T up, then some of the people will constantly make DEROGATORY remarks.

I am sure that by the time that he/she answers this post - that he/she will turn around the answers around to fit his/hers delusional mind, and that we all are picking ONLY on him/her.

Fatty, that is one of the most kookest sumations I have read in a
while, and it proves how your ability to reason is f**ked. The
problem with idiots who play the "victum" like you, is you don't know
just how screwed up you really are. You somehow think you have the
right to do the bullshit you do, but you only have the right to remain

For sale: Spectronics DD-10/11 digital display unit. Not sure what units this is for but it has the frequencies for channels 1-23 on front so I assume it is for a CB unit. In good working condition in that it powers up and all segments work fine. Asking $50 obo plus shipping.

thanks,
JM

I am not hearing the full blown, down and dirty skip conditions like we are all use to. I hear some of the big boys turn up the steam and are just able to make a quick contact and then the conditions fade and there gone. Using beams and power works but it still isn't solid like it use to be.

It was really rolling here today, I made several DX contacts from my work truck and then fired up the flatside here at home. It's still rolling a bit, but dying off now. I talked to one station that was running an Interceptor...imagine that.

Yeah if you run a Interceptor 10K Antenna your are certainly a "Big Strap" Had a guy ask me if his stock Kenwood would drive the I-10K with 100 watts, he was concerned he didn't have 10,000 watts. I told him he was normal and that he didn't need a lead helmet.

I hear the skip trying to come in, but just back ground stations being heard as if to say the skip conditions or Reflection Coefficient of the atmosphere is trying but no cigar. I also keep on ear on 28.385 MHz 10 meters same thing.

What are you talking about, I "lack the guts to give a fake email." I did give a fake email. I didn't lack the guts to give a fake email. What's libelous about pointing out your lack of spelling and grammar skills? I could prove that in court.

BTW, what's with your typing "fake" to dozens of posts? I suspect that you have mental problems.

again the question stands why should I

why should I take any time to please you? You don't try anything to
please ME

nor do most on RRCB

saying the same thing over and over is the only this works by
tangeling their threads in knots and preventing them from really
getting a solid stroike at me

that it works is seen by the efforts they are going to spread their
vendetta again elsewhere online

you give a reason that it benifits ME to do what you ask you got a
chcne of sucess otherwise you are wasting your time

and mine

BTW this is the last reponse to this sort of mess you want to propose
a soltuion that improves thing for me fine I will listen otherwise no
dice

Oh I read about it a long time ago, Mad Hater. The blogging community
(that's me) gets to tell Blogger when a fruitcake (that's you) has
posted questionable content on its free blogs. You're a free speech
guy, right? In that case, you ought to support free speech for the
blogging community (that's us) by means of the little flag icon at the
top of the screen.

Yes, Mad Hater, you're so much more powerful than the U.S. government that
the FBI people will quake in their boots when they are told to confront you.

NO, you are very wrong and you know it. If someone mails you something, Mail Fraud. They call you or someone else, caller ID.
They come to your house, security camera, neighbor hood watch.
You are now trying to make excuses for what you know is out right harassment of newsgroups for your own pleasure.

> you are
> just as guilty every time you respond with it cross posted.

"again the question stands why should I

why should I take any time to please you? You don't try anything to please ME"

I have tried to talk very polite about this, yet you still try to turn every thread into a "me" affair. The internet is not "me", it's about hundreds of millions. Yet you are always taking every thread into "me" being harassed, "me" is the one that's being attacked, "me" has the right to keep posting hundreds of times, tying up entire newsgroups, just so "me" could get pleasure in it.

"nor do most on RRCB"

"saying the same thing over and over is the only this works by tangeling their threads in knots and preventing them from really getting a solid stroike at me"

What's it going to do to you if he posts something about you?
How's it going to "hurt" you? Old saying "sticks & stones will break my bones, but names will never hurt me". Yet when they say one thing, you react with hundreds of posts, making it impossible for the hundreds of others that have nothing to do with you or the other person from enjoying the newsgroup.

"that it works is seen by the efforts they are going to spread their vendetta again elsewhere online"

It works?? How do you figure that? It sounds like they are getting just as many "jollies" from you're knee jerk reaction to his posts.

"you give a reason that it benifits ME to do what you ask you got a chcne of sucess otherwise you are wasting your time

and mine"

I had a guy on another newsgroup that I go to used to harass me on every post. I started out with talking tough to him, that was wrong. I started to respond to every post too, but when someone pointed out that if I ignore him, he'll go away. Well he started by giving my email addy to spammers,

used it for all sorts of vile gay & sexual posts etc etc. Well I changed my addy, didn't give it to anyone and still posted on the newsgroup and ignored him. He
then went and posted my work address, phone #, so I informed the owner what it was about. Well it took almost 3 years, dozens of emails from me and others to his ISP, but that person doesn't post anymore, he comes in once or twice a year and says the same old BS, but now most people ignore him.

"BTW this is the last reponse to this sort of mess you want to propose a soltuion that improves thing for me fine I will listen otherwise no dice"

That's up to you, but I have given you plenty of reasons to please at least cut Rec.radio.cb out of the BS, but it's all up to YOU, as
a grown adult to make good, responsible decisions.

depnds on who reads it
in the last 6 months he has put this crap out goten others to belive
it and send emails to my local one of whom was unstable enought to
belive and dam near tear the local radi club apart and the out burst
he had about it, only failed to cost his lic4ense because I was polite
and asked RH to let it slide

mail more stuff to my enighoors rtrying to reapet the result he fgot
in Illinois

but you guys respond promote the shit esp the other fellas in RRCB
so again why should I care about their/your inconvenence?

these clown don't have tracable ISP's they don't even mail from their
home cites

LE could solve this in a few weeks but they are too busy

no you have insulted my inteligence and that of those that KNOW what
is going on

and you have BTW assited my attackers

ignoring them was nearly fatal mistake If I make another I choose to
make a new and defferent one

you need to take YOUR own advice
killfile or ignore me

buyt no you harange here in RRAP god knows it seems likely you might
be one of them pulling my chain

You ahve given NO reason to CUT RRCB out the shit none what so ever

I have the same right as you to post here

I am entitled to equaility I have that none of us can use the NG the
level was the choice of others I am responible for asserting my right

depnds on who reads it
in the last 6 months he has put this crap out goten others to belive
it and send emails to my local one of whom was unstable enought to
belive and dam near tear the local radi club apart and the out burst
he had about it, only failed to cost his lic4ense because I was polite
and asked RH to let it slide

mail more stuff to my enighoors rtrying to reapet the result he fgot

but you guys respond promote the shit esp the other fellas in RRCB
so again why should I care about their/your inconvenence?

these clown don't have tracable ISP's they don't even mail from their
home cites

LE could solve this in a few weeks but they are too busy

no you have insulted my inteligence and that of those that KNOW what is going on

and you have BTW assited my attackers

ignoring them was nearly fatal mistake If I make another I choose to make a new and defferent one

you need to take YOUR own advice
killfile or ignore me

buyt no you harange here in RRAP god knows it seems likely you might be one of them pulling my chain

You ahve given NO reason to CUT RRCB out the shit none what so ever

I have the same right as you to post here

I am entitled to equaility I have that none of us can use the NG the level was the choice of others I am responible for asserting my right to equality nothing more

## 2999. Re: zzzz

the fact iss imply you want me to give my rights for your convence I
have refused that when you asked before now and I will do so again
when as you no doubt will do so again

you inconvence is not my problem

## 3002. Definition of "flooding"

A flood means posting a big amount of messages to a Newsgroup in a short period of time. While flooding is sometimes seen as netabuse (i.e. when a person tries to make a Newsgroup unreadable with it), it is often very welcome in binary Newsgroups, where it usually means that a bigger number of pics is being posted. Too much floods in a too short time are not good as the new ones push the old ones off the server.

# 3004. Rebuking trolls

rebuking trolls
This said, the above methods (and other more nasty ones) are better left to professional webwizards and "older ones" (that may often be willing to help you for a worthy cause). Usually the best method when dealing with trolls is always the same: NEVER ANSWER TO THEIR POSTINGS! ("Please do not feed the troll")
The whole point of trolling is to have you react. So do not react! It's as simple as that, duh. That is something that enrages trolls (disqualify them: other lurking trolls will take note of their failure and they know - and fear - it).
By not reacting, you have completely defeated their purpose in life. In other words, the troll sees his self-worth in how much of a reaction he can inspire - ignore him: it's your best weapon.
Should you, my advices notwithstanding, answer a troll, then calm down! Do not read any of the troll's responses to you. He is just trying to draw you further into its lair. Once more: NEVER ANSWER TO THEIR POSTINGS!

Once more, 5 easy rules:
(1) Don't read posts from or about trolls;

(2) Don't read email from or about trolls;

(3) If you can't resist reading, don't respond;

(4) If you can't resist responding, do so by email, not by posting on a public forum;

(5) If you are compelled to post a response, if you just can't stop yourself, at least do the rest of the readers the favor of adding the troll's nick to the subject line, so they can avoid reading that post.

In case of a cascade attack (by spamming trolls), you may be able to help matters by posting yourself into the cascade and removing your group from the crossposting line. (Cascades are those one liners piled on top of each other that spamming trolls so love).

Yes, and he's not. He still sees people like
steveo & others as posting always about him.
I think I've said one thing, maybe 2 to him and
yet he calls me at least 2 or three other people.
He really needs to learn to read IP address better,
that way he won't keep making the same mistake.

Well agreed (for once), but if you look at all my posts, they should
be from one IP and only one. I don't travel that much, don't have
a laptop, don't drink coffee so I don't hangout in cyber cafe's.
All he has to do is an IP search for me and whomever he thinks I
am and see where each one of those ip's end up (completely different spots,
guaranteed).

A noise cancelling mike attenuates ambient noise, an amplified (or
"power") mike tends to have the opposite effect.

Its amazing how much trouble some of those guys go to that way they can
start some crap.
Look at it this way, the more time you keep them occupied, the less time
they are out drinking and driving and hurting someone thats a decent person.
That way they can't go out and hurt someone through their own mental

Hello Bob:

Yeah that was neat to hear many skip stations in there. I was flooded
with stations for the Pacific North West here in the So Cal Mojave Desert.

Good reading in REC.AMATEUR.ANTENNA look for the topic:
Sunspot cycle more dud than radiation flood

OK, here's the scoop. A power mike will amplify your voice, giving
you louder audio, thus a better sounding radio. At the same time it
will pick up a lot of the back ground noise. A noise canceling mike will
take your voice and take a lot of the back ground noise and help remove
it, so giving more voice, less back ground noise.
That was the reason for what vehicle, so being your rig is some-what
sound proof, a power mike kept at a modest level would probably work
pretty good for you.

I bought a 20 meter hamstick at the fest today and put it on in place of my 6 meter antenna. After getting the SWR down to about 2, I proceeded to make a call. Got a guy in NC. After I got home, I was switching between 10 and 20 meters. Got a guy in FL working three 19 foot canoes as part of the "unusual antenna" contest. I heard a guy on 20 with the contest but didn't hear his configuration.

28.385 was busy when I listened so I didn't try.
Wouldn't know your CS if I heard it on the air anyway.
If you know mine, I'm good on QRZ.

To learn the technical TRUTH about CB Radio without all the hype from people who are just plain ignorant, check out the following books from CBC International. They're selling right now at a big discounts on our EBAY & AMAZON stores too.

Check it out!

To see exactly what these books look like, plus all the specific, chapter-by-chapter details, see our Web at:

www.cbcintl.com

SAVE MONEY! We regularly run EBAY auctions in which you can save up to HALF the cost of our most popular CB books and accessories. To see what's currently on sale, go to the Web page above and scroll down to click on the EBAY logo.

Some of the books included are:

BOOK #1: THE "SCREWDRIVER EXPERT'S" GUIDE To Peaking Out & Repairing CB Radios. List $25. The most popular "big dummy's" guide ever published on do-it-yourself CB repairs & modifications. Covers peaking of receivers, transmitters, modulation, mike problems, antenna & SWR problems, detailed frequency modifications for both crystal & PLL radios. Loaded with charts, illustrations, and specific instructions for most brands including the new export models. This latest edition also covers slider and broadbanding tricks, FM conversions, and much more!

BOOK #2: THE CB PLL DATA BOOK. List $20. The only complete reference source on CB PLL synthesizer circuits ever published! Detailed PLL theory explained in layman's terms. How they work, and how to modify them for many more channels. Includes specific PLL block mixing diagrams, truth charts, & IC pin function diagrams for nearly every PLL chip ever used. Covers all the most popular U.S. & export chassis, with specific listings of all models using the chip.

BOOK #3: UNDERSTANDING & REPAIRING CB RADIOS. List $42. Giant 370-page technical book for the professional repairman. Picks up where the "SCREWDRIVER EXPERT'S" GUIDE leaves off. Includes circuit descriptions & troubleshooting guide for 23- & 40-Ch., crystal & PLL, solid-state & tube, AM, FM, SSB, CW, American & export models. Covers test equipment (& where to find it), transistor basics, synthesizers, receivers, transmitters, power supplies, T/R switching, antennas, interference, parts & accessory sources. Over 350 illustrations including schematics, charts, and photos. Huge subject index also lets you look up repairs by symptoms. This is "must" reading for any

serious CB technician!

Hi Folks:
I found this radio at a flea-market and had to buy it. Just $2.
It works anyway.
I put it on a IFR (spectrum analyzer) and it's damn spurious,
especially on one of the sidebands! I shut-it-up a bit with tuning,
and I guess it's down about -40dB of fundimental, but I think it could
be cleaner. AM is clean (better than 50 dB down) but it was touchy to
get it clean. At least the 11.275MHz doubler circuit is very
spurious. I just ordered schematics from Kens Electronics.
I like this old radio. The controls feel very smooth. I have the
crystals about as close to where they need to be, but most of the
crystals are too low. I read on the net that the 4-crystal bank needs
to be tuned 3kc higher than marked. Only one of the four went that
high. I think I can get close to channel-center with the clarifier on
the other bank. The PCB containing the crystals seems to have been
worked on with cut traces and jumpers. I'm thinking someone either
tried to slide it or this is a factory mod. That leads me to thinking
what the difference is between the 674A and 674B.
If anyone has any experience/hints to this radio they'd like to
share, I'd much appreciate it!
Thanks!
Harry

27.380 is not an authorized frequency. I hate to hear some high pitched
SSB because some butthead is off-frequency.

And if you think 10/11 meters is open, you should try 20 meters!

Hello Bob:

Yeah they will do that at times. But if you contact a station on 38 Lower and move off to another channel, others will follow.

As the skip increases you will hear the rest of the SSB Channels fill up, 36, 37, 38, 39, and 40, then the upper frequencies begene to get active. I don't think a lot of radios will have the ability to get to those off frequencies.

Also listen in around Ten Meters, 28.400 USB up and down 10 to 20 Kc's as activity will also increase there. The Ten Meter band is really great as many use older CB rigs and older CB Antennas and its way less crowded.

I also keep an ear open on the 12 meter band (12 Meters (24.89-24.99 MHz) as just a few stations will show up there.

I've been having fun skipping on 20 meters with 100 watts mobile. I jump from 20 to 10 a lot, so I'll check around 28.400. Still wouldn't know your call sign if I heard it. ;)

I haven't tried 12 meters. I think my SWR might be high here if the old KW-7 works good on 10 and 11. I'm going to have to figure out where and how to install the screwdriver antenna on the mobile.

About to storm here, so radio play time is over for now. Just made a quick contact to SC on 20, but mucho QSB and lightning crashes...

Happy DX to all, where _ever_ it may occur!

A regular CB hears a high frequency chatter if the signal is strong.

Hi All;
I got these a while ago(years) along with some FT-101 gear which is
long gone now.
There are 4 tubes, boxes marked Fox-Tango two are 6JS6C and two are
12BY7A.
I have no idea if these are original F-T or NEC tubes or even if they
are good.
The 12BY7a's look ok but cannot guarantee any of them, no tube tester
that covers these unfortunately.
I would like to get $50 and i'll mail them US priority.
Regards,

Someone suggested that Todd and Mark get their own blog.
It looks like one or the both of them did just that.
This will give Todd something else to complain to "googles" about.

Todd should look into moving out of his parents' basement and getting a
place of his own.
Unfortunately, being a back-room stock boy at Wal-Mart doesn't pay much and
his parents are stuck with the result of their drunken POI. (Product Of
Intercourse)

Maybe we should send a sympathy card to his parents at

From http://www.blogger.com/content.g:

"... Pedophilia, Incest and Bestiality: Users may not publish written, image or video content that promotes pedophilia, incest and bestiality."

From http://www.blogger.com/terms.g:

"10. Termination; Suspension. Google may, in its sole discretion, at any time and for any reason, terminate the Service, terminate this Agreement, or suspend or terminate your account. In the event of termination, your account will be disabled and you may not be granted access to your account or any files or other content contained in your account although residual copies of information may remain in our system for some time for back-up purposes."

So, Beastie Boy, your drawings of beastality and pedophilia got you in trouble after all, the law of the land notwithstanding (this is OUR web server after all, and we can kick anyone off that we choose). According to item 10 above, we can terminate your site if we don't like the way your hair is parted (and nobody likes your hair except Mark Morgan).

As to the FBI, why don't you take your complaint up with them the next time they drop by your house?

# 3118. CB Radio tech question

Newsgroup: rec.radio.cb

hello,

I have a question about CB radios... I don't have one (yet), otherwise I'd just try this.

Is it possible to speak through the microphone and hear your voice coming out of the speaker, WITHOUT having the sound of the CB radio receive coming through?

In other words, can you "mute" the radio reciever and hear your voice in the speaker?

I have a bus, and I'm looking for a way I can amplify my voice and talk to the passengers. I thought maybe if I got a CB, I could not only use it as a CB, but I could also use it to make announcements to the passengers.

If this would work as described, I would connect the output of the CB to the AUX input of the car stereo that is used to play music in the bus.

Will this work?

Thanks
gary in vermont

OK, I did a little more research and found that some CBs have a PA switch
and I guess that's what I'm looking for... but then I need to know... could
I plug that into the AUX input of a car stereo, or will it only work going
directly to its own speaker?

thanks

Joey, no more campaigning. There may not currently be an active
website, but the FAQ still applies. Here are the relevant sections from
the Wayback Machine.

---
8. If I'm nominated for an award, may I vote for myself?

No, and you may not vote for a rival candidate either. Moreover, drawing
attention to your candidacy may lead to disqualification. This applies
to the "good" awards, e.g., Pierre Salinger Memorial Hook Line & Sinker
and Hammer of Thor, as well as to the "bad" awards.

However, you may vote in all sections of the ballot in which your own
name doesn't appear - provided you're not disqualified for being a kook,
of course.

...

10. Can a candidate who has appeared on the ballot be disqualified?

Yes, at the Vote Wrangler's discretion. Vote fraud and campaigning for
oneself are the commonest reasons.
---

Just be yourself, and let Lady Veteran and Mop Jockey be themselves, and
you should do just fine.

Mark Morgan is too boring and repetitious to be of further interest to AUK.
However, his fanbois' kooky attempts to get him noticed are becoming
annoying--again. Would you like "rec.radio.amateur.policy" to join Mark in
earning the Golden Killfile?

They are designed to drive a speaker directly. A cheap powerhorn from
Radio Shack and a 1/8" plug will have you in business. All you would
have to do is mount the PA horn somewhere pointing toward the riders.

You could get another speaker or a PA horn; but going to the AUX input would work. I've done this several times. Be careful not to turn the volume up on the CB too high, though. The AUX input is probably pretty sensitive. If you get a loud hum, you might have to get an audio transformer (RatShack Catalog #: 273-1380) for $2.99. I used one to get rid of hum from using CAT5 computer network cable to get audio from my Dish satellite tuner to my computer. The audio is now excellent. Good luck and have fun!

Some CBs have a PA (Public Address) function, whereby your micophone
audio bypasses the transmitter section of the transceiver, enters into
the audio amplifier and then out to an auxiliary speaker connection.
I'd imagine the audio quality would be sufficient for your use...

FDA News
FOR IMMEDIATE RELEASE
June 3, 2008
Media Inquiries:
Michael Herndon, 301-827-6242
Consumer Inquiries:
888-INFO-FDA

FDA Warns Consumers in New Mexico and Texas Not to Eat Certain Types of Raw Red Tomatoes
The Food and Drug Administration is alerting consumers in New Mexico and Texas that a salmonellosis outbreak appears to be linked to consumption of certain types of raw red tomatoes and products containing raw red tomatoes. The bacteria causing the illnesses are Salmonella serotype Saintpaul, an uncommon type of Salmonella.

The specific type and source of tomatoes are under investigation. However, preliminary data suggest that raw red plum, red Roma, or round red tomatoes are the cause. At this time, consumers in New Mexico and Texas should limit their tomato consumption to tomatoes that have not been implicated in the outbreak. These include cherry tomatoes, grape tomatoes, tomatoes sold with the vine still attached, and tomatoes grown at home.

Salmonella can cause serious and sometimes fatal infections particularly in young children, frail or elderly people, and those with weakened immune systems. Healthy persons often experience fever, diarrhea (which may be bloody), nausea, vomiting, and abdominal pain. In rare circumstances, the organism can get into the bloodstream and produce more severe illnesses. Consumers in New Mexico and Texas who have recently eaten raw tomatoes or foods containing raw tomatoes and are experiencing any of these symptoms should contact their health care provider. All Salmonella infections should be reported to state or local health authorities.

From April 23 though June 1, 2008, there have been 57 reported cases of salmonellosis caused by Salmonella Saintpaul in New Mexico and Texas, including 17 hospitalizations. Approximately 30 reports of illness in Arizona, Colorado, Idaho, Illinois, Indiana, Kansas, and Utah are currently being investigated to determine whether they are also linked to tomatoes. There are no reported deaths.

FDA recognizes that the source of the contaminated tomatoes may be limited to a single grower or packer or tomatoes from a specific geographic area. FDA also recognizes that there are many tomato crops across the country and in foreign countries that are just becoming ready for harvest or will become ready in the coming months. In order to ensure that consumers can continue to enjoy tomatoes that are safe to eat, FDA is working diligently with the

states, the Centers for Disease Control and Prevention, the Indian Health Service, and various food industry trade associations to quickly determine the source and type of the contaminated tomatoes. As more information becomes available, FDA will update this warning.

Last year FDA began a multi-year Tomato Safety Initiative to reduce the incidence of tomato-related foodborne illness. The Initiative is a collaborative effort between FDA and the state health and agriculture departments in Virginia and Florida, in cooperation with several universities and members of the produce industry.

A key element of the Food Protection Plan -- a scientific and a risk-based approach to strengthen and protect the nation's food supply-is prevention. FDA encourages producers to critically reexamine their operations and apply the scientific principles and regulations established decades ago to provide a safe product for the consumer.

Information on safe handling of produce can be found at www.cfsan.fda.gov/~dms/prodsafe.html.

Tomato consumer page can be found at http://www.fda.gov/oc/opacom/hottopics/tomatoes.html

Updates from the Centers for Disease Control and Prevention can be found at http://www.cdc.gov/

mopey the stuttering queenie
loves to lust after men
too bad that he started life
as a rooster, and now he's a hen

truckers at every Petro
know mopey is a cheap-o slurp
hhe can swallow quarts and quarts
and never ever have a burp

then one jizz dripped friday eve
land shark came to say
mopey with your hot slut gay lips
would you bite my gay nips?

Then how ole jqq loved mope, as he sucked and sucked away
And Jay in the Mojave then said, "mopey yer so truly gay!"

Or, in Non-Typo, "reasonably". In fact, what the frogger (someone who
uses an obvious forgery of a real poster, which is something that no
amount of complaining to abuse desks can stop, as the email address is
clearly not deliverable to the poster being frogged) is doing is
attempting to bring attention from AUK down on another poster, which is
kooky behaviour and guaranteed to backfire on all those suspected of
participating.

I repeat: Guaranteed.

If you don't like Mark Morgan, killfile him or, if you post through
Google, cope with him. Otherwise, you shall become one of the many AUK
floor shows. Either way, we(tinw) don't mind, but you will; and either
way, Mark Morgan will still be deemed to be too boring for further
attention from AUK. Sorry, but we're not here to pander to homophobes.
But feel free to ignore me and keep trying to get Mark nominated -- you
guys are nominated now, too, and I'd hate for you to miss your chance at
usenet fame. That'd be so unfair.

Hey, are you bucking for a Clueless Newbie/Coward of the Month nomination? Because the sort of thing you did has aspects of both cluelessness and cowardliness -- I'm inclined to think you're just another fucking homophobic coward of the rec.radio.* groups (they're _legendary_ for their homophobia, cowardliness, and cluelessness), such as the sort who've been trying to earn Mark further recognition in AUK for years, but hey, I'm willing to be generous. I made no mention of anything having to do with homosexuality. Calling me homophobic is rather puzzling. It makes no sense why you would do that. How does posting information I got in two minutes searching on google using information I got from these posts make me a coward? Posting public information is not an act of cowardice; it's a public service.

As for being a clueless newbie, I confess that I am new to this group, although I have read posts in years past a few times. Thank you for the warm welcome. Just what cluelessness are you referring to? Is there some rule agains posting public information?

"Public" info, it is not. It has _been publicised_, yes, by arrant
cowards who wouldn't dare reveal their own private info, for fear that
someone might do to them what they want someone else to do to Mark
(because he's bi, and when they tried to blackmail him with that info,
he came out of the closet). Mark, AFAICT, simply has no comment on his
PI being repeatedly posted, or only one comment, anyway, which isn't
much of a comment. However, in AUK, such "Outer Filth" are the very scum
of usenet.

"Consider that language a moment. 'Purposefully and materially supported hostilities against the United States' is in the eye of the beholder, and this administration has proven itself to be astonishingly impatient with criticism of any kind. The broad powers given to Bush by this legislation allow him to capture, indefinitely detain, and refuse a hearing to any American citizen who speaks out against Iraq or any other part of the so-called 'War on Terror.'

"If you write a letter to the editor attacking Bush, you could be deemed as purposefully and materially supporting hostilities against the United States. If you organize or join a public demonstration against Iraq, or against the administration, the same designation could befall you. One dark-comedy aspect of the legislation is that senators or House members who publicly disagree with Bush, criticize him, or organize investigations into his dealings could be placed under the same designation. In effect, Congress just gave Bush the power to lock them up." -- William Rivers Pitt

"It has become clear in recent months that a critical mass of the American people have seen through the lies of the Bush administration; with the president's polls at an historic low, growing resistance to the war Iraq, and the Democrats likely to take back the Congress in mid-term elections, the Bush administration is on the ropes. And so it is particularly worrying that President Bush has seen fit, at this juncture to, in effect, declare himself dictator." -- Frank Morales

|What is the dB advantage of this vs. RF clipping for SSB?
|

RF Clipping is superior to audio compression in SSB transmission. RF
clipping will provide about 6dB improvement over audio compression
alone.

So how does it make you feel to know you wasted months on end for
something that bored the fucking hell out you? I guess maybe that's
the reason you wouldn't give it up for so long, it was all the time I
made you waste that caused you to resent me so much, hence all the

finally realized that it just wasn't possible to "win" against someone
who wasn't even trying in the first place. LOL

I don't know, but hopefully you can keep yer blinders on tighter this
time. But hey, you could always try, try again. I mean with lil baby
Greggie by your side, boy you just *might* have a chance to really
"get back" at me. Maybe you could at least offer the boi some advice
on how to properly obsess over dat mean 'ol Mad Hatter for months on
end. LOL

THIS IS NOT THE 'DON'T BUY' GAS FOR ONE DAY, BUT IT WILL SHOW YOU HOW WE CAN GET GAS BACK DOWN TO $2.00 PER GALLON.

This was sent by a retired Coca Cola executive. It came from one of his engineer buddies who retired from Halliburton. If you are tired of the gas prices going up AND they will continue to rise this summer, take time to read this PLEASE.

Phillip Goldsworthy offered this good idea. This makes MUCH MORE SENSE than the "don't buy gas on a certain day" campaign that was going around last April or May! It's worth your consideration. Join the resistance!!!!

Well, it has finally happened, $ 4.00 a gallon, and we know that it will go higher!! Want gasoline prices to come down?

We need to take some intelligent, united action. The oil companies just laughed at that because they knew we wouldn't continue to "hurt" ourselves by refusing to buy gas.

With the price of gasoline going up more each day, we consumers need to take action. We need to take aggressive action to teach them that BUYERS control the marketplace...not sellers.

The only way we are going to see the price of gas come down is if we hit someone in the pocketbook by not purchasing their gas! And, we can do that WITHOUT hurting ourselves.

Here's the idea: For the rest of this year, DON'T purchase ANY gasoline from the two biggest companies (which now are one), EXXON and MOBIL.

If they are not selling any gas, they will be inclined to reduce their prices. If they reduce their prices, the other companies will have to follow suit.

But to have an impact, we need to reach literally millions of Exxon and Mobil gas buyers. It's really simple to do!

I am sending this note to 30 people. If each of us send it to at least ten more (30 x 10 = 300) .. and those 300 send it to at least ten more (300 x 10 = 3,000)...and so on, by the time the message reaches the sixth group of people, we will have reached over THREE MILLION consumers. If those three million get excited and pass this on to ten friends each, then 30 million people will have been contacted!

If it goes one level further, you guessed it..... THREE HUNDRED MILLION PEOPLE!!!

Again, all you have to do is send this to 10 people. That's all!

How long would all that take? If each of us sends this e-mail out to ten more people within one day of receipt, all 300 MILLION people could conceivably be contacted within the next 8 days!!!

Acting together we can make a difference.

If this makes sense to you, please pass this message on. I suggest that we not buy from EXXON/MOBIL UNTIL THEY LOWER THEIR PRICES TO THE $2.00 RANGE AND KEEP THEM DOWN. THIS CAN REALLY WORK.

Keep it going

James is correct... that the RF clipping technique is somewhat more
effective. What he fails to mention is that it's more complex... and
not easily installed into an existing radio. RF clipping also
exihibits substantially more distortion. The VoiceMax installs
easily... and provides tangible results.

To be honest maybe so. I as a white male find it hard to believe that
in the year 2008 we still have white people that will NOT vote for a
candidate simply because he is black. However isnt Obama half white???
I mean isnt he just as much white as he is black??? He was also raised
by white people to my knowledge as well. Funny when you are half white
and half black you are black.....

Hey John I have a shed load you can get though I'd rather sell the

All come in rather small multidrawer containers that come with the lot.

%This automatically assumes it is the oil companies raising the prices,
which is wrong. The oil companies do not control world oil markets. In
fact, most of the oil produced are controlled by nation states,
including OPEC, who determine how much oil is produced. Oil consumption
is rising at twice the rate of supply, meaning supply is worth more and
more. The only way to reverse this is to increase supply, or reduce
demand. Since the latter is not going to happen in the foreseeable
future, the only answer is to increase supply. But this is not going to
happen either because most of our oil reserves are off limits to the oil
companies. Who set these limits you might ask? The government,
specifically Democrats, who not only continue to block production of
known reserves, but also block the oil companies from searching for more
reserves.

The best action we could take is to rise up against liberal and
socialist policy makers and force heads to roll. Unfortunately, it seems
that in answer to a problem they caused, they will be rewarded by being
re-elected to office. Obama, McCain, neither will improve the situation,

and their stated policies toward both energy, and those who produce it,
will serve to make the problem much worse.

Actually, all the refined gas and diesel come out of the same tanks.
This would do nothing to affect the price of gas. all it would do is
hurt one of our most productive corporations hurting both investors and
employees. The same gas would be sold by other distributors for the same
price. This is public information, look it up.

The only way this works is if demand worldwide was reduced, and not just
that supplied by Exxon. It would be to be all fuel, in every country,
supplied by every supplier. Accomplish, and you may, I say may, have an
affect. Otherwise, all your doing is barking up the wrong tree.

More effective, would be a march on Washington, to demand immediate relaxation of regulations on oil producers and areas in which they may seek more reserves. Also, a relaxation on the EPA hoops required for a company to build more refining capacity would have to be a major staple of any future energy policy to eliminate the not in my back yard mentality that seems to permeate the country.

And this march should demand the heads, literally, of every politician who ever voted against energy production and research, of both parties, despite people warning them for the past two decades of the results of their actions. This would have an immediate impact, one based in reality.

|James is correct... that the RF clipping technique is somewhat more
|effective. What he fails to mention is that it's more complex... and
|not easily installed into an existing radio. RF clipping also
|exihibits substantially more distortion. The VoiceMax installs
|easily... and provides tangible results.

Actually as easy to design an RF Clipper as an audio compressor. True
it is a bit more difficult to install. Audio clippers can be external
to the transmitter and simpler to install and operate. A RF Clipper
will install as easily as your internal audio compressor.
```

Personally I would take RF clipping over Audio compression any day with SSB transmissions. If the post filters are good in enough RF clipping, there is not significant difference in distortion.

I ws wondering when someone would blame the liberals for high gas prices! Dam they must be the sole evil in all the world today. If you could put your prejudice aside and really examine the issue not from a political bias that you so obviously posses, then you would be more apt to truely understand the price structure.

You are correct in that prices are set by supply and demand. You also have to realize is that oil is also traded asa commodity onworld markets and people are bidding on the price of oil to keep going up. Part of this is fueled by the beleif that we have reached the "Peak Oil" point. That is oil production levels have or are very near the peak level that the planet can sustain. If this theory is true, and as demand increases, prices will continue to escallate even if we try to increase production. If the Peak Oil Theory is correct then we have used up more oil than the Earth has left. In that case increase drilling and production will only speed up the end of oil production.

Part is also allowing oil to be traded as a commodity. The potential of Peak Oil has to influence trading practices. Oil producing nations can set back and watch the commodity traders bid for prices and sell to whom they wish for what price they want. Right now oil commodity trading is liken to a eating frenzy by sharks. Grab what you can at what ever price is on the board.

So go ahead and blame the liberals for all our woes and then stick you head in the sand when and if Peak Oil is a valid theory. If so, then increased production will only temporarily reduce oil prices before they go back up. When they do go back up, hold onto your wallets. If Peak Oil Theory does pan out as correct by about 2016 to 2020 look to be paying over a $1000 a barrel for oil. Currently I think oil will hit $200 a barrel before the end of 2008. By 2012 somewhere in the $500 a barrel range. As long as speculators are allowed to influence the price of oil, the price will rise and rise without bounds until we cure ourselves of the addiction for oil. MAybe $100 dollar a gallon for gasoline maybe the point where we finally realize that we have an addiction problem and then seek to remedy that.

Also remember that about half of oil production is used to power our vehicles. As oil prices increase the cost of clothes, home heating, electricity and medicine as well as the convenience of plastic storage containers will escallate in price. The worst has yet to come if Peak Oil is true and we keep on our addiction.

Correct. An RF clipper an be inserted after the SSB filters or before.
There are versions that do the clipping after the balance modualtor
and before filters. Sherwood did a RF clipper for the Drake TR4 that
was after the SSB filters and had crystal filters to restore the
original bandwidth.

Generally RF clipping is a bit more expensive than audio compression.
Then you get what you pay for.

I thought that there were some stand-alone RF clippers. Surely there is
no reason why they cannot be external units, inserted in-line between
the mic and the mic socket (ie audio in - audio out)?

Obviously they have to contain 'all the works' (oscillator, balanced
modulator, compressor, clipper, filters, balanced demodulator etc), but
at least they are self-contained and universal.

Regarding filtering, the main advantage of RF clippers is that they
eliminate the effects of second-order distortion, and only have the
distortion produced by in-band third order intermodulation. For
cheapness and simplicity, if you leave out the SSB filtering (ie do
everything at DSB), you will have at least twice the number of in-band
IM products. But how much worse is this than having SSB filtering?

At least Datong made a stand-alone unit. There was an article about
RF-clipping and the Datong unit in Wireless World a few decades ago.

As I said. "Obviously they have to contain 'all the works' (oscillator,
balanced modulator, compressor, clipper, filters, balanced demodulator
etc)."

And, as Paul said, "At least Datong made a stand-alone unit. There was
an article about RF-clipping and the Datong unit in Wireless World a few
decades ago."

But maybe Datong didn't know what they were doing.

What's with the people (mostly in the Southeast US) on channel 6 with huge linears? How come the FCC hasn't thumped them? How do they constantly broadcast with obvious illegal power and not get caught?

They had a lot of company, and the residents here have a very short memory. Datong was second. Comdel made an RF clipper in the late 60's and early 70's. Mike input and amplifier, mixed up to 455 KHz, sideband generated, clipped the hell out of it, filtered it with a second filter, mixed back down to audio with the same LO for injection to your mike input jack. Every serious contester and DXer had one. Cost more than the receiver.

Yes, a quick Google on "RF clipper"+Datong brings up lots of info -
about Datong and lots of others. This is one of the first:

An outboard RF clipper will work on any voice mode, do you actually have any qualification in electronics or do you just make it up as you go along???

Why do you think that they only work on SSB? Stand-alone RF clippers
like the Datong are independent of transmit mode. They are audio in -
audio out (with a bit of RF magic in between). They should work even on
an audio PA system.

Shit dude that has been going on since the late 1960's. Nothing new at
all. Did you just find out about that??? FCC doesn't give a f*ck about
that. They got other things to be concerned about. Don't you???

It is sad that Mark has returned to rrap.
Some of us had been hoping against all hope that Mark had at long last
expired.

Unfortunately, trying to quell Mark is akin to trying to push a floating
turd under water.
You can temporarily push the turd under water for a brief while but, like
turds everywhere, they resurface downstream.

No thats a good price for that radio. Bill Good (who passed away a few years ago) a really great Technician and really good friend loved to work on these radios. Bill had a contact within Uniden and Bill asked many times to have the radio reintroduced into the market. But the answer was it cost to much for production. I wounder what the manufacturing cost to selling cost was on those radios.

I have seen these radio sell for more on E-Bay.

I know these radios had expensive modifications installed that helped the receiver with crystal and mechanical filters in the IF. And even a -10 and -20 dB attenuator. And Bill use to remove the stock rf front end and installed a duel gate mosfet front end that significantly increased the performance of the receiver. The stock front end had too much gain and was dirty. Causing way too much bleed over. I remember Bill removing modifications in the transmitter to return the output power level to the the stock settings as the audio sounded way better, and made it cleaner.

I asked him once how he knew how the RF Output was dirty or clean, he replies that he looks at a spectrum analyzer. Well one day I go over to Bills place quit a drive for me and there is a no shit bingo new HP Spectrum Analyzer. He shows me a radio that had the golden screw driver in it, and removes the stupid modification parts, and does a alignment on the radio and then its clean. There was a significant decrease in spurs and trash going out.

But as you bought the radio and had the expensive modifications installed you now had a radio that cost the same or even more than a amateur radio that was even a better radio.

The MSRP price is generally five to ten times that of the production
costs. My guess was the labor costs were creaping up. Most CB radios
of that era were hand assembled. The PCB was hand stuffed and wave
soldered probably. Into the 80's the CB craze had died off from the
peak in the early to mid 70's. As sales dropped the costs to
manufacture went higher. Some houses could have used automated
insertion of some parts. That would save on labor. The problem comes
when production falls, the cost adder for preforming parts for auto
insertion, probably outweighed the savings that autoinsertion gained.

Yep, so called techs that modify radios with only a watt meter have know concept of what they are doing. Yes sir make a quick buck and send the unsuspecting customer on his way still fat, dumb and happy.

I should also realize the collector value. It is that I was 23 yrs in teh design and manufacturing of electronic equipment and know of part costs and that tends to bias my thinking. It is hard for me at times to buy electronics now when I consider that the parts that make up a unit are so darn cheap these days when bought in very large quantities.

hello james:

Yeah Bill was a big help making junk sounding good. I am sure what you said about the radio costs are true. But who knows the market may have dried up leaving these radios behind. I prefer a Yaesu, Kenwood, or Icom radio to a hot roded CB radio.

I have talked with one group having to deal with the Chinese as the builders or manufactures of one radios. The Chinese think if its kind of working its good to go for mass production. But the home team of engineers and technicians don't like the way it works by the cheap construction short cutting the design. So the radio or a set of radios get ping ponged back and forth a while until the radio is satisfactory. I believe the American company must give in to having all the radios checked here and probably properly aligned before going to market with them. So I wounder if this has been the same for all the radios brought in from over seas?!?!??

I am sure this adds to the cost.

I would think that there maybe a slight difference between the over seas and state side manufacture costs. I wounder what that really are with todays manufacturing with smt ect?!?!?

Although the Cobra 2000 is a fine CB, it has good ears too. For $300 I'd
take a well used Kenwood TS-430.

Jay,
Is that the same Bill from Morgan Hills, CA?

On the subject of the 2000. Even with the design performance issues, not that a stock radio was that bad, the 2000 was one of the best looking rigs that came out of that time, as far as I'm concerned. The Cobra 2000 was just a good looking radio that did a decent job with transmit and receive.

I have a couple of them that I wouldn't take $400 for.

Yeah its a good radio the 2000. And yes you have a very good point there it was pretty too look at.

How many times have we all walked into a radio shop/store and told the guy there that don't try to BS us because we are Bitchen type of guys who knows whats happening. Then brain disconnect happens, and say how much for that pretty radio there.....

What overseas manufacturing buys you often is tax shelters. What
foreign countries have done over the past forty years is offer tarrif
free zones just to get companies to establish manufacturing centers in
their country. In the 70's Malaysia offered US and Japanese companies
ten year tarrif free zones. So a company could go into that country
and manufacture using local labor and not have to pay tarrifs for
exportig piece parts of finished goods.

During the 90's that started to change. Instead many countries started
requiring local content in the manufacture of goods sold within thier
country. That has forced US as well as European and Japanese companies
to do piece part manufacturing, source local manufactured asemblies
or do final assembly in the destination counrty.

I remember sitting at a dinner with a VP of the company I used to work
for and he maid the comment that we were running out of "Stable" third
world countries to move manufacturing to. That comment was made in
1979!!!!!!!! After China and India, where do they go to? Not a lot
left in the world.

Hello james:

Ok great points there!

There must be some sort of cost relief to have major companies invest major dollars in over seas manufacturing. It blows me away why we just can't do this manufacturing work here in the USA. With the technologies of today we surly can make circuit boards and such here.

I have to travel once and while and have to use Delta Airlines, I talk to people in India to make traveling plans. Now that has to cost some big bucks to buy and install a major communications network all the way over to India to save on labor. I would love to know what that all cost and is saving.

I just bought a new expensive water cooler, as I putting on a new roof. This cooler cost almost $1400.00 the company Adbieo Air is making big money on this rally expensive sheet metal cooler. It is made in Mexico, I'll bet they had it made, assembled, and painted there. But they sure didn't pay no $1400.00 for it. Makes me think I am in the wrong business.

Oh we can. There is also one other point to make. The cost of shipping is now becoming a major uncontrolable cost item. When oil was a steady price and not the constant fluxuation it currently experiences, transprotation costs could easily be budgeted for and spread across piece part costs as well as total cost. Today it is not wise to source parts in one part of the world, ship them to the US and then ship them back. For the China and Asia markets that would eat into profits. Transportation costs are now as major a issue as labor.

In business captal assets are amoritized over three years. You get to write a good portion off your taxes to install capital equiptment to do manufacturing or even IT. After three years that equiptment hs no book value.

Thanks to NAFTA. Trade across the boder with Mexico has little or no tarrifs. I would not be at all surprised that the Mexican company is not a subsidary of Japanese or US company. NAFTA allowed forgein companies to setup shop in Mexico and ship across the border to avoid traiffs from their home country.

Appropriately, a CB radio, illegally modified. Only a CBer would fall for this

george@washington.edu says...

> prices!

Lay blame where it belongs I always say. It is the liberals who want to regulate everything and every aspect of life. It is the liberals who believe the answer to every problem lies in the hands of the government. Yet, there is not one single program that the government gets involved with, whether it is health care or energy production, or even employment programs, that does not eventually cause the perceived ill to become much worse than would have been otherwise without their intervention. Our energy production is just one example. You cannot limit production, which liberals advocate, without rising costs. For them to then blame the "evil oil companies" or "Peak oil" for the result shows how misguided their policies really are.

> Dam they must be the sole evil in all the world today.

Pretty much. Taking away peoples god given liberties, whether in work or play, is evil...period. The government has no business saying where and how an energy production company may function or how much profit it can make in the process.

> If you
> could put your prejudice aside and really examine the issue not from a

I understand price structure just fine, You obviously do not. As you will see in a moment.

>
> You are correct in that prices are set by supply and demand.

Exactly, and it is all you really need to know, as it applies both to the spot oil price and the future oil price. The future price continues to climb because traders, and companies who rely on fuel to run their businesses, buy the future contracts at a price they feel will be a bargain when the contract is exercised at some future date. They use the futures market to try and spread their risk over a broader period of time hoping to actually reduce their overall risk. So there is great demand for the futures contracts and that is what drives the speculation prices upward. The spot oil price is separate from the futures price.

While the futures contract price can go one direction, demand could rise or fall in the actual spot oil market meaning that the spot prices could, and usually do go the opposite direction of the futures market, meaning that spot prices could tailspin at any time leaving speculators holding the bag. This will eventually happen because the higher priced oil will encourage more production increasing supply. The point here is, while it is convenient for liberals to blame the capitalists for what they themselves have caused, it still does not de couple the laws of supply and demand.

> You also
> have to realize is that oil is also traded asa commodity onworld
> markets and people are bidding on the price of oil to keep going up.

That is correct. But demand is growing at twice the rate of supply and that makes oil much more valuable in any market.

> Oil" point. That is oil production levels have or are very near the
> peak level that the planet can sustain. If this theory is true, and as
> demand increases, prices will continue to escallate even if we try to
> increase production.

The difference between peak oil theory and our current reality though is currently, peak oil is being artificially created by government policies which restrict production. The peak oil theory you speak of is just a theory. Now while I agree that at some point this will happen without Seeking out and using other energy sources, there are estimated to be close to a TRILLION barrels of untapped oil reserves, enough to supply all our energy needs for a century or more, which would give us plenty of time to find and develop new energy sources.

> If the Peak Oil Theory is correct then we have
> used up more oil than the Earth has left.

The earth continues to produce oil as it is a natural process caused by heat from the core and organic material. In fact, there is so much oil underground it seeps out of the ocean floor into the ocean and dissipates Now while it may not produce at current levels of usage, there is more than enough supply to keep us going at reasonable prices until nuclear, solar, and hydrogen technologies can become more cost efficient and plentiful, without the help of ggovernment. In fact, come to think of it, I heard of a new technology just a few days ago that takes fast and efficient growing seaweed and converts it to oil. So as time goes on, technology increases along with new sources of energy would more than supplement oil supplies and could one day replace it all together.

> In that case increase
> drilling and production will only speed up the end of oil production.

Yes, this is convenient reason to justify causing hardships all around the world and passing blame.

>

This points back to my earlier statement that most of the oil is
controlled by nation states. But they can only affect production levels,
not who they sell to on the world market. Again, you do not, obviously,
understand how commodity markets work.

> Right now oil commodity
> trading is liken to a eating frenzy by sharks. Grab what you can at

Because of reduced supply, increased demand, and government restrictions
against exploration and production.

The key word here is "if". Nobody is sticking their head in the sand.
But I would like to point out that is is liberal policies that stopped
our nuclear industry in it's tracks despite the industries excellent
safety record. It is liberal policies that prevent construction of
refineries, power plants, both of new and old technology. It is liberal
policies that prevent exploration and production of petroleum. It is
liberal policies that takes funding away from the industrial complex
that does the research into new technologies so they then give it to
those who are unproductive in our society so they can cement their power
and buy their votes.

Well gosh, what a prophetic statement this is! The price of oil has
doubled just since the democratic congress has come to
power...coincidence? Nope, they push to punish producers all the while
preventing them from doing anything about the supply problem.

The free market would do this all by itself, without the intervention of
government, as it always does.

You're right, the worst is yet to come, but unfortunately it wont be
because of peak oil, it will be because of government policies set by
men who have no clue how to produce anything.

The famous Palomar 300A. This amplifier is one of the last pieces remaining from an estate of a local ham and is in very nice shape. Ebay keeps canceling the auction on this amp so I guess I'll give this newsgroup a try. The face plate is without flaw and the chrome top only has light scratches..nothing through the chrome. Yes...this is a Bi-Linear so with a flip of the switch it will amplify your receive also. This is great for the weak signals on the bands. The amp has 6 tubes and it operates on 10, 11, 15, 20, and 40 meters. I have loaded it on all bands and it puts out 300++ watts and tunes up very easily. The amps transformer is a separate unit which is included so you can set it on the floor and keep a lot of weight off your operating desk. Email if you have any questions. $260 shipped lower 48.You won't be disappointed with this amp..clean and mean. Email for some high resolution pictures

I kind of get a kick out of these guys who get so upset over small
things like this. I shutter to think if they hear a "Ten-4" on the local

The fact that HD technology now allows for multiple sub-channels is a good
thing...and will no doubt be a feature that be incorperated into radios in

No, I didn't just find out about it. I'm just a bit amazed that a group of fox hunting hams hasn't tracked down and reported the offenders. The FCC doesn't do much in the way of active enforcement, but does answer complaints. The FCC should give a f*ck about it - it's their frickin' JOB. What do you think we're paying them for? And, it is a concern of mine if an agency tasked with law enforcement only selectively enforces the laws it's supposed to enforce. What if they only enforce gun laws against white males from 18-45? In the DC sniper case, they all tried to say it was a disgruntled southern white guy until they caught him - and surprise, surprise, it was a northwestern black guy. The law should be truly blind.

Good luck on that pipedream. If the fcc hasnt given a frack since the
60's and then in the heyday of the 70's and then the 80's and 90's
well like you say maybe in the decade of the 2000's it will finally
happen. Shit so many of those guys have either died or retired by now
and maybe what you hear now are their grand children.
Good Luck dude!!!!!!!

## 3273. Elkon / Elkin Linear amp.. help ?

I don't have a scramatic for a four tube version of
the elkin linear amp.. what I need to know is the
infromation about the Capacitors that are mounted
inside the top compartment between the tubes
and the trasformer, the print on them has faded out
and I don't know what the genuine replacements are
for the two of them,

what I can tell you is the four tubes are 12dq6b or 12gw6 tubes the
caps are made by sprague..
thanks for any help anyone might be to me

Hello Captain:

These capacitors are the power supply filter capacitors, they filter out
the AC Hum out of the power supply sort of to speak.

They probably can be got from http://www.rfparts.com

The values probably are not to critical, other than the voltage rating.

Good luck.

This is Bill from Morgan Hill.
And Bill Good was very well thought of in the CB Tech Community.
He was an interesting fellow, and as MV says, it highly missed by those he
got along with.

I was just poking around the other day trying to figure out what a nice
2000GTL would sell for.
I have one in the used stuff I would like to part with.

There is a brand new, old stock on ebay selling for $355.00 and the reserve
isn't met.
I have had people tell me that they have paid over $500 for one like this.
Not sure why.
But it goes to show ya, that it is whatever the market will go to. This
would be a great
radio to re-introduce into the market. Problem is, so much of the parts are
in short supply/
Or totally NOT available. The PLL, the Counter Chip, the Finals, and on.

This is my first post on here in maybe 5 years. Hello to all those that were
customers
over the past. I'll try and look on here a couple times a week.

Hello Bill:

Hope all is well with you and your family. I was a customer of yours as
I was treated very well and enjoyed doing business with you.

I would think a new base station radio could be released that looked
good and all. New parts and pieces could be used. The radio could be
designed to allow upgrades to be easily installed like IF Filters, Duel
Gate MOS FET Front Ends, DSP, Audio Speech Processors, Edge Lighting,
and what ever else. A extended receiver range to attract users to listen
in on the 10/15/20 meter bands.

I would have a club or group on the internet that could ask technical
questions and such, something like the Uniden 2510 had.

Dream on! ah? Good to hear from you again Bill please come back, and
post more. I use a filter in the computer to filter out the BOZO's and
keeps it reasonable clean.

Hello Steve.
I do not have a single antenna for base stations left.
I have three radial kits for the A99..
Go figure.

Hello Jay.
I do remember you from the days of very busy.

The HR series 10 meter radios were the best at what they did.
Sold at a price point of $200.00 at the time. Hot 10 meter
openings were the target, and 10 meter Novice and Tech grades
might be inticed to buy. I knew a lot of General Class hams that
bought them for what they were designed for.

The receivers ... were good.
And lets face it the receivers are what we pay money for.

My long time favorite radios. Because of the receivers.

Base Stations: Browning Golden Eagle Mark II
That receiver was the best. Collins Mechanical filter in the IF.
But only 23 channels.

Mark Invader Mobile. AM only,. Collins Mechanical filter in the IF.
Large Meter on the face. Again, 23 channels.

Seems that after the 40 channels hit, High end receivers were gone.
At least from the CB world. Sure you could tweak up the Uniden
radios to do better. The Cobra 2K, and the Uniden Madison.
But out of the box..

What say others out there.
Name some 40 channel CB only transceivers that would hold up against
the fore mentioned radios?

I believe I have the President Madison radio that you are looking
for. It has the rotating green colored digits on the clock. It has
been packed away for years and was always taken care of. Please
respond ASAP as I am going to sell it at a garage sale. I will send
pics if interested.

Hi Harry. I collect Hy-Gain V's! It was my radio of choice awhile
back and now try to pick them up when I see them at ridiculously low
prices. They are too bulky for many people's taste but they are solid
and they last. You seem to know more about radios themselves though.
I don't know for sure but I know you can find Hy-Gain V in both 23 and
40 channel varieties. Perhaps that is the difference between the A
and B models.

N8WWM Doug Adiar is the poster child for hiding behind a keyboard or his Mommy's skirt and flaming people. He does the same thing on the air while hiding behind his microphone.

He feels safe there in his section eight rental slum, hell he even avoids feeding his children there. It's ironic the criminal has more rights than the average working stiff sometimes.

Oh well, I've filtered his csigmoid@yahoo.com and his aioe account, and someday he will deal with me in person, again. He can't go to the ham-fests anymore because he fears what will happen to him. No, he stays home and types gay shit instead. Watch him hump every post I make.

The judge was right about him, he needs a mental evaluation or perhaps even incarceration.

WOW!, the great Bill from Morgan Hill !!!! LOL!!!!!!!!!! I'm surprised you were
able to find the time to even look at the newsgroup, let alone post. I hope things
have
been going PERFECT for you. I do have to call and make an arrangement to come
over, but a lot depends on stuff happening around here.

Nobody is typing gay shit...you are eating it, stuttering queenie. Filter all you want, you will see it is the strangest places. Look for a blue piece of post it type paper on the car closest to the road. It should explain.

PS. Nobody is scared of you, cunnus...the hamfests are time for fun and friends, not for faggots, like you. You can't do shit, you can't stop the AKC. If you had shut your fat stuttering yap years ago you wouldn't be outed now. Poor moparhoLICK...cuckolded by his wife's dog. TEH WAY OF THE K00K
Never learn from your mistakes.
Always practice your mistakes; you may get them right.
Always pick on those smarter and tougher than you.
Always believe that only you know the TRVTH.
Never allow logic or reason get in the way of a good k00k.

When being overwhelmed by logic and reason: k00ksuit!
If you are going to be wrong, do it at the top of your lungs.
When caught in a lie: LIE!
When in doubt: Order the Crab Won Ton
Plagiarism is your friend. Use it.
Whenever contradicted; morph, start calling people names, and make false accusations. Include the children of your target in your allegations, even if they don't have any.
(06-Jun-05) When nobody else will listen, post to your own fan group.
(06-Jun-05) Obviously, since you have your own fan group, this must mean that you have fans. Post prolifically to your fan group - you wouldn't want to disappoint them!
(10-May-2005)Everyone reads usenet. Approval here means approval everywhere.
Post numerous blank posts, or posts containing only a message id.
Post numerous copy&paste web articles from crackerpot websites.
Never forget to call kookologists "k00ks."
If there are several, call them "sockpuppets" too
When all else fails, accuse various and sundry kookologists of e-mailing viruses to you. This is a sure-fire method of garnering sympathy and ensuring that the General Public will always see things your way. An especially effective sub-strategy here is to accuse them of infecting you with the 'Sasser' worm via e-mail.
Quote notorious scientists or writers - it makes it look as if they approve the drivel you are writing!
(9-Jul-05) Anytime your computer is infected with a virus, bogged down by spyware, attacked over your internet connection, or otherwise suffers from preventable problems, government agencies are responsible and are trying to silence you and are monitoring your computer files.
Ignore all traffic signs and feel free to trespass, you don't have to obey any rules.
Scare your enemies with lawsuits, police escorts and whines.
Always back up your empty (albeit noisy) threats with phony LARTs, false police reports, and harassing letters to the FBI and other gubbermint agencies.
Be vigilant in your redundancy. The more you repeat yourself, the more likely others will believe you!
If you can't find anyone as crazy as yourself to support you in the flamewars you start with the normal population, create sock puppets and use anonymous remailers that shamelessly hang on every word you write.
(17-Mar-05) When dealing with law enforcement, remember that it is they who have the problem, not you. Be sure to inform them of this at every available opportunity, as they will surely appreciate your constructive criticism. Be sure to make them aware that YOU KNOW YOUR RIGHTS! ("The cops like that, when people know their rights. That way they don't have to read them to you on the way to the station." - George Carlin)
The more your fake personalities adulate you, the more respect you'll get!
When confronted with a reality that you don't like: Announce loudly that you are departing, never to return as long as there's an Internet.

Come back in three or four days and claim you were drunk, hacked, abducted by alience, or forged. Alternately you can just not even mention your prior departure, and if anyone asks you about it, either ignore them or respond with something along the lines of "YOUR NOT THE BOSS OF ME! *PLONK*!" People really know you mean business then.
Always remain clueproof.
(20-Mar-05) Anyone who does not believe that you are the reincarnation of [$DEITY_OR_PROPHET] is obviously an infidel lacking in faith whose soul in in peril of everlasting damnation.
When responding to one line challenges, post paragraphs of rants and screed in response.
Incoherency is not a roadblock to poasting.
Neither is illiteracy.
Delusions poasted often enough become fact.
Claim you will destroy <insert newsfroup> for attacking you.
When spnaked, send cmsg for Fanboi newsfroup(s).
Find your Lame, Use your Lame, Be your Lame!
Post Edit when the TRVTH hurts.
Always sneck the offending newsfroups.
Always poast pictures of yourself so you can be admired in all your k00ky glory.
Always accuse others of the very acts you are guilty of.
Post lots of boasts about your high IQ and incredible talents.
(20-Mar-05) If you repeat a lie often enough, it becomes the truth.
Anybody who fails to understand this is engaged in a deliberate campaign of misinformation and character assassination.
Always <plonk> somebody just before replying the plonkee!
The k00k considers itself the most intelligent person in any conversation, possibly on the planet. Other people are benighted and ignorant, and have been waiting their whole lives for the k00k to rescue them from intellectual darkness.
Write a self-published book and claim it a success. Bonus points for comparing it to "Mein Kampf" and/or the Bible.
Declare yourself equal to a deity of your choice.
Claim that you've come from other planets.
Claim thousands of past lives.
Frothing complaints carry far more weight when you send them from "legal@" some domain.
Nothing strikes terror into the hearts of your detractors more than telling them that you're archiving their messages for possible use in the future.
Never forget that everyone else posting to Usenet is a paid disinformation agent looking to discredit you.
Usenet is governed by US law. If a poster in Romania killfiles you, he's obviously violating your 1st Amendment rights and can be sued.
Every news admin in the world hangs out in NANAU, and they're just dying to nuke the account of that meanyhead who just called you "fucknozzle". Drop 'em a line - that's what they're there for, after all.
AUK will be closed down. Just you wait and see.
They've nuked hundreds of accounts in the name of free speech and

*yours* will be next.
The k00k will, without any trace of irony, lie, manipulate, impersonate, censor, and declare themselves powerful in ways ranging from the ability to have an account shut down to being God Herself, in order to convince people that they are not liars, manipulators, censors, or insane.
Abuse women while telling how many hundreds you've loved. Nevermind that you're one ugly motherfucker and that there were 30,000 femininas that thought you were a scumbag with bad teeth.
Remember that your ko0ky klaims are 'facts', and that 'facts' do not require proof.
Do not neglect to poast your responses to forums that the originator doesn't read. This will make the people in that forum very impressed with how you tear him to shreds without him being able to respond. They like it even better if you are off-topic for that forum.
Keep in mind that lack of evidence supporting your konspiracy theory actually _is_ evidence, of how effective the konspiracy is in hiding.
(06-Oct-05) When spanked, always retreat to the safety of the Ad Hominem.
(04-Aug-2005) When spanked mercilessly for days on end, proving with each poast just what an illiterate and ignorant fool you are, ALWAYS claim ownership of [person(s),froup(s)]. This works on so many levels. It inspires dread in your opponents that they will no longer be able to poast in their home froup and that they will eventually have to pay rent, to name just two.
Any problems with your poasts are the fault of the konspirators, who are trying to stop you from preventing the extinction of humanity.
Konspiracies that are able to subvert whole governments are always unable to silence konspiracy ko0ks.
The entire United States government is willing to spend millions of dollars for the sole purpose of harassing you.
Hollywood is making movies based on your personal life.
Do not consult psychiatrists or other mental health professionals. They are part of the konspiracy, and will sedate you and lock you away and keep you drugged if you tell them the truth.
Numerology and Astrology are respectable sciences and are useful for proving your case.
Everyone is Tim Hill, or David Green, or...
There is a fine line between trolling and kookery. Find that line and cross it repeatedly. When you are killfiled and/or LARTed for net.abuse as a result, claim victory. If you lose multiple accounts, this merely proves that you are indeed a world-class troll, with a black-belt in manipulation.
If you respond to every post someone else makes, they're obsessed. If they respond to less than 1% of your posts, they're even more obsessed.
Publishing people's real names, addresses, and phone numbers when there's no other way for you to come out of a flamewar with any dignity is cool, and proves that you are a master of secret internet information stores, and absolutely not to be fucked with.
Everyone is out to get you. You can put a stop to this by telling everyone that they're out to get you at every available opportunity.

You are the only sane one.
Those that give you a hard time about morally bankrupt things you yourself admit to are just persecutioners of the new inquisition.
Yelling in all caps and cursing at your detractors is debate. Your detractors laughing at you with sarcastic remarks is obvious anger and jealousy.
If doing something results in the loss of your account, legal hassles, or blunt trauma injury, do it again. It always works better the second time.
Asterisks, lots and lots of Asterisks.
Poking holes in kookscreed is stalking, and is a felony.
K00ks LOVE to "connect the dots". They are, of course, dots that only the k00k can see.
"They laughed at Einstein, too!"

Yeah. I have been busy at home. I made a New Year's list of 9 projects for 2008. Just finished #5. I didn't renew my news server because the Yankees Newsgroup was killed by Chinese spam. So I am posting from Google. I am looking for a news server that is cheap. I only post a couple groups. I don't want another monthly payment. I also don't download anything. I still have you number. Can I call you from the road?

I guess lots of people just don't watch dateline or read stories much. Why don;t you go to pervertedjustice,com and see what they do. They are awash in their self-proclaimed glory after they lied to membners of the public.
They are awash in their self-proclaimed glory after they posed as an underage person and agreed to do all sorts of sex acts wioth adult males, and they are adults posing as teenager themselves. They make themsleves into liars by falsely impersonating underage persons and by not fuilfilling the words they tell the victims online in their chats. Why don't you read it where they tell these victims of their deceit about how they have been with grown men and such? Why don't you read it where they say, "That would be cool." after someone makes an advance towards an adult who is posing as a teenager? And, where they agree to meet the person, etc.
Lost control, didn't you?
Is that why you feel as if you need to lie so much now? I see where lots of these false impersonation games are not sticking. They feel as if they can lie and then order the victims to get counseling in the gayblade, governmental, pro-choice tax leech counseling centers. They are doing nothing more than usury and fraud in many cases." -- Wentzky almost comes out of the closet as a pedo/ephebophile in MID: <H%%Eg.28916$Uq1.22411@bignews6.bellsouth.net>

you knew him before and after the transformation I guess..
I think I met him once at a cb keydown in Maryland. If I am right he
had a chevy astrovan. I might still have pics of that event. I am
going to check those out and compare, But damn if that is him he sure
has changed and are you sure who popped whos cherry??? He sure is an

Chukkee sukkee, you swallow moparhoLICK's BS like you swallow his goo.
Never been section 8 slumming in my life, never been on any sort of
government dole, not even unemployment. As for you, must make you feel
good to believe that, seeing as how you are in your mommy's basement.

As for political opinions, mine are mine, and not to be debated with a
bigoted moron puke like you. Now you *could* get me to debate if you
come by with some Iron Coffins or Latin Counts. Bring that 9mm that
you threatened people with too and I hate really threats they make me really
really mad.

You can see the FCC's enforcement bureau at http://www.fcc.gov/eb/
They issue fines - that's enforcement!

All about the marshalls really do is track down and/or transport fugitives
and prisoners and protect federal judges. That's according to their
website: http://www.usmarshals.gov

The FCC is a REGULATORY AGENCY! Yes they can impose fines, etc. If you
don't pay the fines, then they take you to Federal Court & that is where The
Federal Marshals come into play,

Incidents/Injuries: None reported.

Description: The recall involves RadioShack 13.8V DC Power Supplies, catalog numbers 22-507 and 22-508 with date codes from 08A04 through 01A08.

Date code format is MMAYY where MM is the month and YY is the year. The catalog number and date code are located on the back of the power supply. Power Supplies with a green dot on the product and the product's packaging have already been repaired and are not included in the recall.

Sold at: RadioShack stores nationwide from October 2004 through January 2008 for between $50 and $85.

Manufactured in: China

Remedy: Consumers should unplug the recalled power supply immediately and take it to
any RadioShack store for a free repair. Registered owners of the recalled power supplies

will be mailed a notice.

Consumer Contact: For additional information, contact RadioShack at 800-843-7422 anytime, or visit the firm's website at:

http://www.radioshack.com/recall

To see this recall on CPSC's web site, including pictures of the recalled products, please go to:

Mark has no such thing as a "good name".
In fact, Mark has done more harm to his personna than anybody else has done.
He has committed Social Suicide all by himself.

Look around. Look at his flames.
Look at his idiotic posts.
Look at his blogs.

Then ask yourself if Mark has a "good name".

The answer is painfully obvious, even to the mentally impaired visitors who
frequent these groups.

I rest my case.

# 3449. Please take a minute out to report Mark's spews to Google

Newsgroup: rec.radio.cb
Date: 2008-07-05 20:53:44 UTC

Just as we were able to get Google to remove N9OGL's blog by clicking on an icon, it is possible that we can use a similar tactic to get Mark's Google Groups account(s) restricted or canceled. To help us out, you will need go to Google Groups first by using a link like

http://groups.google.com/group/rec.radio.amateur.policy/topics?hl=en

Once there, pick out one of Mark's "zzzzz ..." or similar messages by choosing almost any thread. You should see something like what is pictured at the link below:

http://tinyurl.com/6x3cyc

Click on the "Report this message" link, fill out the simple form, and submit it to Google (You do NOT have to be signed up with Google in order to make a report). If enough of us do so, Google should take notice and eventually take action to curtail Mark's spew.

I like to use the following text in the report form, which I modify slightly as required:

==(begin quote)==

This person (Mark Morgan) has been posting disruptive, identical messages through Google for over two years. When he reaches his posting limit on one account, he turns to another to continue his flooding. Regular members have been forced to start a moderated news group (rec.radio.amateur.moderated) to escape his abuse. On July 4th, he made 57 posts containing only "zzzzz ..." or "44444 ..." as a subject line.

==(end quote)==

Remember: It requires persistence; not a large number of complaints per day. Several of us are submitting one or two reports per day via the Google Groups form, and we intend to continue to submit such reports until we see some progress or hear from Google. The more people who complain, the better our chances are of being taken seriously by Google.

If Mark trots out new Google accounts, fine. We'll report them too. We managed to get Teranews to block him, and now let's work on Google.

If you can take the time out to make one nonsense post with respect to Mark, you can easily take the time out to file one daily complaint.

Thanks in advance for your help,
DeLorean

The truth is that you fuck up every sentence you write in one way or
another.
Indeed, you should have been honest about this and said, "MY constant
fuckups".

Poor, delusional Mark. He's manufactured so many lies over the years that even HE is beginning to believe them.
First, what kind of screwball carries a knife into the shower with him?
Un-fucking believeable!
Only a mentally challenged person would even say idiotic things such as this, much less believe them.

Do they have rides in your fantasy land, Mark?

And, Mark? His name is DeLorean. Not "Delroans".
See? I told you that you screw up every sentence.

# 3465. Please take a minute to report Mark's spews to Google

Just as we were able to get Google to remove N9OGL's blog by clicking on an icon, it is possible that we can use a similar tactic to get Mark's Google Groups account(s) restricted or canceled. To help us out, you will need go to Google Groups first by using a link like

http://groups.google.com/group/rec.radio.amateur.policy/topics?hl=en

Once there, pick out one of Mark's "zzzzz ..." or similar messages by choosing almost any thread. You should see something like what is pictured at the link below:

http://tinyurl.com/6x3cyc

Click on the "Report this message" link, fill out the simple form, and submit it to Google (You do NOT have to be signed up with Google in order to make a report). If enough of us do so, Google should take notice and eventually take action to curtail Mark's spew.

I like to use the following text in the report form, which I modify slightly as required:

==(begin quote)==

This person (Mark Morgan) has been posting disruptive, identical messages through Google for over two years. When he reaches his posting limit on one account, he turns to another to continue his flooding. Regular members have been forced to start a moderated news group (rec.radio.amateur.moderated) to escape his abuse. On July 4th, he made 57 posts containing only "zzzzz ..." or "44444 ..." as a subject line.

==(end quote)==

Remember: It requires persistence; not a large number of complaints per day. Several of us are submitting one or two reports per day via the Google Groups form, and we intend to continue to submit such reports until we see some progress or hear from Google. The more people who complain, the better our chances are of being taken seriously by Google.

If Mark trots out new Google accounts, fine. We'll report them too. We managed to get Teranews to block him, and now let's work on Google.

If you can take the time out to make one nonsense post with respect to Mark, you can easily take the time out to file one daily complaint.

Thanks in advance for your help,
DeLorean

> And BTW who is Delorean?
I must have missed that tale. I do recall Mark once telling us of how four guys tried to rape him in his alleged Army barracks one evening. He claimed that he kicked one in his private parts and threw another out a second story window. Mark further embellished this made-up fairy tale by saying that one of the attackers landed on the concrete below and bled to death. He said the others "ran off".
This tale is all that more dubious in that Mark has also claimed to have been an Officer. First he was a Lt Colonel and then downgraded himself to a mere Lieutentant. This after he also claimed that he was "drafted" into the Natl. Guard as an officer. Beginning to get the drift here?
In either case, Officers do NOT live in the barracks with enlisted men. Mark claims to have been at Fort Sill, Oklahoma. Fort Sill has an extensive BOQ, Bachelor Officers Quarters, and Mark was unaware of this.
Mark's tale is a fantasy and his lies are too numerous to count. And to add insult to us, Mark also claims to hold three, count em', three Master's degrees. Yet he won't name a single college from whence these alleged degrees came from or what he majored in.

And to answer your question, DeLorean is Mark's worst dream come true. DeLorean was the person who saw to the demise of Mark's account with Teranews. Mark, through Teranews, was flooding these groups with as many as 300 posts a day, oftentimes more. DeLorean got the attention of Teranews and Mark's account was canceled.

Now you know why Mark is forced to post through Google and why Mark has several sock accounts with Google. He can post only so many times per day through Google per account, so he has several accounts to skirt their rules. It was because of the tireless efforts of DeLorean that Mark was summarily stifled and his hundreds of flames came to a screeching halt.
Oh, and back to Mark's alleged three degrees. He once claimed to be a geophysisist and spouted off about some of his alleged "research" with acclaimed fellows in the field. After officiously trying to impress this group, DeLorean called him out and branded him as a liar.
Unfortunately for Mark, DeLorean is a REAL geophysisist and had once worked side-by-side with the accclaimed scientist that Mark had claimed to know and to have worked beside. Mark was again caught in another lie, and he never responded, hoping again that another of his lies would go unnoticed and unmentioned.
The pattern here is that Mark is a congenital liar. In fact, it is dubious that Mark even realizes when he is lying.

We all owe DeLorean a pat on the back for his efforts.
Mark is a hopeless goon.

Car was broken into and I lost my 'stuff'. I'm looking for a good working mobile type cb amp - nice condition - something like a Texas Star 350, Palomar or similar. If it works well I'll consider it...

Thanks.

There is no point in reporting anything to google they are another that
think free speech and abuse are often not the same thing just filter on G2

The famous Palomar 300A. This amplifier is hard to find in this good of shape. The face plate is without flaw and the chrome top only has light scratches..nothing through the chrome. Yes...this is a Bi-Linear so with a flip of the switch it will amplify your receive also. This is great for the weak signals on the bands. The amp has 6 tubes and it operates on 10/11, 15, 20, and 40 meters. I have loaded it on all bands and it puts out 300++ watts and tunes up very easily. The amps transformer is a separate unit which is included so you can set it on the floor and keep a lot of weight off your operating desk. Email for pictures.You won't be disappointed with this amp..clean and mean. $225 shipped lower 48

You can get 20 mile range if one is using a repeater and using the
unit as a GMRS radio.

Other than that, 2 miles is doing good in city environment without a
repeater.

A 36 year old female had an accident several weeks ago and totaled her car. A resident of Kilgore, Texas she was traveling between Gladewater & Kilgore. It was raining, though not excessively, when her car suddenly began to hydroplane and literally flew through the air. She was not seriously injured but very stunned at the sudden occurrence!

When she explained to the highway patrolman what had happened, he told her something that every driver should know - NEVER DRIVE IN THE RAIN WITH YOUR CRUISE CONTROL ON. She thought she was being cautious by setting the cruise control and maintaining a safe consistent speed in the rain.

But the highway patrolman told her that if the cruise control is on when your car begins to hydroplane and your tires lose contact with the pavement, your car will accelerate to a higher rate of speed making you take off like an airplane. She told the patrolman that was exactly what had occurred.

The patrolman said this warning should be listed, on the driver's seat sun-visor - NEVER USE THE CRUISE CONTROL WHEN THE PAVEMENT IS WET OR ICY, along with the airbag warning. We tell our teenagers to set the cruise control and drive a safe speed - but we don't tell them to use the cruise control only when the pavement is dry.

The only person the accident victim found, who knew this (besides the patrolman), was a man who had a similar accident, totaled his car and sustained severe injuries.

If you send this to 15 people, and only one of them doesn't know about this, then it was all worth it. You might have saved a life.

NOTE: Some vehicles (like the Toyota Sienna Limited XLE) will not allow you to set the cruise control when the windshield wipers are on.

WHY DON'T ALL VEHICLES HAVE THIS FEATURE????

How do you figure that Einstein??
From what anyone can read through google, it was going on
long before you or I showed up. Again looking through google
some people did insults, 99.9% of everyone ignored them, didn't
respond, kill filed whatever. People went about the normal group
business.....Until you showed up and start posting 2, 4
6, 8x to each post, under dozens of different screen names to bypass
filters, to respond to posts that was concerning you or even though it did.
Thus loading the group with your nonsense. "Gay" smears, bullsh@t
looks like no one gave a sh&t other than you (and still that way).
We can be thankful that Delorean dude got your Teranews account yanked,
other wise it would be hundreds of posts a day saying the exact same thing
(nothing).

Well, looking back at the google, at least 10+ years and
I don't see any real down turn until the last maybe 6 or 7 years. Then
people would start flooding the group (a lot not even "sex" related), to
which made it impossible to read. I'm, I am not trying
to point fingers, but the fact remains, that over the last 3 to 4 years your
constant flooding of whatever group you were responding to (meaning
crossposting) has ruined this group, Irregardless if it was cross posted by
someone else first. Looking back in google I don't see any post made by you
in rec.radio.cb until just about 3 or so years ago, then a very constant
flooding of cross posts responses by you.
What do you mean by : "your failure to follow USE convention is not
helpfull either BTW" I don't understand what you are saying.

OK, I didn't understand what you meant. I should know? I'm not worth
conversing with???? Man, you are a piece of work. YOU
accuse me of not following use-net rules, but at the same time go against
use-net rules by flooding, spamming, whatever you want to call it, groups
with posts that haven't anything to do with the topic they started with.

Man, I'm done with you again. I tried to converse in a civil manner and you
go and start attacking me about rules and here you are one of the biggest
use-net rule breakers on Rec.Radio.CB

It is always nice to catch the our hero, the blathering fool in another one of his lies. On his blog he posted "well the violence resumes at about 6:35 this morning I was awakened not by the expected return of my wife form the renfaire but the sound of motors.

And then he posts on here that it was still dark...the sunrise in Houghton is 6:10 am. Plenty of light 25 minutes after sunrise, except maybe Fatty was blocking all of the sunlight with his fat ass.

Yea, right! If he really shot at someone, the cops would have taken HIM to jail for attempted murder. You can't use deadly force against someone for a property crime (not involving potential loss of life). What a delusion!

vehicle against his or her will.

(b) The individual using deadly force or force other than deadly force honestly and reasonably believes that the individual is engaging in conduct described in subdivision (a).

(2) The presumption set forth in subsection (1) does not apply if any of the following circumstances exist:

(a) The individual against whom deadly force or force other than deadly force is used, including an owner, lessee, or titleholder, has the legal right to be in the dwelling, business premises, or vehicle and there is not an injunction for protection from domestic violence or a written pretrial supervision order, a probation order, or a parole order of no contact against that person.

(b) The individual removed or being removed from the dwelling, business premises, or occupied vehicle is a child or grandchild of, or is otherwise in the lawful custody of or under the lawful guardianship of, the individual against whom deadly force or force other than deadly force is used.

(c) The individual who uses deadly force or force other than deadly force is engaged in the commission of a crime or is using the dwelling, business premises, or occupied vehicle to further the commission of a crime.

(d) The individual against whom deadly force or force other than deadly force is used is a peace officer who has entered or is attempting to enter a dwelling, business premises, or vehicle in the performance of his or her official duties in accordance with applicable law.

(e) The individual against whom deadly force or force other than deadly force is used is the spouse or former spouse of the individual using deadly force or force other than deadly force, an individual with whom the individual using deadly force or other than deadly force has or had a dating relationship, an individual with whom the individual using deadly force or other than deadly force has had a child in common, or a resident or former resident of his or her household, and the individual using deadly force or other than deadly force has a prior history of domestic violence as the aggressor.

Mark has no sensible rationale for the malarkie that he posts. Mark's
head is stuck up his 12th century ass, still trying to joust a
windmills and have a duel.

We all know that Mark's "facts" are twisted like a noodle in a
blender. They are all grounded in baseless alleged facts and fantasies
of old English laws that have long been swept away.

Dloyd is a name I have not seen in a while, but this person routinely

handed Mark his ass on a daily basis, and made Mark go on a continuous whine for a few years.

> http://www.legislature.mi.gov/documents/2005-2006/publicact/htm/2006-...

Good reading, and it appears that the use of deadly force is not justified in someone vandalizing a non-residential structure.

But just watch for a few weeks, Mark will evolve the story to put the prep in his home or that he threatend him with a weapon, typical Moragnspeak with the every changing story. Nevertheless, we all know that the whole affair is nothing but a fabrication and it never really happened. Mark appears to be a verbois story teller.

Jim,

I am shooting for Sept. I have been doing project around the house. I listed 9 on new years, and have complete 5. I am on #6. I did buy all the caps for each radio. However, I found out the Swan need a special power supply because of the tubes. Also in Sept, is a local hamfest that I am hoping I can buy new tubes. That should do it. I think the Johnson will be easier to get working.

I have used them in wooded areas. When the foliage is up, the range is horrible. WHen the leaves fall, the range is extended greatly. You're closer to the reality.

That's what the MURS frequencies are for, or just use 2 meters
if you have the license.

Yeah what Scott says! I go Quail hunting every once and while, and we used the FRS Radios ONCE! Everybody uses the VHF hand held radios with the light weight head set and the VOX operation.

The VHF Radios are put on "Extra Low Power" for transmitting and work very well. This saves the battery and lasts all day. We made contacts with each other as far as a mile to two miles away, and even went up on a local repeater frequency talked with the locals. They also think the FRS radios are junk.

Most 2 meter VHF radios can be modified for the MURs channels.

I am not WOGER
I am not De
I am not your FRIEND
I am NOT A FAKE

Your have some very serious problems - it would appear that your momma who wears combat boots DROPPED you on your head while giving birth to you. You keep repeating yourself in every one of your contaminated posts. You keep accusing everyone of being someone else, and then when they answer you, you keep calling them a FAKE! That puts you in the class of being a first class NAG! You need to seek a mental health doctor as soon as possible - maybe some pills - maybe some faster acting main line chemicals! Maybe they should commit you to a hospital in a ward with other mental deranged patients - where they can lock the doors and you wouldn't have access to the internet!

I am not who you think I am!

comtanted posts?

what are you abbling about
why should I say something defferent in response to forgery of my name
or call

you have the problem you are a pucho becuase you think the same rules
you try to aply to others don't aply to you

you can't even read correctly never mind spell "(comtanted posts?)"

You are such a Jerk - everyone in these NG's laugh behind your back & to your face - you don't have any friends - you are a very sick loner whose mother who wears combat boots dropped you on your head during birth! You are probably suffering from AIDS with all of your "BI" activities!

no it is pity you are ignorant of the most basic facts of modern
medicne CC

Bi or gay actiites do not cause HIV or AIDS

BTW even if you are a het you can still get HIV most most HIV cases
these days are the result of Heterosexual actions it is equaly
obvious you have no real clue about ym sex life

now try to grow up and act like an adult if you can

How else would success be measured? If nobody is buying the receivers,
nobody is listening. Hey, I do that with my net stream: I pay the fees
(including royalties), and nobody listens. Am I a success? No listeners =
no sales = no profits as far as commercial radio goes.

- Most of the piuss and vinegar here is misplaced.

- Far less than half a million units sold over the past 4 years..

? How many new Units will be placed in Cars and Trucks
over the 'next' Four Years ?

The present AM {Analog} Stereo Broadcasters wish that
they had Half-a-Million AM Stereo Receivers on the Market.

- It doesn't matter how many units were sold.
- That's not how sucess is being measured.

Nothing to do with ground reflection but...

Shunt matching capacitor to raise feed point impedance. But do you need it
in your installation?

I used to use a BC variable cap hooked up to a throttle cable so I could
fine tune my Hamsticks, Yes it made a difference although I never gave it a
Buck Rogers name.

Hello George,
I think this is one of the best 10 meter sites around:
http://www.ten-ten.org/

I was searching around on e bay for some 10 meter stuff. What's your
take on this? Maybe a decent radio for a beacon?

Since late last year, rumors have been circulating that a major network or cable station was going to do a special on tower erectors.

NBC confirmed it today, and their "Tower Dogs" special will air on July 21 at 10 P.M/ET.

For an overview of the one hour special, the background on the producers and some production shots and notes, see:

Sometimes we miss the obvious ones...yeah, 10-10 is the obvious one

That "sparky's" radio is probably overkill for a beacon. My plan years back was a hy-gain9 CB board. Its synthesizer, as I recall, would allow it to go into 10 meters (VERY hazy memory)

3 watts, etc, and then a simple ID'er I was going to make from a 68705P3 microcontroller, today probably use a PIC. In fact I seem to remember a PIC based beacon controller, and maybe it was in QST..?? Man, I wish my memory was what it was 30 years back.

Hello George,
I think this is one of the best 10 meter sites around:
http://www.ten-ten.org/

I was searching around on e bay for some 10 meter stuff. What's your take on this? Maybe a decent radio for a beacon?

Welcome to ALT.USENET.KOOKS ! This is a moderated newsgroup
for amateur radio operators and other people having an interest in
the
Amateur Radio Service, as defined by national regulations and
international treaties. Following are the posting guidelines for
this
newsgroup.

This message includes the following sections:

1. Topics and posting policies from the ALT.USENET.KOOKS Charter
2. Additional posting guidelines
2.1 Netiquette guidelines
2.2 Posting form requirements
2.3 Guidelines on signature (.sig) files
2.4 Guidelines on excessive quoting
2.5 Guidelines on pointers to outside sources
2.6 Guidelines regarding questioning someone's suitability to
hold
an amateur radio license
2.7 Guidelines regarding name-calling
2.8 Guidelines regarding civility
2.9 Other unacceptable topics

------------------------------------------------------------------------

1. Topics and posting policies from the ALT.USENET.KOOKS Charter

ALT.USENET.KOOKS is an inclusive on-line community of amateur
radio operators and other people having an interest in the Amateur
Radio
Service. Participants are invited to engage in open discussion of
amateur radio issues and exchange information about participating in
the
hobby/service, in an atmosphere of civility, friendship, and fun.
```

Acceptable topics include but, are not necessarily limited to,
questions
and discussions about amateur radio licensing, regulations, tips on
various aspects of setting up an amateur radio station, and sharing
operating experiences and insights.

Unacceptable posts include, but are not limited to, buy/sell/trade
posts, posts that are off-topic to the Amateur Radio Service, posts
promoting or defending unlawful activities, etc. Crossposts of
regular
discussion articles between ALT.USENET.KOOKS and other
discussion newsgroups are not permitted.

Frequently-Asked-Questions lists and other information/bulletin/
announcement postings may be crossposted to ALT.MARQUEER-BI,
REC.MORK.ANUS,
and NEWS.SHEMALE-GAVIN only with prior approval of the moderators of
those
newsgroups. In all such cases, an appropriate "Followup-To" header,
containing only ALT.USENET.KOOKS , will be added by the
moderators if one is not already provided.

Posters are encouraged to state their own views and share their
experiences, but to refrain from making assumptions about the
motivations of other newsgroup participants. Posters are expected to
maintain a basic tone of civility. Prohibited uncivil discourse
includes, but is not limited to, name calling.

Posts containing unsolicited advice questioning the right,
worthiness,
suitability and/or readiness of any individual (or members of any
group)
to be an amateur radio operator are unacceptable in this newsgroup.
If
an individual chooses to post asking for advice on when or whether to
obtain an amateur radio license, or to participate in any type of
lawful
activity in the Amateur Radio Service, respondents should be careful
to
address their comments only to the original poster and not explicitly
generalize to others in similar situations.

Similarly, posts that arbitrarily declare certain classes of amateur
radio licenses, or certain members of national amateur radio
societies
(e.g., American Radio Relay League, Radio Amateurs of Canada, Radio
Society of Great Britain, Wireless Institute of Australia, etc.), to
be
more or less worthy than others, are not permitted. Posts that
politely
encourage individuals to join their local amateur radio society, or
to
upgrade to higher classes of amateur radio license in order to enjoy

greater operating privileges, are permitted, however. Posts that contain reasoned, civil, and fact-based discussion of the activities and
internal politics of national amateur radio societies are also permitted.

Buy/Sell/Trade and Commercial Policy:

Posts containing offers to buy, sell, or trade are not permitted on ALT.USENET.KOOKS . The ALT.MORKY.TONGUE.TURD newsgroup was created for this purpose, and should be used instead. All such articles will be
rejected by the moderators with the advice to re-post to that newsgroup.

Postings that are entirely commercial press releases, advertisements, or
other public relations campaigns will not be permitted. Relatively unbiased announcements or reviews of new amateur radio-related products
or services may be permitted at the discretion of the moderators. Such
posters are asked to disclose their financial or professional interest,
if any, in such products or services.

---

2. Additional Posting Guidelines

2.1 Netiquette guidelines

Participants who are new to Usenet should familiarize themselves with the "netiquette" of Usenet as well as the particular posting guidelines
for this group. Several useful posts for "newbies" can be found on the
newsgroup NEWS.DLOYD.ON-MY-MIND or on the WWW at:

http://ipunce.blogspot.com

Particularly helpful articles are:
Welcome to Usenet!
Rules for posting to Usenet
Hints on writing style for Usenet
A Primer on How to Work With the Usenet Community
Emily Postnews Answers Your Questions on Netiquette
Answers to Frequently Asked Questions about Usenet

2.2 Posting form requirements

Any article that falls into any of the following categories will be automatically rejected:

A) Articles that contain original text of more than 75
characters
per line
B) Crossposted articles to newsgroups not included in these
Guidelines
C) Articles that contain more than 400 lines
D) Encoded binary files (except PGP and other short digital
signatures)
E) Attachments to posts
F) Articles containing obscene language
G) Articles from individuals who have been suspended or banned
from the newsgroup

2.3 Guidelines on signature (.sig) files

Many people close each article they write with a few lines of common
text. This may be a cute quip or quote, or may include information
about their family, contact information, or disclaimers required by
their employer, for example.

Signature files used on ALT.USENET.KOOKS posting must be no
longer than 8 lines.

The content of a poster's signature need not be relevant to amateur
radio, but it must not violate any of the other posting guidelines.
(For example, name-calling that would not be acceptable in the body of
a
message is also unacceptable in a signature.) Posters may include
Uniform Resource Locators (URL's) and business addresses in signature
files, provided they comply with all the other guidelines regarding
signatures.

2.4 Guidelines on excessive quoting

Posts more than 20 lines long that also have more than 75% quoted
text
will be carefully reviewed by a moderator to determine if that degree
of
quoting is warranted. Posts with excessive quoted text may be
rejected.

Posters must show a reasonable effort to trim the post they are
replying
to and to include just enough material to establish context. "Me
too!"
posts are discouraged, and, when posted, must edit the quoted
material
significantly.

2.5 Guidelines on pointers to outside sources

Unsolicited announcements and pointers to web sites that are strictly
commercial press releases, advertisements, or other public relations
campaigns, are not permitted. However, a pointer to a website or

other
external source of information is permitted and encouraged in cases where it is relevant to an existing thread, with appropriate context being given in the post. A URL with no information about what a user should expect to find there will be rejected. A pointer to information
that is off-charter for rec.radio.amateur.moderated will be rejected, as
will a pointer which itself does not meet the
ALT.USENET.KOOKS guidelines (such as a URL containing
embedded name-calling).

Moderators are not responsible for verifying the contents of any external information source.

2.6 Guidelines regarding questioning someone's suitability hold an amateur radio license

Identifiable groups and individuals may not be asked/told/etc. not to obtain an amateur radio license, or to only obtain certain classes of amateur radio license. It is not permissible to make statements that a
person or members of a specific group "should" not, or should not be allowed to, become an amateur radio operator.

Solicited advice of this type is permissible; however, posters must be
careful not to explicitly generalize to others who are in some way "like" the poster asking the question. Stick to the individual asking
for advice.

It is acceptable to discuss verified violations, documented in criminal
convictions or other government enforcement actions, by a person or members of a specific group.

2.7 Guidelines regarding name-calling

Nastiness addressed at a person is considered name-calling. Criticizing
a person's *actions* is not, provided that it is done in a civil manner.

Attacks on an action which by their very nature include an accusation against the person's character are not acceptable. For example, "That's a lie" implies an intentional prevarication, and is considered
name-calling. Acceptable ways of questioning the truth of a poster's statement include the more tactful "I don't think that's true," "I believe you are mistaken because..." or even simply "That's not true."
"That's not true and you know it" crosses back over into name-

calling,
however.

2.8 Guidelines regarding civility

By charter, posters are expected to maintain a civil tone in all
their
postings. The guidelines on name-calling cover part of that
requirement, but not all of it.

In general, posters are expected to consider the reputations of other
participants, and refrain from making unnecessary accusations or
assumptions about the motivations of others. A good rule of thumb is
to
phrase your comments as your opinion -- "I think..." "It seems to me
that..." "This makes me wonder whether..." etc...

Posters are expected to make factual claims, to debate topics openly
and
in good faith, and to accept honest criticism, all without
provocation
or prevarication. At least one professional organization, the
Institute
of Electrical and Electronics Engineers (IEEE), has recognized that
such
fair dealings are necessary components of ethical conduct, and has
incorporated them into its Code of Ethics:

http://www.ieee.org/portal/pages/iportals/aboutus/ethics/code.html
|

Though the Amateur Radio Service is not a professional endeavor, the
moderators strongly feel that the IEEE Code of Ethics is also a
worthwhile set of guiding principles for participants in the
ALT.USENET.KOOKS .

Posters are not required to support the American Radio Relay League
(ARRL). However, they are expected to adhere to the spirit of the
other
parts of the ARRL's "Amateur's Code":

http://www.arrl.org/acode.html

2.9 Other unacceptable topics

Participants are reminded that the charter also prohibits posts
promoting or defending unlawful operating practices.

Posts may discuss whether operating practices are unlawful, or engage
in
reasoned debate over why certain operating practices should or should
not be unlawful. Posts may discuss enforcement actions, such as by
the
Federal Communications Commission in the United States or similar

government agencies in other countries, and evidence gathered by parties
such as Official Observers in support of complaints about unlawful operation.

Discussions of what practices constitute unlawful operation in the Amateur Radio Service should be limited to *factual* descriptions of the
laws in various jurisdictions. Posters' *opinions* as to what practices
they consider unlawful are not permitted. In particular, posters are cautioned not to extrapolate their country's laws and regulations to those in other parts of the world, as they may be quite different.

Posts that entirely concern themselves with other radio services or hobbies, such as Citizen's Band, General Mobile Radio Service/Family Radio Service, and Scanner or Shortwave Listening, are considered off-topic to the "ALT.USENET.KOOKS " Newsgroups such
as REC.MARQUEER.SCAT-EAT, ALT.GAVIN.WIFE, and/or REC.MORKYS.MOUTH may be
more appropriate venues for such posts.

Posts that attempt to publicly criticize moderators or moderation decisions in the newsgroup itself are also not permitted, as stated in
our original newsgroup charter. Please direct any such critical feedback to our administrative contact address at the bottom of this article, where it will be carefully considered by an appeals team of moderators. This team is distinct from the initial team of moderators
that approves or disapproves article submissions, and thus can provide
independent oversight of moderation decisions.

Similarly, if you see an obviously inappropriate article in our newsgroup, please assume that it was a mistake or a direct forgery. The
moderation team makes every effort to protect the newsgroup from such incidents, but they do happen, albeit rarely. You may also submit feedback to the same address regarding such articles in our newsgroup,
but it is likely that our monitoring software and procedures have already detected it, and we are actively handling the problem. Please
resist "piling on" with followups to the newsgroup when these incidents
occur, so that we don't have to reject such articles.

Please direct any comments, questions, or criticisms about this article
to: KB9RQZ@Punce-Male.com

Most everyone is running ham gear anyway, the DSP filtering and being
able to significantly reduce bleed over, stations on USB when your on
LSB, better transmitters, way more reliable, and there way more prettier.

My Icom 746 is more easily modified for all band coverage, than any of
these radios mentioned. And the 746 is certified !

Personally, I hate those Galaxy and RCI type radios. They are not very
good, and drift like unanchored boats.

They all ready do. Yeah they should have out lawed the code when the
telephone was invented. But Amateur Radio is gaining in numbers and not
seeing a terrible decay in operating.

I have high hopes new digital technologies that will allow even better
DSP and IF Bandwidth Processing. I am sure its in the works.

I think the free bander's will see a decline as more and more of them
will get their ham license. I don't believe the code keep any of the
undesirabiles out but did keep a lot of potential ham radio enthusiasts
out of the hobby. Not many looking back at the code now.

Hello Enzo

Yeah those galaxy radios are off frequency trash. A local guy here just bought a brand new one for his truck and it's a half channel off center slot, brand new in the box. He called them and they told him to send it back for an alignment. I've never heard a galaxy that sounded good.

Click on the link - Could be the answer to a lot of things! You'll note that the legs appear to be built as if they were two sets of legs with the knees turned towards each other.
Maybe they could add a couple of arms and make it climb up vertical object like a antenna support structure to mount antennas.

I had one when I first got back into CB in 2003, because everyone raved about them. After about 6 months, I dumped it for a 2510. I had to reset the frequency on the Galaxy evey 2 weeks. The older PLL units like my Radio Shack TRC-455 blow it away as far as stability. Mine in one frequency after 30 years.

The FCC is not making sense here. Most radios are eaily modifiable. I don't get what they are doing here. QRZ is not profitting, as I don't think they charge for the swap.

Hello Viennie:

I started out with a Johnson 350 a 2 channel radio with a wopping 2
watts out, it even drifted for the first 30 mins.

Even my 746 Pro drifts a litte when fire up.

Interesting point Jay. With the elimination of the code requirement the written test, in particular the General, is a no brainer anymore. With that license class you get about 80 to 90 percent of what the Extra class gives you. For those that want to simply get on the air and "shoot skip" (DX) having multiple bands and modes available is a nice motivating factor, and all legal too. Who knows, maybe your antenna business will see an up-tick in activity. You put out a catalog?

Robotics is getting more advance all the time. The next 50-75 years
will be something to see in this field. There have been predictions
that by 2075 it will be routine for robots to do most of the dangerous
work that is currently done by humans.

and all of your posting don't fit the NG either so therefore you must be
posting SPAM!

again everything you post has nothing to do with the NG and is way off
TOPIC, therefore it must be SPAM! Therefore you must be THE SPAMMER that
everyone is talking about!
In the mean time you should choke on your kelp! You are beyond KELP!

Hello All:

Again seeing very short skip conditions on 10 and 11 meters. Not hearing anything on 12 or 15 meters.

I was hearing a Texas station on 28.425 Mc yesterday, and went down to CH 38 LSB 27.385 Mc and was also hearing Texas.

But in just a few min's the skip stations from Texas faded out to a whisper then gone. Some south and then north stations heard in the noise, buts that it. Be advised.

Got skip?

Jay in the Mojave

Hello Bob Dobbs:

I listened last night to the skip conditions I heard Texas and some stations out of the north. Not a terrific find, buts its a indication of easterly skip.

Hello Jay

Those big scrappers from the lone star have been strong here in the Buckeye as of late. I can't help but notice the noise to signal ratio ratio raises quite a bit when that happens. Those boys have too much fun sometimes.

I've talked to Kalifornia more than usual lately too. I'm digging this ts870 with the voodoo audio rack - wide-banded ...I'm waiting for the UK to open up, then I'll know were back in the game.

Hello Bob Dobbs:

Ok I just took my 6 meter Interceptor 10K, 5/8 wavelength ground plane down, had to put a new roof on.

That 5/8 vertical worked better than the local that used a 5 element beam, he must of had to all done wrong. So now I need to put it back up again yeaH!

well marqueer,I heard a couple of OM's talking about you on 75 the
other nite.
they were saying that years and years ago you DID in fact find a
couple of hams to blow to get your novice. YOU FAILED!
no wonder the head-shed was run off at the last few
hamfests.....you DO give a terrible blow
job.

TEH WAY OF THE K00K
Never learn from your mistakes.
Always practice your mistakes; you may get them right.
Always pick on those smarter and tougher than you.
Always believe that only you know the TRVTH.
Never allow logic or reason get in the way of a good k00k.
When being overwhelmed by logic and reason: k00ksuit!
If you are going to be wrong, do it at the top of your lungs.
When caught in a lie: LIE!
When in doubt: Order the Crab Won Ton
Plagiarism is your friend. Use it.
Whenever contradicted; morph, start calling people names, and make false accusations. Include the children of your target in your allegations, even if they don't have any.
(06-Jun-05) When nobody else will listen, post to your own fan group.
(06-Jun-05) Obviously, since you have your own fan group, this must mean that you have fans. Post prolifically to your fan group - you wouldn't want to disappoint them!
(10-May-2005)Everyone reads usenet. Approval here means approval everywhere.
Post numerous blank posts, or posts containing only a message id.
Post numerous copy&paste web articles from crackerpot websites.
Never forget to call kookologists "k00ks."
If there are several, call them "sockpuppets" too
When all else fails, accuse various and sundry kookologists of e-mailing viruses to you. This is a sure-fire method of garnering sympathy and ensuring that the General Public will always see things your way. An especially effective sub-strategy here is to accuse them of infecting you with the 'Sasser' worm via e-mail.
Quote notorious scientists or writers - it makes it look as if they approve the drivel you are writing!
(9-Jul-05) Anytime your computer is infected with a virus, bogged down by spyware, attacked over your internet connection, or otherwise suffers from preventable problems, government agencies are responsible and are trying to silence you and are monitoring your computer files.
Ignore all traffic signs and feel free to trespass, you don't have to obey any rules.
Scare your enemies with lawsuits, police escorts and whines.
Always back up your empty (albeit noisy) threats with phony LARTs, false

police reports, and harassing letters to the FBI and other gubbermint agencies.
Be vigilant in your redundancy. The more you repeat yourself, the more likely others will believe you!
If you can't find anyone as crazy as yourself to support you in the flamewars you start with the normal population, create sock puppets and use anonymous remailers that shamelessly hang on every word you write.
(17-Mar-05) When dealing with law enforcement, remember that it is they who have the problem, not you. Be sure to inform them of this at every available opportunity, as they will surely appreciate your constructive criticism. Be sure to make them aware that YOU KNOW YOUR RIGHTS! ("The cops like that, when people know their rights. That way they don't have to read them to you on the way to the station." - George Carlin)
The more your fake personalities adulate you, the more respect you'll get!
When confronted with a reality that you don't like: Announce loudly that you are departing, never to return as long as there's an Internet. Come back in three or four days and claim you were drunk, hacked, abducted by alience, or forged. Alternately you can just not even mention your prior departure, and if anyone asks you about it, either ignore them or respond with something along the lines of "YOUR NOT THE BOSS OF ME! *PLONK*!" People really know you mean business then.
Always remain clueproof.
(20-Mar-05) Anyone who does not believe that you are the reincarnation of [$DEITY_OR_PROPHET] is obviously an infidel lacking in faith whose soul in in peril of everlasting damnation.
When responding to one line challenges, post paragraphs of rants and screed in response.
Incoherency is not a roadblock to poasting.
Neither is illiteracy.
Delusions poasted often enough become fact.
Claim you will destroy <insert newsfroup> for attacking you.
When spnaked, send cmsg for Fanboi newsfroup(s).
Find your Lame, Use your Lame, Be your Lame!
Post Edit when the TRVTH hurts.
Always sneck the offending newsfroups.
Always poast pictures of yourself so you can be admired in all your k00ky glory.
Always accuse others of the very acts you are guilty of.
Post lots of boasts about your high IQ and incredible talents.
(20-Mar-05) If you repeat a lie often enough, it becomes the truth. Anybody who fails to understand this is engaged in a deliberate campaign of misinformation and character assassination.
Always <plonk> somebody just before replying the plonkee!
The k00k considers itself the most intelligent person in any conversation, possibly on the planet. Other people are benighted and ignorant, and have been waiting their whole lives for the k00k to rescue them from intellectual darkness.
Write a self-published book and claim it a success. Bonus points for comparing it to "Mein Kampf" and/or the Bible.

Declare yourself equal to a deity of your choice.
Claim that you've come from other planets.
Claim thousands of past lives.
Frothing complaints carry far more weight when you send them from "legal@" some domain.
Nothing strikes terror into the hearts of your detractors more than telling them that you're archiving their messages for possible use in the future.
Never forget that everyone else posting to Usenet is a paid disinformation agent looking to discredit you.
Usenet is governed by US law. If a poster in Romania killfiles you, he's obviously violating your 1st Amendment rights and can be sued.
Every news admin in the world hangs out in NANAU, and they're just dying to nuke the account of that meanyhead who just called you "fucknozzle". Drop 'em a line - that's what they're there for, after all.
AUK will be closed down. Just you wait and see.
They've nuked hundreds of accounts in the name of free speech and *yours* will be next.
The k00k will, without any trace of irony, lie, manipulate, impersonate, censor, and declare themselves powerful in ways ranging from the ability to have an account shut down to being God Herself, in order to convince people that they are not liars, manipulators, censors, or insane.
Abuse women while telling how many hundreds you've loved. Nevermind that you're one ugly motherfucker and that there were 30,000 femininas that thought you were a scumbag with bad teeth.
Remember that your ko0ky klaims are 'facts', and that 'facts' do not require proof.
Do not neglect to poast your responses to forums that the originator doesn't read. This will make the people in that forum very impressed with how you tear him to shreds without him being able to respond. They like it even better if you are off-topic for that forum.
Keep in mind that lack of evidence supporting your konspiracy theory actually _is_ evidence, of how effective the konspiracy is in hiding.
(06-Oct-05) When spanked, always retreat to the safety of the Ad Hominem.
(04-Aug-2005) When spanked mercilessly for days on end, proving with each poast just what an illiterate and ignorant fool you are, ALWAYS claim ownership of [person(s),froup(s)]. This works on so many levels. It inspires dread in your opponents that they will no longer be able to poast in their home froup and that they will eventually have to pay rent, to name just two.
Any problems with your poasts are the fault of the konspirators, who are trying to stop you from preventing the extinction of humanity.
Konspiracies that are able to subvert whole governments are always unable to silence konspiracy ko0ks.
The entire United States government is willing to spend millions of dollars for the sole purpose of harassing you.
Hollywood is making movies based on your personal life.
Do not consult psychiatrists or other mental health professionals. They are part of the konspiracy, and will sedate you and lock you away and

keep you drugged if you tell them the truth.
Numerology and Astrology are respectable sciences and are useful for proving your case.
Everyone is Tim Hill, or David Green, or...
There is a fine line between trolling and kookery. Find that line and cross it repeatedly. When you are killfiled and/or LARTed for net.abuse as a result, claim victory. If you lose multiple accounts, this merely proves that you are indeed a world-class troll, with a black-belt in manipulation.
If you respond to every post someone else makes, they're obsessed. If they respond to less than 1% of your posts, they're even more obsessed.
Publishing people's real names, addresses, and phone numbers when there's no other way for you to come out of a flamewar with any dignity is cool, and proves that you are a master of secret internet information stores, and absolutely not to be fucked with.
Everyone is out to get you. You can put a stop to this by telling everyone that they're out to get you at every available opportunity.
You are the only sane one.
Those that give you a hard time about morally bankrupt things you yourself admit to are just persecutioners of the new inquisition.
Yelling in all caps and cursing at your detractors is debate. Your detractors laughing at you with sarcastic remarks is obvious anger and jealousy.
If doing something results in the loss of your account, legal hassles, or blunt trauma injury, do it again. It always works better the second time.
Asterisks, lots and lots of Asterisks.
Poking holes in kookscreed is stalking, and is a felony.

"When I told Abbie Hoffman that he was the first one who made me laugh
since Lenny Bruce died, Hoffman said, "Really? He was my god." The
combination of satirical irreverence and sense of justice that Bruce and
Hoffman shared was the real spirit behind the Yippies--a term I coined
to describe a phenomenon that already existed: an organic coalition of
stoned hippies and political activists who engaged in such actions as
throwing money on the floor of the New York Stock Exchange, then
explaining to reporters the meaning of that symbolism. Folksinger Phil
Ochs summed it up: "A demonstration should turn you on, not turn you

DF4ZS developed a RF speech clipper that fits into the Yaesu MH-31
microphone shell. This mic is used with the popular, tiny FT-817
transceiver along with others and in all speech modes. His clipper has
a SSB IF.

Details: http://jwm.de/afu/0ft817eng.htm
Reviews: http://www.eham.net/reviews/detail/2732 (6)

There are no reviews of the VoiceMax on eham.net while there are 21 of
the W4RT Electronics "One Big Punch" which uses a similar IC and can
be installed either in the MH-31 or inside the case of the FT-817 et
al.

DF4ZS also makes an outboard RF Clipper with adjustable a.f.
compression and integrated noise gate.

If you don't mind tying up a computer to do your speech processing,
VE3NEA developed freeware to work with a soundcard between the mic and
the transmitter that functions as bandpass filter, 7-band equalizer,
noise gate, compressor, and RF envelope clipper. http://www.dxatlas.com/VShaper/

This DF4ZS is a clipping type processor... nothing like the VoiceMax audio compressor. You are correct, Since VoiceMax is a new product and there are only about 150 units in use worldwide... so far there are no reviews on Eham. Thanks for your interesting comments.

That is true. SSB RF clipping is proven to deliver an honest 6 dB improvement.

Ask for my name, it should give you a phone #, you are the fake.
No phone #, don't live at that address, so you should not talk.

you don't own the cal now fake

Sorry, no one else has it and until someone else takes it, I am still the person that it will be referenced too. Sorry your, wrong, you just won't admit it. Call me fake all you want, call me on the phone, if you speak Swiss, I'll even speak to you in a native tongue ( I was born and raised there many many years ago), if you need your roof replaced or fixed, I do that for a living, but you just can't face the fact I am who I say I am. As before, you are so paranoid, you think the whole world is out to get you, can't help you there, only a professional will be able to do that.
